WEDNESDAY, MARCH 6, 1872.

VICTORY!

"OUR

IS STILL THERE."

TOWN ELECTION IN NEWCASTLE.

The Democracy Fail to Come to Time.

FIFTY FOUR

Republican Majority!!

Zero weather does not frighten the sturdy Republicans of Newcastle. Tuesday was the day of the annual town election, and they were promptly on hand to deposit their ballots. At the close of the polls Mr. Charles E. Campbell, Republican, was declared elected Moderator by 303 majority. Mr. William A. Melson, Republican, was chosen Town Clerk, and Messrs. William A. Melson, Charles E. Whitehouse and Albert H. White, Republicans, were elected Selectmen by 54 majority. Newcastle Republicans send greeting to their brethren throughout New Hampshire.

Victories Elsewhere.

On Monday, Portland re-elected Mayor Kingsbury, Republican, by a majority of 549. Kingsbury had 2032; Cleaves, Democrat, 1648; Morgan, citizen's candidate, 313; scattering 12. The Republicans have elected 5 of the 7 aldermen and 17 of the 21 councilmen. Last year the Republicans had 4 aldermen and 12 members of the common council.

Lewiston elected David Cowan, Republican, by 2528 majority over J. P. Gill, Democrat. Last year Garcelon, Democrat, had 58 majority. Knowlton, Republican, is elected municipal judge. The board of aldermen is unanimously Republican. In the common council eighteen Republicans and two Democrats were chosen, leaving one vacancy.

Hon. Thomas Littlefield, Republican, is chosen Mayor of Auburn, Me., by 187 majority over Woodman, labor-reform and Democratic candidate. The Republicans elect members of the city government in all but one ward, in which there was no choice.

Saco, which elected a Democratic Mayor last year, has chosen Hon. Edward P. Burnham, Republican, for Mayor by 383 majority.

Hon. James D. Robinson, Republican, is re-elected Mayor of Bath by 57 majority.

The Prospect.

The Washington Republican closes a well considered article on the New Hampshire election by saying—"Our advices tell us that the Republicans in every county and city and hamlet are enthusiastic and full of confidence." The Republican is right; of all the political campaigns fought out in this closely contested State in the past seventeen years, we know of none that exceeds in interest that which closes in a few short days. We have the Democracy in our power and enter the last week of the campaign with a grand charge on the enemy's works along the whole line. There is no giving back, no momentary suspension of the good work. It is as if the Republicans, roused from their apathy of a short time ago, have risen *en masse* to hurl the enemy from power. Already the death rattle sounds in the throat of the overmastered foe as the Union grip more firmly fastens its untiring hold. In the most critical stage of the conflict, the re-appearance at the front of the familiar leaders of Democracy who but a few years ago encouraged rebellion, lent force to every blow aimed at the vitals of their followers. The Republicans are pushing the enemy at all points and will deliver a series of staggering blows from now till victory perches on the banner where it has floated in twenty successive contests. We confidently anticipate the election of Hon. E. A. Straw to the Governorship, the choice of eight or nine Republican Senators out of the twelve, and a majority of 42 in the House of Representatives.

Increase and Decrease.

From 1865 till 1871 the State of New Hampshire debt decreased from over $4,000,000 to $2,360,000 or at the rate of over a quarter million dollars per year, under Republican management, and the internal revenue, assisted by the United States Government in the same State decreased from $1,941,493 in 1868 to $396,926 in 1871, and is likely to be still further reduced, if not entirely abolished, before the present Congress adjourns.

During the administration of State affairs under Gov. Weston—6 months in 1871—the State expenses were increased $17,000, and in the city of Manchester, under Governor-Mayor Weston's administration in 1871, the city debt was increased $26,690.61. How is that for economy?

A Political Clown.

The Concord Monitor says: "If those who run the Labor Reform movement had anything approaching to taste, or if they expected to make their appeal effectual among any but the lowest and rudest classes, they would certainly not send into the field such a clown as the fellow Trevellick who comes 'round yearly to display his familiarity with the grog-shop and the prize ring, and his utter ignorance of public affairs. A strolling correspondent of the Boston Journal happened to enter the hall in Manchester where Trevellick was speaking, and, without intending to produce any political effect, thus graphically pictures the clown:"

Muscular Western man in black the speaker. Tallow-candle sputters of eloquence; occasional special pleading; tremendous applause when radical revolutionist corruptionists are summoned to judgment. Audience largely Irish and English—roof-roas with delight when informed that it is being robbed. Thrilling appeal for support for Judge Davis, "he Labor Reform President;" eight hours, rainbow in the sky; "a dollar as is a dollar;" no greenbacks; no lying Senators; emancipation; come with us; George Francis Train eclipsed. The Democrats diffuse of cordiality; disaffected Republicans to join them on the Judge Davis nomination; evident that demagogism is popular among the class present in the hall; all willing to be led by the nose, anything for a change. Eloquent burst by the speaker: "If employer tries to influence your votes, do as I would do; give him the blamedest lick in the nose he ever had!" Thunderous delight. Senators lampooned, and facts twisted so as to appear appalling "Who dares controvert me?" cries the speaker. "I am not afraid of anything on earth of my size." I'll venture to say he would be alarmed at the shadow of his own ears.

Free Trade and Low Wages.

This State has been liberally showered during the past month with pictorial "Free Trade Charts," sent out under the "franks" of our Democratic Congressmen that the voters in their party may become thoroughly acquainted with the honors of Protection and the vast benefits likely to accrue to the American workingmen from Free Trade. This pictorial puff for the benefit of British and other foreign manufacturers sets forth in a brilliant light the low prices at which manufactured goods would be obtainable if American workmen would only place themselves in Free Trade competition with the pauper labor of Europe, but does not seem to go into the question of what the effect of such competition would be on laborers' wages in this country. The British may well advocate a policy which would enable them to break down the manufacturing interests of the United States by flooding our markets with the products of labor for which they pay but a small percentage on the wages which similar labor commands here; but that American workingmen should desire to be placed on a level with the laboring masses of Europe shows that they are either very short-sighted or very self-sacrificing.

A meeting was lately held in Worcestershire, England, to discuss the subject of an increase of wages. One employe stated that he had been for many years employed as a farm hand at the rate of $2.75 per week for seventy-two hours. He has a wife and three children to support, and his weekly expenditure is: rent, 62 cents; coal, 25 cents; flour, $1.12; leaving 76 cents for clothing and other necessaries. The meeting finally resolved to petition for an increase of wages to $3.75 per week. These "strikers," if they may be called so, go about their work so timerously that the local papers were specially requested not to publish the names of any of those who took part in the proceedings.

Would any New Hampshire Democrat be satisfied to work twelve hours a day for forty-six cents, or for double that sum? And can any reasonable man deny the absolute certainty that the effect of admitting the products of such pauper labor to this country free of duty would be to reduce the rewards of labor here, to prevent the introduction of new branches of manufactures, and to curtail if not destroy those already established under the favorable auspices of a tariff which recognizes that European labor is but poorly rewarded and that foreign capitalists are not the political economists for American workingmen to take theories from? Much of the Free Trade clap-trap of the Democratic press and platform is intended for the benefit of the Irish voters; but O'Donovan Rossa, whose devotion to Ireland and the welfare of the Irish will certainly stand any comparison which may be made between it and that of the Democratic editors and speakers of New Hampshire, denounces Free Trade as one of the worst enemies which Irish (or any other) workingmen in this country can support to their own injury. He says:—

The great majority of the working people of New York have been Democrats for a long time, and as the Democratic party goes in for free trade we have no hesitation in saying that if the mechanics of our population understand how their interests are affected by this plank of the platform, they are most unselfish people. There is no man earning his bread by the sweat of his brow whose interest it is not to have a tariff imposed upon every manufactured article that comes from a foreign land. All people, to be sure, would get boots and shoes cheaper if they were allowed to be imported free of duty. But then the shoemakers and bootmakers would have a poor time of it, perhaps no time at all; and the English manufacturers would be driving a rapid trade.

Democrats may say that the interest of a whole community should not be sacrificed for the interests of one trade. But what is the community? Only a congregation of trades, every one of which is liable to be unjustically affected by free trade. The hatters would have to work for lower wages if English and French hats came without duty. The locksmiths, the tinsmiths and silversmiths would have to come down in their prices, if locks and tins and trinkets had not to go through the custom house. Those working in mills, mines, factories and foundries would possibly have very little work to do, if duties were done away with. Even distillers and brewers would have to pay less wages to their workmen, and employ fewer of them, if Irish whiskey, bought in the old country at seventy cents a gallon, could be imported without the fear of a gauger. Democrats may exclaim "so much the better, everything would be cheap and every one would have the benefit." True, but it is not every one that would have employment then, and England, the natural enemy of the development of the resources of this country, would have the benefit of this Democratic legislation. Many would have to emigrate back with no very pleasant welcome before them, for English mechanics have as much of the know-nothing spirit as any others, in being jealous of new comers. We speak in the interest of the workingman and not with any desire to serve the Republicans or injure the Democratic party.

British statesmen never introduced the law of Free Trade until they saw England able to compete with all the nations around her. In her youth, and in her middle age, England never allowed any goods to be imported without paying heavy duties. Not even from Ireland would she receive anything that the people or the people's labor produced without taxing it to such a degree as was calculated to keep it away from her shores altogether. It was in this way that she killed the Irish manufacturers so late as the latter end of the last century, and when she had accomplished her purpose and made paupers of the manufacturers, she generously took off the duties, and has been ever since crying out: "Why don't you compete with us now? Ah, you are lazy, idle, good-for-nothing grumblers, without energy or enterprise."

All young countries have, while developing their resources, imposed duties on the importation of foreign manufacturers; and we are not too old, anyway, to despise precedent. Adam Smith, writing a century ago in his "Wealth of Nations," advocated Free Trade in England, but he was then too early in the field. The English, fearing that any one should get the better of them in anything, did not allow the adoption of Free Trade until it was past all doubt that they could be injured by competition; and we do not object to have a high tariff imposed here on English goods until we see ourselves able to sell railroad and rod iron, horse shoes and gaiters, anything and everything manufactured that can be classed under the head of et cetera, as cheap in England, as England is able to sell such things to us here.

Political.

The students of Dartmouth College will have a vacation of four days next week, to enable such as do not pay taxes in Hanover to go home and vote at the annual State election on Tuesday, the 12th instant.

Hon. Horace Maynard of Tennessee is to take part in the New Hampshire campaign.

The Nashua Republicans had the largest rally of the campaign, Monday evening. The meeting was enthusiastic and was kept up for two hours and a half.

Past Elections.

In view of the near approach of the election, which occurs on the 12th inst., some figures about the result in past years may be of interest. Last year the vote stood: Weston, Democrat, 34,700; Pike, Republican, 33,892; Cooper, Labor Reform, 782; Comings, Temperance, 314; Scattering, 41. For the previous seventeen elections, running back fourteen years, the Republican majorities were as follows:

		Majorities.
1856.	For Governor	2,448
1856.	For President	5,556
1858.	For Governor	5,192
1859.	For Governor	3,543

BUSINESS NOTICES.

There are probably a hundred or more persons in this and neighboring towns, who daily suffer from the distressing effects of kidney troubles, who do not know that *Johnson's Anodyne Liniment* is almost a certain cure. In severe cases, great relief may be obtained, if not a perfect cure.

THOUSANDS will bear testimony (and do it voluntarily) that VEGETINE is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer." dw&s

HOLLOWAY'S PILLS.—The blood is the very essence of health and life. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach (the apparatus—the arteries the distributors, and the intestines the channels by which the waste matter is carried off. Upon the stomach and bowels, these medicines act simultaneously. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, and them as against the deplorable lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

SPECIAL NOTICES.

Periodic Disorders.

The paroxysmal maladies which are characterized by heat and cold, prevail extensively at this season, and it is a curious fact that in many parts of the country where they are prevalent, other diseases, that bear no general resemblance to fever and ague, or remittent fever, assume a periodic type. Thus, in many sections infested with chills and fever, rheumatism, neuralgia, hysteria, diarrhœa, etc., sometimes become intermittent, thereby indicating that they have been engendered by the same poisonous exhalations which produce the first named disease.

In all these *masked cases of ague*—for such they are—as well as in the regular intermittents, the most safe and reliable remedy that can be administered is HOSTETTER'S STOMACH BITTERS. Neither quinine nor arsenic are needed. Both are in the highest degree dangerous, and are sure to leave sad traces of their poisonous action in the system, whether they arrest the paroxysms or not. In many instances all the so-called specifics of the "regular" materia medica utterly fail to "break up" intermittent and remittent disorders. But the great vegetable Tonic never fails. The spasm of the minute blood-vessels which causes the chill, is the result of nervous weakness, produced by the debilitating operation of an unwholesome atmosphere, and the tone and vigor given to the nervous system by the Bitters, enable it to throw off the diseases. The wiser policy, however, is anticipate attacks of this nature, by arousing all the latent energies of the body at the commencement of the moist and chilly season, with this incomparable antidote. By pursuing this course, intermittents, remittents, rheumatism, colic, biliousness, dyspepsia and pulmonary affections may always be prevented.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. FARM FOR SALE,

SITUATED IN NEWINGTON on the main road to Greenland, 4 miles from Portsmouth Parade. It contains about 26 acres good land, cuts 20 tons hay, and pastures two cows. There is a story and a half house, 22x36, well furnished having a cement cellar and a dairy; and a barn 20x40, and a shed connecting house and barn. There are two wells and plenty of spring water on the property, an orchard of 100 choice apple trees and 50 pear trees, currant, grape and gooseberry vines. The farm adjoins Great Bay, and cuts two tons salt hay and two tons thatch. For further particulars enquire of the subscriber on the premises. m2 4w DAVID BERRY.

ROCKINGHAM NATIONAL BANK.

The Weather.

Jup. Pluv. seems to be on a tour in other regions of late and sends nothing but threats of future visitations. Meanwhile Boreas has it all his own way and is marching on "like all possessed." He took a whole week for a "blow out" and subsided just long enough to catch people napping, for just as they were congratulating themselves that the nor'wester had departed and that warm weather might follow, the old hero assaulted them from the southwest and pelted frozen snow at 'em till near midnight. Then veering to the old quarter, the northwest, he sunk the mercury below zero, put an extra hand at the bellows and put on airs prodigiously. Early consulters of the thermometer found the mercury at from 10 to 13 degrees below zero at 8 o'clock, Tuesday morning, and at no time did it struggle up to par during the day, being at one degree below at noon. The river seemed like a boiling cauldron and many Navy Yard workmen stayed at home. One man, a laborer, who was unwell when he left home, was chilled in crossing to the Navy Yard and became unconscious. He was carried to warm quarters by the crew of the boat he was in, after arriving at the Yard, and was with difficulty brought to his senses—but finally recovered. At this time of writing, the clerk of the weather has an extreme attack of flatulency, and the mercury is rapidly retiring towards the bulb in our thermometer.

Board of Trade.

We had the alternative presented to us on Monday evening to attend an adjourned meeting of the Board of Trade or visit the Temple and witness the celebrated John L. Hall Comedy Company, in their popular theatrical performances. We chose the former, for two reasons; 1st, there is more fun in the B. of T., for less money, than in any travelling company extant; 2d, we were anxious to know the fate of the Board and listen to the discussion of the question which so bothered the brains of Hamlet, "to be or not to be." We regret that our space will not admit of a full report of the meeting, and we can only give our readers a sketch of the proceedings. As soon as the meeting was called to order the report of the Treasurer was asked for, the reading of which disclosed the fact that after paying all bills $225 15 remained in the treasury. The president, T. S. Nowell, said that if the Board proposed to continue its existence he had a scheme to lay before the members for discussion. The subject was the matter of bringing water into this city from Raymond Pond, twenty miles distant, for the purpose of obtaining water privileges that could be used for manufacturing purposes. Mr. Nowell said that he had been requested by prominent citizens to lay this subject before the Board and suggested the propriety of employing a competent engineer to survey the route to the pond and estimate cost of introducing water from that source. The probable cost would be about one million dollars! After some discussion it was deemed an impracticable scheme and the subject was abandoned.

C. H. Mendum renewed a motion which he made at the last meeting, relative to the dissolution of the Board of Trade and the donating of the funds to the Public Library.

J. C. Butler strenuously opposed such a course of action, claiming that it was possible with concert of action on the part of all its members for the Board to accomplish something yet, and cited the doings of a similar organization in Portland.

John Sise said that he was desirous of helping the business of Portsmouth as much as any one present, yet he did not think that such an institution was calculated to accomplish anything. Said that as at present conducted (and he could suggest no improvement in the management of it) it was the butt of ridicule by the people and press, was caricatured in shop windows and would continued to be laughed at so long as it existed. The reason for this is that nothing practicable had been accomplished, and although it had been organized four years, it had not life enough to meet annually as required by the constitution, two annual meetings having been omitted, and were it not for the fact of the expectation of dissolving and disposing of the funds on hand, the present turnout would not have been so great. [Eighteen members were present; Board numbers fifty.] Mr. Sise would like to amend Mr. Mendum's resolution, so as to refund the five dollars which each member had paid in as a fee of membership. He was induced to suggest this disposition of the funds because there existed a feeling in the minds of some that as a Trustee of the Public Library his motives were wholly mercenary.

Wm. H. Sise would amend the amendment by saying refund to those who wished to take back their money.

John Sise said that if Mr. Mendum would withdraw his motion in order to bring the question squarely before the meeting he would move that the Board of Trade donate to the Public Library the sum of $200. The reading of the By-Laws was called for to see if they could thus dispose of the funds. The coast being clear so far as the By-Laws were concerned, John Sise again urged the donation of the money, saying that the Board of Trade was simply a Board of Loafers as far as their meetings were concerned, and that the institution was emphatically dead.

Wm. H. Sise said he thought there was as much life in the Board of Trade as in the Public Library.

Mayor Walker thought the B. of T. had more vitality than some of its members gave it credit for, and hoped they would not abandon it at present.

On the question of donating the funds to the Public Library the vote stood 5 in the affirmative and 12 in the negative. This was looked upon as an indication that the Board wouldn't "give up the ship," and thereupon Mr. Butler addressed the meeting at some length, endeavoring to convince his brethren that energy and tact would vitalize and revivify the dormant powers of the institution.

Mr. Mendum rose to explain that in the course he was about to pursue he intended no personal reflections on any one, but he would respectfully withdraw from connection with the Board, as he considered it a byeword and a disgrace. He would leave his five dollars [membership fee] for the benefit of those who remained.

From the occurrence of this little episode matters began to wax warm, and discussions became short, varied, spicy and somewhat unparliamentary. Finally, amid considable confusion, a motion was got through to adjourn to the call of the Secretary.

Republican Meeting.

The intensely cold weather did not deter a large audience from assembling at the Temple, Tuesday evening, there being quite a fair sprinkling of ladies present. The Cornet Band was present and played acceptably. Hon. Horton D. Walker called the assemblage to order and announced Hon. Ichabod Goodwin for President, assisted by fifty vice presidents, and Messrs. B. F. Thorndike, Horace E. Frye and Gardner M. Goodrich as Secretaries.

Ex-Gov. Goodwin spoke briefly, being especially severe on the side-shows run by the labor reformers and temperance men, whom he deemed hypocritical in acting as they do. He endorsed Senator Patterson for re-election to the Senate.

Senator Patterson, on being introduced, reviewed the records of the various parties, claiming sympathy with the laboring men and advocates of temperance. He then entered upon an able and exhaustive speech condemning the Democracy for their do-nothing policy, and contrasting it with the honorable record of the Republicans. He was particularly happy in combatting the free trade doctrines of the Democracy, and spoke in his best vein, being frequently interrupted by applause. The speech throughout was aptly illustrated and we congratulate the Senator on his masterly effort. It will do a vast amount of good.

Prof. Moses T. Brown of Tufts College followed, speaking briefly. His amusing allusions and quaint utterances provoked much merriment. The lateness of the hour prevented the speaker from entering fully upon his subject. The meeting adjourned at half past ten o'clock, after three hours' speaking and music. About seven hundred people were in attendance. Gen. Sickles, who was expected, was unable to reach here in season for the meeting.

Laconics.

The Democracy of Newcastle are very passive.

The "skeleton" artist is in town and is doing a roaring business.

Mr. J. P. Treadwell has purchased the old Perkins estate in Brookline, Mass, for $225,000.

Judge Thomas Russell of Boston and Farmer Allen are expected to address the Republicans at the Temple, next Monday evening.

Portsmouth Music Society—rehearsal of the Jubilee music, this (Wednesday) evening, at half-past seven o'clock, at Mr. Tilton's room.

The Democracy have charged all manner of evils to President Grant's administration and are still busy inventing more. The most recent was made by a Democratic speaker in this city who insisted that the administration should be held responsible for "dry rot" in vessels built of "green" timber, the best material obtainable at the time of their construction!

At the annual meeting of the Young People's Christian Union, Monday evening, Mr. Samuel Dodge was unanimously re-elected President, but declined the honor. The officers chosen for the ensuing year are as follows:—*President*, Robert E. Rich; *Vice President*, J. Ed. Colcord; *Secretaries*, Miss M. A. Foster, Mrs. A. B Wilson, Mrs. F. G. Towle; *Treasurer*, Alfred Stavers; *Directors*, Robert E. Rich, Rev. James DeNormandie, J. H. Thacher, J. H. Foster, Chas. E. Hazlett, Mrs. F.W. Miller, Mrs. J. P. Morse.

The check list meetings in the first and second wards on Tuesday were quiet and orderly. In the first ward, the Democracy presented so many new names that the Republicans are considering the subject of sending five Representatives to the legislature. But a very few names were presented in the second Ward, and the list remains substantially as posted. The Democratic leaders expressed themselves as pleased with the decisions of the Selectmen. There being little if any business remaining unfinished, the meeting adjourned till Tuesday morning.

George H. Penniton, a boy 15 years old, employed at the Franklin House, was arrested on Tuesday afternoon, on complaint of one of the boarders who had lost several articles from his room and suspected Penniton of taking them. The boy not only acknowledged the theft but also confessed that he purloined a silver watch, some coin, etc., from other boarders. He had previously worked at the National House and had taken a silver chain from the room of Mr. Perkins' son, four pictures from a box in the attic, and various other articles from the boarders' rooms. He gave the stolen goods to his mother, (who is living at one of the officer's houses on the Navy Yard,) whom he says knew that he had stolen them. The boy has not the appearance of viciousness, and had he been properly advised would probably be honest. He will be sent to the Reform School.

Who says we haven't an efficient police force? A half inch of snow fell Monday night, and it was blowing all over town, Tuesday in drifts and then scattering again. City Marshal Johnson was about town during the day, requesting people to shovel off their sidewalks. Entering a store in front of which snow had gathered to the depth of three inches, he notified the proprietor that it must be removed, and starting for the door saw the drift blown across the street by the wind. It's an efficient police force which the winds obey!—The proprietor aforesaid ventured out on Market Square shortly after and his hat arose in the air. He propelled himself forward and went up against a lamp post, around which he fondly clasped his arms. The merry breeze wafted his tile half across the Square and then returning deposited it at his feet. Was it the result of spiritual influence or did the Marshal will the hat to return?

—Beverly has a free public library of 5100 volumes.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

Morning Chronicle.

NEWSPAPORIAL. — The *Merrimack Valley Visitor* is a new weekly of which Mr. Geo. J. L. Colby of Newburyport is editor. It is well made up and of course is to be edited well. Mr. Colby is a versatile writer and we look forward with pleasure to the weekly visitations of the *Visitor*.

The *Newburyport Herald*, one of the ablest edited papers in Massachusetts, appears enlarged by one column to a page. The *Herald* is forty years old and bears marks of increasing prosperity, being without a competitor. Long may it flourish.

MORE FRAUD IN BROOKLYN.—More exposures of frauds of the Democratic ring in Brooklyn are made in the accounts of the controller of last year. A deficiency of nearly $100,000 has been discovered, and an expense of $200,000 on street lamps and lighting for the past year more than was proper.

SENATORIAL ADMIRES.—The unfailing, unflinching devotee of the gallery, whom neither storm nor sleet can drive from her post, is the maiden who in her hearts "adores" some single senator. You will think it strange any of these disagreeable mortals below should have the power to inspire such worship; yet, no less, a few of them do. Very likely the young lady don't know the senator at all personally. The idea of his greatness is wholly a tradition, received from her father and mother; or she saw him at a party once, and he said pretty things to her, after the manner of men to young girls; or he knows a friend of hers who brought her a stray complement from him, which he has forgotten that he ever uttered; or it may be his principles, "his great and glorious principles," which she adores. At any rate, she adores him, in a far-off, harmless fashion; the only harm coming of it being the lost vitality sapped out of her life by these dreadful galleries. Her adoration binds her to come every day, to gaze on "her ideal"; not only to come, but to listen to all her ideal may see fit to say, to swear by it, to fight for it, and for him, upon all possible occasions. The special idols of so much girlish worship are Sumner, Schurz, Trumbull, and Conkling; while scattering fancies go out toward Patterson, Ferry, and even to Thurman, though he imbibes snuff by the pound, and blows a blast with his handsome that fills the Senate Chamber.—*Mrs. Ames' Washington letter.*

—The challenge of the Paris crew of St. John has been accepted by the Pilgrim crew of New York, conditional on its taking place on the Harlem River, in June or July, for $1000 or $2000 a side.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth), new Display Type, fonders of various styles, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SHEETS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY-LAWS, PROGRAMMES, CIRCULARS, ORDERS, DRAFTS, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BREVIERS, CARDS, ENVELOPES AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

ROCKINGHAM COUNTY SIX PER CENT. BONDS.

BONDS of the County of Rockingham, payable in ten, fifteen, or twenty years from October 1, 1871, with coupons attached for the interest, at the rate of 6 per cent. per annum, payable semi-annually, may be had on application at the Rockingham National Bank.

m1 GEO. G. LOUGEE, County Treasurer.

A. PEARSON

INVITES ATTENTION to the fact that he has taught Music in Portsmouth for the last EIGHTEEN YEARS faithfully and successfully, as numerous patrons and pupils will testify,—and still offers his services as

N. B. Contracts taken.

JAMES M. LOCKE,
Jm27 No. 21 Bow Street.

A BUSY PLACE.—Not only strangers visiting the city, but the residents of Boston, are impressed by the activity exhibited at the elegant establishment of the Oriental Tea Co., on Court St., near Scollay Square. The partners in this great interest are all well-known as business men of the first order, keenly alive to three facts necessary to insure success: To keep the best goods, to sell at the fairest rates, and to keep the public fully advised of the excellencies of their opportunities. The Messrs. Allen have ever been jaccious as well as liberal in their use of printers' ink, counting back to the days when they started the dry goods house of Allen & Payne in this city, and in a few years, by enterprise and untiring energy, achieved a success which many an old established house would have been proud of. Their partners, the Messrs. Shapleigh, are also well-known as men with whom business is reduced to a science. When you are in Boston do not fail to see this principal mart of the Tea and Coffee trade of New England; and it will be something strange if you depart without a sample of their choice goods.

NEW ADVERTISEMENTS.

WHAT TO READ
AND HOW TO READ,

Being classified Lists of Choice Reading, with appropriate hints and remarks, adapted to the tastes and circumstances of readers, and to per one hundred to form collections of Books. Vol. 12 mo. 132 pages. Price, 50 cents. Sent free by mail on receipt of the price. D. APPLETON & CO., Publishers, New York.

CATARRH

Cannot be cured by snuffs, washes or local applications. It is a weakness of the system, developing itself in the nasal organ first, afterwards extending to throat and lungs, ending generally in consumption, if not cured by proper remedies. Pain in back, back, loins, and weakness of kidneys, are its constant attendants. More people have catarrh than any other disease. It is easily cured. Thousands of cases, some of twenty-five years' standing, have been entirely cured in New Hampshire the past two years by the Constitutional Catarrh Remedy. Certificates to back the above sent free upon application to LUTHER LEE & HAYES, proprietors and druggists, Manchester, N. H. Price $1 per bottle.

175 AGENTS WANTED,

To canvass for the *N. H. Register* and *complete Business Directory for the State for 1872.* Sold at sight. *Every Business Man, Mechanic or Farmer needs it;* 50 to 1 per day by agent; only 25c to mail. *A new, complete History of Great Fire in Chicago and the World (the best),* by Rev. E. J. Goodspeed; and the *Great Temperance Book—Six Nights with the Washingtonians*—by T. S. Arthur. Great sales. Address, or call on, D. L. GUERNSEY, Publisher, Concord, N.H.

Dr. Brown's Cure.

Japanese Paper Ware.

Unprecedented success. Paper Ware is being universally used. The people like it. Public institutions are adopting it. It is economical for the household. Everybody buys it. Sample number Pails, Slop Jars, Bowls, Milk Pans, Spittoons, Trays, &c., &c. The trade supplied by the manufacturers, JENNINGS BROTHERS, 352 Pearl Street, N. Y. City.

LEPTANDRIN.

Epilepsy or Fits.

A SURE CURE for this distressing complaint is now made known in a Treatise (of 32 octavo pages) on Foreign and Native Herbal Preparations, published by Dr. O. PHELPS BROWN. The prescription was discovered by him in such a providential manner that he cannot conscientiously refuse to make it known, as it has cured everybody who used it for fits of 1872, never having failed in a single case. The ingredients may be obtained from any druggist. A copy sent free to all applicants by mail. Address Dr. O. PHELPS BROWN, 21 Grand Street, Jersey City, N. J.

CURE FOR
FEMALE WEAKNESS.

The Proprietor of this valuable Medicine, while suffering from loss of health some twenty years ago, received an Indian recipe, from which she prepared one for her own use, which resulted in a cure. Many of her friends have used it with equally gratifying success, and have urged her to introduce it to the public. She has consented, for the relief of suffering humanity, to do so, and feels confident it will prove one of the richest blessings to her sex. This is an internal remedy—entirely vegetable—will not injure the most delicate constitution, but is congenial to nature, as supporters are not used under any consideration, nor the use of Caustic. It will cure all Weakness, all Humors, which is one cause, in many cases, of great suffering. Its renovating effects are extraordinary, without a changed diet, as hundreds will testify. Three bottles will convince the most skeptical of its surprising properties. Its effects are wonderful in the Relief and Cure of the following diseases:—Prolapsus Uteri, Nervous Debility, Weakness of the Back and Limbs, Dyspepsia, Palpitation of Heart, Depression of Spirits, Irregularities, Change of Life, Whites, Dropical Affections, Biliousness, Inflammation of the Kidneys, &c. Prepared and sold by MRS. LINUS BELCHER, Randolph, Mass. Send for Circular. Sold by all Druggists, at $1.00 per bottle.

BOSTON.

THE CLAIM OF SUPERIORITY

Is often made for

ARTICLES OF GENERAL USE,

But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of

BOOTS AND SHOES

FASTENED WITH

CABLE SCREW WIRE,

These goods were pronounced by the patentee to be

THE BEST

In the market for Pliability, Durability, and Economy. This claim has received

Full Endorsement

From Manufacturers!
From Dealers!
From Consumers!

Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.

Cable Screw Wire goods are peculiarly adapted for our new cement welters, on account of their Waterproof qualities.

Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' GAITER, is best made with his most excellent of all fastening.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price; and many of these are so we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is lighter speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

HELPS TO HOLY LENT, by Bishop Huntington.

SEVEN LENTEN SERMONS on Psalm Li.

A GOOD REPORT, or Lessons for Lent.

ROSARY FOR LENT, or Devotional Reading.

For sale by JOSEPH H. FOSTER.

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs. (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

HAVE you seen those WHITE LINEN BOSOM SHIRTS that are selling at only a dollar each. j23 J. RIDER & SON.

Portsmouth Daily Chronicle.

ESTABLISHED 1863. | MARSTON & FREEMAN, PROPRIETORS. | GEO. W. MARSTON, I. P. MILLER, EDITORS

$6 per Year, in Advance. | PORTSMOUTH, N. H., THURSDAY, MARCH 7, 1872. | 3 Cts. Per Copy.

The Chronicle.

THE BELLE OF THE EVENING was Miss ———, who was selected by the Committee as Alexis' second partner, the first being a married lady. Miss ———, is an exquisitely beautiful girl—very accomplished, witty and saucy withal. A fragment of the ducal conversation may be interesting. "You know what I want to say, tell me in English," said the Duke. She gave him a long hard word, which he stumbled over. "Now tell me in Russian," said she. At her Russian pronunciation he laughed heartily. "I have as much right to laugh at your English as you have at my Russian," said the lady. "Now is that better?" asked the Duke, making another attempt. "Um, um," replied the beauty (being a sound made without opening the lips.) "Um, um," said the Duke, "and what does that mean?" "That means 'yes, my dear,'" replied the saucy belle, and at every favorable opportunity, during the evening, "Um, um," was the answer vouchsafed by the prince. He danced twice with this beauty, and took her in to supper.—*Memphis Cor.*

A BALLOON ELOPES WITH A LADY.—A Des Moines paper says: Mr. Strong who is now playing with the Irwin troupe in this city, was last season the aeronaut of De Haven's circus, and made several hundred ascensions, some of which were fraught with narrow escapes. In the ascension that Mr. Strong made from Shelbar, Missouri, he met with a peculiar accident. All was ready for the aerial trip, and just as he was about to step into the basket some of the men at the ropes let go, tripping him up and he hung by his legs, tangled in the cords. For a moment the balloon swayed to and fro, and Mr. Strong caught at the first object he could grasp, and that was a lady, catching her around the waist just as the balloon leaped into the air. Up they went in this strange position, with the crowd looking on in breathless horror. The lady thus unwillingly taken aloft fainted and hung dead weight in his arms, but Mr. Strong kept his presence of mind, and being an accomplished aeronaut at last made the descent, landing the lady safely amid the cheers of the assembled throng.

SPRING TREATMENT OF COWS.—Farrow cows that are being milked and fattened at the same time, must have an abundance of rich food—say four or five quarts of cornmeal per day, with cut stalks or hay. Beef is now low, but so are milch-cows, and it will probably be better to dispose of farrow cows that are fat than to keep them another season. If liberally fed we have known them milked up to the time they were sold to the butcher, and still prove very fat inside. As a rule, however, the butchers will pay a little more if they have been dry a few weeks.

Cows that come in before the first of April will now, in ordinary dairies, be allowed to go dry. In the majority of cases they cease to give of their own accord. With warm stables and liberal food, some cows will continue to give milk nearly or quite up to calving. A cow with great digestive powers, that will keep in high condition, nourish her calf, and give milk, may be allowed to do so. In fact, it is probably better to keep on milking her. There will be less danger of milk-fever after calving. But such cases in our experience, are rare. It requires liberal food and the best of treatment to keep such a cow in vigorous health. As a rule, the average good diary cow requires and will well repay a few weeks' rest at this season. And we need seldom be afraid to feed liberally. Any fat accumulated before calving will in the case of a good milker finds its way to the butter-tub.

For ten days or two weeks before calving, it is well to give laxative food, such as bran mash and linseed tea, or, if this is not sufficient give a pound of Glauber salts, or half-pound of Epsom salts, and a table-spoonful of ginger. In case of very fat cows, it is well to give this dose once a week for three weeks or a month before calving, as a preventive of milk-fever.—*American Agriculturist.*

—A facetious individual not many miles from Danbury, sought to draw his wife out by pretending to be found dead with an empty laudanum phial by his side. And that lady was a good deal shocked at first, but having read that a needle introduced in the human flesh would indicate on its surface whether that flesh was dead, and being a woman of eminent practicability, she at once armed her with a polished cambric of nearly two inches growth, and with throbbing heart and bated breath introduced a good share of its length into an appropriate portion of the deceased. What the surface of the needle really indicated was not learned, as he took it with him as he passed through the sash.—*Danbury News.*

—Some people are always bragging of their ancestors and their great descent, when the fact is their great descent is what's the matter of them.—*Billings.*

—Alfred Waddington, the projector of the Pacific Railway, has just died in the Ottawa Hospital, from the effects of small-pox, after eleven days' illness.

HOLLOWAY'S
PILLS AND OINTMENT.
Every Man His Own Physician.
CAUTION.
THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.
In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.
N. Y. CHEMICAL CO., Sole Proprietors,
d&wf15 — 73 Maiden Lane, New York.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable* and *successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent* and *trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."
"MR. R. H. EDDY has made for me over THIRTY Applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."
Boston, Jan. 1, 1872.—1 yr.

The Daily Chronicle,

Portsmouth, N. H.

THURSDAY, MARCH 7, 1872.

A Diabolical Conspiracy!

The Concord Monitor says: We are satisfied, from reliable information received from various parts of the State, that a stupendous scheme of fraud and outrage upon the rights and liberties of the Republican voters has been devised and is being carried into effect by the Democratic State Committee, through Democratic selectmen. We learn from so many different sources that we are reluctantly compelled to believe that John G. Sinclair, Chairman of that Committee, has actually instructed Democratic selectmen to exclude the names of as many Republican voters as possible from the check-lists, and insert thereon the names of Democrats not entitled to the right of suffrage, and assured them that, if prosecuted for their wicked and fraudulent conduct, the Democratic State Committee will defend them in the courts and indemnify them against all loss and expense. There is good reason to believe that the thing has been carried so far that an exact calculation has been made, and selectmen have been instructed precisely what number of Republican voters must be excluded from each town, in order to secure the triumph of Democracy throughout the State!

Shall so bold and infamous an outrage upon the rights of freemen be carried out successfully? Shall the honest sentiment of the citizens of New Hampshire be suppressed, and their will be defeated, by this organized and systematic conspiracy to deprive freemen of the right of suffrage? We appeal to honest men of all parties to frown down the base attempt and prevent the consummation of the infernal plot.

Free Trade

Really means the monopoly of all markets by the British, and the breaking down of all manufactures, except British ones. This meaning is frankly and openly avowed in England. In a recent speech in the English House of Lords, Lord Goderich said:—

Other nations knew, as well as the noble lord opposite, and those who acted with him, that what we (the English) meant by free trade was *nothing more nor less than by means of the great advantages we enjoyed to get the monopoly of all their markets* for our manufacturers and to prevent them, one and all, from ever becoming manufacturing nations. The policy that France acted on was that of encouraging its native manufactures, and it was a wise policy; because, if it were freely to admit our manufactures, it would speedily be reduced to an agricultural nation, and therefore a poor nation, as all must be that depend exclusively upon agriculture.

Do the voters of New Hampshire so love the British manufacturing capitalists as to be willing for their sakes to break down American manufacturing industries? What a grand "labor reform" it would be, if the free traders could only give England a complete monopoly of our markets; and how happy and contented the thousands of pauper-paid laboring men would be,—when they were not idle.

The Weather.

The cold weather continues with slight moderation, the thermometer marking 8 degrees above zero at 6 o'clock, Wednesday, P. M. A great snow storm prevailed in Vermont, Tuesday and Wednesday. In New York the weather continues intensely cold. The ice is increasing in the river and harbor. The North River has large flocs of ice in it, and vessels arriving do not anchor in the stream from danger of being cut through. The effects of the cold are severely felt by poor people, drivers of teams and others obliged to be out of doors. A driver of a wagon was found frozen Tuesday on Forty-seventh Street, his horse walking along, and the reins grasped in the dead man's hand. Louis Schultz, a tailor, was found frozen to death in a vacant lot in Brooklyn, and a woman was found frozen in the ice of a culvert on Lafayette Street, Jersey City.

THE U. S. SENATE balloted for a committee to investigate the sale of arms to the French, on Tuesday. The following gentlemen were chosen:—Messrs. Hamlin of Maine, Carpenter of Wisconsin, Sawyer of South Carolina, Logan of Illinois, Ames of Mississippi, Harlan of Iowa, and Stevenson of Kentucky. Mr. Schurz of Missouri received 23 votes, Mr. Trumbull of Illinois 19, Mr. Tipton of Nebraska 12, and Mr. Blair of Missouri 12.

—New York lager is stronger than that of Germany, the former containing on an average five per cent. of alcohol, while Bavarian beer rarely exceeds three per cent.

State News.

The workmen employed by Mr. Wm. W. Taylor in Newton make about 450 pairs of machine-sewed shoes in a day, wages ranging as high as $4 daily.

Forty-three degrees below zero at Mount Washington on Tuesday; the winds' velocity was ninety-one miles an hour, Monday night.

Exeter Republicans are talking of sending Gen. Gilman Marston and Hon. Chas. H. Bell to the legislature. Exeter can do no better.

ICE IN THE ATLANTIC.—On the 28th of January, at 9 A. M., the steamer City of Halifax, from Halifax for Liverpool, when about 400 miles from Newfoundland, on the clearing up of a fog was found to be in an ice pack. Nothing save a little lake of open water about the ship's length ahead, separated her from an ocean of ice. Boulders, hillocks and plains of heavy field ice, with an occasional berg towering above the huge excrescences of the frozen sea, blockaded her on all sides. During the ten hours the ship was thus surrounded some of the passengers went out seal shooting, and among them was Mrs. Warrington, of Newfoundland, who is said not only to have shot one of these animals, but to have skinned it on the ice and carried away its skin to make herself a cape.

TICHBORNE, who claimed to be the heir of the Tichborne estate in England, learning that the jury would bring in a verdict against him, has abandoned his case and fled. Another report says that he has been arrested.

"Who is Grant?" asks the Concord Patriot. Your Southern allies long ago ascertained who he is, neighbor, and if you don't know yet you will know by 1877.

WELL PUT.—The Portsmouth correspondent of the Boston Globe says:—

The Eastern Road is very largely increasing its facilities for business here, as all along the line. The resident Director here, Ex-Governor Goodwin, though within five years of four-score, and long desirous of being relieved of railroad cares, is one of the most experienced, sagacious, and still active railroad managers in New England, and most of our citizens would regret his retiring. The terrible accident on this line last summer,—which notwithstanding the late President's report censuring the Superintendent, must, by the testimony before the coroner's jury, be responsibly laid on the shoulders of the conductor and engineer implicated—has alone caused the gathering of the cloud which has of late hung over its past glorious history, and for the once dimmed its future bright prospects. Up to the moment of that awful crash, few named the Eastern road but to praise its management. In a moment, alas, how changed! It seemed that neither prayer nor people could think or say things sufficiently hard of it, or condemn its officers in terms adequately severe and sweeping. They forgot its nice accommodations, its enterprise in extending its branches in all directions; the fact that it was the first New England road to put on Pullman cars,—and while its great and growing debt was not lost sight of, the more than counterbalancing fact that the object of the debt was richly remunerative, and therefore a good investment, was utterly ignored. That the stock was run up from less than $40 to about $125, was nothing; nor the other fact that the road during the past year actually laid more length of track (including the new Conway branch and their extension of double track,) than they possessed altogether the year previous. I design no special panegyric for the Eastern Railroad, but desire simply to do justice to one of the most important lines in New England, which splendid property, the result I feel sure in the not distant future will show, has generally been exceedingly well managed.

SUCCESSFUL EDITORS.—An English writer says:

"A good editor, or competent newspaper conductor, is like a general or a poet, born, not made. Exercise or experience give facility, but the qualification is innate, or it is never manifested. On the London daily paper all the great historians, novelists, poets, essayists, and writers of travels, have been tried and nearly every one has failed. 'I can,' said the late editor of the London Times, 'find any number of men of genius to write for me, but very seldom one man of common sense.' Nearly all successful editors are of this description. A good editor seldom writes much for his paper; he reads, judges, selects, dictates, alters and combines and to do all this well he has but little time for composition. To write for a paper is one thing, edit a paper is another."

A PLEASANT AFFAIR.—Mr. Thos. B. Purves of Greenbush, N. Y., master mechanic of the B. & A. R. R., received a pleasant surprise on New Year's eve, in the shape of a gold watch and chain, presented to him by the engineers of the division of the above named road. The watch was a beautiful specimen of *Elgin* manufacture, and received *a majority of the votes of the thirty-seven engineers* who presented it, over two competing watches from Albany.—*Exchange.*

A SPLENDID SPECIMEN of Ballou-ning—the *Boston Globe.* May it never "go up" or "come down." The Boston press is now "Maturin" rapidly.

BUSINESS NOTICES.

There are probably a hundred or more persons in this and neighboring towns, who daily suffer from the distressing effects of kidney troubles, who do not know that *Johnson's Anodyne Liniment* is almost a certain cure. In severe cases, great relief may be obtained, if not a perfect cure.

We notice that the Agricultural papers all over the country recommend the use of *Sheridan's Cavalry Condition Powders.*—*Exchange.*

Farmers and others in this section have long known and appreciated the advantage of these powders over all others.

DEAD MEN TELL NO TALES; if they did anathemize against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bombay, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

VITALIZE THE HAIR.—Why does the hair become harsh and dry—why does it fall out—why does it become gray? Simply because the life has gone out of it. The fibers draw nutriment from the scalp as the grass draws aliment from the soil, and when the supply of nutriment is cut off in either case the product withers and dies. At the first symptom of decay, therefore, the unfed or half-fed roots of the hair should be refreshed and reinforced with LYON'S KATHAIRON, the only preparation which will nourish the filaments and keep them in a vigorous condition after they have begun to suffer from a deficiency of their natural stimulant. As long as the Kathairon is faithfully used, with a proper degree of friction, morning and evening, so long will it be impossible for the hair to whiten or fall out from the scalp.

SPECIAL NOTICES.

Periodic Disorders.

The paroxysmal maladies which are characterized by heat and cold, prevail extensively at this season, and it is a curious fact that in many parts of the country where they are prevalent, other diseases, that bear no general resemblance to fever and ague, or remittent fever, assume a periodic type. Thus, in many sections infested with chills and fever, rheumatism, neuralgia, hysteria, diarrhœa, etc., sometimes become intermittent, thereby indicating that they have been engendered by the same poisonous exhalations which produce the first named disease.

In all these *masked cases of ague*—for such they are—as well as in the regular intermittents, the most safe and reliable remedy that can be administered is HOSTETTER'S STOMACH BITTERS. Neither quinine nor arsenic are needed. Both are in the highest degree dangerous, and are sure to leave sad traces of their poisonous action in the system, whether they arrest the paroxysms or not. In many instances all the so-called specifics of the "regular" materia medica utterly fail to "break up" intermittent and remittent disorders. But the great vegetable Tonic never fails. The spasm of the minute blood-vessels which causes the chill, is the result of nervous weakness, produced by the debilitating operation of an unwholesome atmosphere, and the tone and vigor given to the nervous system by the Bitters, enable it to throw off the disease. The wiser policy, however, is anticipate attacks of this nature, by arousing all the latent energies of the body at the commencement of the moist and chilly season, with this incomparable antidote. By pursuing this course, intermittents, remittents, rheumatism, colic, biliousness, dyspepsia and pulmonary affections may always be prevented.

IMPROMPTU.

BY BYRON DEWOLFE.

R. I. Burrell he can tell you
Of the Bitters of renown,
Famed for curing suff'ring people!—
Famed in city, hamlet and town!
O, how many smiling people
Throughout Christendom will say:
"We've been cured by Atwood's Bitters!
Oft we've grieved, but now we're gay!"

Some unprincipled, mean fellows,
Far too low to blush for shame,
Went to selling Bitters spurious,
Putting on them Atwood's name!
Carter makes the "Atwood Bitters,"
Makes the real, makes the true!—
Burrell travels, telling of them,
Selling many bottles too!
Burrell looks in good condition,
May his prospects not be dim,
Carter's famous "Atwood Bitters"
Oft have benefitted him!

Grocers and Apothecaries,
'Tis my duty here to sell,
Keep the genuine, remember,—
Keep them in each town to sell!
Ask for Carter's "Atwood Bitters,"
Carter's o'er the world renowned,
At your grocers or your druggists,
Atwood's Bitters may be found. 7 3t*

LOCAL AFFAIRS.

New Advertisements to-day.

Stereoscopic Views—Foster Sheres & Co.
Boy Wanted.

Ward Three.

A Republican informs us that the copperheads of the third ward show their usual animus by keeping on the check list the names of FIFTY-ONE voters who have no shadow of right to vote there. When a motion has been made to strike one of these names from the list in times past, the selectmen have invariably adjourned the meeting. Ward Three is surely Republican to-day on a fair vote and honest count and the Republicans of the Ward propose to go to the legislature next June for justice.

Laconics.

Keep in-doors.

The Senate has confirmed Commander Joseph M. Bradford of this city as Captain in the Navy.

If the cold, windy weather returns, ladies will have to dress more warmly, protecting their darling constitutions with additional ear-rings, brooches and wrappings of finger-rings.

We are informed that the discovery of the peculations of the Penniton boy mentioned in the Chronicle of Wednesday is due to the alertness and skill of Mr. E. P. Parcher, detective at the Navy Yard, who also rendered valuable assistance to the police in the search for the stolen property.

The copperheads of Portsmouth are this evening to "sit at the feet of" a carpet-bagger of the carpet-baggest kind,—a Vermonter who is claimed by the copperheads to be a South Carolina Republican, but who is denounced by the Republican press of the latter State as having filled his carpet-bag with plunder, while a "Judge," by dishonorable and unworthy practices, and who endeavored to stow his carpet-bag under the gubernatorial chair of South Carolina in 1870, as a copperhead Governor, though he failed in the attempt because the Democratic party couldn't give him votes enough by some 37,000. We understand that our Irish fellow citizens are to escort "the Judge" from some place to the platform in procession, displaying illuminated banners (made of English calico) inscribed, "Down with the infamous carpet-baggers who are ruining our native country." "Carpet-baggers to the rescue," "No more carpet-bag rule," etc. etc.

Young men who wish to rise up in the world, hereabouts, are going heavily into the chicken business. For their encouragement we copy the following: — A Philadelphia letter to the Reading Times says: "The other day I saw Oliver Bond Byron, a man twenty-five years of age, passing along the street with an immense Cochin China hen under his arm. Four years ago he was call-boy and basket carrier at Ford's theatre in Baltimore; to-day he is earning $50,000 a year playing a melodrama, entitled "Across the Continent." He has carved his way unassisted, and is to-day worth no less than $120,000. I asked him what he was doing with that chicken. 'Ah,' said he, 'you ought to see my stock of poultry; it is as fine as any lord's; it's my weakness to raise chickens, and I sit by the hour, at times, to pet and make them love me.'"

A sad and striking example of the condition which the "Flag of our Union" and what holds it so proudly aloft would now have been in had the Democratic party had custody of the same for the last ten years, is found in the tottering and shaky state of the flagstaff at Liberty Bridge and the fearfully demoralized and "played out" appearance of the flag which is occasionally hoisted thereon, the flag and Liberty pole having long been under the exclusive care of the Ward Three copperheads and their assistants who dwell in the old cemetery at the Point of Graves. The old flag-staff reels and trembles with every breeze, threatening to come down with a crash; like the political principles of its copperhead guardians, it is rotten at the core and utterly untrustworthy. And we are informed that "Navy Yard assistance" has been solicited to help replace or repair the decayed Liberty pole of the Ward Three unterrified and the non-tax-paying spectral voters of the Point of Graves,—which if true shows that the copperheads are now as willing to be so "assisted" as they were in the good old days when Democrats only could get work on the Yard, and furnishes an additional reason why Congressman Hibbard's modest demand that Hon. Daniel Marcy be allowed to run the Navy Yard as a Democratic political machine should at once be complied with by Secretary Robeson.

Mr. Stephen A. Preble offers "Horsell's Purity for the Hair" at a great reduction from former prices. See advt.

The Delehanty, Hengler & Spaulding troupe come to-morrow evening and a jolly good time will be enjoyed by the audience they will attract at the Temple.

Straw first—the Newcastle election.

There was more ice in the river, Tuesday, than at any time for the past twenty years. The lower harbor was frozen over from Fort Constitution to Fort McClary.

Among the list of medals of honor awarded by the Secretary of the Navy to seamen who have distinguished themselves in battle or extraordinary heroism in the line of their profession, we find the name of Mr. Frederick Franklyn of this city, quartermaster, United States steamer Colorado, who assumed command of Company D, in the attack on the Corean forts, after Lieutenant McKee was wounded, and handled it with great credit until relieved. We also find the following names in the list:—James Dougherty, private marine, United States steamer Benicia, for seeking out and killing the commanding officer of the Corean forces and Michael McNamara, private marine, United States steamer Benicia, for gallantly advancing to the parapet, wrench-the matchlock from the hands of an enemy and killing him.

The ladies of the M. E. Church, now holding their annual festival at Congress Hall, have an additional attraction of two splendid chromos, to be given to the engine company receiving the most votes.

CAMPO BELLO ISLAND.—It was announced a fortnight since that Capt. James M. Hill of this city was about to make a voyage to Bounos Ayres to establish a business there. Being disappointed in the character of the parties with whom he was engaged, he gave up the project, and it appears that he has since entered upon an enterprise of considerable magnitude. A telegram to the St. Johns *Daily Telegraph* announces the purchase of Campo Bello Island, by Col. Stevens and Mr. Finlay of New York, and Capt. J. M. Hill, for themselves and certain parties in New York. They propose building a hotel at once and making it a summer resort; also to establish trade and develop the mineral resources of the island. The despatch states the price paid as about four hundred thousand dollars.

The Island is beautifully situated in the Passamaquoddy Bay, opposite the towns of Eastport and Lubec, in the State of Maine; it contains about twelve thousand acres of land, is ten miles in length, and averages two miles in breadth, and contains about fifteen hundred inhabitants; it has the advantages of excellent harbors, and of being a free warehousing port. Friar's Bay is so extensive as to offer a most commodious harbor for ships of any size. Harbor de Lute is also fine and commodious, and extends into the centre of the island, at the head of which a number of mills are being worked to great advantage, vessels of large size being able to approach close to them. Curry's Cove lies opposite Eastport, and is one of the best harbors, particularly for small craft; and for fishing establishments, indeed, all along the western shore of the island, there is no want of good harbors and excellent privileges for the fishing business.

Head Horbor is another valuable harbor, being protected on the eastern side by Penguin, or Head Harbor Island. Vessels of any size can run in at any time of tide, and proceed to sea again, by way of the island channel, without difficulty. This harbor having the advantage of the lighthouse, makes it very much frequented by all the pilots, and particularly the coasting vessels. At the head there are also fine mills, surrounded by plenty of timber. Then to proceed round the eastern shore: Mill Cove is a snug little harbor — has a good mill privilege, and like Head Harbor, abounds in a great quantity of excellent spruce, a large quantity of cedar, and some pine. The shore from thence down to Herring Cove presents a bold appearance; but the island throughout is beautifully covered with fine spruce and birch of large size.

Herring Cove is a remarkable place, and truly valuable as a herring fishery; from thence down the shore is bold, and the island presents nothing calling for particular remark, till you approach the Narrows, except being well covered with timber.

The island is rich in mineral resources, copper, lead, silver, iron and coal mines being already found there. For fishing, it is said to be one of the best places in the world. The island affords such a large quantity of excellent ship timber that ship building can be carried on there to great advantage; the island being surrounded by salt water the growth of timber is said to be much superior to that on fresh water rivers, and far more durable; and those who best know, say that vessels of any size could be built here at half the cost of construction on the United States shores, to rate and insure equally as well as any of our own vessels. The value of the timber now standing is estimated to be $600,000. Thirty miles of riding roads through the shaded island, together with its attractive scenery and that of Passamaquoddy Bay, and the low price at which a life on the island can be enjoyed, will not only attract summer tourists, but those more desirable permanent occupants of the island, artisans, mechanics, fishermen, &c. There are two churches on the island.

DEATHS.

In this city, March 5, Mrs. OLIVE WENDELL, wife of John H. Wendell, aged 68 years.

MARINE CHRONICLE.

Ship Yosemite, at San Francisco from Hong Kong reports, Feb. 22 shipped a heavy sea filling decks and cabin with water and staving galley doors.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Daillies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

A Pome!

Some kind hearted individual has sent us an extended notice in rhyme of some of our citizens, entitled "The Judge and His Friends," of which we give a sample below. We leave out the portions intended to "puff" unknown individuals, as we do not care to advertise them for nothing, while our own city merchants pay liberally in that line, and can furnish goods as cheap as any irresponsible mushroom concern. Here is a specimen of the rhyming:—

The Judge with his old fashioned neck-tie,
And his collar that's old fashioned too,
Is walking the floor of the Franklin;
And thinking of what he's passed through,
The cold just outside of the Franklin
Pierces overcoat, undercoat, vest,
Jack Frost turns the folks to Bluenoses
And proves unwelcome—a guest!
The Judge looks contented and happy
As he thinks of his rambles afar,
And walks on the floor of the "Franklin"
And enjoys an excelling cigar;
His coat with its brilliant brass buttons
Looks odd to the wanderer's eye,
His spectacles grandly become him,
To please us all gladly he'll try.

And next comes the hack-driver, Dennett,
A capital fellow and true,
The man who can please those he works for,
A man who can dare and can do!
There isn't all over our Portsmouth,
A man has e'er crossed a steel track,
Who can beat the clever Bill Dennett
When Dennett is driving a hack.

DOWN SHE GOES!

City of Portsmouth.

WARD ONE.

STATE OF NEW-HAMPSHIRE — ROCKINGHAM, ss.

To the inhabitants of Ward No. ONE in the City of Portsmouth, in said County, qualified to vote for Senators in said State.

[L. S.]

YOU are hereby notified to meet at the Ward Room in Elm street, in said Ward, on the second TUESDAY of March next at nine o'clock in the forenoon, for the following purposes:

To bring in your votes for Governor, Railroad Commissioner, Councillor, Senator, County Treasurer, Register of Deeds, and County Commissioner.

To choose by ballot four persons, to represent said City in the General Court of said State the ensuing year.

Given under our hands and seal this 24th day of Feb. A. D. 1872.

JOHN H. LOCKE,
FRANKLIN COLE,
SAMUEL A. SPINNEY,
Selectmen of Ward No. 1 in the City of Portsmouth.

A true copy—Attest,

JOHN H. LOCKE,
FRANKLIN COLE,
SAMUEL A. SPINNEY,
Selectmen Ward No. 1 in the City of Portsmouth.

CHECK LIST NOTICE.

THE Selectmen of Ward No. One, of the City of Portsmouth, give notice that they will be at the Ward Room in Elm street, on Tuesday, the 5th day of March, from 10 to 12 o'clock, A. M. and on the morning of the day of Election, from 7 to 9, for the purpose of receiving evidence of the qualification of Voters and of correcting the List of Voters by adding thereto such names as may have been omitted, and by erasing therefrom the names of those who have not a right to vote.

A copy of the List of Voters, as corrected, will be left with the Clerk of the Ward, and also at the Hall of the City Rooms on Pleasant Street; and also one will be posted in the Eastern Railroad Depot, for the inspection of the inhabitants until the day of election.

JOHN H. LOCKE,
FRANKLIN COLE,
SAMUEL A. SPINNEY,
Portsmouth, Feb. 24, 1872. Selectmen, Ward One.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle of latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at **ORDINARY LIFE RATES**, Age 37, annual premium, - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - $173.30
Or, at the end of 20 years, of - - - 647.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,
Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables at rates, and other interesting matter, may be obtained by application to the

Morning Chronicle.

THE VICE-PRESIDENCY.—If Vice President Collax should be renominated and re-elected, it will be the first time, with a single exception, that a Vice President has been his own successor in the history of our government. The exception was that of Daniel D. Tompkins, of New York, who served as Vice President under the two terms of President Monroe, one of which terms occurred in what is historically known as the "era of good feeling"—from 1821 to 1825. The instances in which a Vice President has been elevated to the Presidency are six, to wit: John Adams, Thomas Jefferson, Martin Van Buren, John Tyler, Millard Fillmore and Andrew Johnson—the three latter succeeding to the Presidency on account of the demise of the regularly elected incumbents while holding office.—*New York Herald.*

A GENTLE HINT.—A sportsman, who, during the shooting season, had gone to pass a week with a friend in the country, on the strength of a general invitation, soon found, by a gentle hint, that he would have done better to wait for a special one. "I saw some beautiful scenery," was the visitor's remark, "as I came to-day by the upper road." "You will see still finer," was the reply, "as you go back to-morrow by the lower one."

—Shares in the Boston Music Hall command a premium of 450 per cent.

—A paper advertises for "girls for cooking." We like 'em best raw.—*Camden Herald.*

—Minneapolis and St. Anthony having been made one, the Boston Traveller says the former is now only Mrs. Minneapolis.

—At a recent Florentine ball a lady wore a low-necked, stiff waist, and dispensed entirely with any trace of material over the shoulders.

—Mr. Whitemore of Fitchburg points proudly to the fact that he cut off his index finger and then stuck it on again in time to save it.

—A Wisconsin editor was called out of bed one night to receive a subscription. After that he sat up nights for a week, but the offense wasn't repeated.

—A Louisville grayhound recently ran on the ice on Beargrass Creek, circled several times around a hole, and finally plunged into it and was drowned.

—A jovial husband and wife in Rutland, Vt., had a race the other day, in separate turnouts, through the principal streets. The lady came in a chignon ahead.

—Arizona Territory does not owe a dollar, and has $3,313 in the treasury. The most of the counties in the Territory, it is said, are almost free from indebtedness.

—Practical—Hopeful: "Will breakfast soon be ready, mamma?" Mamma: "Yes, my dear." Hopeful: "Well, papa, you might say grace just now, to save time."—*Punch.*

—The report of the public library directors at Newburyport shows that institution to be on a good foundation. The building fund has increased to $6000, not more than a quarter of the interest being needed for repairs.

—There are, fellow citizens, in this land of ours, at this high tide of civilization, 5,660,074 persons over ten years old who can neither read or write. We are indebted to the National Commissioner of Education for the figures.

—Mrs. Woods of Millersburg, Holmes county, Ohio, is driving a good business with the aid of the liquor law. She has recovered $36,000 from dealers who have sold liquor to her husband, and the old man still sticks to the saloons. It pays.

—In San Francisco the fact has been developed that a number of Chinese merchants have married white women, and the white women are generally of Irish birth. In Australia and New Zealand, also, many white women, nearly all Irish, have taken to themselves husbands of the Chinese persuasion.

—We are apt to mistake our vocation in looking out of the way for occasions to exercise great and rare virtues, and by stepping over the ordinary ones which lie directly in the road before us. When we read, we fancy we could be martyrs; and when we come to act, we cannot bear a provoking word.

—At a warehouse in Macon, Ga., recently when a bale of cotton was being sampled, the gimlet was drawn out and, instead of cotton, an old wool hat was attached to it. The sampler stood and bored for some time, hoping to reach the African who had it on, but at last accounts had not "struck ile".

—John S. C. Abbott has given the world some rather curious biographies, but the climax of all is his last effort to set Nero right. He has discovered that that gentleman did not fiddle during the burning of Rome, because he did not know how, and because he was nearly a hundred miles away from the conflagration.

—A Lafayette lover sealed himself on a barrel turned on its side, while serenading his heart's mistress. In his ecstacy he rolled the barrel over, slammed his guitar against a shutter in his efforts to regain his balance, and disappeared in the cistern. The bubbling cry of the strong swimmer in his agony brought out the entire family, including the bull dog, in various brief and picturesque costumes, ranging all the way from an elaborate robe de nuit and curl papers worn by the innocent cause of it all, to a simple yet serviceable collar, ornamented with spikes, worn by the bull dog. P. S. He was fished out.

NEW ADVERTISEMENTS.

WHAT TO READ
AND HOW TO READ,
Being classified Lists of Choice Reading, with appropriate Hints and Remarks, have been added to the General Reader, to Sub-editors, and to persons intending to form collections of Books. 1 vol. 12 mo. 132 pages. Price, 25 cents. Sent free by mail on receipt of the price. D. APPLETON & CO., Publishers, New York.

CATARRH
Cannot be cured by snuffs, washes or local applications. It is a weakness of the constitution, developing itself in the nasal passages. Ulcers, attended with throat and lungs, ending generally in Consumption, if not checked by proper remedies. Pains in loins, kidneys, bladder and weakness of kidneys, are its attendant diseases. More people have Catarrh than any other disease. It is easily cured. Thousands of cases, some of twenty-five years' standing, have been entirely cured in New Hampshire the past two years by the *Constitutional Catarrh Remedy.* Certificates to back the above sent free upon application to SUTTLEFIELD & HAYES, proprietors and druggists, Manchester, N. H. Price, $1 per bottle.

175 AGENTS WANTED,

LEPTANDRIN.
Epilepsy or Fits.
A SURE CURE for this distressing complaint now made known in a Treatise (of 48 octavo pages) on Foreign and Native Herbal Preparations, published by Dr. O. PHELPS BROWN, Jersey City, N. J. The prescription was discovered by him in such a providential manner that he cannot conscientiously refuse to make it known, as it has cured everybody who has used it for Fits, never having failed in a single case. The ingredients may be obtained from any druggist. A copy sent free to all applicants by mail. Address Dr O. PHELPS BROWN, 21 Grand Street, Jersey City, N. J.

CURE FOR
FEMALE WEAKNESS.
The Proprietor of this valuable Medicine, while suffering from a female complaint some twenty years ago, was cured by an Indian recipe, from which she prepared one for her own use, which resulted in a cure. Many of her friends have used it with equally gratifying success, and have urged her to introduce it to the public, that her fellow-creatures, for the relief of suffering humanity to do so, and for her part she cannot but feel that it will prove one of the richest blessings to her sex. This purely vegetable remedy—entirely vegetable—will not injure the most delicate constitution, but is congenial to nature, as no opiates are not used, unless any consultation, or the application of Caustic. It will eradicate all Humors, which is one cause, in many cases, of great suffering. Its renovating effects are extraordinary, without a change in diet, and hundreds will testify. Three bottles will convince the most skeptical of its surprising properties. Its effects are wonderful in the Relief and Cure of the following diseases:—Prolapsus Uteri, Nervous Debility, Weakness of the Back and Limbs, Dyspepsia, Palpitation of the Heart, Depression of Spirits, Irregularities, Change of Life, Whites, Dropsical Affections, Biliousness, Inflammation of the Kidneys, &c. Prepared solely by MRS. LINUS SELCHER, Randolph, Mass. *Send for Circular.* Sold by all Druggists, at $1.00 per bottle.

THE CLAIM OF SUPERIORITY
Is often made for
ARTICLES OF GENERAL USE,
But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.
After a long and thorough test of
BOOTS AND SHOES
FASTENED WITH
CABLE SCREW WIRE,
These goods were pronounced by the patentee, to be
THE BEST
In the market for Pliability, Durability, and Economy. This claim has received
Full Endorsement
From Manufacturers! From Dealers! From Consumers!
Testimony as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.
Cable Screw Wire goods are peculiarly adapted for our uncertain winters, on account of their Water proof qualities.
Every pair from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with this most excellent of all fastening.
WARRANTED NOT TO RIP.
EVERY ONE BEARS THE PATENT STAMP.
Sold by all Leading Dealers.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or fashion or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,
All others being copied from its first model. does two-thirds the sewing done in this country, and preserves its advantages over all others combined.
It is readily kept clean, and HAS THE BEST TENSION EVER INVENTED; it is lighter speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

Pruning Trees.

The following article copied in the Horticulturist from the Oneida Circular is full of common sense about the pruning of fruit trees:—

There are different minds as regards the best time of year in which to perform the operation of pruning. Some recommend summer, some fall and others winter as the best time; and still others and perhaps the largest class adhere to the old method of spring pruning, doubtless for the reason that it is found to be the most convenient time of the whole year. A light pruning as the topping off of small branches and cutting away of sprouts may no doubt be performed with safety at any time of the year. But in case of heavy pruning and the cutting away of large branches, we regard spring as the worst time in which to perform the operation; for the reason that the sap then being in its most active state, a serious derangement of the functions of growth is brought about, which becomes manifest later in the season by the multitude of sprouts that shoot forth, and the forcing of the fruit spurs into an unnatural growth of wood, at the expense of the usual formation of fruit buds; and the result in many instances is an entire failure of the fruit crop the following season.

But this is by no means the extent of the mischief that is frequently brought about by injurious pruning at this season of the year when wounds are made in a tree in the spring of the year by the lopping off of large limbs the sap flows through the pores and ferments, causing the parts to turn black; the wounds do not readily heal over and in the course of two or three years rot commences and extends to the trunk and main branches and sooner or later the trees go to decay. The case is otherwise when pruning is performed at the proper time of year. The surfaces of the wounds soon dry and become hard and when not very large generally heal over before rot commences even when no covering is applied. Still, all wounds caused by shaving off limbs more than two inches in diameter, should receive a proper covering. But the better way is to so manage our orchard while the trees are young that the lopping off of large branches in after years will seldom be found necessary. However when orchards have been neglected and considerable pruning is found necessary we have in our twenty-five years of observation and experience come to the conclusion that all things considered, fall is the best time to prune, say from the middle of September to winter; beginning with the trees that are not in bearing or that have yielded their crops for the season, and finishing after the fruit crop has been gathered.

The advantages of pruning at this season of the year, in preference to others, will appear from the fact that after growth has ceased, and the tree gone to rest, the functions of growth are less liable to be disturbed by the operation; the wounds readily dry and become hard, and consequently are less liable to decay and sprouts will not be found troublesome the following season. The business may also be continued during winter in mild weather when there is no frost in the wood.

The following compound we have found to be the best and most lasting covering for wounds, viz.; rosin, 1 lb.; tallow, 1 oz.; alcohol, 5 oz.; spirits turpentine, 1 tablespoonful. Melt the rosin and tallow together over a fire. Then remove and add the turpentine and alcohol, turning in the alcohol slowly and stirring briskly, being careful not to have the rosin too hot as the alcohol may take fire (should such a thing occur smother with a board or woolen rag). Stir the mixture until nearly cold then turn into a wide-mouthed bottle and keep corked when not in use. Apply the cement in a thin coating with a suitable paddle, when the alcohol soon evaporates and the cement becomes as hard as the wood itself and will remains on the wood for years. A good coating of common paint will also answer a good purpose.

—An irritating story of a bank teller is now told in the newspapers. He lived in Hartford, Conn., and having saved a good deal of money, retired, bought a fine farm, stocked it, and went to live upon it like a financial Diocletian. The directors of his bank were so pleased that they voted him thanks and a money gratuity; whereupon he went to their next meeting, and calmly informed them that he had made his little pile by speculating with the funds of the bank; and he also cautioned them to keep a good look-out for his successor, who might not be so successful as he had been.

—A correspondent writes: "To see Niagara, you buy eleven silk dresses for your wife, and six shirts for yourself. You then get all the ready money you have, borrow all your friends have, and make arrangements for unlimited credit at two or three good solvent banks. You then take six trunks, some more money, a nurse, a colored servant some more money, and then, after getting some more money, and extending your credit at one or two more strong banks, you set out. It is better, if possible, just before you leave, to mortgage your homestead and get some more money."

AYER'S HAIR VIGOR
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.
Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and in pleasant to behold. DR. AYER's consummate skill has produced an article for these deformities, which has won gratitude from hundreds of men and women. HAIR VIGOR sometimes reproduces lost hair; invariably restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER's HAIR VIGOR for renewing the hair. The fresh and youthful hair we see in older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.
As an elegant dressing for beautifying the Hair, it has no superior.

AMERICAN & FOREIGN PATENTS.
R. B. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Research made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."
"MR. R. B. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."
Boston, Jan. 1, 1872.—1 yr.

Ayer's Cathartic Pills,
For all the purposes of a Family Physic,
CURING
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,
Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

JURUBEBA.
IT IS NOT A PHYSIC.—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the
LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.
Dr. Wells' Extract of Jurubeba
is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints
JURUBEBA
is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w f20
JOHN Q. KELLOGG, 18 Platt St., N. Y.,

The Daily Chronicle,

Portsmouth, N. H.

FRIDAY, MARCH 8, 1872.

An Infamous Plot.

The unscrupulous Democracy, through the chairman of the Democratic state committee, are sending instructions to their leading men in all the Republican towns in the State to rally in full force at the opening of the polls on Tuesday next and elect their candidate for moderator before the Republicans have assembled in sufficient numbers to prevent it. This accomplished, the meeting is to be immediately adjourned for TWO DAYS, thus defrauding the Republicans of their votes on the State ticket and preventing the election of Representatives! Let Republicans everywhere be on the alert, not only to prevent this particular fraud, but any others which the scheming unprincipled democracy may have planned.

A Good Example.

The Republicans of Merrimack have had a chronic quarrel on hand for a long time, and though they had thirteen majority last March on the Governor vote they were unable to choose a Representative. This year each wing of the party nominated a candidate for Representative with the understanding that the two should draw lots for the nomination. Mr. Ward Parker was the successful man, and Dr. Greeley, his opponent, acquiesced and counselled his supporters to aid in electing Mr. Parker. The result will be the gain of a Republican Representative next Tuesday. The action of the Merrimack Republicans is an indication of the intention of the Republicans throughout the State to win at the coming election.

State News.

One evening last week, a fire broke out in the residence of Hon. Wm. B. Small at Newmarket. It originated in a collection of soot in the dining room fire-place, and when discovered, late in the evening, was burning fearfully fast. Mr. Small dispatched some one for an axe, rushed to the chamber above, seized his almost suffocated little daughter, carried her into fresh air, then cut an opening from above and had water poured down upon the rapidly rising flames.

On the 6th, in Exeter, Judge Clark, of the U. S. Circuit Court, converted fifty aliens into full-blown citizens.

Political.

The Boston Advertiser says Officer Penniman arested Charles H. Gove for the larceny of $41 from Lyman Howe. He confessed the larceny, and stated his reason for so doing was to obtain funds to defray his expenses to New Hampshire, where he intended to vote the Democratic ticket next Tuesday.

The Concord Monitor makes an excellent point thus: "When you see in the Democratic papers column after column of flaming editorials about an alleged sale of arms to France, just bear in mind that the same journals had nothing to say about a *proved theft* of arms in vast quantities by the Democratic administration of Buchanan for the use of the Democratic rebellion."

Everett Fletcher, Esq., of Lancaster, a prominent young Democrat heretofore, has renounced Democracy and will vote the Republican ticket next Tuesday.

The Republicans of Strafford County promise 700 to 800 gain next Tuesday.

MAINE LEGISLATION.—The recently adjourned legislature of Maine passed laws taxing the dividends in Savings Banks one and one-half per cent. and limiting the dividends of these banks to 6 per cent. A large number of Railroad charters were granted. There seems to be a slight hitch in the progress of the construction of the Portland & Ogdensburg Railroad; the Portland tax-payers want to know the probable cost of going through the White Mountain region by rail. But Portland is sanguine. There are persons who believe that the construction of the Portland & Rochester road, for example, will facilitate the habit of Maine merchants visiting New York, instead of buying at Portland; but a genuine Portlander with his high-heeled boots will have you believe that bye and bye New York is coming to Portland to buy her goods! No wonder the New York Importers wish to transact their Custom House business cheaper in view of the exodus of their business.

—It is folly to call the joys of childhood the greatest. They are like the earliest flower of spring, the crocus, lovely and richly-tinted, but small and scentless. It is summer that brings forth flowers of matured splendor and fragrance.

NEW YORK TOWN ELECTIONS.—Chatauqua county elects 20 Republicans to 6 Democratic Supervisors; last year, 19 Republicans, 7 Democrats. Herkimer county, 13 Republicans, 6 Democrats; last year, 9 Republicans, 9 Democrats, 1 Independent. Onondaga county, 19 Republicans, 8 Democrats; last year, 18 Republicans, 9 Democrats. St. Lawrence county, 31 Republicans, 2 Democrats; last year, 29 Republicans, 4 Democrats. Broome county, 13 Republicans, 6 Democrats, one vacancy—same as last year. Jefferson county, 16 Republicans, 10 Democrats; last year, 17 Republicans, 9 Democrats.

A GREAT FIRE at Cincinnati destroyed seven more steamers and their cargoes, Wednesday night. Loss $250,000

NON-EXPLOSIVE.—Early Sunday morning the Bangor Whig says a lady residing on the East side, went into the room of her mother (who was sick and unable to leave her bed) with a kerosene lamp, which she attempted to place on the mantel over a hot air-tight stove. Her mother speaking suddenly, startled her, and she dropped the lamp, which, striking on the stove, broke into a thousand pieces. The oil ignited with a flash like gunpowder, and flew over the floor in every direction, covering an area of several yards with fierce flames Fortunately none of the fiery stuff fell on the lady, as if it had she must inevitably have been seriously, if not fatally burned, being clad only in cotton night-clothing. Her screams brought her husband to the room, and he was providentially able to smother and extinguish the fire before any great damage was done.

—With the approach of the Chinese New Year, residents of the interior of California commence to take extra precautions about their hen-roosts.

WE OFTEN REGRET the absence from our city of its younger men who leave Portsmouth in such numbers, but we are overglad to chronicle their success in other cities. In the list of Boston houses advertised in our paper, to-day, the card of Messrs. Fernald & Co., Importers of Cloths, appears. Two members of the firm, Fred. A. and Albion W. Fernald are well known throughout this vicinity as worthy representatives of a name that gave added credit to Portsmouth when Piscataqua-built ships floated on every sea and rated second to none. Woolen goods are made a specialty, in their choicest grades, and dealers will find it advantageous to inspect the stock of our energetic young townsmen.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS, DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

Particular attention given to Hair Cutting and Coloring. m3 1m

BUSINESS NOTICES.

There are probably a hundred or more persons in this and neighboring towns, who daily suffer from the distressing effects of kidney troubles, who do not know that *Johnson's Anodyne Liniment* is almost a certain cure. In severe cases, great relief may be obtained, if not a perfect cure.

We notice that the Agricultural papers all over the country recommend the use of *Sheridan's Cavalry Condition Powders.—Exchange.*

Farmers and others in this section have long known and appreciated the advantage of these powders over all others.

THOUSANDS will bear testimony (and do it voluntarily) that VEGETINE is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer." dw&s

HOLLOWAY'S PILLS.—The blood is the very essence of health and life. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is the apparatus—the arteries the distributors, and the intestines the channels, by which the waste matter is carried off. Upon the stomach and bowels, these medicines act simultaneously. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, anathemas against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

SPECIAL NOTICES.

Periodic Disorders.

The paroxysmal maladies which are characterized by heat and cold, prevail extensively at this season, and it is a curious fact that in many parts of the country where they are prevalent, other diseases, that bear no general resemblance to fever and ague, or remittent fever, assume a periodic type. Thus, in many sections infested with chills and fever, rheumatism, neuralgia, hysteria, diarrhœa, etc., sometimes become intermittent, thereby indicating that they have been engendered by the same poisonous exhalations which produce the first named disease.

In all these *mixed cases of ague*—for such they are—as well as in the regular intermittents, the most safe and reliable remedy that can be administered is HOSTETTER'S STOMACH BITTERS. Neither quinine nor arsenic are needed. Both are in the highest degree dangerous, and are sure to leave seed traces of their poisonous action in the system, whether they arrest the paroxysms or not. In many instances all the so-called specifics of the "regular" materia medica utterly fail to "break up" intermittent and remittent disorders But the great vegetable Tonic never fails. The spasm of the minute blood-vessels which causes the chill, is the result of nervous weakness, produced by the debilitating operation of an unwholesome atmosphere, and the tone and vigor given to the nervous system by the Bitters, enable it to throw off the disease. The wiser policy, however, is anticipate attacks of this nature, by arousing all the latent energies of the body at the commencement of the moist and chilly season, with this incomparable antidote. By pursuing this course, intermittents, remittents, rheumatism, colic, biliousness, dyspepsia and pulmonary affections may always be prevented.

CARTER'S ATWOOD BITTERS.

BY BYRON DEWOLFE.

R. I. Barrell he can tell you
Of the Bitters of renown,
Famed for curing suff'ring people!—
Famed in city, hamlet and town!
O, how many smiling people
Throughout Christendom will say:
"We've been cured by Atwood's Bitters!
Oft we've grieved, but now we're gay!"

Some unprincipled, mean fellows,
Far too low to blush for shame,
Went to selling Bitters spurious,
Putting on them Atwood's name!
Carter makes the "Atwood Bitters,"
Makes the real, makes the true!—
Barrell travels, telling of them,
Selling many bottles too!
Barrell looks in good condition,
May his prospects not be dim,
Carter's famous "Atwood Bitters"
Oft have benefitted him!

Grocers and Apothecaries,
'Tis my duty here to tell,
Keep the genuine, remember,—
Keep them in each town to sell!
Ask for Carter's "Atwood Bitters,"
Carter's o'er the world renowned,
At your grocers or your druggists,
Carter's Atwood Bitters may be found.

BATCHELOR'S HAIR DYE.

Notice—L. Blumauer & Co.
One Column from Rowell & Co.

Laconics.

Three schoners drifted from the moorings in the lower harbor and were carried out to sea by ice on Thursday, while the crews were ashore. One of them has been recovered.

We regret to learn from the Manchester Union that Miss Georgie Dame, sister of Mr. B. F. Dame, (formerly a school teacher here) is dangerously ill of paralysis of the brain and will probably not recover.

The family of J. Woodman Moses, Esq., have been dangerously ill for several weeks and the cause is believed by some persons to be poison from water passing through galvanized iron pipe. Dr. Jackson of Massachusetts analyzed some of it and detected the presence of four grains of oxide of zinc to every gallon of water.

Says furious Billy, in big capital letters, "let us have a fair election or none at all." Fancy the "war's" fearful action when he appears at the polls and demands his "rights."

The Eastern Railroad Company are about to extend their depot in Newburyport some forty feet, to accommodate trains.

Our old friend D. Horace Holman was one of the successful candidates at the recent municipal election in Lewiston, Me.

Republican ward meetings this evening for the selection of candidates for Representatives to General Court—at the various ward rooms; in Ward One at 7 o'clock; in Ward Two at 7:30; in Ward Three at quarter before 7.

The only surviving member of the first Legislature of Maine, from York county, is Hon. Mark Dennett of Kittery, who is now living in the enjoyment of his mental and physical powers in an unusual degree, at the advanced age of 85 years.

Among the most popular visitors to Portsmouth, Delehanty and Hengler have taken the lead and to-night the unrivalled twain appear again, but not alone, for they now give two distinct and first-class shows in one, by combining with Spaulding's Swiss Bell Ringers, making eighteen performers. The Bell Ringers, alone, will give pleasure enough to pay for the sum asked for admission.

One of our Ward Three Republican subscribers, referring to our lament over the worn-out condition of the national flag which is sometimes thrown to the breeze from Liberty Bridge flagstaff by the copperheads of that ward, says he cannot imagine how it should get so "played out," as its coppery custodians have ever been most careful of it and were particularly careful not to wear it out during the rebellion by hoisting it in honor of Union victories.

Come to Time, Billy.

The local Democratic organ says "a gentleman of this city hearing that a lot of machinery was to be transported from the navy yard to Charlestown, offered the authorities a vessel to take it there at three dollars a ton. The officials having it in charge have just completed a contract with one of the 'Ring' whereby about five dollars per ton is paid for the same work. This is the way we are being robbed by government officials. The full details of the affair are to be taken in charge by Congressman Hibbard."

Congressman Hibbard is of about as much importance in public matters as the redoubtable editor of the hand organ aforesaid. As for the charge made we believe it to have been coined in the sanctum of the aforesaid editor. If it is true, give us the names of the parties concerned in the transaction and let's investigate the matter. Such vague charges, Billy, will not be believed without proof. Just give us the names of the "officials" aforesaid or be convicted of originating another falsehood!

Says Farmer Higgins

"I don't understand it. Here is the Democratic Blower saying Grant and his relations are stealing every blessed dollar they can lay their hands on. According to the Blower editorials, printed in the plainest of type, everything is going to destruction, and the only possible hope of the country is in the immediate overthrow of Grant and his minions," But Farmer Higgins says he "always found it a good way to read his paper through, column by column, and not skip about any. You see you kind o' get the sense of it, and besides you don't need to buy so many papers;" and he has noticed that "in about every fourth number of the Blower" he finds "in some little out of the way place in small type, that Secretary Boutwell's monthly report shows a FURTHER REDUCTION OF THE PUBLIC DEBT OF TEN OR TWELVE MILLION DOLLARS."

Farmer Higgins says he "don't understand it, and he wishes the Blower to explain whether Grant and his relations, besides 'stealing' everything else, are 'stealing' ten or twelve millions of the Public Debt every month, or whether they take all this money they are 'stealing' to pay off the Public Debt, or whether the Secretary lies every time, or whether the Blower is only blowing."

Farmer Higgins also "wonders if it is true that 'the Democracy of New Hampshire reprobate the use of money in elections,' and if so, what that Democratic office-seeker meant, when two Rye men called on him and asked 'what are you going to give us for our votes?' by telling them to 'go to Joe Foss—he's the one that's looking out for Rye?'"

A Great Man.

Have we a great man among us? We don't think there can be much doubt on the subject. "Some are born great, some achieve greatness, and some have greatness thrust upon them." We do not know of how much greatness Congressman Hibbard was possessed when he commenced business as a unit in the census, nor are we aware that he has achieved—or is likely to achieve—any very oppressive amount of greatness during his brief career as a misrepresentative of New Hampshire in Congress; but he cannot help it if greatness is thrust upon him by the local Democratic organ, and from the pompous manner in which that paper announces the wonderful things Congressman Hibbard has done (or *intends* to do) we have no doubt that "the man who set the Thames on fire" has been discovered at last. One day we are gravely informed that Congressman Hibbard has "requested that Hon. Daniel Marcy or some other well known and responsible Democrat" be allowed to run this Navy Yard; then we learn that "Congressman Hibbard has sent a note officially (!) to the Secretary of the Navy" concerning the management of Navy Yard matters here, and that he "intends to bring the matter before Congress for an inquiry;" in another paragraph we find that this same wonderful Congressman Hibbard "effectually drew the Secretary of the Navy in the trap he set for him;" and a late issue of the Democratic hurdy-gurdy closes a distorted and false account of a government business transaction conducted by a naval officer—a gentleman whose integrity is above suspicion—with the statement that "the full details of the affair are to be taken in charge by Congressman Hibbard."

Who *is* this "Congressman Hibbard," anyway? We knew that an accident of that name occurred in this State last year, but we did not imagine it was of any very remarkable consequence; but from the terror which our copperhead neighbor evidently imagines goes with the doughty Congressman's name, we are convinced that he must be a copper gun of the very heaviest calibre. We are not certain whether our cotemporary is holding "Congressman Hibbard" up as a scarecrow for the Republicans of this vicinity or for the Secretary of the Navy—and it does not matter which, for he will scare one just about as much as the other—but we think Secretary Robeson should be furnished with a few marked copies of Congressman Hibbard's private official organ, as the Secretary can have no proper idea of the Congressman's immense consequence and it is too bad the former should be left in total ignorance of the importance of the great man who proposes to run the Navy Yard in the interests of the Democratic party or else to "take charge of the full details of the affair" and "bring the matter before Congress for an inquiry," "officially."

A Good One.

The Dover Enquirer tells the following good joke on William H. Hackett, Esq., of this city:—

The new President of the Eastern Railroad and a lawyer in Portsmouth are said to resemble each other so much as to be constantly mistaken one for the other. Mr. Lothrop made a speech at the recent meeting of the stockholders, and the next day a stockholder in Portsmouth warmly congratulated the Portsmouth counsellor on his successful oratory, declaring it was one of the best speeches he ever heard him make. Recently the Portsmouth lawyer, while in the depot at Portland, was accosted by a man, who asked him for a season pass over the P., S. & P. R. R. "On what ground do you ask this?" enquired he of Strawberry Bank. "Why," said the other, "I keep a refreshment saloon at Saco, and can influence some business, and have a barrel of ale come over the road twice a week. The Boston & Maine send a pass, and if I had one from you I could get from the Junction over your road." "I don't think the conductors here would honor my pass greatly," returned our N. H. friend, "if I give one." "What!" says the bar keeper, "aren't you President of this road?" "Not much," was the reply. "Well," said the other, "one of the men here said you was Mr. Lothrop, and I'll be darned if I can see the difference; but if you are not, I suppose I shall have to pay from the Junction."

Salaries of Teachers.

BOSTON, March 5.

Eds. Chronicle:—I have seen of late in your paper, considerable about school affairs; and when yesterday I received the City book I turned at once to the school reports and read them carefully through. From this examination I have formed the opinion that some of your teachers in the Primary and Intermediate schools must have most angelic dispositions, for never in any city but dear old Portsmouth (my native town—I love it dearly) could such inequalities of salaries be tolerated. Leaving the Haven school, which is graded and under one principal, you have 11 intermediate and primary schools. For the benefit of those who have hitherto not given the matter much attention, just allow me to copy the list:—

		Average attendance.	Salary.
Franklin Intermediate		38	$400.00
Hanover St.	"	77	466.66
Academy	"	44	300.00
Manning	"	76	650.00
Bartlett	Primary	81	350.00
"	"	61	350.00
Franklin	"	53	325.00
Cabot Street	"	100	668 75
Peabody	"	52	300.00
Cabot Street Intermediate. Asst. Teacher,		88	250.00

The principal of the latter school has evidently been recently appointed, and I cannot tell what his salary would be. Reading over this list one gets the impression certainly either that some of your teachers are very incompetent—which the report of the Chairman does not warrant—or that gross injustice is being done to "tried and faithful" teachers, as $300 or $350 to teachers of primary schools, which all who take interest enough in such matters to investigate will admit are in one way the most difficult schools of all, seems a miserable pittance in a city which pays nearly $5000 to teachers of a High school whose average attendance is 165, and whose committee now asks another assistant; not that $5000 is too much, but $300 is too little. Verily, you are teaching your young women economy—almost to starvation point—especially if they have any one dependent upon them, which is not an unusual thing with teachers. In concluding, let me entreat my old fellow townsmen to look into this matter and deal *justly* if not *liberally*.

Yours, J. F.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policie in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - $7,000.
At the end of 15 years, - - - - 14,000.
At the end of 20 years, - - - - 20,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - $173.30
Or, at the end of 20 years, of - - - 647.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,
Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Equitable Life Assurance Society,

AUCTION SALES.

SALE OF ENGINE HOUSE
Tanks, Woodshed, &c.,
AT EASTERN RAILROAD STATION.

I will sell at Auction on

SATURDAY, MARCH 9th, AT 12 M.

at the Eastern Railroad Station, by direction of the Superintendent, the old ENGINE HOUSE, including the tanks and all material therein excepting the brick in the pits and iron rails, also the Wood Shed with sliding door east of the Engine House. All of which must be removed by the buyer before the first day of April, without disturbance of the business of the road over the main track. Every facility will be afforded by the employees of the company for the removal of the material by platform cars to the space north of the Station. Return tickets good for that day only will be furnished those attending the sale on application to the buyer. For further particulars inquire of CHAS. ANNABLE, Station Agent, or

New Publications.

Blackwood's Edinburg Magazine, (Am. reprint,) for February has the following list of contents: French Home Life, No. IV.—Food; A Century of Great Poets, from 1750 Downwards, No. V,—Robert Burns; Serpent-Charming in Cairo; The Maid of Sker. Part VII; Quinet's "Creation;" An Educational Experiment in Yorkshire, and The Reasonable Fears of the Country. Leonard Scott Pub. Co., 140 Fulton Street, New York. $4 per year.

Lee & Shepard have sent *Fireside Science*, written by Dr. Nichols and published by Hurd & Houghton. The book is filled with useful articles on topics of which the following are samples:—Fertilizing Agents, Hair Oils, Air Furnaces, Dry Batting, The Stove-Pipe, Quicksilver, Rebreathed Air, Saratoga Springs, Human Friction Matches, Iron in the Blood, What is Water, Water in Milk, What to use for Water-pipes, The Color of Clothing, Artesian Wells, Hot Springs, Chemistry of a Hen's Egg, etc. For sale by J. H. Foster; price $1.50.

A CHANGE has occurred in the management of the Union Pacific Railroad. Hon. Horace F. Clark, Vanderbilt's son-in-law, has been chosen President; John Duff, Vice President; E. H. Rollins, Treasurer and Secretary; and H. B. Wilbur, Auditor.

JOHN IN CINCINNATI. — This is out West, but there is a wester out West than this is, nearer the aurora, &c. Niagara is a roarer. Before I left Cleveland I bought a grain elevator for fifteen cents. I took it with me. A drink of whiskey is a grain elevator. There are two kinds of whiskey; one is good and the other isn't good. I have discovered that the globules in bad whiskey are the shape of a triangle, and it is the sharp corners that scratch the throat in going down. The globules in good whiskey are round and don't hurt. *Query*—How would you examine Irish whiskey? Answer—With a Mike-rye-scope, of course. Some whiskey is called heather. A fellow drank a quart of it the other day and hasn't been seen since.

I came here by rail, and if I hadn't come, I would have left here on a rail. It is foul play to eat chickens and turkeys in Ohio. Here hens lay to set, and sit to lay. In New York Hen Smith means a male man. Out here they call a female turkey a Hen Turkey because they don't know any better.

On the way here I stopped to dine. I had turkey. It was awfully tough, and they carved it with a hammer. I conversed on the subject of tough turkeys with a saddle-rock native. Says he, "do you see that yellow house?"

Says, I "I do".

"Well," says he, "The man that lives there doesn't live there now; he resides in the State prison."

"What for?" said I. Then he said it happened this wise: "You see last Thanksgiving that man wanted some turkey. He had one that he had adopted and raised from a child, and a week before Thanksgiving he commenced to try to kill it. Every day he'd take his rifle and shoot that turkey for an hour, until one day an officer came along and arrested him." "On what charge?" says I. "There were two charges," says he, "one was in the gun, and the other was for making counterfeit coin." "No?" said I. "Yes," said he. "You see, stranger," said he, "these bails would strike on that turkey's hide and flatten and fall off, and the boys picked them up, and passed them for five cent pieces, and he couldn't prove an alibi, so he went to prison."

I gazed into the liquid depths of that fellow's mild blue eyes, and says I, "Stranger I know but one thing tougher than that turkey." "What's that?" says he. Says I, "the story."

A PRACTICAL JOKER DISCOMFITTED.—Chas. Farren, a young gentleman employed in one of the manufacturing establishments of Lafayette, Ind., went home to his boarding-house at a late hour one night lately, and thinking to give his landlady a sensation, marked his face in spots with red keel. He walked into the sitting-room and had taken a seat by the fire before the spots were noticed. The landlady, all absorbed, looked up from her work in a moment, and noticing the spots on his face, asked, in evident alarm: "Why, Charlie, what on earth is the matter with your face?" "Don't know," replied Charlie, "but guess it is only varioloid." Then occured a scene better imagined than described. The landlady was at first paralyzed with horror, but recovering in a moment, she rushed to the door, opened it quickly—"Get out of this mighty quick," said she. "Get out!" she screamed at the top of her voice, and, deaf to all expostulation from poor Charlie, she hustled him out without his overcoat. In a moment she opened the door and kicked his overcoat and cap out, as though afraid to touch his clothing with her hands. Charlie stood out in the cold, completely bewildered with the unexpected turn affairs had taken, when he heard a window raised, and a gentle voice called him by name. "Here, Charlie, here is your trunk!" There was a plunge in the snow, and, sure enough, there was Charlie's new trunk, with all his sure clothes and personal effects. The practical joker sought the first sheltering roof at hand, but first took precaution to wash his face in the snow.—*Springfield Republican.*

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are we have made very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,
All others being copied from its first model, does two-thirds of the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

SEVEN LENTEN SERMONS on Psalm LI.
A GOOD REPORT, or Lessons for Lent.
ROSARY FOR LENT, or Devotional Reading.
For sale by JOSEPH H. FOSTER.

SLATE COATING,
Patented August, 1871.
In offering this article to the public, we supply a need which has long been felt. It is especially adapted to
Shingle and Tin Roofs. (Old or New.)
IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.
Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is
Extremely Cheap.
Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years, and for a Slate Coating over Shingles (Old or New) it has been found unequaled. It is also an excellent coating for School Black-Boards.

The Chronicle.

UNPRINCIPLED REVENGE.—A friend and myself got on board an express train one afternoon to make a short trip. The car we entered was full. Only one vacant seat, in fact, and that was along-side of a very charming young lady. Friend and I each made a dash for that very desirable vacant seat. It isn't a fair thing to do, as a general thing, to trip a friend, but it was allowable under the circumstances, and I gave him just the slightest trip in the world, just enough to give me the start of him and to obtain the coveted seat. My friend took a seat on the wood box, and looked disconsolate enough. I think I added to his discomfiture by certain triumphant nods, winks and motions in which I indulged. The young lady was attractive, and some casual remarks dropped on one side or the other—young folks will drop a remark occasionally, and are more ready to pick it up again than old ones—afforded an opportunity to glide easily and pleasantly into conversation.

She was witty and sprightly and I grew unusually brilliant; that is, to the best of my recollection at this somewhat remote day. My friend observing this looked madder than ever. At length we reached a station where the train stopped a moment. My friend abdicated the wood-box and rushed out on the platform. Suddenly he returned, and coming quickly to me seized me by the collar and said in a tone heard all over the car:

"Quick, now; get off here. You can get a job here just as well as not. They tell me there is only one shoemaker in the place, and lots of work. So take your kit and get off before the train starts. No use of looking any further for work. Tramping all around the country for a job of shoemaking won't pay. Take work where you find it. That's my motto."

He almost forced me out of the seat with his vehemence, and if I hadn't made a vigorous resistance he would have had me out on the platform. The young lady gave me one look of supreme disgust—a tramping jour. shoemaker!—then directed her gaze out of the window, and kept it there for the remainder of the journey. My friend remounted the wood-box, and indulged in such a series of fiendish grins and malignant chuckles as would have justified me in hurling him from the car, only I was too stupefied by the proceedings to proceed against him. When I left the car the young lady looked to see if I hadn't forgotten my "kit," and I am satisfied she thought I had got off to "kick for a job" as they say in shoemaker parlance.—"*Gils" in Exchange.*

WHEN DO MEN DIE?—Medical experience proves that in chronic diseases, the greater number of deaths occur just before dawn. This is eminently true of brain disease, and of all those related cases where deaths result from an exhaustion of the vital power through overwork, excessive excitement or nervous prostration. It is at the hour of five o'clock in the morning that the life force is at its lowest ebb, and succumbs most readily to the assault of epilepsy, or paralysis, or of the fatal lethargy that comes in those vividly beautiful picture-dreams, for which medical science has as yet found no name, and of which it has taken not sufficient cognizance.

Nine-tenths of those who die in this way expire in their sleep. In many such cases, if a friend were at hand to waken the sleeper when the attack comes on, or if he were to awaken by some accidental noise, he might, by the use of a few simple precautions, prolong his life for many years; for the shock which proves fatal to the man wrapped in deep sleep, when the system is passive and relaxed, would be victoriously repelled were it armed with its waking energies.

Men who do brain work, and who are on the shady side of forty, should be on their guard against this enemy. They should beware of five o'clock A. M., for it is a perilous hour. Do you find yourself unable to sleep, when you retire for the night, exhausted with your day's work? Do you, in vain, turn from one side to the other? Does your brain persist in working when you would fain have it rest? Do old saws, and scraps of rhyme, repeat themselves in your memory in wearysome iteration, defying your utmost efforts to silence them? Then, I say to you, beware! You will be sure to sleep at last. It is only a question of time; for, soon or late, nature will assert her rights.

—A western paper thus flies to the vindication of the "Juke":—"Prince Alexis is not an enfant terrible. He hasn't sowed any wild oats at all—nary oat, in the course of his tour through our country. He did not even touch a drop of "red-eye," when a guest of Spotted Tail shooting buffaloes on the plains. No more did he flirt with the young ladies on the Mississippi."

—The Sacramento, Cal., Grand Jury, in their report on the County Jail, says: "We would recommend the removal of the jailor, P. McGowan, for taking prisoners out and strolling around the city with them in dead hours of midnight, leaving the control of the jail to one of the prisoners."

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Diseases of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and improprieties in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption has followed, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The countenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 *per Bottle, or* 6 *Bottles for* $6.50.

The Daily Chronicle,

Portsmouth, N. H.

SATURDAY, MARCH 9, 1872.

Democratic Frauds.

Unless indications are at fault, the vote on Tuesday next will be one of the largest ever polled in the State. In regard to the alleged frauds, the Republican State Committee have what appears to be reliable information that frauds are being practiced by the Democrats on the check lists of no less than nineteen towns in the State. This, they say, indicates a well-arranged plan to carry the election by underhand manipulation, and that they have abandoned all other hope. The following is a list of the towns in which these practices are said to be beyond question: Greenland, Weare, Northwood, Franklin, Littleton, Northumberland, Haverhill, Loudon, Deerfield, Goffstown, Rumney, Canaan, Lancaster, Brookfield, Henniker, Hillsborough, Bedford, Nashua and Wakefield. The evidence in these cases seems undeniable, and the Republican committee makes the assertion positively and without qualification, Mr. Sinclair's card to the contrary notwithstanding. It only remains to be seen whether these attempts at foul play will succeed according to the evident intentions of those who are supposed to instigate them.

THE FRENCH ARMS INVESTIGATIONS are now fairly under way. Secretary Belknap was before the Senate special committee, Thursday, and Major S. P. Benet, of the ordnance department, before the House committee. Senator Schurez has taken a seat with the Senate committee, Senators Hamlin and Carpenter announcing a determination to have a thorough investigation. Nothing was elicited connecting any officer of the government with any illegal or corrupt transaction whatever, by either Senate or House committees.

GARVEY THE PLASTERER is in New York. A special to the Boston Advertiser says a tremendous sensation was created on Thursday afternoon at the trial of Mayor Hall by the sudden appearance of the man who can prove Mayor Hall's guilt if any man can—Andrew J. Garvey himself, the notorious courthouse plasterer, the receiver of stolen money on the vouchers signed by the mayor, who was supposed to be well out of the way in some far-off land. The lawyers were debating quibbles in the dreariest fashion, and the proceedings were progressing without exciting the slightest interest, when Mr. Tremaine, the leading counsel for prosecution, said to the court officer quietly, "Call Andrew J. Garvey."

A look of astonishment passed over the face of everybody present, and the court loiterers smiled, supposing that the name was called as a mere matter of form, and a point was to be made by the showing that he had fled; but the officer went to a side-door and upon opening it Garvey appeared, looking pale and frightened, in answer to the call, and a murmur of astonishment ran through the room. The wonder caused by this sudden appearance was almost as great with the mayor as with the rest of the assemblage, but he soon recovered from his astonishment. Hall's counsel could not, however, so easily control themselves, and seemed to be completely staggered by the sudden apparition, their confusion lasting during the whole afternoon's proceedings. Garvey advanced towards where the witnesses sit while testifying.

Here he stood for some time with his hand resting on the bench, his look bewildered and hesitant. When he was called upon to give his evidence he was so excited that it became necessary to stop for a short time, and at his request an officer brought him a glass of water. He detailed the intimacy which had existed between Tweed, Connolly, Hall and himself during a number of years; also the presentation of the bills to the mayor, their passage, payment and the depositing of the money in the Broadway Bank by himself to his own credit. He was then asked whether he considered the claim an honest one or not, when his answer was stopped by an energetic discussion between the counsel.

During the excited debate, Garvey seemed to recover from his confusion, and when it was closed he appeared quite calm, smiling pleasantly at his friends as he met their eyes among the crowd. The closing of the court stopped the discussion and the novel adjournment allowed persons to move about. No victory of the reformers has been so great as the capture of this man, who can pin these four famous thieves. Hall's counsel will make a desperate effort to prevent the admittance of his testimony. Connolly has fled, and Tweed and Sweeney will soon follow.

Political.

Judge Davis has accepted the Labor Reform nomination for President.

There was an immense workingmen's meeting held in Manchester, March 7, in Smyth's Hall. The speeches were made by Thomas F. Bourke and Colonel A. E. Costello. O'Donovan Rossa was announced but failed to make an appearance. The speakers professed to be entirely independent of either the republican or democratic parties, but discussed the tariff question, strongly favoring protection and a high tariff on all imported articles of foreign, and particularly of English, manufacture. Threats and defiances toward England, usual with Irish orators, were indulged in on the occasion.

Every ballot counts either for Straw or Weston. If you vote the "Temperance" ticket you give the benefit of your franchise to Mr. Weston. You cannot scratch your ticket and be a consistent, effective Republican. Every scratch is a joy to the Democrats, and the Temperance ticket is a feast of delight in every grog shop and bar room in New Hampshire. So far is it from accomplishing the desired end, that it only takes the power from the best friends of the cause, and gives it to that party which will gladly nullify all that has been in past years accomplished for the cause by legislation.

IT IS REPORTED that several changes in the diplomatic representation of France will shortly be made. A despatch received in Paris from the French minister in Berlin announces that the Emperor William has pardoned all the French prisoners still held by the Germans for civil and military offences.

DEATH FROM COAL GAS.—One man, a plasterer named Richard Barry, 20 years old, was killed and three others seriously injured by the inhalation of coal gas in a close room at 79 Cabot Street, Boston, during the night of Wednesday.

THE DEFICIENCY APPROPRIATION BILL, including the amendment providing for the full payment of government workmen who have received wages for only eight hours' labor a day, passed the U. S. House of Representatives on Thursday.

KU-KLUX.—The Attorney-General has received official information of the conviction of fifteen parties at Huntsville, Ala., charged with being Ku-Klux. Three of them were sent-ced to 20 years imprisonment in the Albany penitentiary.

ALEXIS.—When Alexis was received in Cuba none of the foreign consuls were invited to participate in the ceremonies, and in consequence their is considerable indignation among foreigners in Matanzas.

SLIGHT ACCIDENT AND CONSIDERABLE FRIGHT.—An accident occurred on the Eastern Railroad on the midnight train leaving the station at Biddeford Saturday night. A locomotive bringing one of the day passenger trains was injured in some part of her gear on one side, but not to completely disable her. She was attached to the train leaving Boston at 8 o'clock, preceded by another engine, and the trip as far as Biddeford was without incident. Upon departing from that station to cross the Saco river going to Portland, it was deemed advisable by the cautious conductor to send the iron horse over the bridge first. On starting with the crippled engine a violent jerk broke the coupling between the Pullman and the passenger car before it. The train was signalled to stop, which was done. Owing to the momentum, accelerated by the down grade, which the detached sleeping car received, it was impossible to prevent its forcibly bunting the car before it. The Pullman was uninjured, with the exception of bending its guard and throwing out of order its patent coupling. The shock of the car it collided with was startling. The lights were put out and broken; the passengers greatly shaken up, and one lady so frightened that she fainted. The platform of this car was so stove up it had to be left at Biddeford, where another car was procured and the train passed on, arriving in Portland a little behind time, but with no further damage. None of the passengers were injured.

ANOTHER ARGUMENT.—If any other argument than has already been advanced, was necessary to prove the need of a postal telegraph system in the hands of the government, it might be found in the recent attempt of the Western Union Company to secure higher rates for messages sent to the Signal Service Bureau. This department has proved itself of general utility to the public and of special value to the merchant marine service of the country. It has, in short, become necessity to the country, and the Western Union Telegraph Company was aware of this in making this latest demand. Such a proceeding is in keeping with its previous history; its way always having been to take the fullest advantage of the monopoly it possesses. This time it has overstepped the mark. We were not surprised when it attempted to block the wheels of the War Department on the 4th of March, 1871, because then it had nothing to gain at the bar of public opinion, or nothing to lose in the estimation of the government. But we are surprised that at this time it should make new demands, when the friends of the postal-telegraph system are making use of every argument in its favor, and only needed such evidence of greed as this to place the adoption of that system beyond a doubt.—*Globe.*

—Sherman's march to the Sea—his visit to the Pope.—*Lowell Courier.*

—The tight little I(s)le—Kerosene, always on a bust.—*N. O. Times.*

—In ancient times it was the human figure which gave shape to the dress. Now-a-days it is the dress which gives shape to the figure.

BUSINESS NOTICES.

There are probably a hundred or more persons in this and neighboring towns, who daily suffer from the distressing effects of kidney troubles, who do not know that *Johnson's Anodyne Liniment* is almost a certain cure. In severe cases, great relief may be obtained, if not a perfect cure.

We notice that the Agricultural papers all over the country recommend the use of *Sheridan's Cavalry Condition Powders.—Exchange.*

Farmers and others in this section have long known and appreciated the advantage of these powders over all others.

HOLLOWAY'S PILLS.—The blood is the very essence of health and life. It furnishes the components of flesh, bone, muscle, nerve and ligament. The stomach is the apparatus—the arteries the distributors, and the intestines the channels by which the waste matter is carried off. Upon the stomach and bowels, these medicines act simultaneously, 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, anathemas against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every grave-yard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

VITALIZE THE HAIR.—Why does the hair become harsh and dry—why does it fall out—why does it become gray? Simply because the life has gone out of it. The fibers draw sustenance from the scalp as the grass draws aliment from the soil, and when the supply of nutriment is cut off in either case the product withers and dies. At the first symptom of decay, therefore, the unfed or half-fed roots of the hair should be refreshed and reinforced with LYON'S KATHAIRON, the only preparation which will nourish the filaments and keep them in a vigorous condition after they have begun to suffer from a deficiency of their natural stimulant. As long as the Kathairon is faithfully used, with a proper degree of friction, morning and evening, so long will it be impossible for the hair to whiten or fall out from the scalp.

SPECIAL NOTICES.

Periodic Disorders.

The paroxysmal maladies which are characterized by heat and cold, prevail extensively at this season, and it is a curious fact that in many parts of the country where they are prevalent, other diseases, that bear no general resemblance to fever and ague, or remittent fever, assume a periodic type. Thus, in many sections infested with chill and fever, rheumatism, neuralgia, hysteria, diarrhœa, etc., sometimes become intermittent, thereby indicating that they have been engendered by the same poisonous exhalations which produce the first named diseases.

Inall these *masked cases of ague*—for such they are—as well as in the regular intermittents, the most safe and reliable remedy that can be administered is HOSTETTER'S STOMACH BITTERS. Neither quinine nor arsenic are needed. Both are in the highest degree dangerous, and are sure to leave sad traces of their poisonous action in the system, whether they arrest the paroxysms or not. In many instances all the so-called specifics of the "regular" materia medica utterly fail to "break up" intermittent and remittent disorders. But the great vegetable Tonic never fails. The spasm of the minute blood-vessels which causes the chill, is the result of nervous weakness, produced by the debilitating operation of an unwholesome atmosphere, and the tone and vigor given to the nervous system by the Bitters, enable it to throw off the diseases. The wiser policy, however, is to anticipate attacks of this nature, by arousing all the latent energies of the body at the commencement of the moist and chilly season, with this incomparable antidote. By pursuing this course, intermittents, remittents, rheumatism, colic, biliousness, dyspepsia and pulmonary affections may always be prevented.

CARTER'S ATWOOD BITTERS.

BY BYRON DEWOLFE.

R. I. Burrell he can tell you
Of the Bitters of renown,
Famed for curing suff'ring people!—
Famed in city, hamlet and town!
O, how many smiling people
Throughout Christendom will say:
"We've been cured by Atwood's Bitters!
Oft we've grieved, but now we'regay!"

Some unprincipled, mean fellows,
Far too low to blush for shame,
Went to selling Bitters spurious,
Putting on them Atwood's name!
Carter makes the "Atwood Bitters,"
Makes the real, makes the true!—
Burrell travels, telling of them,
Selling many bottles too!
Burrell looks in good condition,
May his prospects not be dim,
Carter's famous "Atwood Bitters"
Oft have benefitted him!

Grocers and Apothecaries,
'Tis my duty here to tell,
Keep the genuine, remember,—
Keep them in each town to sell!
Ask for Carter's "Atwood Bitters,"
Carter's o'er the world renowned,
At your grocers or your druggists,
Carter's Atwood Bitters may be found.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine WM. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET, N.Y.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free, in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. d3m d23

VEGETINE.—The conviction is, in the public mind as well as in the medical profession, that the remedies supplied by the *Vegetable Kingdom* are more safe, more successful, in the cure of disease, than mineral medicines. VEGETINE is composed of roots, barks and herbs. It is pleasant to take, and is perfectly safe to give to an infant. Do you need it? Do not hesitate to try it. You will never regret it. 6

DR. SAGE'S CATARRH REMEDY is no Patent Medicine humbug gotten up to dupe the ignorant and credulous, but is a perfect Specific for Nasal Catarrh, "Cold in the head," and kindred diseases. 580.

LOCAL AFFAIRS.

A Lie Exposed.

The organ of the Portsmouth Democracy on Thursday contained an exposure of another "gross fraud," made up, as usual, of a large amount of falsehood on a small foundation of truth. As we were confident that the gentleman attacked would stoop to no dishonorable act, and that the charge of robbing the people was made on as slender grounds as is usually sufficient to cause the copperhead editor to set up an outcry, we published in Friday's CHRONICLE the following request for an explanation:—

The local Democratic organ says "a gentleman of this city hearing that a lot of machinery was to be transported from the navy yard to Charlestown, offered the authorities a vessel to take it there at three dollars a ton. The officials having it in charge have just completed a contract with one of the 'Ring' whereby about five dollars per ton is paid for the same work. This is the way we are being robbed by government officials. The full details of the affair are to be taken in charge by Congressman Hibbard."

Congressman Hibbard is of about as much importance in public matters as the redoubtable editor of the hand organ aforesaid. As for the charge made we believe it to have been coined in the sanctum of the aforesaid editor. It is true, give us the names of the parties concerned in the transaction and let's investigate the matter. Such vague charges, Billy, will not be believed without proof. Just give us the names of the "officials" aforesaid or be convicted of originating another falsehood!

The copperhead editor on Friday evening gave the following facts—as valuable and reliable as his "facts" usually are—in answer:—

It is a small affair in these days of big swindles, but we will state that Mr. Putnam, purchasing paymaster in the navy, received a proposition to transport a lot of machinery to Charlestown for $3 per ton, from a responsible party. Competent judges estimated its weight at 50 tons. The job was given to other parties for $250. These are the simple facts of the case which we give for the information of the organ.

Now for the "facts of the case." Paymaster Putnam, disbursing agent at this Naval Station, an officer of the strictest integrity and a man of shrewd business qualifications, against whom no man ever dared utter such charges before, made thorough investigation before awarding the contract, and finally secured a vessel whose master we have since learned is a Democrat; and the contract was made and business all closed before the copperhead editor mentioned it at all. The price paid for the transportation of the machinery is $2.12 per ton, 88 cents per ton less than was offered by any one else. The statement that $5 per ton was awarded is false. The machinery was estimated by three competent persons at the Navy Yard to amount to 100 tons, (it will probably reach 118 tons,) which at $3 per ton would have amounted to $300, as freight would have been paid on the estimated amount. Now let's see if Billy has manliness enough to apologise for the base slander he has circulated.

We have only to add that the gentleman who offered to take the freight at $3 per ton, and from whom Billy probably obtained his "startling statistics," was Mr. John E. Rider.

Copper Thunder.

Quite a large audience of Democrats gathered in the Temple on Thursday evening, to hear Richard Brinsley Carpenter of South Carolina relate the sins of omission and commission of the Republican party and the tyrant Grant. Unfortunately for Richard Brinsley there is some trouble with his record down South, the ghost of his career preceding and confronting him wherever he undertakes to speak. Here is a portion of the ghost, in the shape of an extract from the South Carolina Daily Union: "If there be anywhere on earth a broken-down, cast-off, unprincipled, characterless, desperate, gambling politician, it is Richard Brinsley Carpenter. At the close of the war, he foisted himself upon the confidence of Chief Justice Chase, to a sufficient extent to induce that benevolent gentleman to appoint him to the office of Register in Bankruptcy, in Charlestown, S. C. We know his character and his conduct; and when the people of New Hampshire know them, his standing there will be as it is here—beneath the contempt of all men who value personal integrity and honor, or who seek purity and uprightness." The honorable Judge had to clear up this little matter before he made his "great argument," which clearing up he did much easier, we fancy, than he would had the editor of the South Carolina Daily Union been present. Having "laid" this ghost he proceeded to business.

He commenced by saying that he was not an enemy to President Grant, (a fact which should, if possible, be kept from the knowledge of the President, as it would doubtless hurt his feelings were it made known to him,) but was displeased with him as an Executive of National affairs. Elect a Democratic President unless you want another civil war, for that is what will result if Gen. Grant is re-elected. [Deafening applause.] During the first half hour of his speech the bootleel chorus came in whenever he finished a sentence, without the slightest regard for propriety, and became so annoying that the speaker very wisely suggested the matter of refraining from any demonstrations of approval, until he had completed his "great argument," as he termed it. We have said that the applause was regular at the close of the utterance of a sentence. We are wrong. One or two remarks were made, at the close of which a tomb-like silence reigned, which fact has a peculiar significance. For instance, the orator in defining his political position said that "he was glad slavery was abolished, [no response,] and there was not one man in five hundred in the Southern States who was not as glad as he was." (Mentally doubted by the Vice Presidents on the stage—no response.) Again: "I did my best to help crush out the most gigantic rebellion the world ever saw, [no response,] and now do you suppose that after subverting the miserable traitor, Jefferson Davis, [ample opportunity for boot-heels, but silent as the grave,] I intend to submit to the dominance of the tyrant Ulysses S. Grant?" [Thundering applause.] These were about the only instances where there was any discrimination by the owners of the boot-heels. *Judge* Carpenter had better make his arrangements to stump Maine next Fall,—which he probably will not do, however, as his character is too well known there, as he stumped the First District of Maine for the Republicans four years ago, and at the same time gave the residents of that locality an opportunity, by his conduct, to corroborate the uncomplimentary description of his character by the S. C. Union on one point at least, if not on all.

City Council.

In Board of Aldermen, March 7, bills were reported by the Committee on Accounts amounting to $2528 47, which were ordered to be paid, including a bill for 1000 feet of hose. The pay-rolls of the fire companies were ordered to be paid April 1.

A remonstrance was received from Frank Jones and 72 others against "the proposed expenditure for embellishing the outside of the Brick Market."

It was voted to have new seats and desks for the First Division of the Haven schools, and the Committee on School Houses were authorized to make an alteration in the lower story of the same building.

There was a short session.

The Caucuses

In Wards One and Three, Friday evening, were well attended but were soon over, Messrs. Horton D. Walker, John H. Hutchinson, George W. Pendexter and John Pendar being unanimously renominated in Ward One, Messrs. William H. Rollins and John H. Morrill being chosen in Ward Three.

In Ward Two the caucus was very large and much interest was shown, there being ten or a dozen tickets in the field and plenty of scratched names. The whole number of votes cast was 366; necessary for a choice, 184. John H. Broughton had 271; Charles Robinson, 239; John Knowlton, 215; and John E. Giddings, 195—and the four gentlemen named were chosen.

Laconics.

Gen. Harriman will address the citizens of Portsmouth this (Saturday) evening, at the Temple, at half-past seven o'clock, on the political issues of the day and the present State campaign. All who enjoy and wish to hear a rousing speech are invited to be present.

Major Hackett will sell by public auction this day, Saturday, at the Eastern Railroad Station, the old engine house and wood shed at the station. See adv't.

Messrs. John H. Bailey & Co. advertise a large lot of Hardware, Paints and Oil, at the lowest market rates; and those in want of anything in their line will do well to look over the extensive and first class stock kept in store at No. 16 Market Street, before making purchases elsewhere. See adv't.

The Ball of the Six Jolly Associates did not come off on Tuesday evening last, as proposed, owing to the unusually cold weather, but it is to take place on Tuesday evening next, March 12, rain or shine, in Irving Hall. A full quadrille band will be present.

A Republican suggests that the political principles of the New Hampshire copperheads must be in a very shaky condition, when the leaders are obliged to import a carpet-bag journeyman Carpenter from South Carolina to reconstruct them; another Republican thinks the carpet-bag Carpenter came here in the hope that Capt. Marcy and Congressman Hibbard would give him a job on the Navy Yard.

James Taylor's Comic Opera Troupe are advertised to appear at the Temple on Tuesday evening, March 12. They are said to give a good entertainment, but we do not think they have ever appeared in this city.

At the Festival of the ladies of the Methodist Society, held in Congress Hall on Wednesday and Thursday evenings, a silver water-cooler was voted to Hon. E. A. Straw, who had 256 votes to 136 for Gov. Weston.

The promotion of Commander William W. Low of this city, to be Captain in the Navy has been confirmed by the Senate.

An unusual quantity of ice accumulated in our harbor in the cold weather of this week. On Wednesday evening at 10 o'clock, the space between Newcastle and the Shoals was so covered that the water could not be anywhere discovered. The ice broke up with the turn of the tide at 10 1-2 o'clock, the current carrying it away to sea. A schooner lying at Clark's Island was carried out with the floating ice. Two boats were also carried away beyond the Shoals, but were rescued by the tch. Willie Seavey, which went in pursuit early Thursday morning. The people of Newcastle had great difficulty in keeping their boats from being carried away on Wednesday, and the Willie Seavey was on that day carried by the ice from the town wharf, where she was moored, to Fort Point. It is said there has not been so much ice in the harbor for fifty years, at least. At about that time a Mr. Bell is said to have walked out on the ice and washed his hands in the channel of the river, a feat which no other person dared attempt.

....The North Hampton and Stratham Choral Society are to join the great Jubilee Chorus.

....We understand that Mr. H. C. Barnabee has engaged the Temple for an entertainment April 4th.

....Hen-roost thieves have been at work on the outskirts of this city. In one case eleven fowls were taken.

....The Mechanic Fire Society had their quarterly supper at the National House Friday evening, March 1st. Mr. E. M. Brown, Clerk, being the host of the evening.

....An agent of Lent's New York circus has been here the present week prospecting for their annual show. They will visit this city May 9th, coming here from Newbury port.

....Came Brothers are to have a large carriage sale April, 3d and persons at a distance who intend visiting their repository as purchasers will be granted free return tickets.

....A quantity of heavy iron tools are now making at the Navy Yard, to be used in the construction of the new torpedo boats which Government is about to build. A portion of them will be sent to the Charlestown Yard.

....The "Rogers Mission Circle" connected with the North Parish will hold a sale at their Chapel on Middle St. Wednesday March 15th. Rooms open at 3. in the afternoon and 6 1-2 in the evening. Admission, adults, 25 cts., children, 15 cts.

.... Schooner M. G. Reed, Jamieson, with crew of nine men, brought into this port on Saturday about 4000 pounds of fish, valuing nearly $250. This small vessel has done unusually well through the present season. A large quantity of the fish brought here is sent to the Boston market. There are seven fishing vessels running from this port now.

....It will be seen by the new advertisement of the Rockingham Ten Cents Savings Bank, that it made a change in its system of deposits, so that deposits go on interest hereafter on the first day of every month, and deposits made during the first three days of each month will draw interest from the first day of that month. The bank has prospered beyond the anticipation of its founders.

....One day recently the firm of Geo. Tompson &Co discharged from schooner Wm Rice, by means of their elevator 6800 bushels of wheat and corn. We learn that the flour mill introduced by the enterprise of this firm is a complete success, the flour of their manufacture being in great demand. The operation of the mill has necessarily been stopped during the cold season, but it is to start immideately on the return of moderate weather, and will turn out about thirty barrels of flour a day.

Barn Burned.

A barn on Broad Street and South Road, near Lincoln Hill, owned by Mr. James Miller and occupied by Mr. A. Pearson, the well known music teacher, was burned on Friday night, with all its contents, including a mare, wagon, sleigh, harness, tools, and a quantity of hay. "Dolly," the mare burned, was well known about the city, having been driven by Mr. Pearson for a number of years; she was a tough, reliable little animal, and her owner was much attached to her; and his fervent aspirations for the future welfare of the "firebug" who burned her are not open to any suspicion of insincerity. Mr. Pearson was awakened shortly before midnight by smoke, and the barn was then thoroughly on fire inside, a few hens in a coop built against the end being the only things he could rescue; and after the fire broke out he was well warmed while wetting down the end of the house from an attic window, Mr. Miller acting as fire department on the roof. The paint on the house was somewhat scorched, though no other damage was done to the building; but if the fire had occurred during the lately prevalent northwest winds, the house and all would have gone and the occupants might have considered themselves lucky if they had not gone too. The fire was undoubtedly incendiary, as no one connected with the family entered the building after dark on Friday, and Mr. Pearson has not used a light there since last summer. Insured about $600, on barn and contents.

DEATHS.

In Rye, March 6, Mrs. ANNA D. FULLER, daughter of Dea. C. W. Drake, aged 44 years, 10 months.

In Raymond, Feb. 20, Mrs. BETSY FOX, aged 75 years.

BOSTON LEAD CO.,

[INCORPORATED IN 1829.]

J. H. CHADWICK & CO., Agents,

Office 22, 24 & 26 Oliver St., BOSTON.

MANUFACTURERS OF

BOSTON PURE WHITE LEAD,

Dry and Ground in Oil,

DRY AND GROUND ZINC, LITHARGE, RED LEAD, LEAD PIPE, SHEET LEAD, TIN PIPE, TIN-LINE PIPE, IRON PIPE & FITTINGS, PUMPS, &c., &c.

Our Pure White Lead, both dry and ground in oil, we warrant to be **strictly pure**, and GUARANTEE that for *fineness, body and durability*, it is not surpassed by any Lead in the market, either foreign or American.

☞ In order to protect ourselves, we have adopted as our trade-mark an eight-pointed *red star*, with our corporate seal in the centre. This is on every package of our **Pure Lead.** None genuine without it. Tu Th & Sat 6 3m

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at **ORDINARY LIFE RATES**, Age 37, annual premium, - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid up Policy.

At the end of 10 years, - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - - $173.30
Or, at the end of 20 years, of - - - 647.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,
Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Morning Chronicle.

—Neal Dow has discovered that using tobacco is the great incentive to indulgence in strong drinks; another party, quite as sensible and honest as the doughty Portland brigadier, denounces the use of salt fish because it is a great provocative of drinking; and yet a third, who is quite as wise and disinterested as either of the other two, says he has never met with a person who was addicted to alcoholic excesses who had not, at some period of life—particularly in youth, when the system is most impressible—habitually used bread and butter.

—A Michigan gin mill keeper has this evasive arrangement: You put your ten cents on a spot marked "whiskey." the apparatus revolves, and directly you see a glass of whiskey standing before you, and you don't know, of course, who gave it to you, or how it came there.

SAVE YOUR LIFE

By promptly using WINCHESTER'S HYPHOSPHITES, a chemical compound preparation of PHOSPHORUS, one of the most important elements of the Human Body, and the only means by which the LIFE-GIVING and LIFE-SUSTAINING element can be supplied to the system. We guarantee it to be a certain CURE for COUGHS, COLDS, CONSUMPTION, and all Pulmonary Affections, and the Specific Remedy for SCROFULA, DYSPEPSIA, PARALYSIS, NERVOUS and PHYSICAL DEBILITY and all NERVOUS AFFECTIONS. It is unsurpassed as a TONIC and INVIGORATOR and generator of PURE and HEALTHY BLOOD. For further information, Testimonials, Reports of Physicians, &c., send for our TREATISE. Price, $1 per bottle. Sold by all Druggists. Address

J. WINCHESTER & CO.,

36 John St., New York.

SAVE YOUR CHILDREN.

Multitudes of them suffer, linger and die because of Pin-Worms. The only known remedy for these troublesome and dangerous of all worms is Children's Delight, Dr. Gould's Pin-Worm Syrup. Purely vegetable; sure death to all worms; a valuable cathartic, and beneficial to health. Warranted.

Price reduced to 50 cents per bottle.

GEO. C. GOODWIN & CO., Boston.

Profitable Employment

For one of two persons of either sex, in every town in the United States, by which they may realize from $300 to $1000 per year, with but little interference with ordinary occupation. If the whole time is devoted a much larger sum will be realized. Boys and girls can make nearly as much as grown people. Some making from $7 to $15 per week. For particulars, address *J. J. FARDWELL & CO.*, 767 Broadway, N. Y.

AGENTS Wanted.—Agents make more money at work for us than at anything else. Business light and permanent. Particulars free. G. STINSON & Co., *Fine Art Publishers*, Portland, Me.

U. S. Piano Co., N. Y. 1st class $200. No Agents. Names of patrons in 40 States in Circular.

To Advertisers.—All persons who contemplate making contracts with newspapers for the insertion of Advertisements should send to

Geo. P. Rowell & Co.

for a Circular, or inclose 25 cents for their One Hundred Page Pamphlet, containing Lists of 3,000 Newspapers and estimates, showing the cost of advertising, also many useful hints to advertisers, and some account of the experience of men who are known as Successful Advertisers. This firm are proprietors of the American Newspaper Advertising Agency,

41 Park Row, N.Y.,

and are possessed of unequalled facilities for securing the insertion of advertisements in all Newspapers and Periodicals at lowest rates.

THE CLAIM OF SUPERIORITY

Is often made for

ARTICLES OF GENERAL USE,

But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of

BOOTS AND SHOES

FASTENED WITH

CABLE SCREW WIRE,

Those goods were pronounced by the patentees to be

THE BEST

In the market for Pliability, Durability, and Economy. This claim has received

Full Endorsement

From Manufacturers!
From Dealers!
From Consumers!

Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.

Cable Screw Wire goods are peculiarly adapted for our sea-board winters, on account of their Waterproof qualities.

Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with his most excellent of all fastening.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of them are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speed and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

SEVEN LENTEN SERMONS on Psalm LI.

A GOOD REPORT, or Lessons for Lent.

ROSARY FOR LENT, or Devotional Reading.

For sale by JOSEPH H. FOSTER.

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years, and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Block-Boards.

ANOTHER STEP AHEAD.—City houses are to have a new "modern improvement," a new convenience, a new labor-saving and money saving contrivance, which will doubtless become as common and be thought as necessary as water and gas pipes, with a few years. It is nothing less than an application of the telegraph to a kind of co-operative housekeeping arrangement which will save a large part of servants' wages, servant's board, and servants' waste. A company has established itself in New York and Brooklyn, which proposes to run telegraph lines from offices to every house whose owner will pay a small sum annually. The city will be devided up into small districts, with an office in each, where thoroughly-trained errand-boys will be kept, and the house-keeper who may want marketing or other out-side service done, will have only to touch a key once to summon a boy, whose duty it will be to go wherever she may send him within the city limits —the company charging fifteen cents for each half-hour of his time. Two touches of the key will summon a policeman, and three will announce the existence of a fire on the premises. These are the present plans, to which, of course, other convenient arrangements will be added as experience shall suggest them.

—Mr. Thompson, of Gloucester, is the wittiest man of our House of Representatives, as he is also one of the ablest and best. Oftentimes, by a single sentence thrown in unexpectedly, he will spoil the most carefully prepared effort of an opponent. He is a vehement debater; and after a recent speech, to take him off, a fellow member began to reply by saying,—"Mr. Speaker? as soon as I can catch my breath I will"—"Mr. Speaker," interrupted Thompson, "I move the big fan in the basement be set in motion for the gentleman's benefit!" The fan is run by a steam engine to ventilate the building, and this sharp retort followed by a general burst of laughter, did really take the wind from the contending member. In the same manner, he one day turned upon a temperance orator, who said on the floor of the House that prohibition could be executed, and if we had a governor like Gen. Butler, with a single wag of his jaw, the liquor traffic would cease from Cape Cod to Berkshire. "What! Mr. Speaker!" screamed Thompson, "does the gentleman on his oath and honor mean to say that Gen. Butler would swallow all the rum in the State at one effort? Or, what does he mean by saying that "one wag of his jaw the traffic would cease?" The effect was such that the next fifteen minutes labor on that speech was breath wasted.—*Merrimac (Mass) Journal.*

FRIED OYSTERS IN A BOX.—Your correspondent took occasion to run down to Washington last week, and see that the affairs of the government were working smoothly. When we arrived at Baltimore a man entered the car and proclaimed:"

"Nice fried oysters, smoking hot!"

"What?" I asked inquiringly.

"Hot fried oysters in a box, just fried; twenty cents a box," continued the sable vender.

Indeed, thought I, that's a new idea; wonder if they're good. "Here, my friend and brother," I exclaimed, "give us the oysters fried." He held up his basket and we took from it the boxes of bivalves.

"Have you any pepper and salt?" I asked.

"Find 'em in the box, sir?"

"But I want some crackers, too."

"All in the box, sir." "Here's your nice fried oysters. Only a quarter a box," and he vanished into the next car.

Then I examined the elephant I had on my hands. You have seen boxes of French candy holding about a pound, havn't you? Well, these boxes of shell fish were just about the same size. On the bottom of the box—inside of course —was a layer of crackers, then came a layer of hot, fried oysters, and on the top of the oysters a nice sharp pickle, and in the corner of the box a little packet of salt and pepper. I would respectfully ask what could be nicer or more acceptable to a semi-ravenous person? It is almost worth a journey to the monumental city to see the "fried oysters in de box." By the way, this practice of putting up edibles in boxes is getting to be quite popular, and the card of one of our down town restaurants advising you to "Take home a quail in a box," now has a new and sensible meaning for me.

—A verdant young man who was looking into shop windows was rudely asked by the proprietor of a customerless establishment what he wanted. "I wanted to see what you sell here," replied the young countryman. "We 'sell' fools," was the response. "Well, you must do a good business, for you're the only one left."

BUCHU

[From Dispensatory of the United States.]

DIOSMA CRENATA — BUCHU LEAVES.

PROPERTIES.—Their odor is strong, diffusive and somewhat aromatic; their taste bitterish and analogous to mint.

MEDICAL PROPERTIES AND USES.—Buchu leaves are gently stimulant, with a peculiar tendency to the Urinary Organs.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate Gland, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections and Dropsy.

HELMBOLD'S EXTRACT BUCHU is used by persons from the ages of 18 to 25, and from 35 to 55, or in the decline or change of life; after Confinement or Labor Pains; Bed-Wetting in children.

In affections peculiar to Females, the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus.

DISEASES OF THE BLADDER, KIDNEYS, GRAVEL AND DROPSICAL SWELLINGS.—This medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcareous depositions and all Unnatural Enlargements are reduced, as well as Pains and Inflammation.

HELMBOLD'S EXTRACT BUCHU has cured every case of Diabetes in which it has been given. Irritation of the Neck of the Bladder and Inflammation of the Kidneys, Ulceration of the Kidneys and Bladder, Retention of Urine, Disease of the Prostrate Gland, Stone in the Bladder, Calculus, Gravel, Brick-Dust Deposit and Mucous or Milky Discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Diseases, Wakefulness, Dimness of Vision, Pain in the Back, Hot Hands, Flushing of the Body, Dryness of the Skin, Eruption on the Face, Pallid Countenance, Universal Lassitude of the Muscular System, etc.

HELMBOLD'S EXTRACT BUCHU is Diuretic and Blood-Purifying, and cures all diseases arising from habits of dissipation, excesses and imprudences in life, impurities of the Blood, etc., superceding Copaiba and other Nauseous Compounds.

Beware of counterfeits. Ask for Helmbold's. Take no other.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION. Established upward of 20 years. Prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist.

594 Broadway, N. Y., and 104 South Tenth St., Philadelphia, Pa.

SOLD BY DRUGGISTS EVERYWHERE.

MANHOOD

IN THE

Young and Rising Generation.

The vegetable powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it is fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

TRY HELMBOLD'S

EXTRACT BUCHU

For Weakness Arising from Excesses or Early Indiscretion,

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more dread, for fear of themselves; no repose of matter, no earnestness, no speculation, but a hurried transition from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON—WHICH THIS MEDICINE INVARIABLY REMOVES — SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients. Reason has for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths of Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appears. The counterenance is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound of the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguile."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

HELMBOLD'S

Fluid Extract of Buchu.

There is no tonic like it. It is an anchor of hope to the physician and patient. This is the testimony of all who have used or prescribed it.

Beware of counterfeits and those cheap decoctions called Buchu, most of which are prepared by self-styled doctors, from deleterious ingredients, and offered for sale at "less price" and "larger bottles," etc. They are unreliable and frequently injurious. *Ask for Helmbold's. Take no other.*

Delivered to any address. Describe symptoms in all communications.

Price $1.25 per Bottle, or 6 Bottles for $6.50.

HELMBOLD'S GENUINE PREPARATIONS. Established upward of twenty years. Prepared by

H. T. HELMBOLD,

The Daily Chronicle,

Portsmouth, N. H.

MONDAY, MARCH 11, 1872.

State News.

The Connecticut river at Claremont has been frozen this winter so as to allow teams to cross ever since the 15th of November.

The invalid soldiers of New Hampshire, and the widows and orphans of soldiers, receive annually from the United States treasury more than twice the amount of all the district taxes paid by the people of the State to the national government.

A Dramatic club has been organized in Nashua.

A man named McKenney, while at work on a planing-machine, on the 5th inst., at East Tilton, had his right arm so badly injured that amputation was necessary.

THE RING THIEVERIES.—On the trial of Mayor Hall, Friday, Mr. Andrew J. Garvey told a part of his story, the counsel of the Mayor having failed in their efforts to keep his mouth entirely shut. Not without frequent interruptions, he candidly admitted that the claim was a dishonest one. He said $50,000 were put into the account to pay for Tweed's expenses with the Albany legislature; also $126,000 worth of work done for outside parties. Of this, two houses were elaborately plastered and frescoed for Tweed and one of his friends in Connecticut; two houses were plastered for Walter Roche, vice-president of the broken Bowling Green Savings Bank; work was done in Norwalk, Conn., for Mr. Woodward, and work was done on the American club house at Greenwich, Conn. There were also added $5000 to meet his own [Garvey's] expenses during the fall political campaign. The bill was arranged before he had completed his work. He actually received but thirty-five per cent. of the amount drawn on his warrant. Thus he showed a complete system of robbery. He was about to explain by whose instructions and under what direction the accounts were made, when the counsel for the defence stopped him angrily, and a debate on points of law followed until adjournment of the court. Garvey seems determined to tell all he knows. If he is allowed to, the ring leaders can be convicted.

FUNDING THE LOAN.—Judge Richardson, assistant secretary of the treasury, has returned home. When he left for London he took $5,000,000 of the five per cent. funded loan, which he disposed of shortly after his arrival there, and such was the demand by European capitalists that during his eight months' stay in London he disposed of $71,000,000 more, making a total of $76,000,000. The assistant secretary has invested the whole proceeds in United States 6 per cent. 5-20 bonds, which have all been returned to Secretary Boutwell and conveyed into the Treasury. The business has involved a large amount of clerical labor in the receiving, recording and cancelling of bonds, to perform which some thirty-five of the most expert clerks of the Treasury department under the supervision of Mr. Bigelow have been steadily employed. The whole work has been completed and all the force has now returned to this country. The negotiation is believed to be one of the largest in the financial history of the country.

THE ERIE RAILROAD is likely to change hands. A bill has been reported in the New York assembly for this purpose. The agents of the English stockholders are among the chief conductors of the war against the ring. The bill reported in the assembly repeals the classification act as it applies to Erie, leaving it a law so far as the Central Railroad is concerned; provided that the directors shall be citizens of America. This ousts Gould and Company, and it is asserted gives Vanderbilt control of the road.

SLIGHTLY PERSONAL.—Referring to Connolly, of the New York "ring," the New York Tribune says:—"this thieving immigrant came out of a Philadelphia jail to take charge of our finances, held the keys of our wealth with hands bruised by handcuffs, for an obscure crime received a felon's punishment, and became a great party leader by the theft of a million in the open day."

FIRE.—The house of Capt. Joseph Bryant, of Machiasport, Me., was burned Friday morning, and Capt. Bryant, his wife and two grand-daughters, aged about 12 and 17 years, perished. Mr. Bryant was aged about seventy.

—Emigration from Alsace to Algeria is increasing, and is aided and stimulated by France.

SINCLAIR DENIES IT.—John G. Sinclair, chairman of the Democratic State Committee, publishes a card in which he denies that he has "instructed Democratic Selectmen to commit frauds upon the check-lists under their control; that I have assessed certain towns to make gains in this way, etc."

Nothing could give us greater pleasure than the publication of this card; and we hope the Democratic papers will all copy it, so that Democratic Selectmen may know it is authentic and binding. If Mr. Sinclair has not issued any such instructions, or if, having issued them, he hereby countermands them,—then a rousing Republican victory on Tuesday next is beyond a peradventure.

Mr. Sinclair offers us one thousand dollars if we will prove that he has given any such instructions. A thousand dollars is a great deal of money, to us; we never had so much at a time in all our life; and it would buy a great many things that we need. The temptation is great, but we resist it. No, Mr. Sinclair, after full reflection, we would rather have the Democratic Selectmen believe that you never issued any such instructions, and if they ever received such they were forged,—than to have a thousand dollars cash down. If we can establish a general belief among Democrats that this denial of Mr Sinclair is sincere and truthful, it will be worth a good many thousand dollars to the State.

Democratic Selectmen of Rumney, restore to your check-lists the names of Elbridge G. Kelley and William A. Kelley, together with those of whatever other Republicans you have fraudulently disfranchised. Mr. Sinclair never ordered the fraud; or if he did, he revokes the order.

Democratic Selectmen of Littleton, take from your check-list the names of H. H. Metcalf and the Boston drummers who only stop over night at Thayer's Hotel once a month or so. Mr. Sinclair did not order them to be put on; or if he did, he countermands the order.

Democratic Selectmen of Moultonboro', take off from your list the name of that Democrat who has lived and voted in Massachusetts for the past forty years, and who is now visiting his son-in-law in your town. Take off also whatever other Democratic names you have inserted under similar pretence. Mr. Sinclair did not wish it; or if he did, he has changed his mind.

Democratic Selectmen of Weare, you have stricken from your list the names of some well known Republicans who have lived and voted in your town for years. Restore them; you must have misunderstood your instructions.

Democratic Selectmen of Greenland, Northwood, Franklin, Haverhill, Deerfield, Loudon, Gilmanton, Canaan, Brookfield, Henniker, Lancaster, Wakefield, Hillsborough, Bedford, Stoddard, Ward Five Nashua, and Ward Three Portsmouth,—you are all laboring under a misapprehension. Either the instructions you are following were forged, or the latest General Orders from Headquarters have not reached you. Mr. Sinclair's last will and testament, which revokes all previous ones, is that you make fair and honest check-lists. Hear and heed!—*Concord Monitor.*

THE RAILROAD TO EPPING.—The new board of directors of the Eastern Railroad, are reported as expressing a determination to build the railroad from Salisbury to Epping, during the present year. The proposed road is one which will be of great advantage to this village, and the whole intermediate section. Connecting at Epping with the Concord & Portsmouth road, and also with the Rochester & Nashua road, upon its completion, it will very soon become one of the most important routes for travel in the great lines now connecting the East with the South and West. The building of this road will bring us in connection with all the lines of railroad in New Hampshire and Vermont, and on to Canada; will bring us in a direct line of communication with Worcester via. the Nashua road, and all the connecting lines of railroad to the Western towns of the State, and also to New York and the Great West, and on across the Rocky Mountains to the Pacific coast. To one who has not given serious attention to the proposed road, this may seem a wild statement. If such there be let him trace out upon the railroad map, the connecting roads, and the fact is apparent. Among all the proposed railroad projects, none promise such grand results as this to our own community, and the towns of Salisbury, Amesbury and Newburyport could afford to furnish a large part of the capital required in building it, as they voted to do, while the company most directly affected, through a timid and conservative policy, have deferred action until the appointment of a new board of directors.

To the Eastern railroad, with its extended connecting line touching the commercial towns along the whole coast of Maine, and even to St. John's, it is of immense advantage, and opens to them a direct line of communication from one end of the continent to the Atlantic seaboard, to the Pacific States. By this line the immigrants and travellers from the old world can reach the West and avoid the trouble and inconvenience incident to transportation across large cities. The road would secure a large amount of freight from different sections now monopolized by other lines, and could control a large amount of traffic. Will the new Board of Directors see the question in this light?—*Amesbury Villager.*

—It is said that the reason why there are so many Democrats in New Hampshire is that the Jackson white potato is a prominent article of food there.—*Boston Times.*

Another reason why there are so many Democrats in New Hampshire is because there are so many rat eyes.

—California munches new potatoes.

—Troops are concentrating in and around Paris as a precaution against trouble on the 18th, the anniversary of the Communist insurrection.

—A dispatch from Melbourne reports that the British sloop-of-war Rosario, Commander Palmer, shelled and destroyed a village inhabited by the murderers of Bishop Patterson.

—Because the editor of a Missouri paper declared that no jeering skeleton of regret mocks him from melancholy memory's topmost peak, he has received good notices in nine-tenths of the papers of the country.

—A Lewiston man, 71 years old, has never put foot in a railroad car, never put a letter in the post-office, never sent a telegraphic despatch, never was on salt water, and, as a matter of course, always voted the straight Democratic ticket.

—"Take it all around there is quite a good deal of information in this book.—I regret this very much, but really it could not be helped; information appears to stew out of me naturally, like the precious otter of roses out of the otter. I would it were otherwise, but the more I cork up the sources, and the tighter I get, the more I leak wisdom." *Preface to Mark Twain's New York.*

JOB AND CARD PRINTING.—We have made great additions to our job-printing facilities—a magnificent Hard Press (the largest in Portsmouth) new Display Type, borders of various sizes, &c.—and are prepared to execute job work with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, LABORBILLS, CIRCULARS, ORDERS, DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AT SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

There are probably a hundred or more persons in this and neighboring towns, who daily suffer from the distressing effects of kidney troubles, who do not know that *Johnson's Anodyne Liniment* is almost a certain cure. In severe cases, great relief may be obtained, if not a perfect cure.

We notice that the Agricultural papers all over the country recommend the use of *Sheridan's Cavalry Condition Powders.—Exchange.*

Farmers and others in this section have long known and appreciated the advantage of these powders over all others.

HOLLOWAY'S PILLS.—The blood is the very essence of health and life. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is the apparatus—the arteries the distributors, and the intestines the channels by which the waste matter is carried off. Upon the stomach and bowels, these medicines act simultaneously. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, southern air against the deepening lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

SPECIAL NOTICES.

Periodic Disorders.

The paroxysmal maladies which are characterized by heat and cold, prevail extensively at this season, and it is a curious fact that in many parts of the country where they are prevalent, other diseases, that bear no general resemblance to fever and ague, or remittent fever, assume a periodic type. Thus, in many sections infested with chills and fever, rheumatism, neuralgia, hysteria, diarrhœa, etc., sometimes become intermittent, thereby indicating that they have been engendered by the same poisonous exhalations which produce the first named disease.

In all these *masked cases of ague*—for such they are—as well as in the regular intermittents, the most safe and reliable remedy that can be administered is HOSTETTER'S STOMACH BITTERS. Neither quinine nor arsenic are needed. Both are in the highest degree dangerous, and are sure to leave sad traces of their poisonous action in the system, whether they arrest the paroxysms or not. In many instances all the so-called specifics of the "regular" pharmacopœia utterly fail to "break up" intermittent and remittent disorders. But the great vegetable Tonic never fails. The spasm of the minute blood-vessels which causes the chill, is the result of nervous weakness, produced by the debilitating operation of an unwholesome atmosphere, and the tone and vigor given to the nervous system by the Bitters, enable it to throw off the diseases. The wiser policy, however, is anticipate attacks of this nature, by arousing all the latent energies of the body at the commencement of the moist and chilly season, with this incomparable antidote. By pursuing this course, intermittents, remittents, rheumatism, colic, biliousness, dyspepsia and pulmonary affections may always be prevented.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET, N.Y.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. d2m d23

—Most of our society men have now adopted the very sensible plan of going to bed as soon as business is over, rising and dining at ten in the evening or thereabouts, and then going to whatever entertainment happens to be on hand, in first-rate condition for dancing all night.—*New York Mail.*

A Card—A. Pearson.

Last Grand Rally.

The Republicans will hold the closing meeting of the campaign at the Temple, this evening, at 7 1-2 o'clock There is no need to urge our friends to attend. The experience of Saturday evening is sufficient to lead all who wish to obtain good seats to go as early as seven o'clock. Judge Thomas Russell of Boston was a favorite orator here many years ago and we expect to listen to a polished address. The inimitable Farmer Allen is we believe a stranger among us, but he is well-known in other parts of New England as a powerfully convincing speaker, and possesses a vein of drollery that is just suited for this latitude. Ladies and their escorts are requested to take seats in the central sections. Harlow's Band will be present at 7 o'clock, and will give an instrumental concert until the speakers appear.

Gen. Harriman's Great Speech.

The Temple was crowded to overflowing on Saturday to listen to the eloquent and logical Harriman, as he showed up the utter rottenness of the Democratic party and the insincerity of its leaders, while vindicating the National administration against the abuse and slander that is being constantly hurled at it by those who are lusting for the position of political supremacy. The meeting was called to order by Mr. John S. Rand, who announced as President of the evening Hon. W. H. Y. Hackett who after a ten-minute speech introduced Ex. Gov. Harriman. It would be a fruitless task to attempt to do the gifted orator full justice except by a verbatim report of his remarks, and even this would be insufficient, as his sonorous voice, his rapid and unhesitating flow of words combined with a pleasing and effective manner of presenting his arguments, have much to do with the success which has been achieved in the campaign by this one of New Hampshire's most eloquent sons. Suffice it to say that the speaker rapidly reviewed all of the most important charges which the Democratic press of the country have brought against the Republican party and President Grant, successfully refuting them to the satisfaction of every reflecting mind. The most difficult question of the day, and upon which the Democratic party is about equally divided—that of the tariff—was squarely met and elucidated in a simple and yet forcible manner. On assuming the aggressive, Mr. Harriman removed the veil from the "new departure" policy of the Democrats and demonstrated in an amusing manner the cheat and sham of this new platform. He also showed up the hypocrisy of the Democrats in this State in their cries for retrenchment and reform by citing their doings of the past year, and comparing them with the administrations of the Republican party in previous years. During his closing remarks he predicted a majority of from one to two thousand for Hon. E. A. Straw, and a good working majority in the Senate and House. Altogether the meeting was one of the most enthusiastic and pleasant of this or any previous campaign in this city of which we have any recollection. At the close of Mr. Harriman's remarks, amid cries of "go on," the speaker proposed three cheers for Hon. E. A. Straw, which were given with a hearty good will.

Police Court.

In the Police Court, on Saturday, the Penniton boy, who was arrested for purloining certain articles of jewelry and wearing apparel from the Franklin and National Hotels a day or two since, was found guilty and sentenced to 5 months in the County House and pay costs of prosecution amounting to $8.04.

Edward P. Sargent was fined $10 and costs, the whole amounting to $18.04, for keeping shop open after 11 P. M., in violation of a city ordinance.

A Staunch Liar.

We knew Billy would not retract the slander in reference to the cost of transportation of machinery to the Charlestown Navy Yard; first, because he, a sneak, prefers to slander an honest officer of the United States Navy; second, because there is no manliness about him. He says we fail to show that he made an erroneous statement "except it be in regard to the weight of the machinery,"—which is another deliberate falsehood. He originally charged that the vessel was chartered for the job at $5 per ton. We replied that $2.12 per ton was the price paid, *and no more*. He says "competent men estimate it (the weight of the machinery) at 50 tons"—which is another deliberate repetition of what was at first a deliberate falsehood, for three competent judges estimated it at 100 tons before any vessel was chartered, and the instructions to the naval officer here whose duty it is to attend to such matters directed him to charter "a suitable vessel" to carry *not less* than 100 tons; and had the offer of Billy's friend to take it at $3 per ton been accepted and the estimate proved exact, $300 would have been paid for the transportation. Billy asks, "why don't they cause it to be weighed?" We will tell him; because they do not want to, as the weight already marked on each piece is sufficient, when the sums are added together, to give the total weight of the lot and to show that it was under-estimated by eighteen or twenty tons. But Billy's Congressman Hibbard will probably cause it to be weighed when he "takes full charge of the details of the affair,"—and we hope he will have better luck with his "startling statistics" than Billy does with his.

Again, he charges that "shins were kicked, coat-tails torn off" at the Republican Ward caucus in Ward Two. The statement is false, and the slanderer who wrote it knew it was false when he penned the lines. But the foregoing specimens are but faithful reflex of the mind of the Democratic editor, who lies from choice when truth would serve even his turn better. He could not even state the fact that the chairman of the meeting was so hoarse that he could not speak aloud, without making a lie of the statement by wording it so as to convey the impression that the hoarseness was occasioned by vocal exercises in the caucus,—when the copperhead editor knew perfectly well that the chairman was unable to speak aloud before entering the ward room, from the effects of a severe cold.

As a closing instance of the copperhead editor's reckless mendacity, we will mention that he says the Republicans a month ago talked of electing their ticket by "four or five thousand majority!"

Special Notice.

To "bosses" or "any person in authority in the Navy Department," greeting:—

Gentlemen:—You are authorized by the local Democratic editor, Congressman Hibbard's confidential clerk, to discharge Republicans if you so please; but you are solemnly warned not to discharge any Democrat, as your so doing will displease Congressman Hibbard and his clerk and your heads will at once roll into the basket at the foot of the Democratic guillotine. You are also "officially" notified by the copperhead editor that "the order of the Secretary of the Navy is that men employed on the navy yard shall not be interfered with by *any person in authority* in the navy department;" you will therefore not "interfere" with "men employed on the Navy Yard" for the future, by telling them what to do or how to do it, or by "docking" their pay for being absent from muster. If this general order of the copperhead editor and his Congressman is disobeyed, Congressman Hibbard will instantly "take full charge of the details of the affair" and "send a note officially to the Secretary of the Navy" whom he so "effectually drew in the trap he set for him," besides "bringing the matter before Congress for an inquiry,"—and Congressman Hibbard would delight to take off your official heads, though you might not think so from the manner in which he opposed the taking off the duties on tea and coffee, said duties having annually transferred $20,000,000 from private pockets to the national treasury, of which sum fully $19,000,000 was from the pockets of working men. Great is Congressman Hibbard, and William is his prophet. "Persons in authority in the Navy Department" will please take due notice, and govern themselves accordingly. Selah.

Laconics.

The engine house and woodshed at the Eastern Railroad station were sold at auction by Maj. Hackett on Saturday, Mr. Nathaniel Wiggin of Greenland being the purchaser. The engine house brought $147.50, and the woodshed $32.

The Delehanty, Hengler and Spaulding company drew the largest audience of the season at the Temple, Friday evening, in spite of caucuses and the excitement attendant upon the near approach of the election. Delehanty and Hengler, the famous dancers, have always proved great favorites here and in no wise could they have proved their popularity better than by appearing here in the heat of an exciting political contest. The entertainment throughout was a nice one. The Bell Ringers chimed in beautiful melody and the exquisite music of the harp was one of the most enjoyable features of the evening. We are glad to learn that the company will return, shortly after going east as far as Bangor.

Billy asks, "Where do they get the money?" Well, the two men from Rye who went to a Democratic office-seeker to ascertain the market price of votes and were directed to "go to Joe Foss," the man who is "looking out for Rye," say the office-seeker told them that a good deal of the money the copperheads are using in this vicinity came from Manchester; and further, that he and two other leading men of the party went there and got it. So it seems that Manchester is "where they got the money;" but how much did they get, Billy?

Messrs. Portsmouth Aqueduct, cannot you manage to give those who are dependent upon you for water a little more of that article? If you keep the supply so short as it has been for a few days past, the entire population of our city will soon have to take to beer to sustain life, which would place Judge Page in a most embarrassing position as "the house with ten chimneys" would not accommodate them all. If the water famine continues and becomes worse, the law regarding drunkenness will in justice have to be modified, and we may expect some such conversation as the following to take place when an inebriate is "brought up:"—Court—"Officer, how is the water to-day?" Officer—"Don't know, Your Honor; can't get any from which to judge how it is." Court—"Tight chap, you are fully exonerated; scoot." Consider what a sad set-back such a state of affairs would be to the temperance cause, and squeeze Fountain Head a little bit more.

Our copperhead neighbor says, "it is generally remarked that the Democracy are not compelled to resort to 'pop-beer' demonstrations in order to get up a meeting." True; beer is much more effectual with the Democracy than the savory pop, and "costs the party a good deal cheaper," besides. The Democracy are certainly quite innocent of "pop-beer demonstrations."

The Bangor Whig reports that last week Dr. Hebbard, who gave a course of lectures on physiology in this city two or three years since, stopped in the middle of a lecture he was delivering in Montreal, utterly unable to remember what he was about to say. He was taken to his room, but did not recognize his friends or even his wife, who was immediately sent for; he seems to have lost his memory entirely, does not know where he is, does not know his own name, and is supposed to have softening of the brain.

During the remarks of Gen. Walter Harriman at the Temple on Saturday evening frequent hisses were heard mingled with every outburst of applause. This mark of ill breeding on the part of a few of the unterrified is not surprising, but is nevertheless entitled to the contempt of every decent person. Had the gathering been a Democratic one and a Republican had hissed in the same manner, cries of "put him out," would have followed until the intruder was summarily ejected; and it would have served the ill-mannered fellow just right, too.

The second Jubilee rehearsal, last Wednesday evening, at Mr. Tilton's room was well attended and very successful. The chorus here is fast approaching its limit, and will be able, with Harlow's orchestra, to give a fine concert of itself. The best and most public spirited singers in the city and vicinity manifest much interest in the Jubilee, as well all may.

AYER'S
SARSAPARILLA,
FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troubles one disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Impurities Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

NOTICE.

ALL PERSONS owing me and all having accounts for settlement, are requested to settle the same at No. 19 Market Street, by March 5th. After that time all unsettled accounts will be put into the hands of an attorney.
f17 MORRIS KICHLER.

Morning Chronicle.

—The Rochester Democrat lately published a column of obituary poetry, of which it said: "If there is at this period a fiend in human shape who can read them without crying he is permitted to call at this office and ask for five dollars."

—A German, while crossing the Alleghany Mountains during the winter, states: "Dat vengeing up de mountains, his foot slipped him on the ice, and he coom down on the broad of his back, mit his face sticking in the mud, and dere he shtood."

—A young man employed in Xenia (O.) powder mills was in Springfield to spend Sunday, got drunk, overslept himself and missed the train Monday morning. Had he kept sober and been at his work on Monday morning, his fragmentary remains might have been gathered up in a market basket after the explosion. It is not safe, however, to take this as a precedent for getting drunk on Sunday.

—Mr. Ryan of Melbourne fell from a great hight in a lonely place and broke his leg. No one was in the vicinity, and the case would have seemed hopeless to most men; but Ryan resolutely went to work as his own doctor and nurse, set the limb, bound it, and subsisted on oysters and rain water for twelve days until some one chanced to pass by, and rescued him from his unpleasant predicament.

—The performance of the Wagner Minstrels was suddenly interrupted on Saturday night by one of the audience, an Englishman named Cook, rising and pointing a pistol at the stage to resent an imaginary insult to his native soil occasioned by numerous bits on the present attitude of England, indulged in by one of the knights of the cork. The sable warriors were panic stricken. Chairs were kicked over and some remarkable acrobatic feats performed during their sudden exit from the stage, while the murderous Briton was marched off to the police station.

A. PEARSON

INVITES ATTENTION to the fact that he has taught Music in Portsmouth for the last EIGHTEEN YEARS faithfully and successfully, as numerous patrons and pupils will testify,—and still offers his services as

Teacher of Organ, Pianoforte, Harmony and Vocalization,

according to the most approved methods.

☞ Notes left with Mr. Miller at Chronicle Office, or communications sent through the Post Office, will receive prompt attention. f15

HOLLOWAY'S

PILLS AND OINTMENT.

Every Man His Own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

THE CLAIM OF SUPERIORITY

Is often made for

ARTICLES OF GENERAL USE,

But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of

BOOTS AND SHOES

FASTENED WITH

CABLE SCREW WIRE,

These goods were pronounced by the patentee to be

THE BEST

In the market for Pliability, Durability, and Economy. This claim has received

Full Endorsement

From Manufacturers!
From Dealers!
From Consumers!

Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.

Cable Screw Wire goods are peculiarly adapted for our inclement winters, on account of their Waterproof qualities.

Every grade, from the heaviest Fishing, Hunting, Driving, or Walking Boot, to a Dress Shoe or Ladies' Slipper, is best made with his most excellent of all fastening.

Subscriptions should be addressed to GEORGE A. COOLIDGE, care of ROBERTS BROTHERS, Publishers, 143 Washington Street, Boston.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running at speeds or feed or prices—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER DEVISED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

NEW BOOKS.

HELPS TO HOLY LENT, by Bishop Huntington.

SEVEN LENTEN SERMONS on Psalm LI.

A GOOD REPORT, or Lessons for Lent.

ROSARY FOR LENT, or Devotional Reading.

For sale by JOSEPH H. FOSTER.

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

The Chronicle.

COUNTING TWENTY-FIVE.—I found the cherished face of Maria Ann wreathed in smiles, the other evening when I returned from my arduous daily toil. (I am engaged as standing man at a saloon. So many candidates are treating, that the saloon keeper hires six of us to be treated. We all drink with every candidate who comes in, and it makes business pretty brisk.)

Said my chosen one, "Joshua, I am afraid you do not always find me an angel in disposition."

Said I, "That's so—hic—my dear, I don't seldom find you 'angel in—in anything."

"And," she added, "you are not always, the most pleasant man in the world."

I did not feel called on to reply.

"Now," said she, "read that."

She had cut an item from the columns of some paper wherein a demented writer told about some impossible woman who, being troubled with a bad temper, counted twenty-five every time she got provoked, and thus became a sweet, amiable, and dearly loved ornament of the house of her delighted husband. I read the article as well as the condition of my head would allow, and remarked, "Bosh."

Maria Ann paid no attention to me, but unfolded her plan. She said that every time she got mad she would count twenty-five, and every time I got mad I should count twenty-five. I asked her who she thought would pay our rent while we sat and counted twenty-five over and over all day long. Then she said I was always raising objections to our plans for our mutual improvement, and I said I was not, and she said I was enough to try the patience of a saint, and I said she was too, and she came for me, and I told her to count twenty-five; but she forgot all about that, and just tallied one in my left eye.

Then I was going to remonstrate with the poker, and she told me to count twenty-five, and I said I would not; but I did before she had pulled more than half my hair out. Then she made me count twenty-five over and over, until I was out of breath and felt real pleasant and good-natured. So we went to supper. Now, the cat was curled up in my chair, but I did not see it then, but I was pretty sure it was there, in fact I knew it was there as well as I wanted to, and more too. I felt inclined to rise up suddenly, but as I gathered to spring she banished the tea-pot and murmured: "Joshua, your temper is rising; count twenty-five or I'll break your head," and that cat was drawing a map of the Tenth Ward with her claws around behind me with the streets and boundaries marked in my blood. I rose to explain, and said, "My dear—I—" but she caromed on my head with a well-shot tea cup, and I sat down and counted twenty-five; but it killed the cat. The old fellow died hard, though I could feel him settle as his nine lives went out one by one.

A few days' practice of this rule, under the loving instruction of Maria Ann, has enabled me to conquer my temper completely. Nobody can get me mad now. I am in a state of perpetual calm, and I want to see the man that wrote that story. I want to fit him for the hands of an undertaker, and make a demand for mourning goods among his friends. Then I can die happy—counting twenty-five.—*Utica Herald.*

HUMAN FRICTION MATCHES.—Of phosphorus, every adult person carries enough (1 3-4 pounds) about with him in his body, to make at least 4,000 of the ordinary two-cent packages of friction matches, but he does not have quite sulphur enough to complete that quantity of the little incendiary combustibles. This phosphorus exists in the bones and in the brain, and is one of the most important constituents in the body. Every school-boy is acquainted with those strange metals, sodium and potassium, for he has seen them flash into a brilliant flame when thrown upon cold water. The body contains 2 1-4 ounces of the former, and a half ounce of the latter metal; enough for all needed experimental purposes in the schools of a large city. The 12 grains of magnesium would be ample in quantity to form the "silver rain" for a dozen rockets, or enough to create a light which, under favorable conditions, could be seen for a distance of twenty miles.—*From Dr. Nichols' Fireside Science.*

GOOD MAXIMS.—Persevere against discouragements. Keep your temper. Employ leisure in study, and always have some work in hand. Be punctual and methodical in business, and never procrastinate. Never be in a hurry. Preserve self-possession, and do not be talked out of conviction. Rise early, and be an economist of time. Maintain dignity without the appearance of pride; manner is something with everybody, and everything with some. Be guarded in discourse, attentive and slow to speak. Never acquiesce in immoral or pernicious opinions. Be not forward to assign reasons to who have no right to ask. Think nothing in conduct unimportant or indifferent. Rather set than follow examples. Practice strict temperance, and in your transactions remember the final account.

HOLLOWAY'S

PILLS AND OINTMENT.

Every Man His Own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Research made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more *competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, forces out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organic affection they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

The Daily Chronicle,

Portsmouth, N.H.

TUESDAY, MARCH 12, 1872.

Political.

Hon. Marshall Jewell, the Republican candidate for governor of Connecticut, is a woman's rights man.

The Detroit Post says:—"We have no doubt that the violent and malicious abuse of the President helps rather than injures him."

A bill is before Congress providing for the election of postmasters by the people of every city and town in which a post-office is located. Women will be allowed to be candidates.

The question of compulsory education is growing in interest in this country, and it soon will be a point of warm contest. The labor element seems inclined to enrol itself against the measure.

The St. Louis Democrat says:—"It is astonishing how soon a republican Senator receives the applause of the democratic newspapers after he has betrayed the republican party."

Since the adoption of the constitution, in 1789, there have been chosen to the United State Senate from New Hampshire 30 different men, of whom 22 were lawyers, 3 merchants, 2 farmers, 1 printer, 1 teacher and 1 physician. Of 97 elected to the United States House of Representatives since that time, 56 were lawyers, 5 clergymen, 7 physicians, 11 merchants, 14 farmers, 1 printer and farmer, 1 printer, 1 sheriff and 1 teacher.

The New York Citizen, an independent Democratic journal, pays the following handsome compliment to Senator Patterson: "Senator Patterson's term of office expires with the present Congress; and upon the issue of the struggle now raging with unexampled fury in New Hampshire, soon to spread throughout the United States, depends the success of his re-election. While our sympathies are with the Democratic party—and we have reasonable belief in its triumph—we cannot be oblivious of the fact that Senator Patterson's defeat would be a severe loss to the country and a source of grief to his associate Senators of both parties, creating a vacancy not easily filled by the old Granite State."

Over 11,000 fraudulent votes were cast at the last election in Brooklyn.

John Kimball is the Republican candidate for Mayor of Concord.

The Nashua Republicans have nominated S. D. Chandler for Mayor.

New Publications.

Ballou's Magazine caters for all classes; and old and young, rich and poor, will find something in its table of contents to please and cheer them. It contains historical tales, sea yarns, adventures, poetry, thrilling romances, and is sold for the low price of 15 cents per copy, or $1.50 per year. Address Thomes & Talbot, 63 Congress Street, Boston.

The London Quarterly Review (Am. Rep.) for January has a valuable and interesting series of papers, as follows: The Drama in England, The Life and Writings of John Hookham Frere, The Latest Development of Literary Poetry, The Life and Philosophy of Bishop Berkeley, The Bank of England and the Money Market, Foster's Life of Dickens, A Key to the Narrative of the Four Gospels, Sir Henry Holland's Recollections, Marco Polo, and Travels in Footsteps, Primary Education in Ireland, and The Proletariat on a False Scent. Leonard Scott Pub. Co., 140 Fulton St., N. Y.; $4 per year.

NEWSPAPORIAL.—We extend kindly greetings to the *Merrimack Journal*, a new weekly issued at the enterprising town of Franklin by Goodwin & Calley. The *Journal* is a stanoch Republican paper, is neatly made up and printed. Success to it.

A TRAGEDY occurred at Dayton, Ohio, March 9, a woman and three children being killed by the husband and father.

JOSEPH MAZZINI, the Italian Republican, died at Pisa, Italy, March 11.

SUCCESSFUL ACCIDENT INSURANCE.—The Travelers, of Hartford, issued 31,797 general accident policies last year, making a gain in net premiums over the previous year, of nearly $100,000. Up to Jan. 1, it had written a total of 334,554 accident policies, and paid 14,258 claims of policy-holders, for death or injury by accident, averaging nearly seven hundred dollars a day for the whole time the company has been in business. Morse & Ilsley are the agents in Portsmouth.

—The intelligence of the appointment of General Maxwell to be United States prosecuting attorney in Salt Lake City, was hailed with general satisfaction by the Gentiles, but has a depressing effect on the Mormons.

MASSACHUSETTS HOMEOPATHIC HOSPITAL.—From the first annual report of this hospital we take the following Report of the Medical Board.

The first patient was admitted to the Hospital January 23, 1871; consequently this report includes but a little more than eight months of time; and the small size of the Hospital affords but limited opportunity for that experience, observation, and comparison which the friends of this institution and of this method of medical treatment would naturally expect and desire. It was intended to admit only recent and acute cases but there have been, from the first, a large number of applicants, of an incurable type, who have been waiting, some of them many years, hoping to find in a homeopathic hospital new methods which, in their case at least, would reverse the ordinary progress of an incurable malady. For this peculiar class it was deemed best to favor, as far as practicable, a liberal relaxation of the rules concerning the admission of chronic cases, and the retention of such as were benefited by treatment, beyond the time usually allowed in similar hospitals. The results have, in several instances, been extremely gratifying; there having been complete and rapid recoveries in cases which have been discharged from other hospitals unimproved, if not "incurable." Of the thirty-seven patients, twenty were decidedly chronic, and twelve were cases of from six to eighteen years duration. Only nine cases were strictly acute, and of these some had already continued from one to four weeks. This proportion necessarily gives a less favorable average in regard to the time and the results of treatment than if the cases had been of an acute character only. Of the cases treated, twelve were dis-charged cured, ten much improved, and five without benefit. Nine patients remain. There has been but one death at the Hospital; it was a chronic case of softening of the cerebellum, accompanied by paralysis, and suddenly terminating in apoplexy. Among those discharged was a case of spinal disease of nine years' standing and of great severity, which was cured in ninety-seven days. Another cure, in twenty days, was a case of gastralgia of two years' duration. [Following this report are tables giving a summary of the cases.]

The Board are greatly indebted to the Directors and members of the Ladies' Aid Association, for their liberal, timely, and perserverring assistance, which has contributed in many ways to the comfort and the recovery of the patients. Delicacies and even luxuries have been judiciously furnished by them, and their sympathetic interest and attentions at the bedside have done much to cheer and encourage the patient.

The House Physician, Dr. Charles H. Brooks, has performed his duties with care, attention and skill.

The Matron, Miss Varney, has been connected with the Hospital from its commencement, and has occupied her present position since the first of July,—a place which she fills in a manner so disinterested and efficient as to command the respect and esteem of all the officers as well as the inmates of the Hospital.

The present building, though serving well for a beginning, is ill adapted for the purpose of a hospital, and inadequate in size to the demands made upon it. And the Board are confident that its defects will soon be remedied by the energy of its friends and the interests of the public.

A Public Fair is aid of this Hospital is to be held in Boston Music Hall, commencing on Monday, April 15, and continuing till Saturday, April 27. Information may be obtained on application to the President, Col. Henry S. Russell of Boston, or donations may be sent to and will be thankfully received by F. W. Andrews, Esq., No. 61 State Street, Boston.

A DUCK IN A FIX.—On Sunday last a resident near the canal alongside the millpond, between Castle Hill and the Eastern Railroad depot, was suddenly alarmed by a neighbor, who came to inform him that one of his young ducks was in trouble, having quacked and struggled for dear life, until it was nearly exhausted and ready to sink into the water which it had gone into for its favorite pastime. Arriving at the spot, the owner, astonished and surprised at the perilous condition of the young water fowl, hesitated for a moment what to do, first looking at his well-shined boots, and thinking of the softness of the mud, but finally ventured and released the apparently suffering little creature, when to his astonishment he found it anchored to a quahaug, which had opened its shell and closed it on the duck's foot. The quahaug was very large, and its weight and tenacious hold rendered extrication and safe return to shore impossible by the duck's own power, without human help.—*Salem Gazette.*

CHICAGO.—It is estimated that over one-third of those who were driven out of the North Division by the fire have already returned, and that two thirds of the former population will have returned before another winter. This means that some 40,000 or 50,000 people will have flocked into that part of the city in a year—a rapid increase in population never before equalled in the world's history.—*Mail.*

—Boxing the ears is an inexcusable brutality; many a child has been made deaf for life by it, because the "drum of the ear" is a membrane, as thin as paper, stretches like a curtain just inside the external entrance of the ear, there is nothing but air just behind it, and any violent concussion is liable to rend it in two, and the "hearing" is destroyed forever, because the sense of hearing is caused by the vibrations of this drum or "tympanum."

—A man in Denver married, but had to leave immediately and unexpectedly for Salt Lake City on urgent business. He left his bride with tears in his eyes and a promise of immediate return upon his lips. He got there just in time not to be able to get away. He made his way slowly along with the blockaded trains, working with the hands, for every shovel-full of snow got out was that much obstruction removed between him and his beloved. When within two hundred miles of Cheyenne, the foremost train got into a bigger snow-bank than ever, at which faithful unto death he struck out afoot and walked the two hundred miles in five days. He came in with frozen feet and ears, but his heart was all right, and he went to Denver rejoicing. At one point he was chased by wolves and lost his plug hat in running. The hat saved his life, for the wolves had never seen one before and stopped to examine it for a long time. It took them so long to determine what it was, that our heroic lover got out of reach. He borrowed a red handkerchief at a laborer's hut and passed on.—*Cin. Com. Letter.*

JOB AND CARD PRINTING.—We have made great additions to our job-ing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, borders of various styles, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDER DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AT SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

It is a rare thing that physicians give any countenance to a medicine, the manufacture of which is a secret. About the only exception we know of is *Johnson's Anodyne Liniment.* This, we believe, all endorse, and many of them use it in their practice with great success.

Persons requiring purgatives or pills should be cer-ful what they buy. Some pills not only cause griping pains, but leave the bowels in a torpid, costive state. *Parsons' Purgative Pills* will relieve the bowels and cleanse the blood without injury to the system.

HOLLOWAY'S PILLS AND OINTMENT.—Scurvy and Diseases of the Skin.—Fever, restless sleep, foul stomach, tainted breath, languor, depression of spirits, always attendant on the worst cases of cutaneous eruptions, are speedily and radically removed by these medicines—the Ointment cleanses the skin, and the Pills purify the blood, stimulate the liver, and promote digestion. 25 cents per box or pot.

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass, for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

SIXTEEN YEARS OF SUCCESS.—In 1856 the now famous MUSTANG LINIMENT was first made known to the public by an extensive system of advertising. From that time to the present, the demand for it has been steadily increasing until it has taken the lead of all embrocations, lotions, ointments, and other external remedies, imported or domestic, ever introduced into the American market. In the most celebrated racing and trotting stables, in the establishments of stage and city car companies, and in the stables of private gentlemen, it is the only recognized cure for such diseases of the horse as require outward treatment. Nor is it less valuable as a local application for some of the most distressing complaints to which man is subject. Rheumatism, stiffness of the joints, neuralgia, sore throat, tumors, wens, earache, toothache, yield to its pain-subduing, counter-irritant properties, and burns, scalds and cuts are healed with incredible rapidity under its operation.

SPECIAL NOTICES.

Lassitude and Debility.

The relaxation of nervous energy which creates an indisposition to physical or mental effort, so strong as almost to amount to positive inability, and which we term lassitude, proceeds from a variety of causes. The principal of these are constitutional debility, heat of the atmosphere, coupled with humidity, climatic changes, and the physical prostration consequent upon a long illness. But whatever the cause, it must be perfectly clear that if the nervous system is unduly relaxed, something is required to brace it up. That something is HOSTETTER'S BITTERS, which is universally recognized as the most complete and speedy recuperant of the physical forces in existence. It has been so thoroughly and widely demonstrated as to be a matter of positive certainty and familiar knowledge, that the Bitters will not only rehabilitate the physique, when shattered and wasted by disease, but will also, if taken systematically, actually compensate the constitutionally feeble frame for its deficiency of strength, and by infusing new life into a weak system, endow it with the health and vigor which Nature has denied it. The Bitters also enable the body to resist the enervating influences of heat, humidity, and changes from a temperate to a hot climate. It is on these accounts specially to be recommended to travellers and residents in the torrid zone, and persons subjected to abrupt transitions in temperature.

BATCHELOR'S HAIR DYE.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. d3m d22

A NIGHT PICTURE.—It is night, and here is home. Gathered under the quiet roof, elders and children lie asleep at rest. In the midst of a great peace and calm, the stars look out from the heavens. The silence is peopled with the past; sorrowful remorses for sins and shortcomings, memories of passionate joys and griefs rise out of their graves, both now alike calm and sad. Eyes, as I shut mine, look at me, that have long ceased to shine. The town and fair landscape sleep under the starlight, wreathed in the Autumn mist. Twinkling among the houses, a light keeps watch, here and there, in what may be a sick chamber or two. The clock tells sweetly in the silent air. Here is night and rest. An awful sense of thanks makes the heart swell, and the head bow, as I pass to my room through the sleeping house, and feel as though a hushed blessing were upon it.

—The human voice is capable of producing 17,592,014,414 different sounds. Does this account for the discord in the world?

NEW ADVERTISEMENTS.

STAGNATION in the blood tends to produce nine-tenths of the diseases "flesh is heir to." This, however, is obviated, WITHOUT DEBILITATING the system, by administering LATHAM'S CATHARTIC EXTRACT.

FARM FOR SALE,

SITUATED IN NEWINGTON on the main road to Greenland, 4 miles from Portsmouth Parade. It contains about 28 acres good land, cuts 20 tons hay, and pastures two cows. There is a story and a half house, 28x36, well furnished, having a cement cellar and a dairy; and a barn 30x40, and a shed connecting house and barn. There are two wells and plenty of spring water on the property, an orchard of 100 choice apple trees and 50 pear trees, currant, grape and gooseberry vines. The farm adjoins Great Bay, and cuts two tons salt hay and two tons thatch. For further particulars enquire of the subscriber on the premises. m9 03m DAVID BERRY.

LOCAL AFFAIRS.

Republicans,

Let no vote remain unpolled on your lists to-night. An unscrupulous enemy has fought the campaign with desperation and relies upon fraud alone to win. An accurate canvass of the State has been taken and it is shown that the Republicans have 1000 majority over all other parties combined. The margin is too small to admit of supineness. Every Republican should do his duty to-day. Vote early and aid other Republicans in going to the polls. Be not satisfied with a mere majority in your ward or town. Roll up the biggest vote possible, remembering that every vote is needed to elect Ezekiel A. Straw Governor. Be early at the polls.

The Closing Meeting

Of the campaign was held by the Republicans, Monday evening, at the Temple. The Marine Band furnished most excellent music f r a half hour previous to the arrival of the speaker. The Hall was at an early hour crowded to repletion with an audience which testified to its great interest by frequent bursts of applause. Hon. Horton D Walker presided and after a brief speech introduced Hon. Ichabod Goodwin, who appealed urgently to Republicans to neglect the temperance and labor-reform side-issues, and rally again for the old party which they had sustained for sixteen years. He referred feelingly to the action of the Democratic legislature in depriving such men as he of the right of representation because they were 70 years of age, and urged them to rebuke in thunder tones the outrage by which two Representatives from this city were unseated. The Governor was frequently applauded, and on closing his remarks introduced Mr. Daniel Allen of Wakefield, Mass., who soon had the audience in a state of merriment. Farmer Allen is a decided character, and must be seen to be appreciated. He charged directly into the enemy's camp and rained argument and ridicule effectively upon them. Possessed of quaint manners and voice, his very gestures helped carry conviction. The audience was amused and instructed, and when Farmer Allen sat down we knew that his logic had not failed of a mark. The meeting closed with rousing cheers for Straw and Victory, and for Farmer Allen. The music by Harlow's Band was inspiriting and deservedly commended.

Communicated.

It is a deplorable sight to see the tendency to bolt nominations regularly made. But when a bolter who defeated the entire Republican party in the State by running as third candidate for Senator asks for the suffrage of the party the next year, is it probable that his example will on all hands be avoided?

NAVY YARD.

Laconics.

We will thank our friends for early returns from neighboring towns. We particularly desire the vote for Governor and Senator and the names and politics of Representatives elected.

Arrangements have been made for receiving election returns at the Grant Club rooms, corner of Pleasant and State Streets, (entrance on State,) at the earliest hour, this evening; and all Republicans who choose are invited to call in and learn the result of the campaign. We cordially extend a similar invitation to Republicans to use the CHRONICLE office as a place to hear what we anticipate will be glad tidings, as we have made arrangements for full returns by telegraph,—and at the regular Republican Headquarters on Daniel Street the earliest returns will also be found.

The Taylor Dramatic Company are to give one of their nice entertainments this evening at the Temple. Our brethren of the press elsewhere speak of the Company very complimentarily and we do not doubt that they will offer extra inducements for this evening as this is their first appearance among us. Go to the Temple while waiting for election news.

The Ball of the Six Jolly Associates (the closing entertainment of their course) takes place this (Tuesday) evening, in Irving Hall. A full quadrille band will be present, and there will positively be no postponement on account of weather.

To find out how many boys between the ages of six and sixteen years live within ten miles of you, just have your barn burned down and your horse burned up. You will be able to count all the boys from your window next day.

Hon. Frank Fuller, formerly of Portsmouth, is the Mormon candidate for delegate to Congress from Utah.

We are pleased to learn that our course in showing up the persistent and ludicrous mendacity of the local copperhead editor is strongly disapproved by a copperhead "limb of the law" about town—and no wonder, for the "limb" and editor are a well-matched pair so far as their reputations for truthfulness and gentlemanly dealing are concerned—as we could not receive any more positive proof that we are right than his assertions that we are wrong. We hear of his ravings occasionally, but do not propose to give him any mere particular "puff" than this, as he and his two friends, the present and former editors of the local copperhead organ, though unequalled for their ability and zeal in throwing mud at non-resistants, are all three possessed of "constitutional scruples of conscience" against attacking men who are so wicked as to "strike back" when their patience is worn out.

Portsmouth has five gentlemen who are professional music teachers, and we believe eight church organs; but of the five professional gentlemen not one is engaged as an organist.

That was a g ood repartee which our old friend Michael Walker let out at Mr. Daniel Emerson of Waltham, Mass. Said Mr. E.—"Well, Michael, I suppose you vote the Democratic ticket with us to-day" "Vote the Democratic ticket, sir!" says Michael; "I keep three cows, sir, and when it is dry they wade into the swamp for water and muddy their bags, and they come home soiled and dirty looking. But when I get them home I wash them until they are nice and clean, and good sweet milk they give me. Sir," continued Michael, straightening himself up, "yer old Democratic cow has bedraggled herself in the swamps and briars till she is daubed from head to feet. Ye can't find water enough to wash her clean, and by all the powers ye'll niver get me to help milk her, sir,—niver. Mr. Emerson, I vote no Democratic ticket with ye, to-day."

Vote of Portsmouth.

—A report is going the rounds of the press that Sergeant Boston Corbett, the slayer of Wilks Booth, is dead. If not he ought to be, for he has been in the grave nearly two years.

—The case of Mrs. Madden to recover $5000 damages of the Staten Island Railroad Company, for the loss of her husband by the explosion of the steamboat Westfield, last June, was decided in her favor.

—At a marriage lately, in Maine, the bride's voice faltered, and she paused in the midst of the impressive ceremony. Her little neice, a bright little three-year old, thinking the naughty minister was compelling poor aunty to say something disagreeable, stamped her little foot and exclaimed in a tone of authority, "Auntie, don't oo thay it."

—The Madison Courier prints the following specimen of letters which in that place pass from one young woman to another: "Lou——, N——N——is awful mad at me. I don't care a bit. He can just stay mad as long as he wants to. If he thinks I care anything for him he is mightily mistaken. I wish you would try and find out what is the matter with him—I want to know just for curiosity. I think he is real mean, don't you? Has your speckled hen pet yet?"

—Alpha Centauri, the nearest fixed star, is 20,000,000,000 miles from the earth; and 61 Cygni is 60,000,000,000. The light of the latter is ten years in reaching us. The former is of the first magnitude. Stars of the sixth magnitude are 800,000,000,000 miles away, and their light is one hundred and thirty years in reaching us. The light from the most remote star seen by the telescope requires 3,500 years for its passage to us, one light moves at the rate of 194,000 miles per second.

DEATHS.

In this city, March 16, Mrs. ELIZA E. JONES, wife of Mr. True W. Jones, and daughter of Mr. Jos Locke, of Rye, aged 28 years.

☞ Funeral services will be held in Rye, Wednesday, March 13, at 1 o'clock, P. M.

THE PORTSMOUTH GRANT CLUB ROOMS will be open every day and evening (Sunday excepted) until March 15th.

NATURE'S REMEDY.
VEGETINE
The Great Blood Purifier.
VEGETINE is made exclusively from the juices of certain all healing barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Painness in the Stomach, and all diseases that arise from impure blood. Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints, can only be effectually cured through the blood.
For Ulcers and Eruptive diseases of the skin, Pustules, Pimples, Blotches Boils, Tetter, Scaldhead and Ringworm VEGETINE has never failed to effect a permanent cure.
For Pain in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhea arising from internal ulceration, and uterine diseases and General Debility VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration and regulates the bowels.
For Catarrh Dyspepsia, Habitual Costiveness, Palpitation of the Heart Headache, Piles, Nervous and General prostration of the Nervous System, no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the Nervous system.
The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.
In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.
THE NEW
Tontine Saving Fund Policy
is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - $281.70.
First—Sale of Policy to the Company.
At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.
Second—Paid-up Policy.
At the end of 10 years, - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - 22,000.
Third—An Annuity.
At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - - $173.30
Or, at the end of 20 years, of - - - 647.40.
These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY
SHEPPARD HOMANS,
Consulting Actuary.
☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the
Equitable Life Assurance Society,

f17 MORRIS KICHLER.

Morning Chronicle.

THE COMING PEACE JUBILEE is engaging the attention of the Boston press, largely. The season tickets have been placed at $50 each. The Advertiser says:—

Among the funny incidents of the week has been the appearance of a man who wanted his new patent fog-horn advertised. He told Mr. Gilmore that he had a new instrument which he wished to exhibit, and drew from under his cloak the curious machine, which was a brass cylinder, three feet long and five inches in diameter, made with an air compressor in the shape of a piston. He then proceeded to fill the tube with compressed air by drawing out the plunger, and without explanation or provable effects, pushed the piston with much force into the tube, thus making a large report as loud as a small cannon and steam whistle, startling Mr. Gilmore, frightening the clerks, and bringing into the room all the occupants of the building, who came to ascertain the cause of such a terrific explosion. A gentleman who had not seen it, and did not know whence the noise came (being seated back to it at a desk, writing, jumped from his seat as if he had been shot. As soon as Mr. Gilmore had recovered his breath he put up his hand in a deprecating way, "Don't do it again, please," and inquired how he proposed to use it. The inventor, delighted at the sensation he had produced said he had 500 of them, all of different sizes, and he thought they might be so arranged as to put in the emphasis where it is needed. Mr. Gilmore told the gentleman he should be afraid to permit them any nearer than Minot's Ledge light-house. At that distance he thought the gigantic fish-horns could toot without disturbing any one.

We have almost forgotten the big drum, which is to be twelve feet in diameter and a marvel of mechanical beauty. Mr. Gilmore is constantly in receipt of letters from representatives of the press who desire to be present, and it is thought that there will not be less than a thousand representatives present. At the last jubilee there were four hundred. A western lady addressed a letter to the authorities, beginning with a page of rhapsody and praise to God for the inauguration of so grand a peace festival, and winding up by a demand for a free pass over 1800 miles of railway.

BRICK MAKING. — This important branch of manufacture, owing to the growth of cities and towns around us, is on the increase. The supply has been wholly inadequate to the demand for the past two years. The soil for the manufacture of brick is quite limited, and the operations continue but five months in the year, while buildings are continually being erected. The nearest brick-yard north of us is that of Mr. George Currier, at Salisbury; southwest the nearest is at Danvers; and along the line of the Eastern Railroad, at Beverly, Lynn and Chelsea.

We have three yards in this city. Mr. David Smith the past year manufactured two millions. He has in use one of the Caperon improved machines, it is run by an engine of 18 horse power, and he employs, during the season, twenty-five men and boys. He will this year introduce an additional machine, and will undoubtedly turn out a great number than heretofore. An improvement in his molds, he anticipates will give a handsomer finish to his bricks than ever before. The molds formerly used were of steel, while those he proposes to use are of bell metal. The amount of wood required to burn these bricks was more than twelve hundred cords, which was purchased in Seabrook and North Hampton, N. H., and transported in cars upon the Eastern Railroad directly into his yard, where the cars are reloaded with brick which are shipped to Lynn, Somerville and East Boston.

At the yard of Robert A. Smith, some two millions of brick were manufactured during the past year, requiring about twelve hundred cords of wood, and twenty-five men and boys. The machine in operation is what is known as the Guard, and is run by an engine of twenty horse power. A spur track from the Eastern Railroad connects with both these yards, which furnish excellent facilities for obtaining wood and shipping brick. These two manufactories have some twenty acres of clay soil, which with their present works would give an ample supply for fifty years. The bricks manufactured are chiefly used for inside work and are from $6 to $10 per thousand according to quality. It is claimed for the machine made brick, that they are harder and will wear longer than those made by hand.

At the yard of John Doyle, there were five hundred thousand bricks manufactured during the past year, requiring three hundred cords of wood and ten hands. These bricks are made by hand and are chiefly sold to go out of the city.

Mr. George Currier, at his brick-yard in Salisbury, employs during the season, between thirty and forty hands, all of whom be boards himself. Every year he goes to Canada and hires his hands from among the French Canadians, some years having had gangs of hands, very few of whom could speak or understand English. Last year he manufactured three millions of brick, all of which are made by hand. A large part of the brick made by him are used in Amesbury and Salisbury at the Mills Village, although he sells many to go abroad, and has later part of his business he intends to increase in the future.—*Newburyport Herald.*

—We may silently observe things we need not speak of; in this way we learn many a profitable lesson without the cost of imprudence.

FERNALD & COMPANY,
IMPORTERS OF CLOTHS,
No. 11 ARCH STREET,
BOSTON.

THE CLAIM OF SUPERIORITY
Is often made for
ARTICLES OF GENERAL USE,
But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of
BOOTS AND SHOES
FASTENED WITH
CABLE SCREW WIRE,
These goods were pronounced by the patentee to be
THE BEST
In the market for Pliability, Durability, and Economy. This claim has received
Full Endorsement
From Manufacturers! From Dealers! From Consumers!
Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.
Cable Screw Wire goods are peculiarly adapted for our inclement winters, on account of their Waterproof qualities.
Every grade, from the heaviest SHIPPING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with this most excellent of all fastening.
WARRANTED NOT TO RIP.
EVERY ONE BEARS THE PATENT STAMP.
Sold by all Leading Dealers.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that of any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running a sample of seed or price—and many of these are so we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,
All others being copied from its first model. does two-thirds the sewing done in this country, and preserves its advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity.
No. 12 VAUGHAN ST.

For sale by JOSEPH H. FOSTER.

SLATE COATING,
Patented August, 1871.
In offering this article to the public, we supply a need which has long been felt. It is especially adapted to
Shingle and Tin Roofs. (Old or New.)
IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.
Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is
Extremely Cheap.
Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years and for a State Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

The Chronicle.

CHANGE IN THE ERIE RAILROAD DIRECTION.—The Erie Ring were summarily pushed out of office at a special meeting of the Directors on Monday, and complete control of the management of the road was taken by a new set of men, Mr. Archer, the vice-president, who succeeded Fisk, Jr., occupied the chair. The other members present were F. A. Lane, G. C. Hall, Homer Ramsdell, W. Hilton, D. White, Horatio N. Otis, Henry Thompson and Marcus Semmes. Soon after some of the police officials entered the room, which was crowded with men, some of them police officials, F. A Lane and others were served with a copy of an injunction granted by Judge Ingraham, which prohibited a meeting of the board on this day. An effort was made to eject Mr. Shearman, the associate counsel of the company, and his clerks, and other friends of the old board. The former resisted, saying he was present by direction of Jay Gould, and that the others who were present were not there to intimidate, but to be witnesses of the proceedings. It was finally agreed that he and his clerks might remain, but that all others not directors should leave. Mr. Hilton then proposed that a member be elected to fill the place made vacant by the death of Fisk, Jr. General Dix was nominated and elected. Then Charles G. Sessions retired from the board and General George B. McClellan was elected to fill the vacancy. Judge Hilton next resigned, and General L. M. Barlow, attorney-general of the State, was put in his place. Then Simmons, Otis, Thompson, White and Lane resigned, and in their stead, W. R. Travers, Colonel H. G. Stebbins, Charles Day, A. S. Dixon and Charles Drake were respectively appointed by resolution. General Dix was made president, and by another resolution General Dix and General Barlow were elected to the vacancies existing in the executive committee. Further resolutions were adopted appointing General Barlow counsellor for the company; W. W. Sherman, of the firm of Duncan, Sherman & Co., treasurer; requesting the secretary to inform Mr. Gould of his removal and dispensing with the services of David Dudley Field and F. G. Shearman as counsel for the company. During the proceedings Mr. Shearman tried to read a letter, but his voice was drowned in the uproar of other voices, so he wisely desisted from his effort. The following is a list of the members of the former board of directors not having resigned, and who are, therefore, members of the new board: Dr. Eldridge of Elmira, Mr. Archer, John Tansier of Buffalo, Jay Gould, Homer Ramsdell, H. M. Smith, Mr. Sherwood and Mr. Drake.

Gould did not resign, but was peremptorily removed from a seat in the board, besides being deposed from the presidency of the company, and Tweed escaped like treatment by resigning his position as an Erie director. It appears that this movement was planned about five weeks ago but the proceedings have been kept secret in order to take the Gould party by surprise. Gen. Sickles and Barlow seem to have been the prime movers. Crouch was formerly in the pay of Fisk and Gould, but for the past few months has been drawing pay from the English party.

THE DIRECTORS of the Eastern Railroad Company have elected Mr. Chas. F. Hatch general manager of the Eastern and connecting railroads. Mr. Hatch has been the general superintendent of the Lake Shore and Michigan Southern railroads since the consolidation of those roads about five years ago, and is known as one of the leading practical railroad men of the West. He is a native of western New York, has always been connected with the practical management of railroads, has advanced from one position to another until, in his present office, he has charge of a line of road over nine hundred miles in length, as well equipped and managed as any in the country. He will assume the duties of his new position April 1. Mr. Lothrop will retain the presidency of the corporation, but the discharge of the active duties relating to the control of the road will devolve upon the manager. Under the lead of these gentlemen the public will look for a prosperous future for the Eastern Railroad.

HOLLOWAY'S

PILLS AND OINTMENT.

Every Man His Own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

N. Y. CHEMICAL CO., Sole Proprietors,

d&w115 — 78 Maiden Lane, New York.

DENTAL NOTICE.

L. A. JOHNSON,

No. 5 Daniel Street,

Having purchased the Artificial Teeth Department in Dentistry of

Dr. A. P. Stevens,

would respectfully announce that after three and a half years of constant practice as Student and Assistant to Dr. S. he is now prepared to furnish ARTIFICIAL TEETH upon Gold, Silver and Rubber, and will guarantee satisfaction or take no pay. My Motto will be—"Every article of the best quality and as cheap as the cheapest." Come and Try. Remember the place; at

AMERICAN & FOREIGN PATENTS.

R. B. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,* No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON. After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your case.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which sails patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system: it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w f20

The Gates Ajar;

THE DEMOCRACY GONE THRO'.

New Hampshire

"Rebukes the Grant Administration"

BY ELECTING

A Republican Governor

AND LEGISLATURE.

THE FIRST GUN FOR

GRANT & VICTORY!

The hotly contested campaign, in which our opponents have resorted to the most reckless trickery, and unceasingly hurled slander and falsehood at the National Administration and the Republican candidates in this State, in their desperate effort to maintain the victory they accidentally won last year, has terminated in a defeat for the Democrats more crushing than even the most sanguine Republicans anticipated. As we write this (at 10 o'clock, P. M.,) the Republican victory seems complete; Hon. EZEKIEL A. STRAW is Governor-elect of New Hampshire; nine Republican Senators are chosen, and we shall have a majority of about forty in the House of Representatives.

We give the returns as received up to 1:30 A. M., Wednesday.

DOVER, 9:30, P. M.

Strafford County gives 800 Republican gain—26 Republicans and 7 Democratic Representatives, a gain of 15.

DANIEL HALL.

CONCORD, 10 P. M.

Returns from 115 towns give Straw 26,411, Weston 23,928, Blackmer and scattering 631. Nine Republicans are elected to the Senate, and three Democrats. Hon. George Foster, Republican, has 600 majority in the Manchester district.

CONCORD, 11 P. M.

Returns from 142 towns give Straw 30,169, Weston 27,460, scattering 707; Straw's majority 2,102.

CONCORD, midnight.

Republican Senators are elected in Districts 1, 2, 3, 4, 5, 7, 9 and 10; the 11th is in doubt. As far as heard from 91 Republicans, 64 Democrats and one Labor Reformer are elected to the House. On the popular vote Straw gains 2500 from last year.

CONCORD, 1:30 A. M., 13th.

The Republicans will have 40 to 45 majority in the House. Returns from 178 towns give Straw 34,750, Weston 31,817, scattering 813. Straw's majority will probably exceed 1500.

COMPARATIVE VOTE FOR 1871-72.

1871. **1872.**

Our Art Gallery.

"A vote for Straw!" a vote to endorse the infamous Grant administration; but the voters of New Hampshire will administer a rebuke to Grant and his satellites, on the 12th of March, which will be understood throughout the length and breadth of the land.—*Coppery Ex., before election.*

The above photograph shows how President Grant fretted and quailed under the "rebuke" of March 12.

This engraving—made from a sketch taken on the spot by our special artist—represents ye hilarious Democrat as he appeared when on his way to the polls, Tuesday morning, to help send Bingham to the United States Senate and to "rebuke" President Grant and the black Republican party; and

This represents ye hilarious Democrat as he wended his way home from the telegraph office, Tuesday night, after learning how New Hampshire had "rebuked" the President and the Republican administration of national affairs.

This is a correct likeness of J. G. Sinclair—as he will appear in a United States Senatorial chair for the next six years.

This engraving is from a "spirited" sketch of a disabled Democratic field-piece, taken (the sketch—not the field-piece) on the afternoon of election day by our special artist. This gun was the main reliance of the Democratic warriors and their [pretended] Temperance allies, and we are told that it was loaded with Jersey lightning and discharged into the Republican ranks with some effect early in the day, several feeble men being bit beneath the nose with its deadly missiles and knocked into the voting places, with copperhead ballots in their hands; but neither Jersey lightning nor "Democratic thunder" sufficed to give the copperhead-temperance artillerists a victory.

We close the series of exquisite works of art which we so generously present to our patrons this morning, with a charming landscape of a section of Salt River and a portrait—taken from life on the evening of March 12—of the Democratic party of New Hampshire.

—Lovers, like armies, get along well enough till engaged.

—The man who wrote, "I'm saddest when I sing," was a fool to sing much.

—If the earth were to fall in its orbit, it would fall to the sun. The heat generated by the blow would equal that from the combustion of 5,600 worlds of pure coal.

Rye.

Governor, Straw 98, Weston 175; *R. R. Com.*, Twitchell 98, Colony 174; *Councillor*, Dow 98, Eastman 175; *Senator*, Brown 68, Marcy 202; *Treasurer*, Dow 98, Wilder 175; *Register*, Weston 98, Belknap 175; *Co. Com.*, Miller 98, Frost 175. The Democratic vote, 175, is the same as last year, the Republicans gaining 10. A Republican split ticket was run, with Marcy's name substituted for Brown.

Newcastle.

Moderator, Charles E. Campbell, Republican, received 94 votes; Rufus A. Preble, Jr., Democrat 54. *Governor*, Straw 97, Weston 73; *Railroad Commissioner*, Twitchell 97, Colony 73; *Councillor*, Dow 97, Eastman 73; *Senator*, Brown 97, Marcy 73; *Treasurer*, Dow 97, Wilder 73; *Register*, Weston 93, Belknap 77; *Commissioner*, Miller 97, Frost 73; *Representative*, Campbell 97, ——— 72, Scat. 1.

—Faraday produced films of gold so thin that it would require 350,000,000 of them to make an inch in thickness.

—A man should know when to laugh or smile in company. It shows more stupidity to be grave at a good thing than to be merry at a bad one.

—It is silly to be enraged with an ill that cannot be remedied, or to endure one that can. One must bear the gout; but he need not let a fly tickle his nose.

—A spark complimented his lady love by saying, "You are the handsomest lady I ever saw." "Can't say as much of you," she replied. "You could if you had as little regard for the truth," said he.

—A Chinese maxim says: "We require four things of a woman—that virtue dwell in her heart; that modesty play on her brow; that sweetness flow from her lips; that industry occupy her hands."

—A housemaid who was to call a gentleman to dinner found him engaged in using a tooth-brush. "Well, is he coming?" said the lady of the house, as the servant returned. "Yes, ma'am, directly," was the reply. "He's jist sharpening his teeth."

NEW ADVERTISEMENTS.

HARNESS MAKER,
No. 14 Congress St., Portsmouth,

Invites the attention of purchasers to his stock of light and heavy HARNESSES, and SADDLERY GOODS of all descriptions. Harnesses of any style made to order, at short notice and low price.

REPAIRING carefully attended to. Please give us a call. m13 1m

A MILK FARM TO LET,

PLEASANTLY SITUATED on the road leading from North Hampton to Greenland Parade, known as the HAINES FARM; said farm contains 100 acres, suitably divided into pasturing and tillage, capable of supporting 10 head of cattle. Milk taken at the doors. Also, containing a good number of Fruit Trees. Apply to

JOHN LAMPREY,
3to* m10 North Hampton, N. H.

DIALOGUE.

Stranger. Where is the best place in this city to buy Confectionery or Fruit?

Citizen. At GILBERT'S, 27 Daniel Street, corner Penhallow Street.

St. Does he keep a bar in back?

Cit. He sells neither rum, ale, cider, tobacco or cigars.

St. Does he buy old bankrupt stock of Confectionery and damaged fruit, and sell it 15 per cent. cheaper than the regular trade sell pure articles?

Cit. No *sir.* He makes his candies of pure refined sugar, and his purchases are made from the purest, freshest and best goods in the market, and he sells at a fair profit.

St. Will he sell at wholesale, or less than half a pound?

Cit. Any amount from one ounce to a ton. Call and see him. m13

Office No. 5 Congress St.,

je3tfdaw PORTSMOUTH N. H.

By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - $261.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 10½ per cent. of premiums returned.
At the end of 15 years - - 15½ per cent. of premiums returned.
At the end of 20 years - - 20½ per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - $173.30
Or, at the end of 20 years, of - - - 647.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,
Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Equitable Life Assurance Society,

A. F. CRAIG,
Gen'l Agent.

LOOK AT 'EM DISAPPEAR!

Election Day

Opened with a cold wind and a dry snow, which extended pretty much all over the State, and is possibly one reason why the Republican victory was not more complete. In this city voting started off briskly at the three ward rooms, particularly in Ward Two, where over one hundred Republican ballots were thrown within fifteen minutes of the opening of the polls. Shortly before 9 o'clock the Republicans in that ward room noticed that an unusual number of copperheads were standing around, and suspecting they might spring some trap (such as carrying a motion to vote for but *three* Representatives, the copperheads having nominated but three candidates as a partial cloak for their scoundrelism of last June,) the word was passed around outside and such a crowd of Republicans gathered in a few minutes as effectually blocked the way for any intended sharp practice of the Democrats. In Ward One a split Representative ticket was run by the Republicans, but the caucus nominees were elected. In Ward Three both parties worked hard, the Republicans to redeem the ward and the Democrats to make it once more endorse the dark ages,—but the latter won by 35 on the Governor vote. Below we give the vote of the city for 1871 and 1872:—

Warren Brown is elected Senator in this District by more than 200 majority over Marcy.

Frank W. Miller had the largest vote thrown for any candidate, in this city, his majority being 374, 62 more than than that on the Governor vote.

The Republicans hereabouts were irrepressible, last night, and had a big procession about the city with the Cornet Band. They serenaded Hon. Warren Brown, our Senator-elect, at the CHRONICLE office, which was crowded with friends desirous of hearing the good news as late as one o'clock this morning—and then they departed reluctantly to allow the compositors sufficient quiet to set up the news. The procession called out Mayor Walker, serenaded Hon. W. H. Y. Hackett, was addressed by Ex-Gov. Goodwin, John Pender, Esq., and Aaron Young, Esq., at their residences, and saluted Chief Engineer Moore, U. S. N., Alderman Marvin, Commissioner Miller and the various representatives chosen. We doubt not they would have kept on the march till daylight had the band instruments not frozen up. It was a fit closing to a glorious day's work.

Laconics.

The Greeley Club blew out at an early hour Tuesday night.

Mr. Elisha Tripp advertises new styles of American, English and French paper hangings and window shades, for sale in the old Post Office building, corner Daniel and Penhallow Streets. Mr. Tripp has an extensive and varied stock, and can accommodate his patrons with either the most costly or the cheapest styles of goods, of any desired pattern; and he thinks he can sell at as reasonable prices as any dealer in the city. Give him a call.

Mr. John S. Tilton, whose harness and saddlery card appears in the Chronicle this morning, is manufacturing harnesses of good styles and qualities, at low prices; and by courtesy and prompt attention to customers, has built up a good business. A new and very light harness just finished for one of the most particular horsemen in this city, and which is now in Mr. Tilton's show case, is one of the finest and most beautiful pieces of work ever turned out in New Hampshire; and for heavy work, the double harnesses now worn by the City horses, are good specimens. We commend Mr. Tilton to patronage.

The local copperhead organ, in announcing the nomination of Warren Brown as candidate for Senator by the Republicans, informed the public that another gentleman was "in many respects better fitted to run against such a man as Hon. Daniel Marcy than this man Brown." Who can tell where Hon. Daniel Marcy would have been had a *strong* candidate been nominated against him, when even "this man Brown" has left him so far in the rear? The same sheet styled the Republican State Convention an "army of government office-holders" "assembled at Concord to decide what man shall have the honor of being defeated by Governor Weston." We think it is about time the "army of office-holders" announced their decision, that the public may know what man has had "the honor of being defeated by Governor Weston"—the election returns failing to give his name.

Charles P. Weeks, who is mentioned as arrested in Havana on trumped up charges of fraud, is a native of this city, and was formerly associated in business with Fetridge & Co. of Boston. He has resided near Havana for years, and has been engaged in gas works.

The James Taylor Company had a small audience, Tuesday evening, as might have been expected on election evening; but we are informed that they gave an excellent entertainment,—and hope they will have the house they deserve when they return here, which they propose to do in about a week.

—A young lady must make a bit if she dislikes to be a miss.

—Everybody is anxious to go to heaven; but nobody is in a hurry about it.

—"Get your life insured for $10,000," said a zealous insurance-agent, "and then, if I on die to-morrow, the widow's heart will sing for joy."

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS, DANCES, CLASSES, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AT SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

DEATHS.

In Manchester, March 10 of inflammation of the brain, Miss GEORGIE DAME, aged 21 years, only daughter of John O. and Harriet Dame, and sister of Mr. B. F. Dame, formerly of this city.

CHILDREN'S FAIR.

THE ROGERS MISSION CIRCLE connected with the North Parish will hold a FAIR at the Chapel on Middle Street, Wednesday, March 13. Doors open at 3 o'clock in the afternoon and at 7 in the evening. The usual attractions will be presented, including Fancy Articles, Art Gallery, Supper, Ice Cream, etc.

☞ Admission,—adults 25cts., children 15 cts.

PORTSMOUTH, N. H.
AARON H. HILL, President,
JOHN CHRISTIE, Treasurer.

This Bank pays five per cent. per annum, free of all tax. A greater rate is prohibited by law.

Two dividends are made in the year,—in June and December; and an extra dividend of the surplus earnings every five years. The first extra will be in June, 1874.

Deposits go on interest on the FIRST day of every MONTH, and deposits made during the FIRST THREE days of each MONTH will draw interest from the FIRST day of that MONTH.

Dividends not withdrawn will be add d to the principal, and draw interest from the time when declared.

Money is received on deposit, payable on checks at sight.

Portsmouth, March 8, 1872.

SPECIAL NOTICE.

Portsmouth Savings Bank.

WILLIAM SIMES, President,
J. F. SHORES, JR., Treasurer.
Deposits, $1,716,386.80, Surplus, $101,702.06.

The Treasurer would give notice of the following changes in the By-Laws of this bank, to take effect from this date, viz:

1st. All deposits will go on interest, at the rate of *Five* per cent. per annum, on the 1st day of each and every month.

2d. All deposits made on the first *three* days of each month, will go on interest on the *first* day of that month.

3d. Dividends will be declared on the First day of January and July.

4th. Dividends will be on interest as soon as declared.

5th. Interest will be allowed on deposits of *One Dollar.*

J. F. SHORES, JR., Treasurer.
Portsmouth, N. H., Feb. 21, 1872. feb24 6m

ALL PERSONS owing me and all having accounts for settlement, are requested to settle the same at No. 19 Market Street, by March 15th. After that time all unsettled accounts will be put into the hands of an attorney
f17 MORRIS KICHLER.

Morning Chronicle.

—Newburyport owes $431,000.

—There were 107 new cases and 47 deaths from small-pox in Brooklyn during the past week.

—An American in England, when expected to praise the country said he liked it, only he was afraid to go out nights, for fear he should step off.

BUSINESS NOTICES.

It is a rare thing that physicians give any countenance to a medicine, the manufacture of which is a secret. About the only exception we know of is *Johnson's Anodyne Liniment.* This, we believe, all endorse, and many of them use it in their practice with great success.

Persons requiring purgatives or pills should be careful what they buy. Some pills not only cause griping pains, but leave the bowels in a torpid, costive state. *Parsons' Purgative Pills* will relieve the bowels and cleanse the blood without injury to the system.

HOLLOWAY'S PILLS AND OINTMENT.—Scurvy and Diseases of the Skin — Fever, restless sleep, foul stomach, tainted breath, languor, depression of spirits, always attendant on the worst cases of scurvy, are speedily and radically removed by these medicines—the Ointment cleanses the skin, and the Pills purify the blood, stimulate the liver, and promote digestion. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, gentlemen against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bonkoh, presented King Ja-Ja an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal to this hot country. The dangerous condition of a favorite wife in the palace with one of these drops these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

SIXTEEN YEARS OF SUCCESS.—In 1856 the now famous MUSTANG LINIMENT was first made known to the public by an extensive system of advertising. From that time to the present, the demand for it has been steadily increasing until it has taken the lead of all embrocations, lotions, ointments, and other external remedies, imported or domestic, ever introduced into the American market. In the most celebrated racing and trotting stables, in the establishments of stage and city car companies, and in the stables of private gentlemen, it is the only recognized cure for such diseases of the horse as require outward treatment. Nor is it less valuable as a local application for some of the most distressing complaints to which man is subject. Rheumatism, stiffness of the joints, neuralgia, sore throat, tumors, worms, earache, toothache, yield to its pain-subduing, inflammation-reducing properties, and burns, scalds and cuts are healed with incredible rapidity under its operation.

SPECIAL NOTICES.

Lassitude and Debility.

The relaxation of nervous energy which creates an indisposition to physical or mental effort, so strong as almost to amount to positive inability, and which we term lassitude, proceeds from a variety of causes. The principal of these are constitutional debility, heat of the atmosphere, coupled with humidity, climatic change, and the physical prostration consequent upon a long illness. But whatever the cause, it must be perfectly clear that if the nervous system is unduly relaxed, something is required to brace it up. That something is HOSTETTER'S BITTERS, which is universally recognized as the most complete and speedy recuperant of the physical forces in existence. It has been so thoroughly and widely demonstrated as to be a matter of positive certainty and familiar knowledge, that the Bitters will not only rehabilitate the physique, when shattered and wasted by disease, but will also, if taken systematically, actually compensate the constitution, feeble frame for its deficiency of strength, and by infusing new life into a weak system, endow it with the health and vigor which Nature has denied it. The Bitters also enable the body to resist the enervating influence of heat, humidity, and change from a temperate to a hot climate. It is on these accounts specially to be recommended to travellers and residents in the torrid zone, and persons subjected to abrupt transitions in temperature.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

ROSARY FOR LENT, or Devotional Reading.

For sale by JOSEPH H. FOSTER.

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs. (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

ABOUT THE DOGS.—It is astonishing how many dog stories are afloat in the papers. Among those we have noticed are the following, the first of which is from the Belfast Journal and the second from the Lewiston Gazette:

Mr. Thomas Town has a St. Bernard dog that displays wonderful knowledge. He knows what is said in ordinary conversation, as well as say one. Sometimes his owner will say, in ordinary tones to his wife, "Now if I had my boots, I would go down town." Immediately the dog brings the boots, and lays them at his feet. No pains were taken to teach him anything of the kind. One day last week Mr. Town was sick, and being of the botanical persuasion, he employed Dr. Sylvester. Having a painful attack one morning, Mrs. Town remarked, "I wish that Doctor was here, for I think he could relieve you." Immediately the dog left the house, went to the Doctor's shop, barked, whined, and made all the demonstrations that a dog could, until the Doctor followed him to the house! These are facts—but if any of our skeptical contemporaries have doubts let them somewhere and we will show them the dog.

That is very good for a Belfast dog, but we, one season a time, in the city of Lewiston, had a dog that displayed a knowledge that often seemed to surpass mere instinct, and bordered closely upon reasoning powers. We refer to "old Spot," who for several years took an active part in the business of A. L. & P. P. Getchell. Old Spot had a propensity for going through the glass out of doors in the small hours of the night occasionally, when matters outside didn't move to suit him. He would immediately go to the residence of his owners, and notify them of the trouble, when he would get his jacket tanned for his mischief. He soon discovered that one man set the glass, and also discovered where he lived, and, instead of notifying his master first, when these little overnights occurred, he acquired the habit of calling upon Capt. Richardson, glazier, first, to remedy the effects of his heedless and indiscretion.

Belfast has a dog which goes for the doctor when anybody is sick, without being asked. We once had a little cur that would not only "go for" the doctor, but for anybody else that passed the house, and when no one was sick, either.—*Bangor Commercial.*

A dog story by Dickens is reported by Mr. Field in his "Yesterdays with Authors:" He always had much to say of animals as well as of men, and there were certain dogs and horses he had met and known intimately which it was specially interesting to him to remember and picture. There was a certain dog in Washington which he was never tired of delineating. The first night Dickens read in the capital this dog attracted his attention. "He came into the hall by himself," said he, "got a good place before the reading began, and paid strict attention throughout.

He came the second night, and was ignominiously shown out by one of the check-takers. On the third night he appeared again with another dog, which he had evidently promised to pass in free, but you see," continued Dickens, "upon the imposition being unmasked the other dog apologized by a howl and withdrew. His intentions, no doubt, were of the best, but he afterward rose to explain outside with such inconvient eloquence to the reader and his audience, that they were obliged to put him down stairs."

In the canon between Wellsville and Brigham City, Utah, during January, some travellers saw a dog standing by the side of a telegraph pole. The appearance of the animal struck them, for, as they rode up towards it, it did not move or give any signs of life, but stood as motionless as if carved out of stone. A closer inspection revealed the fact that the dog was frozen to death. He had died leaning against the telegraph pole, and stood as naturally as if alive.

Recently F. W. Slason, residing in Charlestown, Mass., was attracted by the strange conduct of his Newfoundland dog, which had to be driven from the cellar once and afterwards continued near the door. Mr. Slason finally went to the cellar, with the dog. He proceeded to a certain corner of the cellar, and began a vigorous pawing of the earth until it had reach a distance of nearly three feet in depth, from which the dog drew forth the body of a male child, and deposited it at his master's feet. This led to the detection of the criminals.

IRON IN THE BLOOD.—Probably no fact in medical or chemical science is more widely understood than that there is "iron in the blood." As a fact it is no more remarkable than that this fluid holds potassium or sodium, or that the brain is permeated with phosphorus. The popular curiosity and interest regarding iron as it exists in the circulation, have been excited by venders of quack remedies alleged to contain some combination of the element. While there is much that is very absurd in the statements popularly presented, it is impossible to overlook the importance to the well-being of the individual of the few grains of iron found in the blood. If the quantity is dimished from any cause, the whole economy suffers serious derangement. We have reason to believe that when the normal quantity (about 100 grains) is reduced 10 per cent, the system is sensibly affected, and the health suffers. How sensitive to all the chemical reactions going on within and around, is this complex machine which we call the body!

But iron, among the mineral constituents of the body, does not stand alone in its important relationship. The metals exists combined with other bodies, or they are locked up in the form of salts, which are vital to the economy. There are five pounds of phosphate of lime, one of carbonate of lime, three ounces of fluoride of calcium, three and a half ounces of common salt, all of which have important offices to fill. Not one of them must be allowed to fall in quantity below the normal standard. If the lime falls, the bones give way; if salt is withheld, the blood suffers, and digestion is impaired; if phosphorus is sparingly furnished, the mind is weakened, and the tendency is towards idiocy.—*From Dr. Nichols'* FIRESIDE SCIENCE.

—Little girls believe in the man in the moon; big girls believe in a man in the honeymoon.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the patent laws. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to the office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR ULCERATE OR ABDOMINAL PAINS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints,

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system to give health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w f20

Representatives elected so far as heard from:

Republicans,	178
Democrats,	107
Temperance,	2
Labor Reform,	3
Republican majority,	66

This majority will be reduced somewhat by the towns whose returns are yet to come in.

CIVIL RIGHTS.—A Jackson, Miss., special says, "The civil rights bill, giving equal rights to all persons in all public conveyances, hotels, theatres, etc., became law. A negro and his wife to test the law, took a seat Tuesday night in the theatre, but were ejected."

Deposit Insurance

Is a new form of LIFE INSURANCE, originated and just introduced by the old and popular

CHARTER OAK LIFE

Insurance Co.,

OF HARTFORD, CONN.

Organized 1850.

$10,000,000 Assets.

It is confidently recommended as far superior in all respects to any Tontine or other plan upon which payment of profits is deferred. Insurance on all the usual plans is offered by this company at far Lower Rates than are charged by other mutual companies.

Milk taken at the doors. Also, containing a good number of Fruit Trees. Apply to

JOHN LAMPREY,
30tf m10 North Hampton, N. H.

DIALOGUE.

Stranger. Where is the best place in this city to buy Confectionery or Fruit?

Citizen. At GILBERT'S, 27 Daniel Street, corner Penhallow Street.

St. Does he keep a bar in back?

Cit. He sells neither rum, ale, cider, tobacco or cigars.

St. Does he buy old bankrupt stock of Confectionery and damaged fruit, and sell it 15 per cent. cheaper than the regular trade sell pure articles?

Cit. No *sir.* He makes his candies of pure refined sugar, and his purchases are made from the purest, freshest and best goods in the market, and he sells at a fair profit.

St. Will he sell at wholesale, or less than half a pound?

Cit. Any amount from one ounce to a ton. Call and see him. m13

PORTSMOUTH

NOTICE.

ROCKINGHAM TEN CENTS

SAVINGS BANK,
No. 20 Market Street.

PORTSMOUTH, N. H.

AARON H. HILL, President,
JOHN CHRISTIE, Treasurer.

This Bank pays five per cent. per annum, free of all tax. A greater rate is prohibited by law.

Two dividends are made in the year.—In June and December; and an extra dividend of the surplus earnings every five years. The first extra will be in June, 1874.

Deposits go on interest on the FIRST day of every MONTH, and deposits made during the FIRST THREE days of each MONTH will draw interest from the FIRST day of that MONTH.

Dividends not withdrawn will be added to the principal, and draw interest from the time when declared.

Money is received on deposit, payable on checks at sight.

Portsmouth, March 8, 1872.

DOWN SHE GOES!

LOCAL AFFAIRS.

Gosport hasn't voted yet.

Republicans are requested to meet at headquarters this evening at 7 o'clock.

U. S. Steamer Frolic arrived here Wednesday from Washington Navy Yard, with stores for this Yard.

Thomas S. Gay, Sailmaker, U. S. N., has been ordered to the practice ship Constellation, at Norfolk, Va.

Complimentary Concert.

We have been requested to publish the following card;

We, the undersigned, residents of Portsmouth, having learned with regret that Mrs. Frank L. Martyn is about leaving this city, and being desirous of manifesting our appreciation of her, both as a vocalist of undoubted superiority and a lady of refinement and culture, take this method of requesting one more opportunity of attending one of her delightful entertainments, and to this end earnestly desire Mrs. Martyn to give us one more evening of music before her departure, and should he conclude to do so, we pledge him our hearty support, and co-operation.

WILLIAM R. PRESTON,
JEROME C. BUTLER,
GEO. W. MARSTON,
W. FREEMAN.
E. B. GOODALL,
WM. M. THAYER,
A. H. HILL,
FRANK JONES.

The above card speaks for itself. We can only say that on this, the last appearance of Mrs. Martyn, in this city, Mr. Martyn will use his utmost endeavors to surpass any previous entertainment of the kind ever given here. To this end Mr. Martyn has engaged, at great expense and considerable difficulty, a celebrated comique, Mr. Wm. Hunt of Boston. This gentleman has a high reputation as any artist, and we congratulate Mr. Martyn on his success in obtaining no valuable an aid. Other strong attractions will also be offered, of which due notice will be given. The concert will take place next Monday evening.

Vote for Senator, 1871.

Total	2527	2243	5

Brown's majority, 279.

Seabrook.

In spite of the storm a large vote was polled, resulting in a Republican victory—a gain of 35—the Republicans electing their candidates for Representative and Selectmen. When the vote for Representative was declared and it was found that the Republican candidate was chosen, cheer upon cheer rang out and joy was manifested in many ways. The news seemed almost too good to be true, but true it was—the truth being witnessed to by the settled gloom on the faces of the opposition. A disposition to subdue the rejoicing was manifested by some of the gloomy ones whose wits were out in consequence of the presence of "ardent" within, but the town police promptly gave the dissatisfied ones to understand that they were on the lame side, and their decided action secured full liberty for the *straws* to show which way the wind was blowing. A.

Check.

The Boston News, a temperance paper, which did its best to defeat the Republicans in this State, says:

The result in New Hampshire is gratifying to every one, except the Democrats.

FAST DAY in Massachusetts, April 4.

The Election.

The Republican candidate for Mayor of Nashua has 29 majority—a gain.

One of the most satisfactory results of the election is the defeat of Wm. H. Gove, the Labor Reformer who sold out to the Democrats last year and was elected Speaker of the House of Representatives.

The Republicans claim the election of Greenwood as Senator in the Eleventh District by a small majority.

Returns from 198 towns give Straw 36,211, Weston 34,325, Scattering 790. Straw's majority 1096. Thirty-six towns remaining to be heard from gave Pike last year 2990, Weston 3401, Scattering 170. Should these towns vote as last year, Straw will have a total vote of 38,970, Weston 37,552; Scattering 1000. Straw's majority 418.

Stratham.

Straw 112, Weston 83; Twitchell 112, Colony 83; Dow 112, Eastman 82; Brown 112, Marcy 82; Dow 112, Wilder 82; Weston 94, Belknap 100; Miller 112, Frost 82. *Moderator*, James W. Rollins; *Selectmen*, Addison Wiggin, Nathaniel Wiggin, David P. Batchelder; *Town Clerk*, Joseph S. Staples. Wiggin's (Republican) majority for Representative 6.

Political.

The Hartford (Conn.) Republicans fired 100 guns in honor of the New Hampshire election. So did the Bostonians.

The Boston Post did not display its roosters, Wednesday morning, and we suppose they crowed themselves to death at the recent poultry show in Boston Music Hall. So says a Boston Democrat.

RYE TOWN OFFICERS.—*Moderator*, G. H. Jenness; *Town Clerk*, Langdon B. Parsons; *Selectmen*, Richard P. Goss, Joseph W. Garland, Joseph P. Trefethern; *Collector*, Aaron Rand; *Supt. Sch. Com.*, G. H. Jenness—all Democrats.

—The Portsmouth Chronicle adds to our brief essay on the Jackson-white potato being the cause of so many Democrats in New Hampshire, the information that Red-eyes also have "their share in the creation of the "Unterrified." But the question to-day (March 12, 1872) is, will the Republicans be able to take the starch out of them?—*Boston Times.*

The starch has disappeared, Bro. Dunham.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a magnificent Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, ANNUALS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AT SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

It is a rare thing that physicians give any countenance to a medicine, the manufacture of which is a secret. About the only exception we know of is *Johnson's Anodyne Liniment.* This, we believe, all endorse, and many of them use it in their practice with great success.

Persons requiring purgatives or pills should be careful what they buy. Some pills not only cause griping pains, but leave the bowels in a torpid, costive state. *Parsons' Purgative Pills* will relieve the bowels and cleanse the blood without injury to the system.

HOLLOWAY'S PILLS AND OINTMENT.—Scurvy and Diseases of the Skin—Fever, restless sleep, foul stomach, tainted breath, languor, depression of spirits, always attendant on the worst cases of cutaneous eruptions, are speedily and radically removed by these medicines—the Ointment cleanses the skin, and the Pills purify the blood, stimulate the liver, and promote digestion. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, anathemas against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

HOUSE AND LAND

—ON—

Little Harbor Road.

Will be sold at Public auction, on the premises, unless previously disposed of at private sale,

—ON—

Saturday, March 23d, at 12 o'clock, M.,

The Homestead of the late THOMAS J. WHIDDEN, consisting of about four acres of land, dwelling house, and a barn nearly new. The land extends from the Little Harbor Road to the water, has Fruit Trees, &c., and is pleasantly situated. The sale is positive by order of the Executor. Apply to WILLIAM H. HACKETT, Portsmouth, Feb. 24, 1872.

DEATHS.

In Greenland, March 11, Mr. THOMAS PICKERING, aged 88 years.

☞ Funeral from his late residence Thursday afternoon at 2 o'clock.

SPECIAL NOTICES.

Lassitude and Debility.

The relaxation of nervous energy which creates an indisposition to physical or mental effort, so strong as almost to amount to positive inability, and which we term lassitude, proceeds from a variety of causes. The principal of these are constitutional debility, heat of the atmosphere, coupled with humidity, climatic changes, and the physical prostration consequent upon a long illness. But whatever the cause, it must be perfectly clear that if the nervous system is unduly relaxed, some thing is required to brace it up. That something is HOSTETTER'S BITTERS, which is universally recognized as the most complete and speedy recuperant of the physical forces in existence. It has been so thoroughly and widely demonstrated as to be a matter of positive certainty and familiar knowledge, that the Bitters will not only rehabilitate the physique, when shattered and wasted by disease, but will also, if taken systematically, actually compensate the constitutionally feeble frame for its deficiency of strength, and by infusing new life into a weak system, endow it with the health and vigor which Nature has denied it. The Bitters also enable the body to resist the enervating influences of heat, humidity, and changes from a temperate to a hot climate. It is on these accounts specially to be recommended to travellers and residents in the torrid zone, and persons subjected to abrupt transitions in temperature.

BATCHELOR'S HAIR DYE.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD,

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When these are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

f17 MORRIS KICHLER.

Morning Chronicle.

THE CHESAPEAKE PENINSULA.—The reverence in which this 'old region' is held by those who have wandered from it is exemplified by a late remark of William H. Hooper, delegate in Congress from Utah, and a Mormon, though not a polygamist. He was describing the virtues of Eastern Shore cooking, when one said:—

"Captain Hooper, when were you last on the old peninsula?"

"Never, Madame, since I left it thirty-five years ago."

"Why, sir, from your frequent mention of the place, I should think you would want to slip over there at least once every session of Congress."

"Never, Madame! I never wish to see it again; for I might be disappointed. I always want to remember it as it appeared to me last in the days of my youth: the most beautiful spot under the eyes of Providence."

Similar testimony was that of John Curtis, father-in-law by her first marriage of Mrs. George Washington. The Curtis family had descended in America, from John Curtis, a Hollander in name and origin, who received the appointment of Collector of Customs on the Eastern Shore of Virginia in 1687, and whose great estate of Arlington there, and relative fortune in mone, attested either the richness of the Eastern Shore at that time, or the antiquity of the Collector of the Customs as we know him, a Royal officer to this day. The estate of Arlington, near Washington City, perpetuates the name of the elder manor of the Curtis family near Cape Charles, and it is authentic history that the son of the Collector married the daughter of Daniel Parke, who carried the dispatches of Marlborough to Queen Anne, announcing the victory of Blenheim. This second Curtis, living unhappily with his wife, left this tribute to the Eastern Shore on his tomb-stone:—

"Under this marble tomb lies the body of the Hon. John Curtis, Esq., of the city of Williamstown, and parish of Burton, formerly of Hungars parish on the Eastern Shore of Virginia and County of Northampton, aged seventy-one years, and yet lived but seven years, which was the space of time he kept a bachelor's home at Arlington, on the Eastern Shore of Virginia."

These attestations, however, revive the widely known anecdote invented by Hon. Tom Corwin, who used to tell it on the "stump." A very old man, with long jaws and high cheek-bones, came once upon a time to the witness-box of an Ohio court.

"What is your age?" asked Corwin.

"Twenty-two."

"You probably mistake the question. The years of your life,—I wish to know the number of them."

"Twenty-two!"

"Have you spent all your life in Ohio?"

"On'ne. I did live forty year on the Eastern Sho' of Maryland, but I hope the Lord sin't counted them agin me."

The queer phrases and pronunciation of this region are of habit, and no longer of ignorance.

"I do'no but" is a mild form of affirmation. "A danged sight good deal" is an ambiguous estimate of quantity. "Won't 'mung ye come to see me?" is a somewhat querulous renewal of an invitation. "What for a sort of a man" is hardly indigenous, but sounds suspiciously like an imitation of "Fildelfy" or "Baltimer" business talk. Who can define an "ill-commoosed day" except upon the theory of natural volubility unrelieved by a dictionary? "An else" is a transposition of unless. "Right smart" is of universal currency; it applies to a man of sagacity, to quantity, and to distance; occasionally the word "peart" takes the place of smart, to signify animation. "Cleverness" in Delaware means hospitality and good fellowship solely, never skill, and is the next diploma below the impassible grade of "a gentleman."

Cousinship is a feature of good family life on the Peninsula, the remark being common of "So and So is my fourth cousin." Extraordinary cases of human longevity occur here, notwithstanding the prevalency at times of low fevers; but the Eastern Shore is healthier than the opposite and higher coast. Crime is rare; society was tranquil during the war; Northern immigration is welcomed, and observes no prejudice.

It is to be remarked that from peninsulated regions of the Chesapeake, closely resembling the Eastern Shore, many of our strongest public men have come; as, for example, Washington, the Lee family, Pinckney and Wirt, Taney and Reverdy Johnson; in short, the whole line of Virginia statesmen. William and Mary, and St. John's Colleges are pitched in the lowlands of the Chesapeake.—*George Alfred Townsend in Scribner's Magazine.*

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does not two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

SEVEN LENTEN SERMONS on Psalm LI.

A GOOD REPORT, or Lessons for Lent.

ROSARY FOR LENT, or Devotional Reading.

For sale by JOSEPH H. FOSTER.

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years, and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

DRY BATHING.—Regular bathing, so far as the people of this country are concerned, is certainly a habit of quite modern adoption. The fathers and mothers, and grandfathers and grandmothers, of those who have reached middle life, seldom or never bathed, except in the warm months of summer. Their dwellings afforded no conveniences for the act, if they felt the need of performing it. As a general thing, the health was unaffected by this omission. Why was this? Because of their occupations and their methods of living. They were active workers, they were but a small amount of clothing, they lived much in the open air, and their dwellings were without stove and furnace heat. If any one in these days will exercise in the open air, so that each day he will perspire moderately, and if he will wear thin under garments, or none at all, and sleep in a cold room, the functions of the skin will suffer little or no impediment if water is withheld for months. Indeed, bathing is not the only way in which its healthful action can be maintained by those living under the conditions at present existing. Dry friction over the whole surface of the body, once a day, or once in two days, is of more service than the application of water. The reply of the centenarian to the inquiry, to what habit of life he attributed his health and extreme longevity, that he believed it due to "rubbing himself all over with a *cob* every night," is significant of an important truth.

If invalids and persons of low vitality would use dry friction and Dr. Franklin's "air bath" every day for a considerable period, we are confident they would often be greatly benefited. Cleanliness is next to godliness, no doubt, and a proper and judicious use of water is to be commended; but human beings are not amphibious. Nature indicates that the functions of the skin should be kept in order mainly by muscular exercise, by exciting natural perspiration by labor; and delicious as is the bath, and healthful, under proper regulations, it is no substitute for that exercise of the body without which all the functions become abnormal.—*From Dr. Nichols' Fireside Science.*

WHAT TO USE FOR WATER-PIPES.—Leaden pipes may be employed to conduct water from ponds and rivers or reservoirs, under *ordinary conditions*, with safety. But since disturbing agencies of a local character are liable to occur, of which water-takers can have no knowledge until evil consequences result, it will be better to substitute some kind of pipe which is safe under all possible conditions. Neither tin-lined lead, galvanized iron, or brass pipes meet this want. Iron pipes are entirely unobjectionable on grounds of safety; and the other undesirable features which have been named are not of so serious a nature as to lead to their rejection for common use as service-pipes. By lining the interior with cement or glass, a conduct pipe is produced which leaves a better one hardly to be desired.

Block-tin water-pipes are safe and excellent, but costly. Those who do not mind expense can resort to this pipe for water conduction, with assurance that they are fully protected from danger. It is quite probable that not many years will elapse before new devices for conducting water to dwellings, which are safe and cheap, will be afforded us, as this is an important question towards which many competent and ingenious minds are turned at the present time.—*From Dr. Nichols' Fireside Science.*

HELMBOLD.—Bankruptcy is a commercial death from which there is sometimes a resurrection. I am inclined, however, to think that this Helmbold affair is accompanied by no such hope. Helmbold, in other words, is effectually killed. I do not mention this as news, but simply to make a few comments. As the old song goes, "While he lived he lived in clover, and when he died he died all over." They say that seven is a mysterious number, and Helmbold's career in this city lasted just seven years. In 1865, the year that Lincoln was slain, he commenced his Broadway drug establishment. He had a little money which he brought from Philadelphia, and he made a dash with it, meeting remarkable success. Most nostrums seem to be short-lived. Helmbold's preparations took well at first, and he made enormous profits. In 1868 he reported an income of more than $50,000 and this was even increased. In the great Presidential campaign of 1868 he determined to exceed all partisans in liberality. A. T. Stewart gave $30,000 to the Republican fund, and Helmbold, to "out-Herod Herod," gave $40,000 to aid the election of Seymour. No doubt he would be glad just now to handle that sum again. Success makes most men delirious, and Helmbold was no exception. It was a remark of Peter C. Brooks, the Boston millionaire, in reference to his prosperity, "We made money fast enough to have turned most men's heads," and Edward Everett commented on this as a striking peculiarity in Brooks, that it did not turn his head. But Helmbold was bewildered by success. He spent enormous sums in a wasteful manner. His dashing turn-out at Long Branch excited the envy and admiration of fashion-worshippers, and in the Central Park his equipage also commanded attention. His diamond breast-pin and his luxurious life were the witnesses of a weak vanity and pride of purse. The tide of prosperity, like all other tides, had its limit, and then came the ebb. For this he was not prepared, and bankruptcy followed. Some months ago I saw his shattered and exhausted countenance and his frail form standing in the porch of what once was his palace of pharmacy. He looked dazed and dreamy, like one who hardly woke to the reality. Now he is in Europe, seeking restoration of health. It is more than probable that he will return in his coffin. I have seen this thing repeated more than once. I remember the "patent medicine Comstocks," and their grand equipage, who after their failure were in due time followed by Sarsaparilla Townsend, who made a great fortune, and then like wise came out poor. Now we have Helmbold to point a moral and adorn a tale. As for Townsend, his profits on sarsaparilla enabled him to build a palace in the Fifth avenue, and after his failure it was purchased by Stewart, who pulled it down in order to make room for his palace. Thus the butterflies of success come and go, while the moral of the scene is thus gathered by.

—A richly-dressed lady stopped a boy trudging along with a basket, and asked, "My little boy, have you got religion?" "No, ma'am," said the innocent, "I've got potatoes."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDWARD BURGESS, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

Boston, Jan. 1, 1872.—1 yr. JOHN TAGGART."

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases for no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—Alliletters must contain one dollar or they will not be answered.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTER, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital fluids, and invigorates and fortifies all weak and lymphatic temperaments. 4w f20

The Daily Chronicle,

Portsmouth, N. H.

FRIDAY, MARCH 15, 1872.

The Election.

We have returns from 222 towns, which give Straw 38,365, Weston 35,818, Blackmer 462, Cooper and scattering 537. Straw's majority 1558. Gosport, Cambridge, Hart's Location and Wentworth's Location held no election. The following towns remain to be heard from. We give their vote for last year.

	R.	D.	Scat.
Bartlett	21	132	6
Effingham	92	105	
Jackson	9	77	17
Ellsworth	10	40	1
Clarksville	20	40	
Errol	8	36	
Pittsburg	57	50	
Randolph	6	27	
	203	507	24

Adding the vote of last year in these towns to the vote of the 222 towns above mentioned, Straw will have 38,568; Weston 36,315; Blackmer 462, Cooper and Scattering 561; Straw's majority overall, 1230.

Representatives — Republicans 207, Democrats 135, Labor Reformers 4, Temperance 1.

The Republican candidates for County offices in Rockingham County are all elected. Straw carried the County by 787 majority, a gain of 832 from last year.

For Mayor of Concord, John Kimball Republican, had 1642; E. M. Knowlton, Democrat, 1210. Kimball's majority, 432.

It has been discovered that the democratic representative declared elected in Ward 5, Manchester, by one majority, was declared so by fraud. The republicans are prepared to prove this and will contest the election. A special election in Ward 6 for a third representative, resulted in the choice of Alfred Fisher, Republican.

Recapitulation.

1871.

THE CONCORD REPUBLICANS visited Manchester on Wednesday night, and called on Governor-elect Straw. Bonfires, illuminations and fireworks were numerous. Speeches were made by Senators Cragin and Patterson, Hon. M. W. Tappan, Hon. E. A. Straw and others.

THE REPUBLICANS OF NEW HAMPSHIRE have expressed their confidence in President Grant and also plainly intimated that in their opinion the reckless charges of corruption by Schurz, Sumner, Trumbull *et als* are without foundation and unworthy of credence.

THE SENATE COMMITTEE on military affairs have agreed upon bills giving women-nurses of the sick and wounded soldiers, during the late war, twenty dollars a month for the time during which they were actually in the service.

EFFORTS are making to effect a reconciliation between the Czar of Russia and the disaffected Poles, secure the return of the refugees and make the Grand Duke Alexis viceroy of Poland.

THE ITALIAN REVOLUTIONISTS of the Piedmontese frontier are active, and agents of the Swiss federal council are watching their movements.

MATTHIAS CLARK, one of the jury before which Mayor Hall was being tried, died on the 13th. A new trial will be ordered.

THE GOVERNOR of Massachusetts has issued his proclamation for a day of fasting and prayer on the 4th of April.

THE NATIONAL CAMP of the Protective Sons of America began its sessions in New York, Tuesday.

COMPARATIVE VOTE FOR 1871-72.

1871. 1872.

Political.

A Washington dispatch to the Boston Advertiser says the return of Senator Patterson is greeted among men of all parties as one of the most valuable fruits of the New Hamshire victory.

Republican State conventions for the selection of delegates to the national convention in Kentucky and Wisconsin adopted resolutions in support of the present administration.

Berwick, Me., went republican on Tuesday after enduring democratic rule for a year.

State News.

Frank Abbott, Chauncy Miner and W. Rantrew were seriously injured by an explosion of powder while firing a salute in honor of the election at Lancaster on Tuesday evening. All the windows in the front end of Thayer's Hotel were blown in at the same time.

The Nashua Republicans had a jollification, Wednesday evening.

EASTERN RAILROAD.—The accession of Mr. Chas. F. Hatch to the management will not interfere with the duties of Superintendent Prescott, who earnestly desired Mr. Hatch's election to the position.

The Company has settled with Mr Charles H. Cheney of Newburyport, agent for his mother, Mrs. Alice H. Cheney, who was injured for life; and also for the death of his sister, Mrs. Susan F. Cheney, who was killed by the Revere accident; the former having $8500, and the only child of the latter $5000.

SHIP GREAT REPUBLIC, Capt. Ingraham, which left Rio Janeiro for St. John, January 18th, encountered a fierce north-east gale on the 2d of March and was abandoned on the 4th, foundering soon after. The officers and crew arrived at Bermuda on the 5th. Steamer San Francisco narrowly escaped destruction in the same storm.

THE CLAIMANT to the Tichborne estate, who has been in prison since the adverse decision in his case, has hopes of securing the required bail—£50,000—to effect his release. It is reported that the prisoner, if bailed, will be rearrested on a charge of forgery.

SPANISH OFFICIALS in Cuba state that there are few rebels in arms in the central department.

THE GOVERNMENT of Prince Edward Island is defeated and the house has adjourned.

—Alfred the Great, whose name is always presented to us when recurring to the prevalent accomplishments of the age in which he lived, added to his other qualities that of being an excellent musician. He was twelve years old before he was provided with a teacher; but he could sing many Saxon songs by rote. The story of his entering a Danish camp disguised as a harper is undoubtedly true; and his being enabled to impose upon the Danes is no mean proof of his musical talects. In 866 he founded a professorship at Oxford, for the cultivation of the science of music; and this was doubtless the first professorship of the kind in England. The first professor of music was Friar John, of St. David's. The science of music was involved in so many difficulties, and the method of teaching was so tedious, that nine or ten years' study would insure little progress in it.

—The author of a radical total-abstinence novel wrote in his book, "Drunkenness is folly." He was much chagrined when the work came home from the press to find that the printers had made it read, "Drunkenness is jolly."

—First understand, then argue.

—Strawberries are selling at 50 cents each in Boston.

—The Union Pacific Railroad is reported to be clear.

—What is better than a "promising young man?" A paying one.

—Trust not him who seems more anxious to give credit than to receive cash.

—There's no harm in a glass of whiskey—if you allow it to remain in the glass.

—Man was created on the last day; even the gnat has a more ancient lineage.

—Another severe snow-storm in Nova Scotia has interrupted railroad travelling again.

—A Brazilian savant has discovered that men were on the banks of the Amazon 20,000 years ago.

—The deepest sea-sounding ever taken shew a depth of eight miles and three-quarters, double the height of the Andes.

BUSINESS NOTICES.

It is a rare thing that physicians give any countenance to a medicine, the manufacture of which is a secret. About the only exception we know of is *Johnson's Anodyne Liniment*. This, we believe, all endorse, and many of them use it in their practice with great success.

Persons requiring purgatives or pills should be careful what they buy. Some pills not only cause griping pains, but leave the bowels in a torpid, costive state. *Parsons' Purgative Pills* will relieve the bowels and cleanse the blood without injury to the system.

HOLLOWAY'S PILLS AND OINTMENT.—Scurvy and Diseases of the Skin — Fever, restless sleep, foul stomach, tainted breath, languor, depression of spirits, always attendant on the worst cases of cutaneous eruptions, are speedily and radically removed by these medicines—the Ointment cleanses the skin, and the Pills purify the blood, stimulate the liver, and promote digestion. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, anathems against the depletive lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every grave-yard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, billious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Baskoh, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass, for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

SIXTEEN YEARS OF SUCCESS.—In 1856 the now famous MUSTANG LINIMENT was first made known to the public by an extensive system of advertising. From that time to the present, the demand for it has been steadily increasing until it has taken the lead of all embrocations, lotions, ointments, and other external remedies, imported or domestic, ever introduced into the American market. In the most celebrated racing and trotting stables, in the establishments of stage and city car companies, and in the stables of private gentlemen, it is the only recognized cure for such diseases of the horse as require outward treatment. Nor is it less valuable as a local application for some of the most distressing complaints to which man is subject. Rheumatism, stiffness of the joints, neuralgia, sore throat, rumors, weak earache, toothache, yield to its pain-subduing, counter-irritant properties, and burns, scalds and cuts are healed with incredible rapidity under its operation.

SPECIAL NOTICES.

Lassitude and Debility.

The relaxation of nervous energy which creates an indisposition to physical or mental effort, so strong as almost to amount to positive inability, and which we term lassitude, proceeds from a variety of causes. The principal of these are constitutional debility, heat of the atmosphere, coupled with humidity, climatic changes, and the physical prostration consequent upon a long illness. But whatever the cause, it must be perfectly clear that if the nervous system is unduly relaxed, something is required to brace it up. That something is HOSTETTER'S BITTERS, which is universally recognized as the most complete and speedy recuperant of the physical forces in existence. It has been so thoroughly and widely demonstrated as to be a matter of positive certainty and familiar knowledge, that the Bitters will not only rehabilitate the physique, when shattered and wasted by disease, but will also, if taken systematically, actually compensate the constitutionally feeble frame for its deficiency of strength, and by infusing new life into a weak system, endow it with the health and vigor which Nature has denied it. The Bitters also enable the body to resist the enervating influences of heat, humidity, and changes from a temperate to a hot climate. It is on these accounts specially to be recommended to travellers and residents in the torrid zone, and persons subjected to abrupt transitions in temperature.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET, N.Y.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free, in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. d3m d23

CHEERFULNESS AND MOROSENESS.—If we are cheerful and contented, all nature smiles with us; the air seems more balmy, the sky more clear, the ground has a brighter green, the trees have a richer foliage, the flowers a more fragrant smell, the birds sing more sweetly, and the sun, moon and stars all appear more beautiful. We take our food with relish, and whatever it may be, it pleases us. We feel better for it—stronger and livelier, and fit for exertion. Now what happens to us if we are ill-tempered and discontented? Why, there is not anything which can please us. We quarrel with our food, with our dress, with our amusements, with our companions, and with ourselves. Nothing comes right for us; the weather is either too hot or too cold, too dry or too damp. Neither sun, nor moon, nor stars have any beauty; the fields are barren, the flowers lustreless, and the birds silent. We move about like some evil spirit, neither loving nor beloved by anything.

—A drunken man who had slipped down thought it singular that water always froze with the slippery side up.

—It was very manifest from the tone of the dispatches from Concord Wednesday afternoon, concerning the election, that nothing had been heard "from the —— fools in Coos."—*Boston Times.*

—"How is your husband, dear?" asked one lady of another. "Oh, he is in a very bad state," was the reply. "And pray what kind of a state is he in?" persisted the other. "In State prison."

—A man who had borrowed a bag of a neighbor to go to mill with, was knocked into the water and drowned, and the bag lost. When the news was brought to his bereaved wife, she exclaimed, "My gracious! what a fuss 'll be made now about that bag!"

—Profane swearing never did any man any good. No man is the richer or happier or wiser for it. It commends no one to any society. It is disgusting to the refined; abominable to the good; insulting to those with whom we associate; degrading to the mind; unprofitable, needless, and injurious to society.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth.) new Display Type, borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, LAW BILLS, CIRCULARS, ORDER OF DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be promptly filled.

DIALOGUE.

Stranger. Where is the best place in this city to buy Confectionery or Fruit?

Citizen. At GILBERT'S, 27 Daniel Street, corner Penhallow Street.

St. Does he keep a bar in back?

Cit. He sells neither rum, ale, cider, tobacco or cigars.

St. Does he buy old bankrupt stock of Confectionery and damaged fruit, and sell it 15 per cent. cheaper than the regular trade sell pure articles?

Cit. No *sir.* He makes his candies of pure refined sugar, and his purchases are made from the purest, freshest and best goods in the market, and he sells at a fair profit.

St. Will he sell at wholesale, or less than half a pound?

Cit. Any amount from one ounce to a ton. Call and see him. m13

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 194 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - - $173.80
Or, at the end of 20 years, of - - - 627.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,

Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Equitable Life Assurance Society,

A. F. CRAIG,

Gen'l Agent,

No. 5 Congress St., Portsmouth, N. H.

LOCAL AFFAIRS.

Estimate and Result.

The local Democratic organ states that it was expected that the Republicans would have 400 majority in Portsmouth, and that "they counted on at least 500 majority." He says also that "they counted on about 250 majority in Ward One." Now for facts. The canvass as sent to the State Committee we publish, with the result of the vote of Tuesday. Here it is.

CITY.

	Straw.	Weston.	Doubtful.	Total.
CANVASS	1271	953	123	2347
ACTUAL VOTE	1296	889	Scat. 5	2100

WARD ONE.

CANVASS	472	382	62	916
ACTUAL VOTE	488	331	Scat. 2	821

It has been customary to divide the doubtful equally in estimating the probable majority. By the foregoing figures it will be seen that the Republicans claimed 318 majority in Portsmouth and Mr. Straw received 312 majority—a gain of 187 from last year. How will that do for accurate canvassing?

Laconics.

The Republican demonstration election night was a *torcher* to our Democratic friends.

Did Billy ever know a "lukewarm" Republican or a red hot rebel to like either of the Patersons?

Heman Eldredge, Esq., senior member of the firm of Eldredge & Son, brewers, died in Chatham, Mass., on Thursday.

Hon. Jacob H. Ela, Fifth Auditor of the U. S. Treasury, was in town on Thursday.

The largest vote ever given for any man in Portsmouth was 1245 for Gov. Fred Smyth in 1865. The next largest was that for Frank W. Miller, Esq., for Railroad Commissioner at the recent election.

Ku-Klux and Rebels raided this State in vain. Where e'er they blew the copper horn Republicans made a gain.

Billy thinks his little Bantam will "warm" our rooster in the Presidential contest next fall. Perhaps he will—and feed him too.

The Republicans of this city will celebrate by a procession, bonfire, &c., next Monday evening.

Five hundred Democratic dollars were invested at Gosport to elect the Democratic candidate for Representative—and he wasn't elected.

Chaplain James J. Kane, U. S. N., has been nominated by the President to be advanced ten numbers in his grade for "extraordinary heroism" during the rebellion. Mr. Kane was recently on duty at this Station; it will be gratifying to his friends here to see him thus placed among those who are being promoted for their "gallant" actions during the late war.

Billy is to tell woful things in his columns during the "remaining days of March." Everybody buy a copy for the next fifteen days. Substantial aid needed.

Great excitement in the Lyre office. Terrible outrage on the "wart's" rights.

The Republicans of Kittery fired 100 guns Thursday evening in honor of the Republican victory in this State.

Rehearsal of the Jubilee chorus, at Mr. Tilton's music room, on Monday and Wednesday evenings next.

We shall publish to-morrow a statement from the selectmen of Gosport regarding the failure of an attempted outrage by Democrats to control the election there on Tuesday, had one been held.

The noble bird we exhibited on Wednesday won the admiration of friend and foe. Everybody and their uncles wanted a copy of him and our large extra editions of the CHRONICLE and the GAZETTE, in addition to our regular issues, were swept from our tables before night-fall. A Concord friend sent for 500 CHRONICLES after they were all sold. To those who neglected to call in season to obtain a copy, we can only give temporary satisfaction. They may see the beauteous biped next November. He feels tired now, after a campaign lasting a twelve-month. We said he would grow—and he did.

Billy characteristically flings a mean insinuation at the selectmen of Ward Two by asking why the votes of several Republicans for Daniel Marcy were not counted—when he does not have any belief that they were not counted.

Communicated.

PLUCK AND PROGRESS—BUSINESS AND THE BOARD OF TRADE.—*Messrs. Editors:*—I am glad that our Board of Trade is not to be dissolved into thin air, nor its funds resolved into books. Not but that I appreciate books, and public libraries, though I think the necessity or value of the latter is over-estimated, especially in these days of cheap newspapers, circulating libraries and the numerous collections of books of Mercantile and Christian Associations, &c.,—all of which are available for nothing, or for a song very near that popular tune. However, let those found a Public Library who wish—if they can; I shall not oppose them; but since they have again brought the matter before the public, in the Board of Trade discussion, I will, with your permission, venture to say that I think they have not got the right man at the head of it. Although sufficiently a man of letters, perhaps, he is in no sense a man of the people, is generally unpopular, an offensively bitter partizan, by no means a good business man, and no organizer at all. The other members of the Board are well enough, for purposes of organization; but it would seem that there should be connected with it, at least one prominent literary and representative man.

It was stated, in the *bored* of trade discussion, that the wealthy citizens of Portsmouth have been unexpectedly and strangely neglectful of the proposed Public Library—perhaps on account of jealousy of, or contempt for the wealthy and public-spirited but youthful and plebian originator—and that while natives resident abroad have signified their readiness to contribute when called upon, the trustees feel unwilling and ashamed to call on strangers for $5000, until at least that amount shall be raised at home. No doubt there may be force in all these statements—but I should like to know when the rich men of Portsmouth, living or dying, ever *did* evince any great "material" interest in or affection for *any* public enterprise for the benefit of anybody except themselves and their heirs? Almost all other cities have their prominent adorning monuments of gifts from wealthy citizens—as the Public Library and the Putnam Free School at Newburyport, the Essex Institute at Salem, &c.; but this fashion has never obtained here yet—until the trifling donations of Mr. F. Jones to the High School and Public Library, and the liberal bequest of Madame Catts for Richards Avenue—which may all of us live to see applied. O yes, there is besides, Mr. Elwyn's gift of valuable land for a Common or Mall—and pray, why might not the Board of Trade take hold of and help along this project, which would add to the attractions of the city, and so increase the value of real estate?

But hold—I was to speak of pluck, &c., wasn't it? Well, let us see. In your report of the Board of Trade's doings, (not undoings, as some would have had, if they could,) Mr. Nowell's proposition to bring water from Raymond was speedily dismissed as impracticable. Impracticable, hey! Will you be so kind as to tell me what that word means—in these days of ocean telegraphs, Pacific Railroads and Mount Cenis tunnels? The slothful man says, there is a lion without, we shall be slain in the streets; but there is no obstacle to him who wills—and Napoleon never got over the Alps, nor the modern engineers under them, by putting their hands in their pockets (and keeping them there) and shouting "impracticable."

Now I am no special advocate of this Raymond water project, and it certainly is an immense scheme to talk of; but I do think it is worthy examination by the Board of Trade. Portsmouth certainly needs more water, and could use it to good advantage. Besides the Aqueduct being scant in supply,—there is no head to it, even when we do get it; while I am told that the Raymond pond would of its own elevation throw a stream over our highest buildings. This alone would save us $10,000 a year for Fire Department expenses, not to mention safety and insurance. Then an abundance of water would induce the increase of manufactures here. I have always understood, for one thing, that the Portsmouth Steam Factory were desirous to establish a Bleachery here, but were prevented by the lack of cheap water.

Impracticable, fortsooth, for a whole rich city to invest a million of money, if advisable, in substantial and enduring improvements! What nonsense! how absurd! especially when we all see what has been done in the same city, by such poor and unaided, but live young men, as Thomas S. Nowell, B. F. Webster, Frank Jones, C. H. Mendum, Came Brothers and others, individually, and what Salem has recently paid for water, and Portland and Manchester are doing in the same direction. The city of Portsmouth has never paid anything for water yet, nor the citizens much, compared to most other places, and so we can now afford to spend something. Our old but excellent aqueduct has done us good service, but we want more water, and especially more head. And as to this being impracticable—out upon such idle talk, and if the Raymond water is desirable, let us make it practicable to have it.

Then, for the Board of Trade to consider, we submit the Dover Railroad question,—with City aid, to be sure, but under proper restrictions, not like those previously proposed, nor with any one hundred year tail to it; and if Dover will not help, see if Portsmouth cannot build it herself, or rather, if we can longer afford to do without it? All which is most respectfully submitted for public consideration, and your own, by ENTERPRISE.

—Robert Burns was once taken to task by a young Edinburg blood, with whom he was walking, for recognizing an honest farmer in the open street. "It was not," said the poet, "the great coat, the scone bonnet, and the boot hose that I spoke to, but the man that was in them; and the man, sir, for true worth, would weigh down you or me, and ten more such, any day."

—Everybody loves the virtuous, whereas the vicious do scarce love one another. Upon the same subject an Arabian happily observed, that he learned virtue from the bad, for their wickedness inspired him with a distaste to vice.

MARRIAGES.

In Rye March 11, Mr. ALFRED A. MALOON, Jr., and Miss SARAH E. YEATON, both of Newcastle.

DEATHS.

In Chatham Mass., March 14, Capt. HEMAN ELDREDGE, aged 56 years.

MARINE CHRONICLE,

Sch W. T. Smith, Warren, for this port, cld from Baltimore, March 11th.

Sch Othello, from Cardenas for Philadelphia, was spoken the 11th inst., short of provisions and repairing sails. She was supplied with provisions by the steamer San Francisco, which arrived at New York, March 18th, from Bermuda.

WANTED IMMEDIATELY!

Rehearsals each WEDNESDAY evening at half-past 7 o'clock, at Mr. TILTON'S Music Hall, on Market Street. L. V. NEWELL,
feb28 Secretary P. M. S.

NATURE'S REMEDY.

VEGETINE

The Great Blood Purifier.

VEGETINE is made exclusively from the juices of carefully selected **barks, roots,** and **herbs,** and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Scirrhous, Inflammatory and Chronic Rheumatism, Neuralgia, Gout** and **Spinal Complaints,** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive diseases of the skin, Pustules, Pimples, Blotches Blisters, Tetter, Salt Rheum, Scald Head** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa** arising from internal ulceration, and uterine disease and **General Debility** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervous** and **General** prostration of the **Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the Nervous system.

The remarkable cures affected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

Prepared by **H. R. STEVENS,** Boston, Mass. feb3 No. 1.

Price, **$1.25.** Sold by all Druggists.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When these are gone, the disorders they produce disappear, such as *Obstructions of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

WANTED,

A GOOD COOK. Apply at No. 23 Court Street. feb24

Morning Chronicle.

A CONSCIENCE-STRICKEN WITNESS.—The witness of a recent shooting affray in Memphis, upon whose testimony the State depended chiefly in the prosecution of the offenders, is a man named Perkins, who it his strange, haggard appearance and spiritless manner excited some surprise in the Criminal Court before which he had been summoned, created still more astonishment by his complete refusal to relate what he had heard and seen of the murder under investigation.

"I know that I shall be committed to jail for contempt," he said, in answer to the Magistrate's remonstrance and threats; "but I will not testify in any case of this kind."

After vainly and not unkindly pressing for some explanation of such unexpected contumacy, the court was finally compelled to commit the refractory witness to a cell, where he was subsequently visited by a reporter of the Avalanche, and was persuaded to give the following history of his whole spiritual life:

When he was in his eighteenth year, he says, a room-mate and fellow-student with him at a collegiate boarding-school—a young man slightly his senior and to whom he was warmly devoted in a friendship like that of David Copperfield for Steerforth—had a quarrel with another student, which, although a trifling matter at first, matured to the bitterest enmity. One night, when Perkins and his friend were in their room together, this student, stimulated to recklessness by drinking, forced an entrance there, and became so insulting that a fight ensued.

Before his horrified room-mate could separate the combatants, the insulted student had shot his enemy through the brain with a pistol snatched from the mantel; and the other inmates of the house reached the scene only in season to witness the death of the unfortunate invader of the apartment and consign his remorseful slayer to the hands of the police.

In the trial following, political and family influence were directed implacably against the prisoner, whose bosom friend, to his unspeakable anguish, was compelled to testify that he had witnessed the fatal shooting. Upon this evidence principally, of course, the jury found a verdict of wilful murder, and the unhappy young man thus branded was hung for his crime. Driven nearly frantic by his involuntary share in the dreadful fate of his friend, Perkins went down upon his knees beside his friend's coffin and "took a solemn oath never again to testify in any case where his testimony might cause the extreme penalty of the law to be inflicted upon any person."

This oath he has kept religiously through all the years which its tragic cause has made miserable to him; and, although of excellent family connection and possessing some property, his life, since the execution of his friend, has been but a career of such dissipation as he sought for distraction and remorse. His repeated answer to all remonstrance against his present course is: "I will not testify, I tell you, gentlemen, though you keep me in jail for life. I will not! I will not!" And in prison he remains.

FRIENDSHIP.—Friendship has always been deemed essential to the happiness of human beings, and indeed to their very honor; for it would be thought as disgraceful as it is disconsolate to have no friend. No peculiarity of condition, nor elevation of rank, sets a man above the attraction and utility of friendship. Kings have laid aside their royalties to indulge in it, and Alexander would have found a conquered world a kind of desert, without an Ephestion. It is needless to enlarge on the excellency and value of this blessing. Who is not ready to acknowledge that friendship is the delight of youth; the pillar of age; the bloom of prosperity; the charm of solitude; the solace of adversity; the best benefactor and comforter in this vale of tears. But the question is, where is a friend to be found? It will be allowed that many who wear the name are unworthy of the title; and that even those who are sincere in professions, may be chargeable with infirmities.

Yet even human friendship is not a utopian good. He who says all men are liars, says it in his haste, or from a heart that judges of others by itself. They who complain most are commonly the most to be complained of—for there is real friendship to be found on earth. In others we may have the reality, and even the efficacy of friendship, but in Christ we have the perfection, the divinity of it.

ZINC POISONING.—The wife of Col. Horton, of Attleboro, Mass., recently died from the effects of the salts of zinc, contained in water used for culinary purposes. The case is described by the attending physician, J. R. Bronson, M. D., of Attleboro, who is a gentleman of high standing in the profession, a member of and, we believe, one of the Councillors of the Massachusetts Medical Society. Dr. B. says: "That Mrs. Horton was poisoned by water drawn through galvanized iron pipes is, I believe, fully demonstrated by physical evidence. The salts of zinc were doubtless eliminated before death, but they primarily induced the disease of which she died." This adds one more to the list of those who have fallen victims to the insidious influence of a metallic poison introduced into the system through the medium of bad water pipes.

A heavy responsibility rests upon those who are advocating the continued use of the galvanized pipes for water conduction. We have discharged our duty in calling attention to the great evil, and warning our readers against it.—*Boston Jour. Chem.*

THE CLAIM OF SUPERIORITY

Is often made for]

ARTICLES OF GENERAL USE,

But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of

BOOTS AND SHOES

FASTENED WITH

CABLE SCREW WIRE,

These goods were pronounced by the patentee to be

THE BEST

In the market for Pliability, Durability, and Economy. This claim has received

Full Endorsement

From Manufacturers!
From Dealers!
From Consumers!

Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.

Cable Screw Wire goods are peculiarly adapted for our inclement winters, on account of their Waterproof qualities.

Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with the most excellent of all fastening.

WARRANTED NOT TO RIP.

EVERY ONE BEARS THE PATENT STAMP.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use the time to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country, and yet it still retains its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

ROSARY FOR LENT, or Devotional Reading.

For sale by JOSEPH H. FOSTER.

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in us. New Shingles covered with this article warranted to last fifty years, and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

The Chronicle.

AARON BURR'S WIDOW.—The fight over the pretty little estate of the late Madame Jumel, begun several years since, is still going on in the Courts of New York, and as the amount involved is about four million of dollars, there is no telling how long it may not continue to go on. If it pans out for the lawyers as handsomely as a squabble of such magnitude usually does, they will of course cause the end of it to protrude into the future and make the thing smell as strongly of eternity as possible. A great many years ago a fair and fast young woman of Providence, Rhode Island, named Betsy Bowen, played the dickens with the heart of an old French gentleman named Jumel, and married him.

The old French gentleman was rich, which was most probably the reason why Betsy imagined her maiden graces and became Madame Jumel. Any experienced miner, whether of California, Australia, or any auriferous region, will tell you that when a gay and festive young girl consents to marry a man old enough to be her grandfather, it is the best surface indication in the world there is a rich placer somewhere in the immediate neighborhood. After a while old man Jumel was gently gathered to his fathers, and Betsy was turned loose upon an unfriendly world with all the money she knew what to do with, and with nobody to help spend it.

Luckily, Hon. Aaron Burr, an ex-Vice President of the United States and the slayer of Alexander Hamilton, came along in search of some visible means of support one day during the widowhood of Betsy, and being still a handsome and courtly gentleman, albeit a little inclined to oldiness in point of years, no sooner offered the rich widow his heart and hand in exchange for a supply of vituals and clothes than he was taken in out of the cold of impecunious widowhood, and Madame Jumel, for the time being, became Madame Burr.

The old lady died a few years ago leaving a niece, married to a heart's idol named Nelson Chase, and the young couple lived with Aunt Betsy up to the auspicious period at which she glided into the silent tomb. At her death Mr. Chase took possession of her papers and property, there being seemingly nobody else around to undertake the disagreeable task, and still holds them as her lineral heir and the husband of her adopted daughter.

Chase would have had a good thing of it always if he hadbeen let alone; but he was not let alone for any considerable length of time. Somewhere in the State of Rhode Island there tabernacled a gentleman the name of Bowen, called, in honor of the Father of his Country, George Washington Bowen, and in the midst of the serene felicity with which the possession of the old lady's large estate suffused the heart and mind of Mr. Nelson Chase, this Mr. George Washington Bowen emerged from the tangled wilds of his native State, dropped over into the city of New York, and confronted Mr. and Mrs. Nelson Chase as the true and only heir to their Aunt Betsy's property.

A lawsuit immediately followed, and when the case came into court Mr. George Washington Bowen declared, and produced a number of venerable Rhode Island witnesses to prove, that he was the illegitimate son of Betsy Bowen, the daughter of John and Phebe Bowen, later Madame Jumel, and, still later, Mrs. Aaron Burr, by Major Reuben Ballou, of revolutionary fame,—and as such claimed the Jumel property, consisting of one hundred and twenty-six acres of land on Washington Heights, two lots on the northwest corner of Seventh avenue and Forty-second street, and a lot on the corner of Liberty street and Broadway, valued in all at $4,000,000. As we have already said, Mr. Chase holds possession of the property and this suit was brought to eject him from it. The case was first tried in the State courts of New York, but was removed to the United States District Court, because Bowen was a citizen of another State. If Bowen should succeed in proving to the entire satisfaction of the jury that he is really the son of Madame Jumel, he will make a handsome thing of it, in spite of the fact that Betsy ought not to have acted so.—*Louisville Cour. Jour.*

THE MCDONOUGH WILL.—Old John McDonough, of New Orleans, devoted a third of his life to the preparation of his singular will, and even took the trouble and bore the expense of consultation with eminent Parisian advocates, whose approval of his dispositions was a source of great comfort to him. His will was carefully written out by himself in the most elegant and exact style, with his name subscribed at the bottom of every page, and the writing made to fill the sheets, so as to leave no margin or space for interlineation. It was embraced in forty pages of foolscap, and, besides the minute and elaborate directions in regard to the execution of his proposed grand charity, was interlarded with pious reflections and sentiments, which, when read out in court, gave it the appearance of a sermon more than of a formal testament. For many years before his death he used to rub his hands with glee, and his handsome face would brighten up with pride and self-gratification whenever he referred to that great instrument, which was to carry him down to remote prosperity the benefactor of his age. This elaborate and most studiously prepared will was torn all to pieces by the courts and lawyers, and the grand estate intended to bless and elevate generations of the poor and unfortunate, was squandered in the most reckless and unprofitable manner, and to this day not one of the many objects which were contemplated in his charitabledispositions has been realized, save the erection of a cheap mausoleum in which to deposit his remains.

—A correspondent of the Scientific American commends onions as a specific against epidemics—not as an esculent, but sliced and kept in a sick room, where they will absorb any atmospheric poison. They should be replaced by fresh ones every hour. It is noticed that in the room of a small pox patient they will blister and decompose with great rapidity, but will prevent the spread of the disease. Their application has also proved effective in the case of snakes bites.

—The amount of solar heat received by the earth in a year would be sufficient to melt a layer of ice one hundred feet thick covering the whole globe. Yet this quantity of heat is only 1-2,300,000,000th of the total radiation of the sun. The whole quantity given out by the sun in a year is equal to what would come from the combustion of a layer of coal seventeen miles thick covering the entire body of the sun.

AMERICAN & FOREIGN PATENTS.

R. B. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Invention, and legal opinions or advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioner with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of greattalent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charge for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1846, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

Boston, April 11, 1871. eodawly

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments. 4w f20

Morning Chronicle.

ON A LOCOMOTIVE.—Rev. T. DeWitt Talmage, in the New York Independent, thus graphically describes his sensations while riding on an engine while journeying in the Rocky Mountains:

"May I get on with you?" I asked an engineer on the Pacific railroad, at a station six or seven thousand feet above the level of the sea. "Certainly," he said; "but hold fast, or you may fall off."

"Toot, toot," went the whistle, and the long anaconda of the rail train first went along crawling the rocks, but soon took on fearful momentum. Sitting in a car, looking out of the window, the passenger gets no idea of the speed of the train; but close by the engineer, and feeling the nervous quiver and jump of the iron courser, you see the "mountains skip like rams and the little hills like lambs."

The door of the locomotive furnace clangs open and the flames rave as though they would leap out to devour, as the fireman jars the coal into the jaws of the monster. The engineer has his hand on the iron bit that controls the speed, and seems to use no more exertion than a doctor feeling a pulse of a child. Indeed, the locomotive, to the engineer is not a mere machine, but animate. He talks to it, seems almost to pat it on the neck. He is proud of it. There is a warm understanding between the two, and in occasional spurts of steam the locomotive seems to take voice and answer its rider. An engine never bolts its master, save in the efforts to throw its passengers.

But the engineer, though sitting so placid, is wide awake. He is kept on duty only four hours in the day, and all the energies of body and soul muster in his vigilant and quick thumb. Two hundred lives hang on his wrist.

We plunge into a snow-shed with infinite clatter, every board and beam beating back the deafening roar of the Pacific Express. As we rush on, the prairie-dogs skulk into their holes, or sit on their hind quarters, with feet lifted, as much as to say, "What next?" The antelopes scamper over the plain. We ride unimpeded where less than two years ago the buffalo stopped the train as the herds stampeded across its track; along here the savages careered on their ponies. You see here and there groups of red men with long hair, and cheeks dashed with war-paint, ringed ears, and superfluity of dirt that buries your last romantic notion about the "noble men of the forest." The air is laden with the breath of cedar, manzanita and buck-eye. Here we are passing through what seem the ruins of castles and temples and cities, and calling to mind Petra and Pompeii and Ninevah and Thebes; but these ruins on either side of our track must have been vaster abodes, where giants might have lived till the Titans began here to play leap-frog and turn summersaults. Now the whistle lets off a wild scream; a cow and calf on the track. The cow we cut into halves, and the calf, with broken legs, tumbles over into the ditch. I wonder if that man just ahead will get off in time. Perhaps he is drunk and want to be run over. Neither. He aims to save himself his switches off and robs the coroner.

Hold your breath! Ravine a thousand feet deep on this side! Embankment a thousand feet on the other! As we turn the curve the engineer pulls the steam valve, and the silence that reigned here for six thousand years lets slip its sounds of echo and reverberation.

Whew! How we fly! If a bolt break or a truck fail, or a rock dislodge, we are in eternity! Innumerable varieties of flowers break their alabaster at the feet of the cliffs. But yonder the mountain tops are blooming into the white lily of everlasting snow. Bridges, high, narrow, tremendous, that creak and tremble under the pressure of the train. A tunnel! Ink black, midnight doubled, dampness that never saw the sun; while far ahead is a tint of sunlight peering through a hole that looks about the size of the arch of a mouse trap, but which widens till at last it is large enough to let a whole train escape into the golden day.

Out there is the old emigrant road, with occasionally the skeleton of a cow or horse, or the wreck of a wagon that hopelessly broke down on the way; and here a mound and a rough stone at the head of it show where some worn traveller finished his journey in those times when in one year across these heights went five thousand wagons, pulled by seven thousand mules and thirty thousand yoke of oxen.

And now the night begins to fall, and the train goes ploughing through the darkness. The great burning eye of the locomotive peers through and flashes far ahead upon the wild scene.

The grizzly bear, the panther, the night hawk, the cormorant, the pelican, the grosbeck, the eagle, that kept aloof while the day shone, may venture nearer now, if they dare. On! How we fly! The rush of the wind, the jamming of the car-coupling, the clang of the wheels, the steam hiss, the fierce shower of sparks that set the night on fire, the shooting past of rocks five hundred feet high, followed by a precipice a thousand feet deep, make the breath short, and the heart thump, and the very scalp lift.

How the shadows scuffle! How the crags shiver! How the echoes rave! An express train at night on the Rocky Mountains! The irresistible trampling the immovable! Yet the way is smoothed down by human engineering. Then it will not be so difficult to prepare the way for a grander coming, when the mountains shall be made low, and the crooked straight, and the rough places plain, and the glory of the Lord shall be revealed, and all flesh shall see it together.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company's far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or prices—and many of these are so we have sold very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

A CARD.

BEING obliged to relinquish my business on account of ill heal h, I have disposed of all the Stock in Store No. 10 Market Street, consisting of Cloths, Ready-Made Clothing and Gents' Furnishing Goods, to Messrs. RIDER & CUNNINGHAM, and I would bespeak for them from all my friends and customers, a liberal support, believing that all who give them a call will be dealt with in a fair and honorable manner.

MORRIS RICHLER.

COPARTNERSHIP.

THE UNDERSIGNED have this day formed a copartnership for carrying on the Clothing and Gents' Furnishing Goods Business at No. 10 Market Street under the firm name and style of RIDER & CUNNINGHAM,

R. C. RIDER,
SHERIDAN B. CUNNINGHAM.

Portsmouth, Feb. 21, 1872.

MESSRS. RIDER & CUNNINGHAM

Would respectfully invite all in want of

GOODS

—FOR—

Gentlemen's Wear

Of any kind or description, either Cut or Ready Made, to give them a call.

MR. CUNNINGHAM will, as formerly, give his whole attention to the Cutting Department, and all Garments made are WARRANTED to fit to the satisfaction of their customers. A full assortment of

READY MADE CLOTHING

in the most fashionable styles, constantly on hand, and all Goods, of every description, usually kept in a FIRST-CLASS STORE.

Wishing to clear out the present stock, we are prepared to offer BARGAINS at low Rates, so suit everybody.

RIDER & CUNNINGHAM.

ALL KINDS OF

SEWING MACHINES except the

"DOMESTIC"

For Sale Cheap.

TERMS OF PAYMENT EASY.

All who examine the "Domestics" are eager to possess them. Those having OTHER kinds are unhappy until they can EXCHANGE. This enables me to sell Machines (but little used) at very low prices. I still offer

TEN DOLLARS!

to all who will exchange the "DOMESTIC" for any other kind. Agents for the "Domestic" are monopolizing the Sewing Machine trade.

For sale by JOSEPH H. FOSTER.

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years, and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

The Chronicle.

—The sunflower is very useful. Its leaves soon become large enough to be used as a covering for young cabbages and tomato plants. Its stem affords an excellent hop or bean pole, and when dead, in the fall, if cut up and kept dry, it answers well for kindling wood. The leaves can be plucked off through the summer without injury to the plant, and dried for fodder, or fed green to milk cows or horses. Its seeds make a fine oil, or chicken feed. It is said to be an absorbent of malaria, and is often cultivated as a preventive of fevers near dwelling that occupy low places.

—A Vincennes paper pitches into a "young hoodwinked, snoffle-snouted, handkerchief-flirting Cincinnati drummer."

—The privilege of selling newspapers on the Kentucky Central Railroad for 1872 has been sold for $1400.

SAVE YOUR LIFE

By promptly using WINCHESTER'S HYPOPHOSPHITES, a chemically pure preparation of PHOSPHORUS, one of the most important elements of the Human Body, and the only means by which this LIFE GIVING and LIFE-SUSTAINING element can be supplied to the system. We guarantee it to be a certain CURE for COUGHS, COLDS, CONSUMPTION, and all Pulmonary Affections, and the Specific Remedy for SCROFULA, DYSPEPSIA, PARALYSIS, NERVOUS and PHYSICAL DEBILITY and all NERVOUS AFFECTIONS. It is unsurpassed as a TONIC and INVIGORATOR and generator of FLESH and healthy BLOOD. For further information, Testimonials, Reports of Physicians, &c., send for our THERAPIAN. Price, $1 per bottle. Sold by all Druggists.

J. WINCHESTER & CO., 36 John St., New York.

SAVE YOUR CHILDREN.

Multitudes of them suffer, linger and die because of Worms. The only known remedy for these troublesome and dangerous guests of children or adults is Dr. Gould's Pin-Worm Syrup. Purely vegetable; sure death to all worms; a valuable cathartic, and beneficial to health. Warranted. Price reduced to 50 cents per bottle.

GEO. C. GOODWIN & CO., Boston.

Profitable Employment

For one or two persons of either sex, in every town in the United States, by which they may realize from $200 to $1000 per year, with but little interference with ordinary occupation. If the whole time is devoted a much larger sum will be realized. Boys and girls can make nearly as much as grown people. Some making from $7 to $15 per week. For particulars address J. J. FARDWELL & CO., 767 Broadway, N. Y.

AMERICAN & FOREIGN PATENTS.

R. S. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 763 TRADE ST., OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries; also, Reissues, Extensions, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Research made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and conscientious* solicitors with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a more competent, more *trustworthy* and more capable or putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. S. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 2 Dix Place, Portsmouth, NH., on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1835, having confined his whole attention to an office practice for the cure of Private Diseases such as Females Peculiarly acknowledge no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all Private and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. Dr. AYER's consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair, and always restores to faded and gray hair its natural color, with the glossy and freshness of youth. This comparatively new bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALLED PURIFIER OF THE BLOOD and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. Wells' Extract of Jurubeba

is offered to the public as a great invigorator, and remedy for purification of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system; it gives health, vigor and tone to all its vital forces, and invigorates and fortifies all weak and exhausted parts of the system. 4w f20

The Daily Chronicle,

Portsmouth, N. H.

MONDAY, MARCH 18, 1872.

Political.

Governor Geary of Pennsylvania has signed the bill prohibiting the sale of giving away of liquor during election days.

The Concord People scolds some of the Temperance men for not aiding the Democrats to get control of the legislature. It says:—"Many of the profe-sed Temperance leaders betrayed their cause at the last moment." How very sad!

All honor to the Republicans of Lancaster They fought against odds on election day. They lost the moderator and town clerk but still fought bravely on, defeating the combined Democratic and Labor Reform organizations and electing two Republican R-presentatives and a Republican board of Selectmen. Good enough!

Judge Davis, the Labor Reform candidate for President, is said to be the homeliest man in the United States.

The Rhode Island Republicans have renominated Gov. Padelford and endorsed the re-election of President Grant. Gen. Burnside heads the delegation to the Philadelphia Convention.

The Washington Republican says New Hampshire has "gone" for "the Labor Reformers, Liberal Republicans and Hunker Democrats in a way that makes old veterans in politics tremble."

The "straw which broke the (Democratic) camel's back"—Hon. Ezekiel A. Straw of Manchester.

Foster's (Dover) Democrat of March 9th exhorted the copperheads of this State to "go in to win and leave no stone unturned, and next Tue-day night will herald to the world that New Hampshire is firm on the side of Justice, Honesty, Liberty and Right." If Joshua could always predict coming events as correctly as he managed to in this instance, he would gain more glory and gold as a fortune-teller than he ever will as an editor, for Tuesday night *did* "herald to the world that New Hampshire is firm on the side of Justice, Honesty, Liberty and Right." His prediction that "Gov. Weston will be re-elected by from a thousand to fifteen hundred majority and that we [the copperheads] shall in all human probability have twenty majority in the Legislature" was not so well fulfilled, but it was made on the strength of a Democratic canvass and not on his own responsibility.

A Washington dispatch to the Boston Advertiser says:—"The Democratic defeat in New Hampshire is already bearing fruit. Mr. Voorhees has expressed the opinion that both wisdom and necessity now require that they should seek a coalition with the labor reform, independent, and all other opposing elements, and endeavor to consolidate the strength outside the Republican party. This opinion is the more significant since Mr. Voorhees has not hitherto been an advocate either of the new departure or of the passive policy. The general feeling among the Democratic leaders, both within and without Congress, appears to be growing more favorable toward Mr. Voorhees' view of the situation, and an acceptance of the necessity of a new plan of action for the new campaign. Rumers of a change in the Labor Reform ticket, as it now stands, for the sake of a firmer and open alliance with the Democrats, are known to be well-founded, and are likely to be realized at any time after the Cincinnati convention."

The Kansas Magazine states that they have in Kansas to-day at least one self-assured and hopefully-waiting political aspirant to every acre of improved land.

The Boston Times says:—"Up in New Hampshire, we believe, it is generally conceded that Rollins managed the campaign, and that to his efforts the victory is greatly due." Correct!

At an election in Lancaster County, Pa., last week, the delegates from that county to the Republican National Convention were instructed to vote for President Grant's renomination. Grant had 4633 to 415 for Horace Greeley.

Horace Greeley disapproves of National Conventions for nominating candidates for the Presidency, such conventions being a new-fangled notion. Probably Mr. Greeley thinks the New York Tribune the only correct guide for the people to follow in selecting candidates, and we have no doubt conventions might be abolished with profit so long as Mr. Greeley lives; but as he is only a mortal (though possibly an infallible one) and must die at one time or another, and we should then have to return to the convention system, it would hardly be worth while to abolish it at present.

FAST DAY in Connecticut, March 29th.

New Publications.

Church's Musical Visitor for March is spicy, and full of original and well selected musical and art news. It is one of the most able and at the same time the handsomest art magazine of which we have any knowledge. The musical contents in this number are "A Lover's Fancy," ballad, "Black Key Mazurka," and "Calm is the Glassy Ocean." John Church & Co., 66 West Fourth St., Cincinnati, Ohio. $1 per year

ERIE RAILWAY FINANCE.—An exhibit of the receipts and expenditures of the Erie Railway, from 1865 to 1872 shows a deficit of $51,000,000. Since Jay Gould had an interest in the road, the contingencies have increased from $30,000 to nearly $2 00,000. The expenses of general superintendence have increased from $113,000 to 170,000. The issue of stock has increased from $25 000,000 to $86,000,000, of which with $51,000,000 is covered up in some unknown way on the books. The expenses for agents and clerks have increased from $660,000 to $1,700,000, and so on.

BARQUE SARAH SLOANE, Sloane master, of Bath, left St. John March 8th for Cuba, loaded with hay and shooks, and went ashore at Grand Menan on the 12th inst. She is a total loss, and all hands were lost but one man, and he will die. All the bodies have been recovered but one.

OLD TIME CHRONICLES, No. 48.

BY UNCLE JOSEPH.

First Settlement of New Hampshire, at Portsmouth.—In the last number of these articles an account of a colony that came over was given, which landed at Little Harbor in Portsmouth, the Hiltons and others moving up the river and settling at the Neck in Dover. In this number will be an account of those that settled in Portsmouth; the two parties were ten miles apart.

Portsmouth Harbor is among the best in this part of the country, but the emigrants, if they found it, did not settle on it, but landed two miles south at what has long been called Little Harbor. Probably the first emigrants came in one ship, and the number must have been small. Mention is made of but three men, the two Hiltons, who went as leaders of the party to Dover, and Daniel Thompson, (spelt then Tomson) the leader at Portsmouth.

It is believed that the first house built in the State was erected here. Visiting the place in November last, the spot was pointed out to me on which the house stood. As Capt. John Mason of England was one of the company under the patronage of which the emigrants came, this house not long after took the name of Mason Hall. The house might have been of good size for that early time, but it seems to have been rather rudely built, as in 1680, when but 57 years old, it was in decay, a part of its walls and chimney only standing.

A few rods from where the house stood is a spot where it is believed the fishermen dried their fish. Farther north is the old burying place, which undoubtedly was the first grave-yard in New Hamp-hire. Whittier's lines on such a place as our fathers had for this purpo-e, apply:

"A crooked wall of mossy stone,
Proof hung and broken thus;
A no-any acre, thickly grown
With grass and wandering vines."

The place may be more than 100 feet by 70. There are perhaps 50 or 60 graves, at the head and feet of which are rough stones. There is no elevation or depression of earth over them. The appearance is (as is unquestionably true in fact) that those buried there have rested two centuries and more. Over one of the graves, a little nearest to the head, is the largest walnut tree we ever saw. Near the ground it is nearly three feet in diameter.

This locality is called Odiorne's Point. One John Odiorne lived there as early as 1600, 37 years after the settlement began, and his descendants have continued to this day, 211 years. There is one of the name now occupying a good house, and the only one on the Point. About half a mile north is another house, and near that stood the public house called the Sagamore, burnt about a year ago.

What is now the business part of Portsmouth is in part on a swell of land. Very early it was called "The Bank;" and as in some of the openings strawberries grew, as delicious to the early inhabitants as English strawberries are now, it sometimes had the name "Strawberry Bank." On this, dwellings were first built about 1630. Those were along what is now Pitts Street to Chapel Hill. Not far from that time a somewhat considerable house was built by a Mr. Humphrey Chadbourne. This, it is said, stood on Water Street near the south-east corner of Court Street.

Portsmouth in what is now its densely populated part, after there were clearings was pasturing and planting ground. The town was originally large, embracing what are now other towns around it. It was incorporated in 1653. After some years it grew fast in population. At the first census, in 1767, when the town was 144 years old from its settlement, the number of inhabitants was 4466. It continued the largest in the State as to population till a few years since, when Manchester got before it. Nashua has of late outstripped it and it is now the third in the State. The census of 1870 showed 9212. It diminished in ten years 124. It has a fair chance for increase in population and wealth.

New Hampshire once had slaves. One hundred years ago there were 631. Of these 187 were in Portsmouth. That matter has changed.—and much for the better.

BUSINESS NOTICES.

It is a rare thing that physicians give any countenance to a medicine, the manufacture of which is a secret. About the only exception we know of is *Johnson's Anodyne Liniment*. This, we believe, all endorse, and many of them use it in their practice with great success.

Persons requiring purgatives or pills should be careful what they buy. Some pills not only cause griping pains, but leave the bowels in a torpid, costive state. *Parsons' Purgative Pills* will relieve the bowels and cleanse the blood without injury to the system.

HOLLOWAY'S PILLS AND OINTMENT.—Scurvy and Diseases of the Skin — Fever, restless sleep, foul stomach, tainted breath, languor, depression of spirits, always attendant on the worst cases of cutaneous eruptions, are speedily and radically removed by these medicines—the Ointment cleanses the skin, and the Pills purify the blood, stimulate the liver, and promote digestion. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, anathema against the deploring lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every grave-yard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

DIED SUDDENLY OF HEART DISEASE.—How common is the announcement. Thousands are suddenly swept into eternity by this fatal malady. This disease generally has its origin in impure blood filled with irritating, poisonous materials, which, circulating through the heart, irritate its delicate tissues. Though the irritation may at first be only slight, producing a little palpitation or irregular action, yet by and by the disease becomes firmly seated, and inflammation, or hypertrophy, or thickening of the lining membrane of the ventricle is produced. How wise to give early attention to a case of this kind. Unnatural throbbing or pain in the region of the heart should admonish one that all is not right, and if you would preserve it from further disease, you must help it to beat rightly by the use of such a remedy as shall remove the cause of the trouble. Use Dr. Pierce's Golden Medical Discovery before the disease has become too firmly seated, and it will, by its great blood purifying and wonderful regulating properties, effect a perfect cure. It contains medicinal properties which act specifically upon the tissues of the heart, bringing about a healthy action. Sold by all first class Druggists. 581.

SPECIAL NOTICES.

Lassitude and Debility.

The relaxation of nervous energy which creates an indisposition to physical or mental effort, so strong as almost to amount to positive inability, and which we term lassitude, proceeds from a variety of causes. The principal of these are constitutional debility, heat of the atmosphere, coupled with humidity, climatic changes, and the physical prostration consequent upon a long illness. But whatever the cause, it must be perfectly clear that if the nervous system is unduly relaxed, something is required to brace it up. That something is HOSTETTER'S BITTERS, which is universally recognized as the most complete and speedy recuperant of the physical forces in existence. It has been so thoroughly and widely demonstrated as to be a matter of positive certainty and familiar knowledge, that the Bitters will not only rehabilitate the physique, when shattered and wasted by disease, but will also, if taken systematically, actually compensate the constitutionally feeble frame for its deficiency of strength, and by infusing new life into a weak system, endow it with the health and vigor which Nature has denied it. The Bitters also enable the body to resist the enervating influences of heat, humidity, and change from a temperate to a hot climate. It is on these accounts specially to be recommended to travellers and residents in the torrid zone, and persons subjected to abrupt transitions in temperature.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 5 BOND STREET, N.Y.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free in sealed envelopes. Address, HOWARD ASSOCIATION, No. 7 South Ninth St., Philadelphia, Pa. 43m 223

—A gang of burglars, eleven in number, were getting on finely with a bank safe at Manchester, Ohio, a few nights ago, when their keg of powder exploded, killing two, wounding one and somewhat discouraging the others.

—An editor on being told that there were two columns of obituary notices for the next day's paper said they could not go in unless they were cut down to small dimentions.

—In Victoria, Australia, a law has been passed to prevent newspapers from copying articles of news within twenty-four hours after their first publication.

The Other Side.

Every fence has two sides, and so has nearly every story,—and almost any story is good until another one is told." In Saturday's issue of the CHRONICLE we published a statement furnished us by one of the Gosport Selectmen concerning the reasons for the Gosport officials absenting themselves from the voting place on election day, and removing the town-meeting warrant, by which action an election was prevented and the town deprived of a Representative in the Legislature during the coming session.

The statement referred to was to the effect that the Selectmen and Town Clerk feared to attend at the polls, lest violence should be offered them if they did their duty: and Elvin Newton was blamed as the ringleader of a rum-clique and the instiga or of disgraceful proceedings on election day last year and of similar (anticipated) bad conduct on the 12th instant, and with other unworthy acts. Mr. Newton called upon us on Saturday afternoon, and made a statement which seems to show that the first one was most "conspicuously inexact,"—as will be seen by reading the following:—

In the first place, there was no disturbance at Gosport on election day last year; and the Democrats who voted for Mr. Caswell and against Mr. Newton, for Representative, did so on personal grounds (being relatives of the former) and not from a desire to prevent any threatened outrage or violence by hurriedly closing the town meeting; the people being orderly and no violence being threatened. And as to the warrant calling the town meeting being removed by Mr. Newton last year, it was not taken down until *after* the meeting which it called had been held and it was of no further value.

The account previously given concerning the present year is equally erroneous and injurious to the voters of Gosport and to Mr. Newton. There was no intentions of making any general row, no reason for one and so far as Mr. Newton knows no fear of one; the people were sober, all the liquor carried to the island was a few pints taken off by different individuals and not amounting to a gallon in all, and Mr. Newton did not taste liquor from the time he left Portsmouth until he returned.

As to his being a Democratic candidate and having the support of the Democratic leaders in this city, Mr. Newton informs us that he has been a Republican for fourteen years, and a Republican member of the State legislature; that he intended to run as an independent candidate this year, and if elected should have acted conscientiously; that he had no dealings whatever with either Messrs. Jones, Marcy or Walden of this city, and that if they or either of them supported his election their support was voluntary and unsolicited on his part; and that no money was given him by any man whatever.

This account differs widely from the previous one; but we believe in giving everybody fair play, and Mr. Newton (whom we met on Saturday for the first time) has no appearance of being a man of intemperate habits and is certainly a temperate man in his speech.

Laconics.

Jubilee chorus rehearsal this (Monday) evening at Mr. Tilton's music room, promptly at half-past seven.

The Martyn concert this evening will we think be attended by a very large audience. Rarely has a lady been taken into public favor so completely as has Mrs. Martyn, while the attempt of a few jealous persons to injure Mr. Martyn has only secured him strong friends, and he has contented himself with minding nobody's business but his own. The programme for the evening is a tempting one. Mr. Martyn will introduce among his performances, Liste's Fantaisie on L'Africaine. The bouquet song will be one of the most pleasing features of the evening. Messrs. Harlow and Hunt have also excellent selections.

Lent's Circus is coming May 16th.

A good chance for business is advertised in our columns to-day.

Wm. H. Belknap, Esq., the present Register of Deeds of this county, is defeated by Mr. Geo. W. Weston of Windham, who has about 75 majority. Both are Republicans.

What must the birds think of this weather.

The maximum money value of human life, as determined by an act of the Ohio legislature, is $10,000, that being the largest sum which can be demanded from a railway company for killing anybody. Massachusetts allows $5,000 for a human life. Hon. Frank Jones' stallion "Fearnaught Prince," is worth two Massachusetts men (or women) or one Ohio man; and Dexter, the horse whose performances on the turf have secured so much "india-rubber advertising" for the New York Ledger in times past, would be as expensive an animal to kill as a half-dozen human beings. But it is some satisfaction to a man to know exactly what his life is worth.

Said a Democrat of this city on election day to his *confreres*, —"How could we expect to poll as large a vote for Weston as we did last year, when we were obliged to buy our own men?" The questioned remained unanswered, the crowd contenting themselves with saying, "That's so."

Weston's vote for Governor in Portsmouth last year was 914, this year it is 889—a loss of 25. So much for having a "smart" Democratic daily paper here.

Two days after election an Exeter aspirant for the office of Sheriff of Rockingham county visited Portsmouth for the sake of obtaining signatures. One Portsmouth attorney signed the paper and the aspirant departed. Sheriff Rowe is safe until warm weather, although our friend Entwistle was right when he stated that Mr. R. was "temporarily keeping the jail." We shall be sorry if Judge Page is ousted, but presume party necessity and the remembrance of the acts of the party of which he is unfortunately a member, will justify it.

On Saturday evening officers Barsantee and Entwistle arrested two men in the store of J. Woodman Moses, in the act of purloining some of the cloths lying upon the counter. They were taken to the lockup and searched, and a couple of "bits" such as burglars use for drilling were found upon one of them, which leads the officers to believe that their visit to this city had some other object than simple larceny; and it is also supposed that they have confederates near by. They hail from Boston and give their names as Patrick McNamara and George Potter, but claim to be entirely innocent of any burglarious intent. Their game is up in this city, if they had any intention of opening a store or bank.

Seabrook.

At an adjourned town meeting, held Saturday afternoon, the following resolutions were passed:—

Resolved, That any individual, firm or company who will erect buildings in this town for the purpose of carrying on the shoe manufacturing or any other mechanical business, suffic ent in size to employ not less than fifty persons, shall be exempt from tax so long as they continue to employ fifty persons or more, said time not to exceed ten years.

Resolved, Tne selectmen are authorized to pro-ecute criminally or otherwise, Henry Page of Lyme, or any other person who received money from this town for bounties through fraud or prosecute, as they think best, to recover the money.

PICKING THE EARS is a most mischievous practice, in attempting to do this with hard substances; an unlucky motion has many a time pierced the drum and made it as useless as a pierced . India rubber life-preserver; nothing sharper or harder than the end of the little finger, with the nail paired, ought ever to be introduced into the ear, unless by a physician; persons are often seen endeavoring to remove the "wax" of the ear with the head of a pin; this ought never to be done; first, because it not only endangers the rupture of the ear by being pushed too far in, but if not so far, it may grate against the drum, excite inflammation and an ulcer which will finally eat all the parts away, especially of a scrofulous constitution; second, hard substances have often slipped in, and caused the necessity of painful, dangerous and expensive operations to fish or cut out; third, the wax is manufactured by nature to guard the entrance from dust, insects, and unmodified cold air, and when it has subserved its purpose it becomes dry, scaly, light, and in this condition is easily pushed outside, by new formations of wax within.

Occasionally, wax may harden and may interfere with the hearing; but when this is the case, it is the part of wisdom to consult a physician and let him decide what is the matter and what the remedy; if one cannot be had, the only safe plan is to let fall into the ear three or four drops of tepid water, night and morning; the saliva is better still, for it is softer and more penetrating; but glycerine is far preferable to either; it is one of the blandest fluids in nature and very rapidly penetrates the hardened wax, cools the parts and restores them to a healthful condition; if in a week, there is not a decided improvement in the hearing, medical advice ought to be had at once, as next to the eye, the ear is the most delicate organ of the body.—*Hall's Jour. of Health.*

—A board of trade has been organized in Hartford by the choice of 25 directors from the most prominent citizens. The board starts with 450 members.

—"Little Josiah" Benton's late political effort at Newcastle is not reported as having been a very happy one.—*Concord People.*

Mr. Benton hasn't been at Newcastle within a year.

—"Look here, boy," said a nervous gentleman to an urchin who was munching candy at a lecture, "you are annoying me very much." "No I ain't, neither," said the urchin, "I'm a gnawing this ere candy."

—It is said that American copper cents circulate in Japan at three times their home value.

—A bad hat, taken to an evening party, frequently comes out next day as good as new.

—The Louisville workhouse contains fifty women convicted of being common scolds.

--Dr. Hebbard's health is improving.

JOB AND CARD PRINTING.—We have made great additions to our job ing facilities—a magnificent Hand Press (the latest improvement), new Display Type, borders of various sizes, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SHEETS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, LABELS, CIRCULARS, ORDER DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

NATURE'S REMEDY.

VEGETINE

The Great Blood Purifier.

VEGETINE is made exclusively from the juices of care ully selected **barks, roots** and **herbs**, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Dyspepsia in the Stomach**, and all diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout** and **Spinal Complaints**, can only be effectually cured through the blood.

For **Ulcers** and **Eruptive diseases of the skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm** VEGETINE has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa** arising from internal ulceration, and uterine disease, VEGETINE is unequalled.

VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration and regulates the bowels.

For **Costiveness, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervous** and **General** prostration of the **Nervous System** VEGETINE has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all the secretive organs, and possesses a controlling power over the Nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries from whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

Prepared by **H. R. STEVENS**, Boston, Mass. feb3 No. 1.

Price, **$1.25.** Sold by all Druggists.

LATHAM'S

Cathartic Extract.

NO FAMILY

CAN AFFORD TO BE WITHOUT THIS

Valuable Medicine.

It clears the Brain, relieves the Burdened System, cures the Constipation, Sick Headache, Biliousness, and all Humors and Impurities of the blood. As a medicine for Children it has no equal.

SOLD BY DRUGGISTS THROUGHOUT THE WORLD.

Price,.....50 Cents.

EMPLOYMENT!—To energetic men and women, we give employment that pays from $4 to $8 per day. Business strictly honorable, and adapted to every city, town, and village. Send for sample, and go to work at once. Address J. LATHAM & CO., 362 Washington St., Boston, Mass.

STAGNATION in the blood tends to produce nine-tenths of the diseases "flesh is heir to" This, however, is obviated, WITHOUT DEBILITATING the system, by administering LATHAM'S CATHARTIC EXTRACT.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at **ORDINARY LIFE RATES**, Age 37, annual premium, - - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - $173.30
Or, at the end of 20 years, of - - - 6-7.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,

Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

DEARBORN'S, Market St

Morning Chronicle.

"SPELLING DOWN."—We met a sleigh-load of boys and girls the other night a few miles out of the city, on their way to a "spelling match" in the school house of a neighboring districts, and the jingling bells and the merry laughter of the young folks made us forget for a season that we had past the forenoon of life, and we joined the happy throng in imagination, and were back again among the scenes of years ago, when cares were few, and the greatest sorrow of our life was to be compelled to stay away from spelling or singing school to get our boots tapped, and know that "Bill Jones" would go home with our girl after the exercises of the evening were ended.

Is there an individual living who does not at times brush the cobwebs away from his picture of the past, and revert fondly to the scenes of his youth? If so, let him be known, though we do not believe in the nomenly feeling that prompts one to look back for all his pleasures and see only clouds and stormy weather in the future.

But we commenced to talk of spelling schools—the old-fashioned kind, held in the winter evenings in our own or neighboring school houses. The latter, however, were looked forward to with more pleasure, as the usual monotony of the occasion was relieved by the excitement of meeting a foreign foe, and the fun of a ride under the buffalo robes to the field of contest.

How "big" we used to feel when in a solemn manner the schoolmaster would step up on the rostrum, and after erasing all traces of the day's arithmetical exercises upon the blackboard, that our minds might not wander from the evening's work, sing out in that well-remembered voice, a cross between a deacon's and a heavy tragedian's, our name, coupled with some member of the opposition side, as the two upon whom fell the honor of choosing sides.

And what terrible suspense intervened while the two pedagogues drew cuts to see who should have the first choice, preparatory to selecting the chosen two dozen who were to try and spell each other down.

If the leader of the other side happened to be a rival of ours in the suit for smiles from the rosy-cheeked girl who apparently had no thought for anything save the apple she was slyly eating behind the stove, the excitement was doubly great, until it was decided that we (just think of it!) had drawn the long straw, and were entitled to the first choice among all the boys and young folks that were scattered around the school room.

How high we lifted our crowing hoots as we stepped off to the corner of the room where the line of orthographical battle was to be formed! Of course, the first name called was that of our sweetheart, though (must we say it?) she was the poorest speller in the school and her formation of words would frighten the portrait of Noah Webster from the title page of his first book. But when she was the handsomest girl in school, her cheeks were as red as a Baldwin apple; and her curls, which had been elaborately twisted around a lot poker were natural, and besides that, she had agreed to go home from all the singing schools for a month ahead with us; and when we had a stone-bruise on our heel in summer who but she could tie a rag so tenderly around the spot? So, we repeat, we chose her at once, and while she was tripping to her place at our side the other leader, as if to seek revenge and pay courts to Mars instead of Venus, selected for his first choice the very best scholar in school, a girl who tho' as homely as Barnum's "What Is It," could go through the spelling like lightning, and was as much at home among words of seven syllables as those of two. Then the work commenced, and the roots of spelling was soon filled, though we must confess that our mind became slightly confused while holding "our girl's" hand and choosing at the same time, and our side was weak, mentally, compared with that of Bill Jones.

After order was obtained among the scholars, and those who were not in the lists had brought their angry feelings under subjection, "Old Jacket Duster," as we termed our teacher, would pull out a dogs'-eared copy of "Webster's Elementary," whose fly-leaves had long since ascended heavenward in the shape of "spit-balls," and in a voice about three keys higher than his ordinary tone, proceed to "pull out" the words alternately to the two sides. The contest waxed warmer, and down went all the "small fry" on the more simple words. We were only allowed one trial, and the man who hesitated was irrevocably lost, until at last but half a dozen were left on our side. "Our" girl had come near going down on the word "coffee," (she always commenced it with a "k,") but we had set her aright in a whisper, though Bill Jones saw the "prompting," and would have informed the teacher, had he not received a stopper in the shape of "phythisic," which occupied his mind to the exclusion of all else, but which he would have mastered had not a wade of chewed paper struck him at that instant in the mouth, and so affected his utterance as to lead the master to think he had omitted one "h," and he sat down swearing, and we had the satisfaction of seeing his ears slapped with a piece of rubber for his profanity. There were now fire on the other side and six on ours, when the teacher of the other school took the floor and we saw that there was blood in his eye the moment he said, "We will now proceed to spell the Bible proper name."

This exercise soon thinned our ranks. Four of the enemy and one of our forces went down at one shot, on "Nebuchadnezzar." "Our Girl" let go of our hand and wilted on "Pharaoh" before we could inform her whether it commenced with "F" or "P," and finally we keeled over on the simple word Isaac and the champion was a little boy of ten years, who was named after the son of Abraham, and the only word which he could spell was that with which he had won the day.

But the sorrows and troubles of our youthful days never lasted long, and we had soon forgotten our defeat, in the happiness of having the rosy-cheeked girl all to ourself in the back end of the sleigh, and with the buffalo robes that we had stolen to conceal our faces, and render unintelligible the whispered words of sympathy and affection that we poured in under the "kiss-me-quick-hood that covered her curls. Two mittens held our four hands, and the few strong peppermint drops that we had been boarding up for this occasion were dull and tasteless compared to the condensed extract of sweetness that we daringly snatched from her lips when crossing the bridge on our way home. She said she had "forgotten that there were so many bridges on that road," while we—well, gentle reader, you cannot have forgotten how the old thing worked in those days before the war.—*Titusville Herald.*

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture
—OF—
400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some very loop or some feature of finish, some advantage in running or needles or feed or, price—and many of these are so we have said very good points, and the agents selling them, use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

IS THE

OLDEST
SEWING MACHINE
IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country, and sells more than twice as many over all others combined.

It is readily kept clean, and has THE NEW TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

HOLLOWAY'S
PILLS AND OINTMENT.

Every Man His Own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

N. Y. CHEMICAL Co., Sole Proprietors,
d&w705 78 Maiden Lane, New York.

Ayer's Cathartic Pills,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood.

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge, and the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

PACIFIC MAIL STEAMSHIP CO.'S
THROUGH LINE TO CALIFORNIA, CHINA AND JAPAN,

Touching at Mexican Ports and carrying U. S. Mail

FARES GREATLY REDUCED.

One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when these dates fall on Sundays, and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at MANZANILLO.

All departures connect at PANAMA with Steamers for SOUTH PACIFIC and CENTRAL AMERICAN Ports. Departure of 15th, touches at Kingston, Jamaica.

For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.

One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down earlier. A Surgeon on board. Medicine and attendance free.

For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, FOOT OF CANAL ST., NORTH RIVER, NEW YORK, to F. R. BABY, Agent; or to the Agents for New England, G. L. BARTLETT & CO., 16 Broad street, BOSTON.

The Chronicle.

LIVELY SCENE IN THE NEW YORK STOCK EXCHANGE. — The New York Sun of Saturday has the following account of the rough handling at the Brokers' Board in that city of Eli Perkins, the "funny man" of the Commercial Advertiser:

At 2 P. M. yesterday, a well-dressed gentleman, with blue necktie, clear gray eyes, light overcoat, massive nose, kid gloves, heavy moustache, glossy beaver, expanded brow, patent leather boots, sandy hair, gold watch chain, small ears and a gold-headed cane, drifted into the Stock Exchange. This was Mr. Eli Perkins of the Commercial Advertiser. His appearance on the floor of the Exchange was a violation of the rules, which admit none but members. Mr. Perkins walked up to the President's desk and made himself perfectly at home. After some minutes he carelessly sauntered down on the floor. In an instant a heavy-voiced stock broker raised the cry of "Tennessee." The alarm was taken up. It ran about the immense room like wildfire. The brokers rushed for Mr. Perkins like a drove of buffaloes. His glossy beaver was sent spinning to the ceiling, and his gold-headed cane went hurtling through the air like an arrow. As the shining beaver descended it was caught on the toe of a prominent broker's boot, and sent whizzing over the President's desk. The President saluted it, and down it went to the other end of the room as though discharged from a catapult. Every broker gave it a vicious kick. First the tile turned somersaults in the air, then danced along the floor, anon paid its respects to the delighted spectators in the gallery, and finally rested on the inside of the railing, a shapeless ruin.

Meanwhile Mr. Perkins began to suffer from the attentions of the bulls and bears. One of the bears stood back to back to Eli, and suddenly bent himself as it on hinges. Mr. Perkins shot forward like an empty coal car. He came in collision with a well knit bull, who applied his shoulder to Mr. Perkins and gave a lurch. In a second Eli was spinning over the floor like a waterspout. The uproar was deafening. A hundred men were bawling "Tennessee" at the top of their voices. All were heaving, shoving and screaming. Mr. Perkins was tossed from one to the other like a gigantic clothes pin. Once he assumed a pugilistic attitude, but this only produced peals of laughter.

The brokers went at him with renewed appetites. They began to toss him into the air and roll him over the floor like a stray ten pin. Mr. Perkins grew white when an active broker shouted: "Let us hang him!" He begged that they would spare his life at least. Here one of the bulls secured the remains of Mr. Perkins' glassy beaver and drew it over Eli's scalp. Then they gently raised Mr. Perkins and stood him on his head. Then the drove of bulls and bears danced about him like a circle of savages about a captive. Mr. Perkins finally got on his feet, and watching his opportunity, shot out of the gate like an elope, leaving behind his hat and cane. The merry brokers sold these articles by auction, after the bulls and bears resumed the fight over Erie, raising it higher than they had raised Mr. Eli Perkins' hat.

ANCESTRAL WISDOM.—In Pennsylvania not many years ago, there dwelt the descendants of Peter Van Schrenbendyke, who had cleared his own farm, guarded it carefully from the attacks of the Indians, and willed it to his son Jacob. The farm was transmitted in regular order from father to son, and at last became the property of Heinrich Van Schrenbendyke—a good natured, stolid Teuton, whose son Johannes, a bright, lively youth of sixteen, was told to saddle the horse and ride to a mill with a grist, and hurry back. The grist was on such occasions placed in one end of a bag, and a large stone in the other end to balance it. Johannes, having thrown the sack across the horse's back and got the grist evenly divided, had no need of the stone to balance it. He therefore ran to his father and cried:

"Oh, fadder, come and see. We don't need de stones any more."

The old gentleman calmly surveyed the scene, and with a severely reproachful look said:

"Johannes, your fadder, your grandfadder, and your great-grandfadder, all went to de mill with the stone in one end of de pag, and de grist in the odder. Und now you, a mere poy, sets yourself up to know more as dey do. You put de stones in de pag and never more let me see such smartness like dat."—*Exchange.*

—A Cleveland modiste is doing a large business in ladies' dresses made up with an Alexis Polonaise, the waist of which contains a steel trap concealed by a masqued panier. When a young gentleman calls and accidentally, or otherwise, places his arm around the wearer's waist, he hears a "click" and finds his arm caught. A big brother and lamp enter, and the victim sorrowfully starts for the jeweller's to examine some wedding rings.

—Homeopathy is gaining ground rapidly in Australia.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBYST., BOSTON,
After an extensive practice of upwards of three years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the novelty and validity of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* solicitors with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."
"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."
Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, No. 7 Andover St., Boston, (Old Number,) on all diseases of a PRIVATE OR DELICATE NATURE.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.
To Females in Delicate Health.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
UNFAIR CURE in all cases or no charge made. DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unexcelled attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
N. B.—All letters must contain one dollar or they will not be answered.
Office hours from 8 A. M. to 9 P. M.
Boston, April 11, 1871. eodawly

SLATE COATING,
Patented August, 1871.
In offering this article to the public, we supply a need which has long been felt. It is especially adapted to
Shingle and Tin Roofs. (Old or New.)
IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.
Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is
Extremely Cheap.
Will stop and prevent Leaks; superior to any cement now in use. New Shingles may be coated, this article warranted to last fifty years, and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.
STATE, COUNTY & TOWN RIGHTS FOR SALE BY
LANGLEY, CONANT & CO., PATENTEES AND PROPRIETORS,
Office, 173 Washington Street, BOSTON. dag tf

AYER'S HAIR VIGOR.
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.
Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and so painful to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glow and freshness of youth. To comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, unsightly and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.
As an elegant dressing for beautifying the Hair, it has no superior.
PREPARED BY

OH, WOULD I WERE A CHILD AGAIN!
sighs the weary and exhausted one, as the languor and lassitude of spring comes upon him. Come and receive vigor and strength from the wonderful South American TONIC
JURUBEBA,
Long and successfully used in its native country, as a powerful Tonic and Purifier of the Blood, it is found even to exceed the anticipations founded on its great reputation. According to the medical and scientific periodicals of London and Paris, it possesses the MOST POWERFUL TONIC properties known to MATERIA MEDICA.
DR. WELLS' EXTRACT OF JURUBEBA
Is a perfect remedy for all diseases of the BLOOD, ORGANIC WEAKNESS, GLANDULAR TUMORS, DROPSY, SCROFULA, ERYSIPELAS, ABSCESSES, and will remove all obstructions of the LIVER, SPLEEN, INTESTINES, UTERINE and URINARY ORGANS.
It is strengthening and nourishing. Like nutritious food taken into the stomach, it assimilates and diffuses itself through the circulation, giving vigor and health.
It regulates the bowels, quiets the nerves, acts directly on the secretive organs, and by its powerful TONIC and restoring effects produces healthy and vigorous action to the whole system.
JOHN Q. KELLOGG, 18 Platt St., N. Y., 4wm19 Sole Agent for the United States.

The Daily Chronicle,

Portsmouth N. H.

TUESDAY, MARCH 19, 1872.

Political.

The Dems were handsomely thrashed in the Thrasher-Smith (10th) Senatorial district. The people of that district remembered the indignities heaped upon Senator Smith by the Democratic roughs last year and chose Hitchcock, Republican, by a majority of 313 over both the opposing candidates. Retribution followed closely on rascality there.

All three Congressional districts, now represented by Democrats, gave Republican majorities last week—the 1st 649, the 2d 602, and the 3d about 200. Next year, Messrs. Hibbard, Bell and Parker will be defeated for re-election.

General Butler will be a candidate for governor of Massachusetts next fall.

The election of a State senator in the fifth district of Pennsylvania, on the 15th instant, to fill the vacancy caused by the death of Senator Evans, resulted in the election of Waddell, Republican, by 700 majority.

The women of Vineland, N. J., have solemnly resolved to enter the coming Presidential canvass with a ticket naming prominent women as candidates. They all voted at the recent town election, and declared unanimously against the open sale of liquor in the place.

FOREIGN-BUILT VESSELS.—The Secretary of the Treasury has prepared a bill to give American registry to foreign-built vessels owned by citizens of the U. States. Every vessel registered is declared a vessel of the United States and entitled to all the privileges lawfully enjoyed by vessels registered under existing laws, except that of importing or exporting goods to or from any port of the United States, or transporting the same from one port to another port of the United States, or of engaging in any fisheries in waters of the United States; but such vessels are declared subject to the same privileges in foreign countries and before consuls and consular officers of the United States as other registered vessels of the United States.

A SAFE INVESTMENT.—Among the various railway loans on the market, perhaps none offers greater inducements to the capitalist seeking both safety and profit on his investment than the First Mortgage Sinking Fund Gold Bonds of the Logansport, Crawfordsville and South Western Railway of Indiana, bearing 8 per cent. gold interest, payable quarterly in New York, being 9 1-2 per cent. on the investment price.

This road extends from Logansport to Rockville, Indiana, a distance of ninety-two miles. Passing through a well-settled country and several large towns, besides furnishing ready east and west connections at Logansport, Coltax and Crawfordsville, as also north and south connections at Crawfordsville and Rockville, it cannot fail to have a large local passenger traffic. The country along the line is very rich, producing corn, wheat, oats, and other articles for the market; it is also a large producer of hogs, which at one season of the year will task the road to its utmost capacity.

Perhaps the most important feature, however, is its connection with the coal beds and stone quarries in Parke county. From both these sources a large traffic will in time be developed. The quality of coal taken from the mines already opened is very superior, and is regarded by men of experience as surpassed by none in the State. The Chicago fire has created a large demand for fire proof building stone, which demand is in a great measure met by the extensive sand-stone quarries of Parke county, through which the road passes. We call attention to an advertisement in another column which more fully explains the advantages offered by these Bonds.

—We should think New Hampshire Democrats would want to take a tonic—with something in it. Never, since the world was, did anybody or body of men get such an out-and-out licking, and the worst of it is the whole party throughout the country is smarting under the stripes. One year ago they were at the top of the heap; they elected their governor, legislature, and members of Congress, and it was announced with a great flourish of trumpets that the tide had turned. Well, they went into the present campaign backed up by all the available instrumentality outside of the State—it won't do to say too much about it, but it is well known that all the voters in the bordering towns who imagine that they have a right to vote in the Granite state, obtained leave of absence last Tuesday, and went home to see their friends. Every nerve was strained, every dollar spent that could possibly be raised, and the Republicans triumphed. We don't believe the Democrats will rally again in a hurry. Their defeat seems to be radical and fundamental, and we can't see that anything is left for them but to gracefully accept the situation, and fall in with the great current of human events.—*Newburyport Herald.*

—The codfish in the wells of the fishing smacks at New London are frozen so stiff that their tails are used for bootjacks.

STICK TO THE WRECK.—Capt. R. B. Forbes writes to the Boston Journal, under the heading "Stick to the Wreck," as follows:—

Another painful illustration of the folly of leaving a stranded vessel when cast on shore on Cape Cod, and many other similar shores, may be cited in the case of schooner Clara Bell, which vessel went on shore on Monday night, 4th inst., when, it will be remembered, there was a fall of about thirty degrees in the thermometer within a few hours. The crew attempted to land about day break on the 5th, evidently without consulting the state of the tide. The boat was capsized in the surf, and all were lost save one man, who contrived to reach the Highland Light. He had on one foot a stocking, and nothing on the other, and being wet through it is wonderful that he was able to reach the light, nearly two miles from where he was cast on shore, the thermometer being below zero.

When the vessel was seen, soon after daylight, many persons mustered and went on board, dry shod, found a fire burning in the cabin and the vessel quite dry! It is quite evident that if the crew had remained on board they might have landed dry soon after daylight.

Let this be another warning to all seamen to consult the almanac, and never leave a stranded vessel on a steep beach, or attempt to leave until low water. Many lives have been lost on Cape Cod in attempting to land at the wrong time. The above facts are derived from E. S. Smith of Provincetown, and ought to be circulated by every newspaper.

AN OLD-FASHIONED TOWN MEETING. Somebody who knows Haverhill and knows Nottingham, N. H., as well, thinks there is a striking difference between the carrying the election in Nottingham, and doing the same in Haverhill. The principal difference is in the manner of taking refreshments. Here people retire to some saloon or get behind the door to drink. Not so there. At the recent election a barrel of old cider was placed upon the door stone at the front entrance to the town hall, and a jug of New England rum was set beside it. The cider and the rum was sold or given away, according to circumstances, and the citizen voters were as happy as in "the olden time."

Some of the democracy aver that the cider and rum carried the town for the republicans. But this is not true. The moist refreshments belonged to neither party. The true cause of democratic defeat was a split in their ranks and on account of much hard work by the republicans.

In the afternoon of election day a horse was left standing at the town hall door, who appearing to have had quite as much sense as his owner, quietly walked into the hall, drawing the carriage after him, the door being wide enough to admit both. He was as quietly backed out, leaving his footprints on the floor like the shadow of Poe's Raven, and we should think that the soul of his driver

"* * * From out that shadow
That lie floating on the floor
Shall be lifted—nevermore."

P. S. The horse was sober.—*Haverhill Bulletin.*

BANKERS.—Our readers will allow us to call their attention to the card of Messrs F. A. Hawley & Co., Bankers, and Dealers in Investment Securities, of Boston. The senior partner is no stranger to the business portion of the community, having been engaged in the Importing and Jobbing of Gentlemen's Furnishing Goods for some thirty-five years. His success in that business gives him a right to the confidence of the public in his present position of Banker, which business was started early in '69.

—Four-fifths of all the sufferings endured by the poor are caused, directly or indirectly, by the use of ardent spirits. Such sufferings never come in the course of nature, nor are they any necessary part of the dispensations of Providence.—*Horace Mann.*

—The Putnam Phalanx will leave Hartford about the 1st of September for a three weeks' excursion to San Francisco and intermediate points. The party will have a through train from New York, and the members going will be assessed $100 each.

—Lizzie—little witch—declined Dick's invitation to the ball, because Dr. Williams had forbidden her to use her eyes; when Dick pretested it would have been better for his peace of mind had she never used them.

—The committee of the French assembly which has been investigating the circumstances of the capitulation of Metz, has recommended the trial by court-martial of Marshal Bazaine.

—Secretary Fish's reply to Earl Granville's note has made a favorable impression upon the English cabinet, it is reported, and they see in it an opening for further negotiations.

—A man dropped his pocket-book in the street at Magnolia, Iowa, recently, and a violent gust of wind whisked away all but $50 of the $400 which the wallet contained.

—A party of gypsies were in Danbury recently. The News says, "Those people appear to think a good deal of their native land; they carry it around with them."

—When Father Taylor had lost the use of one arm by paralysis, he met a friend who asked him how he was: "Famously, sculling to heaven with one arm."

—The railroads in Nova Scotia are again blockaded by the snow, and there is a coal famine in Halifax.

—Mush and milk suppers are the thing in Danville, Indiana.

BUSINESS NOTICES.

It is a rare thing that physicians give any countenance to a medicine, the manufacture of which is a secret. About the only exception we know of is *Johnson's Anodyne Liniment.* This, we believe, all endorse, and many of them use it in their practice with great success.

Persons requiring purgatives or pills should be careful what they buy. Some pills not only cause griping pains, but leave the bowels in a torpid, costive state. *Parsons' Purgative Pills* will relieve the bowels and cleanse the blood without injury to the system.

HOLLOWAY'S PILLS AND OINTMENT.—Scurvy and Diseases of the Skin—Fever, restless sleep, foul stomach, tainted breath, languor, depression of spirits, always attendant on the worst cases of cutaneous complaints, are speedily and radically removed by these medicines—the Ointment cleanses the skin, and the Pills purify the blood, stimulate the liver, and promote digestion. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, mothers, against the destroying lancet, the drastic purge, and the terrible salivants of homœopathic medicine, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as Walker's VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of these disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

VITALIZE THE HAIR.—Why does the hair become harsh and dry—why does it fall out—why does it become gray? Simply because the life has gone out of it. The fibers draw nutriment from the scalp as the grass draws nutriment from the soil, and when the supply of nutriment is cut off in either case the product withers and dies. At the first symptom of decay, therefore, the unfed or half-fed roots of the hair should be refreshed and reinforced with Lyon's Kathairon, the only preparation which will nourish the filaments and keep them in a vigorous condition after they have begun to suffer from a deficiency of their natural stimulant. As long as the Kathairon is faithfully used, with a proper degree of friction, morning and evening, so long will it be impossible for the hair to whiten or fall out from the scalp.

SPECIAL NOTICES.

Atmospheric Poison.

The spring sun calls up something besides the flowers and grasses. It evolves from the damp earth turbid rivers, stagnant pools and black morasses, the gaseous provocatives of disease. From the offal and garbage of nuclean cities, too, it exhales an effluvia destructive of health and vigor. Periodic fevers of various types are now raging with unusual virulence in various parts of the country, and there are complaints from all quarters of a singularly unhealthy spring. What is to be done in this emergency? The answer is simple and to the point. Strengthen the body. Weakness predisposes the system to disease, commence at once a course of the most genial of tonics, Hostetter's Stomach Bitters. Be assured that the germs of epidemic and endemic fevers will never infect the physique that has been fortified and regulated with this glorious vegetable restorative. A moist atmosphere aggravates dyspepsia, and all diseases of a bilious type, and the sudden thermometrical changes common at this season, are a severe trial even to strong constitutions. There is but one way of combatting these deleterious agencies, and that is by invigorating the body, and imparting a healthy activity to all its functions. The only specific required for this purpose is Hostetter's Bitters. Of all vegetable tonics and alteratives it is the purest and the best. Its medicinal ingredients include all the juices and extracts of the most approved tonic, anti-bilious and antiseptic products of the Botanic Kingdom, and they are combined with a stimulant far superior in quality to the alcohol used in preparing the tinctures and extracts of the "regular" pharmacopœia.

BATCHELOR'S HAIR DYE.

NEW ADVERTISEMENTS.

CAIRO AND FULTON

RAILROAD COMPANY

FIRST MORTGAGE, SINKING FUND,

Land Grant Bonds,

DUE 1891 IN GOLD.

Interest 7 Per Cent. Gold, Free of Tax.

THE CAIRO AND FULTON ROAD is the main artery for travel across the State of Arkansas. It is the continuation of the St. Louis and Iron Mountain Railroad and under the same management. It will connect the St. Louis road-west the Illinois Central Railroad, with the International Railroad, the Southern Pacific Railroad and the Texas system of roads. Its length is 301 miles, and it deviates from a straight line but six miles. It has no grades over 15 feet to the mile. It passes through the most thriving counties and the Capital, Little Rock. The Land Grant of 1,926,440 acres, "is one of the most extensive and valuable ever made to any road by Congress." The whole road is under contract for building. About 80 miles are built and track-laying will go on at the rate of about half a mile a day, until the connection of Little Rock with St. Louis is completed. The First Mortgage Bonds, $8,000,000 $5,000,000 of which have already been sold, are the first lien upon the road, rolling-stock and lands. The officers are:

THOMAS ALLEN, St. Louis.....President.
H. G. MARQUAND, New York.. Vice President.
D. W. McWILLIAMS, New York.....Treasurer.
W. R. DONALDSON, St. Louis.....Secretary.

New York Directors:

H. M. ALEXANDER, H. G. MARQUAND,
WM. T. BLODGETT, JOHN H. SWIFT,
WM. H. SWIFT, ALANSON TRASK.

The Union Trust Company, Trustee of the Bonds. Price 90 and accrued interest in currency.

The Company reserves the right to advance the price at any time. Marketable securities received in exchange at full market rates, and express charges paid.

Maps and pamphlets may be obtained upon application to the selling agents.

FOR SALE BY

Lee, Higginson & Co.,

No. 44 STATE ST., BOSTON.

DIALOGUE NUMBER NO. 2.

Stranger.—Where is the best and cheapest place to buy confectionery?

Many Citizens.—Why? at J. RIDER & SON'S, of course; that's the place, because they buy it from Arnowd and Slanson's, of New York, the largest Confectionery Houses for its manufacture in this country, and who supply most if not all the celebrated candy stores in New York and Boston; and you are sure you will not be compelled to eat candies made by dirty hands and where people have cold in their heads all the year.

Stran.—Do their workmen live at the manufactory?

Cits.—No. They live at a distance and are obliged to be up in the morning and have their breakfast ready and not to be compelled to do it over their kettles when sugar is boiling, thus making it all taste as though a nutmeg grater had been shaken over it, or calling it Fruit Candy.

Stran.—Are their candies fresh, and not mixed up with Rhubarb, Paregoric and Squills?

Cits.—Yes! They are received fresh every week, and purchased in lots exceeding two or three five-pound boxes, so they are able to sell at 25 cents a pound—when some dealers have to pay 30 cts. at wholesale, bought of second-hand peddlers, or made from Molasses Sugar, mixed with "terra alba" to enable them to compete with the heavier traders.

Stran.—Do they sell to dealers?

Cits.—No; because they prefer that the general public shall have their candy at less than 500 per cent. profit on small quantities. This way of dealing makes some people pretty mad, because they see so many going there to buy where they can save money and get a far superior article.

Stran.—Much obliged; I shall certainly go there and see if what you say is O. K. or not.

Cits.—Well, do so; and you will be more than satisfied. m19

An Undoubted Security,

PAYING 60 PER CENT.

MORE INCOME

Than Government Bonds

AND

9 1-2 Per Cent. on the Investment.

FIRST MORTGAGE SINKING FUND GOLD BONDS OF THE

Logansport, Crawfordsville and South-Western Railway of Indiana.

THEY BEAR 8 PER CENT. GOLD INTEREST, PAYABLE QUARTERLY IN NEW YORK, FREE OF GOVERNMENT TAX, AND ARE COUPON AND REGISTERED.

The issue is limited to $16,000 per mile, in denominations of $1,000, $500, and $100.

This Road, 92 miles long, affords the shortest existing outlet to Chicago, Toledo, Detroit, Fort Wayne, Logansport, and intermediate points for the celebrated Block and bituminous Coals of Parke County, as, also, for the large surplus products of the rich agricultural and mineral section of the State which it traverses.

For the present we are offering these Bonds at 95 and accrued interest in currency, or will exchange them for Government Bonds, or other marketable securities, at the rates of the day.

Further and full particulars, with pamphlets and maps, furnished by us on personal or written application.

JONES & SCHUYLER,

No. 12 PINE ST., NEW YORK.

FINANCIAL AGENTS OF THE COMPANY.

RARE CHANCE.

THE SUBSCRIBER will sell his stock, fixtures and good will of the SOAP FACTORY, on Washington St., cheap for cash. A bargain for active man. Also, about 70 acres of land divided into pasturage and tillage, with a one story house and outbuildings, on Sagamore Creek, Rye road, south of Sagamore Bridge; also eight good Milch Cows. m18tf JOSIAH F. ADAMS.

A STATEMENT.

I, William Randall of Gosport in the County of Rockingham and State of New Hampshire, on oath state that I was one of the crew of the vessel that carried Erwin Newton to sail Gosport, on the 11th day of March, 1872; that said Newton had about twelve quart bottles of liquor with him at the time. I took the liquor from the wharf in Portsmouth and saw it landed at said Gosport; and I do know that the statements published in the Daily Chronicle in the issue of March 16th, 1872, headed The Gosport "Orange" is the truth, the whole truth and nothing but the truth.

Rockingham SS., March 18th, 1872.

Subscribed and sworn to before me—
ALFRED F. HOWARD, Justice of the Peace.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Not Very Coppery.

At the recent election the following majorities were given for Republican candidates in this city:—

Frank W. Miller, Co. Com.,	374
Samuel P. Dow, Councillor,	333
Winthrop N. Dow, Co. Treas.,	331
Albert S. Twitchell, R. R. Com.,	330
Ezekiel A. Straw, Governor,	312
Warren Brown, Senator,	312
Geo. W. Weston, Co. Reg. Deeds,	295
Average Republican majority	327

Communicated.

PLUCK AND TRUTH — FACT AND FANCY. — *Messrs. Chroniclers:* — Your greenhorn correspondent "Jethro," in his six lines of reply or allusion to my article, has at least two gross errors. First, he says that I ("Enterprise") claimed a good deal of pluck, when I defy him to show that I claimed any at all. Then he says he formerly lived in some country where *sheep's* head and pluck was a favorite dinner. Possibly this is correct, but if so, "Jethro" must indeed have been brought up where muttonheads were plenty, and more popular than they are in this region—where we do sometimes indulge in *calf's* head, &c. But "Jethro," don't be frightened—your head is in no great danger, for the dish requires one with brains sufficient for sauce. The mere ability to bleat is not enough.

Yours, ENTERPRISE.

"The First Ship."

Passing Mr. Burleigh's store on Congress Street recently, I stepped in a moment to see his fine display of paintings, chromos and engravings. Several of those I saw were meritorious and very handsome, well worthy of a notice of some length. An oil painting entitled "The First Ship" struck my eye with force and interest, as a bit of historical record as well as a painting of merit.

On, on it came, like living thing,
They see not oars nor crew;
And with dismay before unknown,
Each dark cheek paler grew."

A number of the red men of historic page are resting on a high bluff, supposed to be on the Island of St. Salvador, struck with dismay at beholding "the first ship" just emerging from the thick morning mist. The painter, Mr. T. P. Moses, has thrown the Indians in the fore-ground into very natural and clever postures, clearly expressing astonishment, fear and savage resolution, one grasping his war club, another his tomahawk, etc. It is a painting of merit and I understand that J. W. Peirce, Esq., of the Rockingham House, has purchased it for a friend of his at Panama. The "Cross and Wreath" by the same artist, on the whole, surpassed anything of the sort I remember ever to have seen. This, with a beautiful landscape by the same, will be lost to us as "things of beauty," they being taken up at living and very handsome prices by residents of Massachusetts, who chanced to see them here. No doubt Mr. Moses' versatile and capable brush will relieve his cultivated and fanciful brain by making other similar impressions on the immortal canvass, and I sincerely hope our good people will not let them *all* slip away to other parts. SAILS.

Electro-Biology.

Prof. G. W. Stone, electro-biologist, opens a week's engagement at the Temple Wednesday evening. His appearance at Providence is thus described by the Star:—"Professor Stone called upon the audience for subjects for the experiments. Two dozen people, ladies and gentlemen, responded, and were put under the peculiar influence. Among this number were several very well known citizens of the city, one of them being an ex-Mayor. These subjects were at once electro-biologized, and made entirely under the control of the operator. The first persons experimented with were ladies, one a spiritual medium of good repute hereabouts, and the other a laughing pretty, maiden of the halcyon period, "sweet sixteen." These ladies were forced by the influence to forget their names, the city they were in, to mistake water for wormwood, to shiver with cold, and to swelter with heat. They were chained to their seats, or followed the operator at his own will. They were rendered speechless, motionless, or made to laugh heartily, and to imagine things entirely contrary to their surroundings. Experiments were made upon the gentlemen, of a kindred nature, all showing the wonderful power possessed by Prof. Stone who is an agreeable speaker, a gentleman of culture and erudition and conducts his experiments in a very refined manner."

The Concert.

Another large audience was in attendance at the Martyn concert Monday evening. Prof. Martyn played as usual, brilliantly, substituting "Victory March" for the last piece on the programme. Mr. H. L. Harlow played a violin solo with precision and excellent taste. Mr. W. H. Hunt sang several humorous songs and told two good stories, and being a great imitator, was repeatedly encored. Mrs. Martyn was of course the attraction of the evening, and though seemingly not in good voice sang with spirit and effect, producing at the request of many in the audience the favorite "Sherman's March to the Sea." The audience was most enthusiastic and frequent encores were insisted on. "The Magregors' Gathering" and the bouquet song, during which she distributed tiny bouquets among the audience, were finely rendered. Mrs. Martyn was the recipient of several elegant bouquets during the evening. Previous to the close of the concert Mr. Martyn gave notice of a concert by Harlow's Band next week, at which Mr. and Mrs. Martyn are expected to sing, and at which we hope to see all our citizens who love music.

Laconics.

Our old friend Henry C. Barnabee is still increasing in popular favor. He gave a concert to a thousand dollar house at Lynn, recently, and the Pioneer says he is to appear at Chelsea one evening this week with reserved seats at $1 each.

Our Democratic cotemporary over the way states that "orders have been received at the Navy Yard to proceed with a thorough overhauling of the iron-clad Massachusetts, to put in new decks, new deck beams and new wood work to the overhangings." Can this be a scheme to enhance the value of labor for the purpose of deterring Hon. Daniel Marcy from building that ship he promised before election to contract, or did the election wreck the ship in-embryo aforesaid?

There is a great deal of sickness among babies in this city.

The modesty and veracity of Democratic editors is proverbial, and the influence of Democratic newspapers is not at all magnified by their confessions. We have just read a statement in one that in this city of 9200 inhabitants there are very few people "who are contented to go to sleep until they have seen" it, and the number who read it here is estimated at "seven or eight thousand!"—which accounts perhaps, partially, for the great Republican gain and the decrease of the Democratic vote in Portsmouth after a year's political campaigning.

The Concord Patriot says it is proposed to build a union depot in this city for the Eastern and Concord & Portsmouth Railroads.

A Democratic editor says we are "ill-natured since election"—because we have called him Billy several times, we presume. Would "Willie" suit him better?

The Eastern Railroad will at once commence building a second track between Portsmouth and Greenland, the want of which has long been felt.

The Portsmouth, Great Falls and Conway Railroad will be completed to North Conway on the first day of June. The Wolfeboro branch is expected to be opened on the 4th of July. At North Conway, a well-arranged passenger station is to be erected, one hundred feet in length, well adapted to the wants of this famous locality.

As the 9:15 A. M. Saugus train on the Eastern Railroad was nearing the knownothing station at Somerville on Saturday, the smoking car was thrown from the track and overturned, but fortunately none of its occupants were injured. Both tracks were obstructed by the car, and an inward bound train in attempting to cross on the side track, was thrown from the track and caused a blockade to inward and outward-bound trains for about an hour and a half, which proved a serious inconvenience to the passengers anxious to reach the city.

Our Democratic neighbor has taken to music since election, at which we wish him eminent success. Now that politics is adjourned we propose to take to poesy and make the Muse sick. We can do it.

It is stated that Rear Admiral Ingleffield, of the British Navy, within the past month has fully inspected our torpedo system, the condition of our Navy, the approaches to New York, especially by Hell Gate, the harbor defence of Portland, Portsmouth, Boston, New London and Newport. He is now detailed to ascertain the same facts relative to the Southern coast and harbor defences.

Ex-Chief Justice Bigelow, S. H. Walley and Otis Norcross, referees in the matter between the Eastern Railroad and Mr. Stephen O. Thayer of Newton, who was seriously crippled on the occasion of the Revere disaster, have awarded him $25,800. Mr. Thayer lost the use of all his fingers, his two thumbs only being left, attached to mutilated palms. His left eye is entirely gone, and his left ear nearly deaf. The right eye is in a very critical condition, and the result may be total blindness, but it is hoped that he may be able to see well enough to go about alone. He is under the care of Drs. Hayes and Williams, and kept in a dark room. His bodily health is good, and he is hopeful that he will yet be able to superintend his business and enjoy many blessings in life.

The Boston rogues arrested by officers Jellison and Barsantee left town on Monday.

Greenland

Is one of the finest and most remarkable towns in the Granite State, and consequently a favorite resort for strangers, particularly on election day, as the following instance will testify. One of the voters after depositing his ballot made inquiry of some one standing near, who proved to be a Democratic brother, if he would please inform him what town he was in. "Why?" was the reply, "do you not know that this is Greenland?" "Oh, no," remarked the stranger, "I was never here before, and merely inquire because I am so favorably impressed with the general appearance that I am determined to move my family here and take up a permanent residence." Married men living in other states cherish such a tender regard for this delightful town that they come here and deposit their votes, giving as a reason for so doing, that it was once the residence of their father-in-law. Many other facts might be adduced; these, however, are sufficient to show why Greenland goes Democratic.

VOTER.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - - $173.30
Or, at the end of 20 years, of - - - 6,740.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,
Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Morning Chronicle.

"WHAT THE PROMPTER TOLD HIM." A notable tragedian being engaged to play Macbeth at a country theatre, at the latest moment the man who was to represent the messenger in the fifth scene of the last act fell ill. The prompter, however, was equal to the occasion. He got hold of a "super," an Irishman, whom he drilled to repeat the few ill-omened lines, and instructed him how to deliver them. When Macbeth was ready for him, on went the Irishman, and got bravely through his task:

"As dead I stand my watch upon the hill,
I looked toward Birnam, and, anon, methought
The wood began to move."

"Liar, slave," cried the great tragedian, flying upon the terrified "super" and grasping his throat. Down on his knees dropped the messenger, gasping in his agony:

"Oh my soul, sir, that's exactly what the prompter told me to say."—*Exchange.*

—A person having been mentioned who had been notoriously unfortunate in his first marriage relation, and yet had soon afterwards married again, was asked if it was not rash to embark anew in an adventure which he had already found to be so disastrous. "No," said the philosopher elevating his hand, and his countenance glowing with enthusiasm, "it was the triumph of hope over experience."

—A soldier who was an inveterate joker and punster, having had his nose, left cheek and a portion of his chin carried away by a shot, in the battle of Shiloh, was asked by some of his comrades if they could do anything for him. "Boys," said he, speaking as well as he could in his mangled condition, "I should like a drink of water mighty well, if I only had the face to ask for it."

—Rev. Mr. Paddock, of Genesee, N. Y., recently preached a sermon to children, composed wholly of words of one syllable.

FERNALD & COMPANY,

IMPORTERS OF CLOTHS,

No. 11 ARCH STREET,

BOSTON.

THE CLAIM OF SUPERIORITY

Is often made for

ARTICLES OF GENERAL USE,

But the claimants often find it easier to assert such superiority than to readily prove it by practical tests.

After a long and thorough test of

BOOTS AND SHOES

FASTENED WITH

CABLE SCREW WIRE,

These goods were pronounced by the patentee to be

THE BEST

In the market for Pliability, Durability, and Economy. This claim has received

Full Endorsement

From Manufacturers!
From Dealers!
From Consumers!

Testimonials as to the superiority of this mode of fastening, over either Sewed or Pegged work, have been published by scores in Boston dailies, from leading makers and dealers throughout the country.

Cable Screw Wire goods are peculiarly adapted for our enclement winters, on account of their Water proof qualities.

Every grade, from the heaviest FISHING, HUNTING, DRIVING, or WALKING BOOT, to a DRESS BOOT or LADIES' SLIPPER, is best made with his most excellent of all fastening.

WARRANTED NOT TO RIP.

EVERY ONE BEARS THE PATENT STAMP.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the world-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION YET INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

J. J. FESSENDEN,

Agent for Portsmouth, and Vicinity.

HOLLOWAY'S

PILLS AND OINTMENT.

Every Man His Own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

N. Y. CHEMICAL CO., Sole Proprietors,

d&w15 78 Maiden Lane, New York.

Ayer's Cathartic Pills,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as efficient. Being Sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

ESTABLISHED 1863. | MARSTON & FREEMAN, PROPRIETORS. | GEO. W. MARSTON, J. P. MILLER, EDITORS.

$6 per Year, in Advance. | PORTSMOUTH, N. H., WEDNESDAY, MARCH 20, 1872. | 2 Cts. Per Copy.

The Chronicle.

—A Georgian colored lyceum discussed the question, "Which was the most useful paper or gunpowder?" The debate was closed by a disputant, who spoke as follows: "Mr. President, s'pose dar war a bar out dar at de door, and you was to go dar and shake de paper at him, you'd see what de bar would do. But jes shoot a cannon at him and mark de result. I calls for de question." The President decided in favor of gunpowder.

—Alexander Hamilton once said to an intimate friend: "Men give me credit for genius; all the genius I have lies just in this: When I have a subject in hand I study it profoundly. Day and night it is before me. I explore it in all its bearings. My mind becomes prevaded with it. Then the effort which I make, the people are pleased to call the fruit of genius. It is the fruit of labor and thought."

—A Minnesota elopement "slipped up" by the young lady slipping down on the ice and shrieking a shriek in front of the paternal mansion.

—The assassin of Earl Mayo, late governor-general of British India, has been executed.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs*, No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other Foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Research made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent may be usually avoided by correspondence with the undersigned, or if preferred, personal interviews may be had at his office, without any additional expense, and the business transacted in less time than at Washington, and with equal advantage to the inventor, as the best of Patent Agents there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—Alletters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

Boston, April 11, 1871. eodawly

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and elastic, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years, and for Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

STATE, COUNTY & TOWN RIGHTS FOR SALE BY

LANGLEY, CONANT & CO., PATENTEES AND PROPRIETORS, Office, 173 Washington Street, BOSTON. dag6r

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for those deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of this art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

OH, WOULD I WERE A CHILD AGAIN!

sighs the weary and exhausted one, as the languor and lassitude of spring comes upon him. Come and receive vigor and strength from the wonderful South American TONIC

JURUBEBA,

Long and successfully used in its native country, as a Powerful Tonic, and Potent Purifier of the Blood, it is found even to exceed the anticipations founded on its great reputation. According to the medical and scientific periodicals of London and Paris, it possesses the MOST POWERFUL TONIC properties known to MEDICAL MEDICE.

DR. WELLS' EXTRACT OF JURUBEBA

is a perfect remedy for all diseases of the BLOOD, ORGANIC WEAKNESS, CLANDULOUS TUMORS, DROPSY, SCROFULA, INTERNAL ABSCESSES, and will remove all obstructions of the LIVER, SPLEEN, INTESTINES, UTERINE and URINARY ORGANS.

It is strengthening and nourishing. Like nutritious food, taken into the stomach, it assimilates and diffuses itself through the circulation, giving vigor and health.

It regulates the bowels, quiets the nerves, acts directly on the secretive organs, and by its powerful TONIC and restoring effects, produces healthy and vigorous action to the whole system.

WEDNESDAY, MARCH 20, 1872.

Political.

Henry Clay Dean has come out for Judge David Davis—probably on the ground that as Judge Davis weighs 285 pounds the Judge must be so big around the body that it will cost too much to bring water to wash him completely—and then Clay will have a mate.

New Publications.

Handicraft: A Popular Journal of Progress in the Industrial Arts. Published by the Handicraft Publication Company, 37 Park Row, New York.

WEATHER. — Incoming vessels report having encountered terrific weather on the Atlantic. The log of the steamship Dorian, Capt. Taylor says:—

"In the squalls the water was actually torn up in sheets and hove in the air; rain pouring in torrents; the mast-heads enveloped in clouds, with lightning fiercely blinding and thunder cracking, as it were, among the masts, deafening all on board. Never in the tropics or near the line have I seen such close proximity to the lightning."

The steamer India, of Glasgow, which arrived Monday morning, experienced a succession of heavy gales. On the 18th of February the wind blew a hurricane. The rudder was carried away, the life-boats were lost and the deck was much injured. On the 21st ultimo she signalled a fishing-schooner and was steered by her to Halifax, where her engines were repaired. The ship Aminta, of Liverpool, lost her boats and had her bulwarks demolished by the heavy seas and was driven by the fury of the gale three hundred miles out of her course.

STEP BY STEP.—Life is made up of little things. He who travels over a continent must go step by step. He who writes a book must do it sentence by sentence; he who learns a science must master it fact by fact, and principle after principle. What is the happiness of our life made up of? Little courtesies, little kindnesses, pleasant words, genial smiles, a friendly letter, good wishes, and good deeds. One in a million, once in a lifetime, may do a heroic action. But the little things that make up our life come every day and every hour.

—"Ma," said an intelligent, thoughtful boy of nine, "I don't think Solomon was so rich as they say he was." "Why, my dear, what could have put that into your head?" asked the astonished mother. "Because the Bible says he slept with his fathers, and I think if he had been so rich he would have had a bed of his own."

—"How is it, my dear," inquired a school mistress of a little girl, "How is it you do not understand this simple thing?" "I do not know, indeed," she answered, with a perplexed look, "but I sometimes think I've so many things to learn that I have no time to understand."

Brighton Cattle Market

FOR THE WEEK ENDING WEDNESDAY, JAN. 17.
[Reported for the Boston Journal.]

At market for the current week—Cattle 1686; Sheep and Lambs 6122; Swine 8500; number of Western Cattle 1445; Eastern Cattle 31; Northern Cattle and Milch Cows 125. Cattle left over from last week, —

Prices Beef Cattle—Extra $7 25 @ $ 7 75; first quality $6 50 @ $7 00; second quality $5 50 @ $6 25; third quality $4 75 @ $5 50; poorest grade of coarse Oxen, Bulls, &c., $3 75 @ $4 50 ⅌ cwt, (the total weight of hides, tallow and dressed beef.)

Brighton Hides 6¼c @ 9 ⅌ lb; Country Hides 5¾ @ 6 ⅌ lb.

Brighton Tallow 5 @6¼c per lb; Country Tallow 3 @3½c ⅌ lb.

Sheep and Lamb Skins $3 25 @ 4 00 each; Calf Skins 16 @ 18c ⅌ lb.

The trade for Beef Cattle has been better than it was last week, prices having advanced ¼ ⅌ cent. from our last quotations. Beeves cost higher at Albany, and the supply in market is lighter than that of last week. There were a few lots of very extra Beeves from the West, estimated to cost 8c ⅌ lb., live weight. The trade this week and last has been confined principally to Beef, but a little being done with Working Oxen and Milch Cows.

Working Oxen—The supply at market for the week has been lighter than for several weeks past. We quote sales of 1 pair, girth 6 ft. 6 in., $115; 1 do., 7 ft. 8 in., $135; 1 do., 6 ft., $125; 1 do., 7 ft. 2 in., $235; 1 do., 6 ft. 6 in., $115; 1 do., 4 ft. 6 in., $125; 1 do., 6 ft. 8 in., $105; 1 do., 6ft. 10 in., $135. On account of the Fall weather, trade for Working Oxen has been dull.

Store Cattle—Nearly all the small Cattle that are in fair condition are sold for Beef. With the except ion of Working Oxen and Milch Cows the trade for Store Cattle does not amount to much except in the fall of the year, when large lots of Small Cattle are brought to market.

Milch Cows—Extra $85 @ $100; ordinary $25 @ $50; Store Cows $45 @ 55 ⅌ head. Nearly all of the Cows offered in market for sale are of a common grade.

Sheep and Lambs—We quote extra and select lots $7 00 @ $7 50; ordinary $4 00 @ $7 00 ⅌ head, or from 4 @ 10c ⅌ lb.

Store Pigs—Wholesale 5 @ 6c ⅌ lb; retail 6 @ 8c ⅌ lb. Fat Hogs 8½ @ 8½c; Columbia County Pigs 00 @ 00c ⅌ lb.

WANTED,

A GOOD COOK. Apply at No. 22 Court Street. feb21

BUSINESS NOTICES.

Johnson's Anodyne Liniment is without doubt, the safest, surest, and best remedy that has ever been invented for internal and external use. It is applicable to a great variety of complaints, and is equally beneficial for man or beast.

We have seen it stated in various papers throughout the country, that Agents for the sale of *Sheridan's Cuxsiky Condition Powders* were authorized to refund the money to any person who should use them and not be satisfied with the result. We doubted this at first, but the proprietors authorize us to say that it is true.

VEGETINE.—It extends its influence into every part of the human organism, commencing with its foundation; correcting disease; restoring vital powers, creating a healthy formation and purification of the blood, driving out disease, and leaving Nature to perform its allotted task.

HOLLOWAY'S PILLS.—The estimation in which these medicines are held by the public, steadily increases their demand. They act directly on the system, removing all obstructions, renovating the spring of life, purifying the blood, and totally eradicating liver complaints, indigestion, pain in the side and general debility. Sold everywhere. 25 cents per box or pot.

NERVOUSNESS, and all derangements of the nervous system, are usually connected with a diseased condition of the blood. Debility is a frequent accompaniment. The first thing to be done is to improve the condition of the blood. This is done by taking VEGETINE. It is a nerve-medicine, and possesses a controlling power over the nervous system. w

DEAD MEN TELL NO TALES; if they did, anathemas against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

DELICATE CREATURES.—This is the phrase applied by His Blackness, the Moor of Venice, to the fair ladies of Italy. It was the lovely complexion of Desdemona, such a radiant contrast to his own, that won his heart; and south to say, every man of discernment considers a fair skin, like a sweet voice, "an excellent thing in woman." Now this is a charm which can be *acquired.* There is a healthful and odoriferous toilet article, known everywhere as HAGAN'S MAGNOLIA BALM, which literally transfigures a cloudy or sallow skin, suffusing the discolored face, neck, arms and bosom with a soft, pearly tinge, and imparting to the surface a smoothness and a gloss like that of polished marble. Instead of clogging the pores, like the sticky enamels, or contracting them, and thus obstructing perspiration, like the astringent cosmetics, it cleanses the skin from all impurities and wonderfully improves its texture. This peculiarity is particularly appreciated by our rural belles, who find that the courseness and roughness, which country air is apt to engender, are speedily removed from their faces, hands and arms, by this delightful preparation.

SPECIAL NOTICES.

Atmospheric Poison.

The spring sun calls up something besides the flowers and grasses. It evolves from the damp earth turbid rivers, stagnant pools and black morasses, the gaseous provocatives of disease. From the offal and garbage of unclean cities, too, it exhales an effluvia destructive of health and vigor. Periodic fevers of various types are now raging with unusual virulence in various parts of the country, and there are complaints from all quarters of a singularly unhealthy spring. What is to be done in this emergency? The answer is simple and to the point. Strengthen the body, that it may withstand the system of disease. Commence at once a course of the most genial of tonics, Hostetter's Stomach Bitters. Be assured that the germs of epidemic and endemic fevers will never infect the physique that has been fortified and regulated with this glorious vegetable restorative. A moist atmosphere aggravates dyspepsia, and all diseases of a bilious type, and the sudden thermometrical changes common at this season, are a severe trial even to strong constitutions. There is but one way of combatting these deleterious agencies, and that is by invigorating the body, and imparting a healthy activity to all its functions. The only specific required for this purpose is Hostetter's Bitters. Of all vegetable tonics and alteratives it is the purest and the best. Its medicinal ingredients include all the juices and extracts of the most approved tonic, anti-bilious and antiseptic products of the Botanic Kingdom, and they are combined with a stimulant far superior in quality to the alcohol used in preparing the tinctures and extracts of the "regular" pharmacopœia.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET, N.Y.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free, in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. d3m d23

DRIED APPLES.

WE have just received another lot of those SPLENDID APPLES, put up by the Pneumatic Process, just as good as green apples. Try them and be convinced.

J. RIDER & SON, Agents for New Hamp.

NEW ADVERTISEMENTS.

AN AFFIDAVIT.

I, LEMUEL L. CASWELL of Portsmouth, in the County of Rockingham and State of New Hampshire, on oath, depose and say, that Elvin Newton of Gosport, in said County, while in conversation with me in the City of Portsmouth, some time in January or February, 1872, told me that he intended to be a candidate for Representative to the General Court from said Gosport at the March election in 1872, and that he would give me a large sum of money if I would assist him. He further told me at the same time and place that if he should not be elected Representative as aforesaid he would stave up the ballot box at said Gosport on the day of the March election.

[Signed] L. L. CASWELL.

State of New Hampshire,
Rockingham, ss., March 19, 1872.

Sworn to before me,
MARCELLUS BUFFORD, Justice of the Peace.

A STATEMENT.

I, William Randall of Gosport in the County of Rockingham and State of New Hampshire, on oath state that I was one of the crew of the vessel that carried Elvin Newton to said Gosport, on the 11th day of March, 1872; that said Newton had about twelve quart bottles of liquor with him at the time. I took the liquor from the wharf in Portsmouth and saw it landed at said Gosport; and I do know that the statements published in the Daily Chronicle in the issue of March 16th, 1872, headed The Gosport "Outrage" is the truth, the whole truth and nothing but the truth.

[Signed] WILLIAM H. RANDALL.

Rockingham SS., March 18th, 1872.

Subscribed and sworn to before me—
ALFRED F. HOWARD, Justice of the Peace.

J. F. SHORES, JR., Treasurer.
Portsmouth, N. H., Feb. 21, 1872. feb24 6m

ALL KINDS OF

SEWING MACHINES except the

"DOMESTIC"

For Sale Cheap.

TERMS OF PAYMENT EASY.

All who examine the "Domestics" are eager to possess them. Those having OTHER kinds are unhappy until they can EXCHANGE. This enables me to sell Machines (not little used) at very low prices. I still offer

TEN DOLLARS!

to all who will exchange the "DOMESTIC" for any other kind. Agents for the "Domestic" are monopolizing the Sewing Machine trade.

E. A. JOY, Gen'l Agt., Portsmouth, N.H.,
No. 9 Pleasant

LOCAL AFFAIRS.

Young Burglars.

Patsey Corcoran, 15 years of age, John Murphy, aged 11 years, and William Quinn, 14 years old, were arrested on Monday evening on charge of breaking into the shop of Mr. John F. Shillaber on Bow Street on Sunday evening at about nine o'clock, and taking five pistols therefrom. Murphy took the early train for Boston and sold four of the pistols, which have since been recovered. The boys were taken before Judge Page on Tuesday and pleading guilty were bound over in the sum of $300.

Catholic Controversy.

Great excitement was occasioned at the regular service of the Catholic Society at the Temple, last Sunday, by the announcement by Canon Walsh that the Bishop at Portland desired that the sense of the men of the Society be taken on a proposition to sell the Mason hill site, where the church was burned last November. It is said the subject of locating the new church on Deer Street was in consideration by certain persons. In the afternoon, the men of the Society to the number of two hundred met at the Ward Room on State Street, Father Forristall presiding.—At that meeting it was unanimously voted not to sell the Mason's hill property, and to build a new church there or nowhere. After the destruction of the church by fire, a committee was appointed to collect money and to superintend the building of a church. On account of some difficulty between Canon Walsh and four members of the building committee, the latter, Messrs. Michael Cunningham, Patrick Hennessy, James Mahoney and John Dixon, resigned and declined to have anything to do with the matter. On Sunday afternoon, the meeting voted to request them to reconsider their action and to proceed with the collections and the construction of the church.

Portsmouth's Status.

It is fashionable, or has been, in Portsmouth to "run" the business of the city in conversation, and we have even heard persons from such wide-awake (?) towns as Exeter declare that Portsmouth was dead. Your true complainer generally refers by way of contrast to the enterprise and prosperity of Portland. We see, however, in a Portland paper the following statements over the signatures of such active business men as Messrs. Samuel J. Anderson, John E. Donnell, Andrew Spring, Frederick G. Messer, Wm. Deering, William L. Putnam, Horatio N. Jose, and D. K. Hasting, Directors of the Portland & Ogdensburg Railroad. These men declare that they "see the city (Portland) languishing for want of business; land unoccupied, rents decreasing, mechanics out of employment." We are sorry for Portland. It has been a veritable Star in the East for enterprise; and its whole-souled business men deserve better success from their bustling activity. We draw a brief moral from the revelation before us:—to the effect that Portsmouth isn't at all as bad as painted in a business comparison with other large cities, and that if some of the zeal shown in growling was turned into new channels there would be most surprising results from increase of business, and the surprising confessions of our neighbors of the Forest city would not find echo here. As it is now, we hear of no decrease of rents, many houses and stores renting at enormous prices. Of what is it an indication?

Copperhead Honor.

Having lied about Mr. Paul Petersen, stating that he intended voting the Democratic ticket in Ward Three on election day and that search was made of his clothing by Mr. Chas. W. Bailey, who found on his person a Republican ticket on which was pasted a Democratic ticket, our neighbor of the Lyre follows up his disgraceful conduct by abusing and attempting to make fun of the old gentleman through the columns of his paper. It is eminently proper that Willie should do so, it is so much in accord with his low instincts and associations; for though there *may* be something in this world meaner and more deserving the contempt of every lover of fair play than our copperhead cotemporary's editorial management, that extra-mean something is like the use of mosquitoes, yet to be discovered. The facts are that on election day a young man named Russell procured a Republican ticket on which a Democratic ticket was pasted; that he went to the house of Mr. Peterson and left the ticket with him, requesting him to vote it. Before proceeding to vote, Mr. Peterson drew the ticket from his pocket and exhibited it to Mr. Bailey, stating that he wouldn't vote that thing. He was furnished with and voted a Republican ticket, from which arose a hue and cry coined in the Lyre office, charging Mr. Bailey with searching Mr. Peterson. Mr. P. says Capt. Marcy wanted him not to vote against him because he once bought two fish of him, but even that didn't prevent the determined old gentleman from voting the entire Republican ticket.

Laconics.

Auctioneer Wendell, sells at his store to-day at 10 o'clock, a great variety of good household furniture.

The "Whidden place," advertised in our columns to be sold at auction on Saturday, March 23, has been disposed of at private sale to a gentleman from Brooklyn, N. Y., formerly a resident of Portsmouth.

Prof. G. W. Stone, of biologic fame, whose amusing and wonderful exhibitions we gave account of yesterday, opens to-night at the Temple. See advertisement.

We are informed by the State Superintendent of Public Instruction that he has arranged to hold the Rockingham County Teachers' Institute, at Newmarket, at a date soon to be announced. He is also preparing for the Strafford County Institute.

Stillman B. Allen, Esq., of Boston has been quite ill of typhoid fever, but is now convalescing.

Old Probabilities predicts a storm in this region—probably the line gale.

Rowell's Newspaper says:—"Frank W. Miller, Esq., formerly of the CHRONICLE and GAZETTE, Portsmouth, N. H., is to be connected as cashier with the Boston Daily Globe, a journalistic enterprise which is projected under exceptionally favorable auspices, and is understood to be fully armed with the sinews of war. Mr. Miller has been favorably known to the business, and will find many to wish him success in his responsible position upon the Globe newspaper." That is so, every time.

We have already published two somewhat lengthy accounts of the so-called "Gosport Outrage" and what led to it, the last one distinctly contradicting the first. We would not willingly be guilty of injustice to any one, and allow *all sides* of a question to be presented in our columns; in another place in today's issue will be found affidavits bearing upon the matter above referred to.

Mr. Nicholas Spinney of Kittery, fell backwards from one of the lower beams of U. S. S. Monongahela at the Navy Yard, Tuesday afternoon. He received a severe cut on the head but was not seriously injured.

There were not sufficient ram-rod temperance votes for Blackmar at the late election to make a black-mark in the politics of the State.

Communicated.

POLITICS AND PLACE SEEKERS—A RAP AT SOREHEADS AND BOLTERS.—*My Dear Chronicle:*—I am a little riled politically; and think that if you will only let me fire off my gun at somebody, I shall feel better. If my charge is not well put in, or I fail of my mark, then nobody will be hit, or hurt, that's all. Of all things in the world, I most hate, especially about election time, a sorehead and a bolter. And it is so easy to *keep* your head sore, if only you want to. Why, I have (that is we have,) a cat, a nice old tabby, the mother of numerous kittens, and with otherwise a good record—war record and all; but she has a chronic sore on her head, and like some men I know, is bound to keep it there. Often it dies away, heals over, and gets almost entirely well; but just when all the family are beginning to hope, and almost do believe, that old "Mousey" will mind her business, let the sore alone, and allow it to die out—scratch, scratch, scratch, goes her sharp paw, and open comes the wound again, bleeding and sore, while the self-irritated victim (just like her human prototypes,) shakes her head, and cries out with pain and vexation! Just so with your disaffected politician—there is either too much tariff for him, or too little; too much money spent, or not enough (if he has the handling of it); either he does not get a job on the navy yard, who should, or somebody else does get one, who shouldn't; a caucus committee is packed; or the navy yard clique, or the custom house clique, does or does not do something they ought or ought not. Something or nothing—your soreheads you are always bound to have; like the poor, they are always with you, and if nobody else will scratch their wounds, they will surely do it themselves—in fact, I think it safe to say, that from Chase, Sumner, Schurz, Trumbull and Greeley, down to the most contemptible and insignificant of our own Ward politicians, nobody ever does irritate or promote these wounds, but the possessors.

It is in politics as in religion—a man who is not for you, is against you; and it is generally of no use to tamper or dally with the lukewarm or the growlers, the soreheads and bolters. A few weeks ago, a Boston paper that is greatly in love with the Civil Service project, (a humbug!) said that Sumner and his bolting crew ought to be conciliated—and that Grant could never be renominated and elected without their aid. But I guess our New Hampshire election has taught them better than that—as I also rather think the late result in our own Wards One and Two, has likewise opened the eyes of a few would-be marplots, to their own unimportance and lack of influence. The fact is, that while a man keeps *with* the popular current, he may wield considerable influence, but the strongest man can do but little against the tide. And after all, the deliberate common sense of the people is likely to be about right—and it is usually safe to keep the beaten track, though sometimes brave to leave it.

A man is a good deal like a horse—and if he keeps up in the collar, and is always ready to pull, not only "his share," but all he can, is not only more popular, but is, after all, likely to fare full as well, as he who slats back into the breeching on the least provocation, and urged and remonstrated with, kicks over the traces or bolts the road. "Sound and kind in all harness," is as good a card for a man as for his horse, and applies not less in politics, than elsewhere in life.

This is rather a discursive and rambling homily; but I wanted to say that bolters and faultfinders are not usually worthy much consideration, nor any wiser or better than those whom they oppose and complain of. No, no, fodder or no fodder, let us all stand up to the rack of DUTY; and if we can't win without and in spite of our opponents, it is pretty certain we shall not win with them.

What shall we say, then, some may inquire—is not this a free country? And shall not a man be allowed to say his soul is his own, or to question whatever his political servants (or masters) may do? Question, yes, and argue and discuss, and pull wires and lay trains, and work and fret, and coax and scold; but when it comes to elections, vote always and vote straight. No matter if you get out-voted at caucuses or out-generalled,—or even out-cheated, if you will have it so—that is no reason, no excuse for bolting or scratching your regular party nominations. And let not bolters congratulate themselves that they are any wiser or better than their fellows, because they refuse to abide the decisions of the majority. On the contrary, they are generally to be blamed, rather than praised for so doing. Jefferson well says, that when you cannot do just as you would, do the best you can; and so long as you profess to belong to a party, support it all you can and don't betray it. And I can but think that the results of the late election, in general and in detail, must add another emphasis to this lesson; for as the highest reward of military prowess seems to be honorable mention among the slain,—so the chief result of bolting is, to find yourself numbered among the "scat." And so mote it always be.

STRAIGHT OUT REPUBLICAN.

MUSICAL.—Barnabee and his company are booked for a concert in this city, Fast Night. Miss Vinnie H. Maynard, soprano at the Unitarian church in this city, and one of the most cultivated and artistic singers who ever performed here, we understand will give a concert at the Temple early in April, with the famous Temple Club or Masonic quartet, and other first-class assistance. The wardens of the church might well offer her the use of the house, and issue a complimentary card in her favor.

York Election.

At the York (Me.) town election, held on Monday, March 18, the candidates nominated at the Republican caucus were elected. For Moderator the whole number of votes cast was 123, of which G. W. S. Putnam had 121,—and was elected. On the general ticket the whole number of votes was 275; for Town Clerk, Lawrence P. Young had 261

Selectmen and Assessors	David Moulton	229
	Charles Junkins	222
	Octavius Weare	226

George F. Plaisted, Washington Junkins and George P. Thompson were chosen constables.

Voted, to raise $2000 for the ordinary expenses of the town; to raise $4000 for purpose of reducing the town debt; and to exempt from taxation for a term of ten years monies to to the amount of $5000 or more which may hereafter be invested in manufacturing. P.

The First District.

We publish to-day full and accurate returns of the Senatorial election in this district. The Republican canvass gave Brown 1337, Marcy 1337, doubtful 137, in the towns outside of Portsmouth. The actual vote in these towns was as follows—Brown 1323, Marcy 1352, Scattering 3. Marcy's majority 26. In the district, the straight Republican vote is increased 383, Marcy's vote being increased but 24. The Republican net gain is 528.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - $7,000.
At the end of 15 years, - - - - 14,000.
At the end of 20 years, - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - $173.30
Or, at the end of 20 years, of - - - $7.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,
Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Morning Chronicle.

A DISTINGUISHED VAG.—"D. E. Porter, U. S. A," illustrates the register of the American hotel, under date of Wednesday, 13th inst, "Captain" Porter is, beyond all precedent, the most accomplished individual in his line that has planted his moccasins in this virtuous corporation for le. these many months. His distinguished air, remarkable gift of tongue and plausible representation that he was the son of the famous Admiral Porter, of the United States Navy, secured him the respect and preferment which many a more meritorious but less cheeky individual fails to enlist. By that kind of hocus-pocus only known to the expert, he introduced himself to several distinguished gentlemen of this city, and to some of the most civilized and enlightened of the members of the General Assembly. Those who have encountered him are unanimous in the expression that he is the best posted man that ever flung ink on a hotel register in this city. He is thoroughly conversant with fashionable life in Washington and the metropolitan cities of the East, and can give a complete domestic and general history of every officer of note in the military or naval service of the United States, besides a clever smattering of the biography of every man famed in the civil service of the country. He can give the name and history of every belle in the national capital or Gotham, and produce an accurate inventory of her personal estate and the number of curls in her chignon. His accomplishments in fashionable life are only equaled by his exploits in the military service. He represented to his numerous admirers in this city that he was a captain in the regular army, attached to Sheridan's command in the West. To an open-mouthed congregation of grave Senators and "prominent citizens" he recounted the daring adventures of himself, the Grand Duke Alexis, and the dashing Lieutenant General, in pursuit of the buffalo on the plains, and clothed his graphic delineations with a semblance of truth quite in consonance with the generally accepted accounts. With a dashing manner, glib tongue, and comprehensive intelligence on current topics, he so ingratiated himself with responsible citizens that no doubt has entertained of his identity, until matters came to the inevitable proposition for pecuniary backing. His pocket wouldn't back his pretensions, and he split on the rock of impecuniosity.

Among the Captain's new-found genial acquaintances was a gentleman well known in financial and insurance circles of Columbus. The stranger wanted a trifling indorsement to enable him to draw a little money from the bank, but the insurance man was too smart for that, and from this time suspicion dated. The suspicions were communicated to Colonel Blount, the popular landlord of the American, and the bogus Porter's bill, amounting to somewhere near ten dollars, was made out and carried to his room by the chief clerk. Along with the bill went a victim of the junior Admiral's wiles, who wore a fine scarf and pin worth about ten thousand dollars. It should be stated that the facetious stranger represented that he had lost his baggage on the way to this place, and his immediate necessities rendered it unavoidable for him to call on a friend for the loan of something to cover up a shirt bosom which was becoming slightly soiled. The scarf was found about his neck, but the pin had been lost; he declared his intention, however, of restoring the loss by the donation of jewelry of much greater value than the lost property.

But he hadn't the wherewith to pay his hotel bill and his score at the bar, and came to grief. He accompanied the clerk to the office to talk the matter over, and was confronted by Policeman Ryan, who had been called in to act in case of emergency. The landlord stated that he could do nothing further than to eject the impecunious interloper, but the officer concluded to gobble him, and he now sweetly sleeps in the calabooose, with "wag" artistically indited opposite his name on the slate.—*Columbus (Ohio) Statesman.*

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that o any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

HOLLOWAY'S

PILLS AND OINTMENT.

Every Man His Own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

N. Y. CHEMICAL CO., Sole Proprietors,

d&w15 78 Maiden Lane, New York.

Ayer's Cathartic Pills,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have received from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

The Chronicle.

NEW USES FOR WOOD.—While England has been for late years seriously agitated by prophecies of the failure of her coal, America has begun to contemplate quite as seriously the failure of her wood. We do not mean wood for fuel, but for building purposes, furniture, railway ties, etcetera. The destruction of our forests, especially pine forests, goes on at a tremendous accelerating rate; the lumber regions are annually forced further and farther back; annually the quality grows poorer and the price higher; and annually the lumberman gets nearer and nearer to the limit of good lumber.

The regret which would naturally be felt at this near failure of so important an element of our wealth is aggravated by the reflection that is preparing lumber for the market for more is wasted than that which is utilized. The limbs, the slabs, and crooked sticks are not only unavailable, but in a majority of cases it costs money to get them out of the way. At Ottawa, for instance, where the millmen are not permitted to throw slabs into the river for fear of impeding navigation, and dare not burn them, they grind them into sawdust at a very considerable expense in order to get rid of the costly incubus.

Then, again, the wood is so perishable; pine will last from a few years to a few decades, according to the exposure, while the harder woods, under favorable circumstances, may endure for centuries; but sooner or later the wasting fingers of time will destroy it, and the forest is called upon for fresh supplies.

We are rejoiced to know that to a great extent all this will in the future be changed by an invention lately perfected and patented in Canada and the United States. The effect of this discovery will be to increase to an almost incalculable extent the work which wood will perform, first by utilizing every part of the tree, limbs, crooked sticks, chips, and even sawdust; and secondly, by making the wood almost indestructible.

The mode of preparation is almost as follows: At present slabs and other refuse material only are used; these are put into a machine which brings the side surface of the wood into contact with a series of knives on a revolving disc, which cut it, not into powder but into fiber. This fiber passes from the knives to the periphery of a perforated iron cylinder, enclosed within an iron jacket also perforated, both revolving at a high rate of speed, but in opposite directions. A system of teeth in the cylinder and the jacket cut the fiber still finer, and the centrifugal motion, aided by a current of air forced by means of a blower shaft through the openings in the cylinder completely dessicates the material, so that it leaves the cylinder perfectly dry.

From the cylinder it passes to a series of rollers where it is mixed with the substance best adapted to fit it for the work it is intended to perform. If water pipe, gas pipe, or drain tile is wanted the substance is composed mainly of coal tar. If it is to be made fire-proof a substance called grahamite is added. These rollers at the same time press the material as compactly as may be desired, and mold it into any required form, cylindrical, flat or solid. The same pressure that compresses the fiber squeezes out the tar or other mixture except just so much as is needed to hold the whole together in a firm, compact, solid mass.

The uses to which this material may be economically and advantageously applied are almost endless. Many of these will suggest themselves when it is known that the material so formed is more solid than the hardest wood that ever grew, quite impervious to water, fire-proof, frost-proof, and of a tenacity nearly equaling that of iron. The manufacture is yet in its experimental stages; but it has been carried far enough to demonstrate that water and gas pipe may be made superior to iron pipe in every respect at one-sixth of the cost. A section of pipe was subjected to a test of 185 pounds to the square inch, and showed no signs of failure. Being frost-proof, it may be laid immediately below, or even above, the surface of the ground, saving the very considerable expense of digging below the line of frost, as is now required for water and gas pipes. It may also be lined with a preparation of gypsum, and the water is thus preserved from contact with the body of the pipe.

Every reader knows how rapidly water becomes impregnated with foreign substances conveyed through metallic pipes, and it is impossible to line such pipes with any available material, as the shrinkage and expansion of the metal destroy the lining. But these pipes never shrink or expand, and lining once put in is as indestructible as the pipe itself.

We have said that the purposes to which this material may be applied are almost numberless. Among other things houses may be made from foundation to chimney top of it. Our houses are expensive; they need continual repairs; if built of stone or brick, the walls "sweat;" if made of wood they decay rapidly; the woodwork shrinks and lets in the storm; the roof cracks and lets in the wet; the plaster cracks and tumbles down; rats gnaw through the walls and run riot under the floors; pipes leak or fill up, and tearing, repairing, waste, loss, discomfort, and discontent are everywhere.

But with this material everything would be changed. There being no shrinkage, not a particle of air could enter save through the proper ventilating apparatus; there would be no plaster to crack or tumble down; the house would be warm in winter and cool in summer; gas and water pipes would be built into the walls, and would be indestructible; rats could not gnaw through in any place; the most ample ornamentation could be put on at a very trifling expense. To crown all, the house when built would be fireproof; if in volcanic countries, it would possess an additional value in being earthquake proof, and in every country it would last for ages.

We predict a great future in this invention, and we may expect to see ere long, not only pipe and houses, but pails, tubs, and a thousand useful articles which now consume vast quantities of valuable timber, manufactured out of the mere refuse of the saw mills which is now a cumbrous object of expense and trouble.—*Hamilton (Canada) Spectator.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continued to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with despatch. Models made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All unsuccessful inventors who have made application through other agencies, are cordially invited to call at this office, when their cases will be carefully examined, and the reasons ascertained why their applications have been refused, or why they have not obtained patents, when they have made application themselves. Many such inventors have been deceived by the assertions of other agents that their inventions were patentable, when a slight knowledge of the law, or a thorough examination of the records, would have shown that they were not patentable, and that the claims of the patents issued were so worded that they could not be sustained in the courts. Many others have been induced to pay the fees for examination and advice, when they could not afford the expense, when they should have been informed that their inventions were not patentable, and that the fees for examination and advice would be lost. Such cases have given a large number of patents issued at this office the character of being difficult to obtain, and have caused the patents of this office to be regarded with suspicion, when the fault has been with the agents who have misrepresented the law and facts relating to the patentability of the inventions.

All unsuccessful cases are made a matter of special correspondence, and the reasons ascertained why the patents have been refused, or why they have not been obtained when application has been made through other agencies.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* with a view to securing their rights and protection to the utmost extent of the law. I can also say that his applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such uninterrupted proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN Q. ADAMS, JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, has been a physician whose attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charge made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

Boston, April 11, 1871. eodawly

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article are warranted to last fifty years, and for a Slate Coating for new Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

Office, 173 Washington Street,
BOSTON. dagtr

AYER'S HAIR VIGOR.

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and so pleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

OH, WOULD I WERE A CHILD AGAIN!

sighs the weary and exhausted one, as the languor and lassitude of spring comes upon him. Come and receive vigor and strength from the wonderful South American TONIC

JURUBEBA,

Long and successfully used in its native country, as a Powerful Tonic and Potent Purifier of the Blood, it is found even to exceed the anticipations founded on its great reputation. According to the medical and scientific periodicals of London and Paris, it possesses the MOST POWERFUL TONIC properties known to MATERIA MEDICA.

DR. WELLS' EXTRACT OF JURUBEBA

is a perfect remedy for all diseases of the BLOOD, ERGIMICTS, WEAKNESS, DYSPEPSIA, DIABETES, DROPSY, SCROFULA, INTERNAL ABSCESSES, and will remove all obstructions of the LIVER SPLEEN, KIDNEYS, INTESTINES, UTERINE and URINARY ORGANS.

It is strengthening and nourishing. Like nutritious food taken into the stomach, it assimilates and diffuses itself through the circulation, giving vigor and health.

It regulates the bowels, quiets the nerves, acts directly on the secretive organs, and by its powerful TONIC and restoring effects produces healthy and vigorous action to the whole system.

Portsmouth, N. H.

THURSDAY, MARCH 21, 1872

THE ELECTION.—Returns from all the towns in the State except two, which are doubtless democratic, show that there are elected 210 republicans to the house of representatives, 144 democrats, one temperance, five labor reformers and two independent, thus giving the republicans a majority of fifty-six all over the others.

The names most prominently mentioned in connection with the speakership are those of Mr. Wadleigh of Milford, Hon. William C. Patten of Kingston, and Hon. Asa Fowler of Concord. For the office of secretary of State, Mr. George E. Jenks of Concord, formerly one of the proprietors of the Republican Statesman, is a prominent candidate.

The seat of William W. Messer, Democratic Representative elect from Northwood to the Legislature, will be contested by Charles Hull, Republican, who claims that Mr. Messer was elected by illegal votes.

How will Boss Bingham like being unseated and sent home from the legislature? His town of Littleton chose four representatives, being entitled to but two!

A. B. Stone, a Democratic Selectman of Hancock, signed the warrant for a town meeting and afterwards erased his name from warrant and check list, and refused to open the town meeting on election day. An election was held, however, and the Republicans won.

A FORGER'S TROUBLES.—John Sidle, a young man who, in September, 1869, forged the name of his father, a wealthy farmer living in Union county, Ohio, to certain drafts, checks and promissory notes, by which the Farmers' Bank of Marion, Ohio, and the First National Bank of Newark, N. J., were defrauded to the amount of $30,000, has just been arrested by detectives, who have been searching for him with more or less zeal for two years, spurred by the promise of large rewards. Immediately after obtaining the money he started for New York. On the way he met with a gang of sharpers, who induced him to speculate in cattle, and succeeded, before he got away from them, in fleecing him of all but $500 of the stolen money. Fearing arrest he went to San Francisco, by steamer, where he worked in a lumber-yard for four months. Then he fled to Arizona and dug in the mines six weeks. Then he went to Mexico and drove cattle for six months. Next he went to Fort Gill, Indian Territory; then to Fort Scott, Kansas, and then to Des Moines, Iowa, where he worked as a farm hand for two months. While in Iowa he wrote his father repenting of his past conduct and asking him to come out and see him. Sidle, senior, answered the letter in person, and was so completely imposed upon by his son that he forgave him and let him have $1200 with which to speculate in lumber. Instead of buying lumber he went to Prescott, Arizona, and bought a gold claim, which he worked and ruined, and then he wandered about the wild country, was captured by Apaches and escaped, got down into New Mexico, worked his way to Panama, crossed the Isthmus and reached New York by steamer. There he obtained employment as conductor on a horse railroad, and was captured after having run his car but a few weeks.

BRUTES.—The horses of a horse car in Newark, N. J., became frightened on the 18th by a band of music, attempted to run away and took their car into the ranks of an Irish society on the track. The society broke ranks, took possession of the car and most brutally beat and kicked the innocent driver. He is probably fatally injured. The occasion of the parade of the society was the celebration of St. Patrick's day,—which shows that the early missionary is little honored by his professed admirers.

THE ELECTION IN UTAH on the question of accepting the proposed constitution for a State government took place on the 18th. The constitution was adopted unanimously, by the Mormon vote, the Gentiles making no opposition. Hon. Frank Fuller, the Mormon candidate for Congress, was elected.

DR. J. E. HOWARD, a citizen of the United States, has been transported by the Spanish authorities in Cuba to a penal settlement in Africa, and the House of Representatives has called upon the President for information in the matter.

MATTIE MARTIN, who died suddenly at Colchester, Vermont, a few days ago, came to her death by eating arsenic to beautify her complexion.

THE ALABAMA CLAIMS.—The most feasible plan for the settlement of matters with Great Britain is put forward by the Boston Advertiser, which says:—

Resolving the subject of the indirect claims into its component parts, we find that it is composed, first, of the theory that the United States has a right to present such claims; second, of the actual demand for payment of such claims. The principle is that England gave us a just cause of demand against her, which we might have prosecuted by a war had we seen fit, but for which we are content to receive reparation in a friendly way. The reparation itself is declared to consist in actual compensation for the heavy costs and charges incurred by us in that prolonged prosecution of the war which the conduct of England rendered necessary. Now, as soon as the controversy is thus divided, it seems that the two nations are no longer pressing so indirectly against each other. * * * *

What we care for is the theory. We had a right to go to war with England; we refrained from doing so, and now we want to have it acknowledged that we are entitled to recompense in a peaceful settlement as much as if we had enforced it by military measures. England, on the other hand, cares little for this abstract principle. It is the tangible, practical aspect of the matter which vexes her. The payment which she would be required to make, if any, might reach an enormous sum, estimated, vaguely, at three or four hundred millions sterling, and considerable more than the indemnity exacted by Germany from humiliated France. Englishmen very naturally refuse to pay any such sum, or to enter into any arrangement which might result in an obligation to pay it. Here, then, comes in the possibility of an amicable understanding. We value the principle, not the money; England values the money, not the principle.

There is only only one way in which extrication can be accomplished, and that is by the payment and acceptance of a gross sum in full of all demands. It is not necessary to specify, after the fashion of an account, what those demands are, or how many or which one of them are or are not valid. England may assert that they are all invalid, and then she creates no precedent against herself, for her payment is only by way of compromise. She pays to avoid war, as a merchant pays to avoid a lawsuit. We may assert that the claims are each and all valid, and then we abate no title of our position, but we accept the gross sum, in the spirit in which it is offered, by way of compromise. Like the merchant of the other part, we will take this for the sake of an amicable settlement, to save expense and trouble. Neither side has lost anything in dignity or abandoned its pretensions to be abstractly and upon the merits really in the right. But this dispute is abrogated; there will be no war and no lawsuit; and there ought to be no ill-blood.

A RAILROAD CONTROVERSY.—At an adjourned law term of the supreme judicial court, now in session in Concord, an opinion was given in the case of Currier and others against the Concord and Manchester and Lawrence Railroads. In December, 1860, a contract was made between these two roads for their joint management, both roads to be run and operated by the Concord Railroad as agent for said roads, and after the payment of the expense of running them, the profits to be divided between the two roads according to the capital stock of each road.

After the execution of this contract the Concord Railroad took the control of the Manchester and Lawrence road, and began operating it according to the terms of said contract, since which time the stockholders of the Manchester and Lawrence Railroad have been receiving the same dividends as the stockholders of the Concord road. In 1855 the Concord Railroad made a contract with the Boston and Lowell and Nashua and Lowell Railroads, by the terms of which they were to have the freight and passengers passing over the Concord road to points between Nashua and Boston at a very low rate, which inured to the benefit of the Manchester and Lawrence as well as the Concord Railroad.

In 1867 the Boston and Maine Railroad, desiring to obtain the control of the Manchester and Lawrence Railroad for the purpose of forming, in connection with their own road, a rival line to that of the Boston and Lowell, Nashua and Lowell and Concord Railroads between Boston and Manchester, N. H., obtained the passage of an act by the New Hampshire legislature at the June session, 1867, entitled "An act to prevent railroad monopolies, which provided that rival and competing railroads should be run separately, and that rival roads and their officers should not control competing roads, and giving the courts power to issue injunctions against parties violating the provisions of the act.

After the passage of this act the Boston and Maine Railroad instigated the filing of a bill in equity by the plaintiffs in this action against the Concord Railroad and its officers, and the Manchester and Lawrence Railroad, and in deciding this bill Chief Justice Bellows, giving the opinion of the majority of the court, held that these two roads were rival and competing lines, within the meaning of the act of June, 1867; that the contract of December, 1860, being a contract for the use of the Manchester and Lawrence Railroad by the Concord Railroad, and not being sanctioned by the governor and council and by the railroad commissioners, was illegal, and not sufficient to protect them against the operation by the statute. The court, however, ordered the case continued until the June term at Manchester, intimating that the Boston and Lowell and Nashua and Lowell Railroads should be made parties to the bill, those roads being interested in the result of this controversy. It is understood that Justice Sargent dissented from some of the positions taken by the majority of the court.

—The net municipal debt of Portland was reduced the past year $34,000.

BUSINESS NOTICES.

Johnson's Anodyne Liniment is without doubt, the safest, surest, and best remedy that has ever been invented for internal and external use. It is applicable to a great variety of complaints, and is equally beneficial for man or beast.

We have seen it stated in various papers throughout the country, that Agents for the sale of *Sheridan's Cavalry Condition Powders* were authorized to refund the money to any person who should use them and not be satisfied with the result. We doubted this at first, but the proprietors authorize us to say that it is true.

HOLLOWAY'S PILLS.—The estimation in which these medicines are held by the public, steadily increases their demand. They act directly on the system, removing all obstructions, removing the spring of life, purifying the blood, and totally eradicating liver complaints, indigestion, pain in the side and general debility. Sold everywhere. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, southern ladies would arise from every grave-yard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal"in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels intercted him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

SPECIAL NOTICES.

Atmospheric Poison.

The spring sun calls up something besides the flowers and grasses. It evolves from the damp earth, putrid rivers, stagnant pools and fetid morasses, the gaseous provocatives of disease. From the offal and garbage of ancient cities, too, it exhales an effluvia destructive of health and vigor. Periodic fevers of various types are now raging with unusual virulence in various parts of the country, and there are complaints from all quarters of a singularly unhealthy spring. What is to be done in this emergency? The answer is simple and to the point. Strengthen the body. Weakness predisposes the system to disease. Commence at once a course of the most genial of tonics, Hostetter's Stomach Bitters. Be assured that the germs of epidemic and endemic fevers will never infect the physique that has been fortified and regulated with this glorious vegetable restorative. A moist atmosphere aggravates dyspepsia, and all diseases of a bilious type, and the sudden thermometrical changes common at this season, are a severe trial even to strong constitutions. There is but one way of combatting these deleterious agencies, and that is by invigorating the body, and imparting a healthy activity to all its functions. The only specific required for this purpose is Hostetter's Bitters. Of all vegetable tonics and alteratives it is the purest and the best. Its medicinal ingredients include all the juices and extracts of the most approved tonic, anti-bilious and antiseptic products of the Botanic Kingdom, and they are combined with a stimulant far superior in quality to the alcohol used in preparing the tinctures and extracts of the "regular" pharmacopœia.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET, N.Y.

On Marriage.

Happy Relief for Young Men from the effects of *Errors and Abuses* in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. ddm ly23

Stratham.

Mr. George Speed of South Newmarket, died suddenly on the morning of the 18th. Heart disease is supposed to be the cause.

The Democrats talk about the great popularity of Marcy. It may be so in some localities; not so here. Notwithstanding money was poured out like water to secure his election, and bogus tickets in close imitation of the Republican ticket, with Marcy's name inserted, were freely circulated, he ran behind Weston. The vote was as follows: Straw 112, Brown 112; Weston 83, Marcy 82—not 84 as published.

CYRUS.

NEW ADVERTISEMENTS.

A STATEMENT.

Editors Chronicle:—It is perhaps of little or no importance to reiterate the statement that the charges made against me in regard to what I might have done had an election been held at Gosport, are without foundation—but as Messrs. Lemuel L. Caswell and William H. R. Ralph have made statements in your advertising columns which are absurd and misleading, I wish to publicly state that those statements are false in every particular. I can account for the enmity of Mr. Lemuel L. Caswell only from the fact that recently I was compelled to discharge him from my employ for appropriating to his own use funds belonging to me while I was absent on business. One day previous to election he offered a Gosport voter $50 and two years' labor on the Navy Yard to vote against me for Representative to the legislature, and five minutes afterwards came to me and borrowed one dollar. Mr. Wm. H. Randall is connected with Origen S. Caswell by marriage, and his action in this matter can be well understood by the public. I think it will be better for Mr. Origen S. Caswell to do his own trading in the future, unless he thinks the public will not believe his statements, as he has already violated his oath as town clerk. If he thinks the ass result of this controversy the lie rests on him, perhaps it would be better for the matter to be settled at home. I am prepared to prove every word of the charges I have made.

ELVIN NEWTON.

NOTICE.

PERSONS having Deeds which have not been placed upon the Records—but properly should be recorded—the Register would be happy to record the same before his retirement from the office. Please send them in. Before closing the labors for a long series of years in this office, I would take the opportunity to express my earnest thanks to the people of this County for their generous support and confidence.

DIALOGUE NUMBER NO. 2.

Stranger.—Where is the best and cheapest place to buy confectionery?

Many Citizens.—Why? at J. RIDER & SON'S, of course; that's the place, because they buy it from Arnowd and Slanson's, of New York, the largest Confectionery Houses for its manufacture in this country, and who supply most if not all the celebrated candy stores in New York and Boston; and you are sure you will not be compelled to eat candies made by dirty hands and where people have colds in their heads all the year.

Stran.—Do their workmen live at the manufactory?

Cit.—No. They live at a distance and are obliged to be up in the morning and have their hair combed so as not to be compelled to do it over their kettles when sugar is boiling, thus making it all taste as though a nutmeg grater had been shaken over it, or calling it Fruit Candy.

Stran.—Are their candies fresh, and not mixed up with Rhubarb, Paregoric and Squills?

Cit.—Yes! They are received fresh every week, and purchased in lots exceeding two or three five-pound boxes, so they are able to sell at 25 cents a pound—when some dealers have to pay 30 cts. at wholesale, bought of second-hand peddlers, or made from Molasses Sugar, mixed with "terra alba" to enable them to compete with the heavier traders.

Stran.—Do they sell to dealers?

Cit.—No; because they prefer that the general public shall have their candy at less than 500 per cent. profit on small quantities. This way of dealing makes some people pretty mad, because they see so many going there to buy where they can save money and get a far superior article.

Stran.—Much obliged; I shall certainly go there and see if what you say is O. K. or not.

Cit.—Well, do so; and you will be more than satisfied. m19

LOCAL AFFAIRS.

New Advertisements to-day.

A Statement—Elvin Newton.
Notice—Wm. H. Belknap.
Auction—H. F. Wendell.
Notice—Board of Trade.

Portsmouth's Status.

Messrs. Editors:—Under the above heading you ask in closing your article of Wednesday, of what is the fact of stores and houses (many of them) renting at enormous prices an indication? That question, perhaps, is the most important part of the article and left unanswered for a purpose. Recently it was asked in your columns "why not debate the question of rents, or is that too practical?" Respectable workmen pay half they earn for rent, and that is not all of it. The other wants of the families can be supplied from stores which rent from 100 to 300 per cent. higher than formerly. The fact that from the close of the war to the present time there has been a constant decline in the prices of almost every needful thing does not seem to affect the matter of rents, but on the other hand the rents though generally raised in war time beyond former rates are not satisfactory to landlords in these progressive, prosperous times.

However, *Messrs. Editors*, we ought possibly to be satisfied since the enterprising spirit is at work with us—even if it accomplishes not much more than to improve upon the ancient structures on a few of the thoroughfares of the city. While there is no increase of business and a decline in population, it is not so easy for some to see the great benefit or real improvement except to some few real estate speculators.

Probably the question you have asked will not be explained, so we shall have to use our own judgment as to whether high taxes and high rents are sure indications of present prosperity, or will tend to help forward business which is much needed to the support of the present, to say nothing of a future increase of population. Whatever of discussion this question may elicit, it will probably be participated in by others than those who seem to be experimenting as to how high rent it is possible to obtain without regard to whether there is anything left for the tenants or not. I have given these thoughts in relation to the rent of stores more particularly.

PORTSMOUTH.

Darwin Sustained.

We have become a settled convert to the Darwinian theory of the origin of species; not that we have studied the theory at all, or profess to understand exactly what Darwin does or does not maintain; but that makes no difference, — we believe in his theory just as though we did understand it, which is a large part of what is demanded of the adherents of any creed, so far as our observation goes. Our limited researches into Darwin's theory have imbued us with the idea that he maintains that Adam was an oyster and Eve a jelly-fish, (glad indeed we are that the "Evolution of Species" — we believe that's the name for it—has got so far along that the modern mate for man is a woman.) With which opinion we cordially agree; Adam unquestionably *was* an oyster, and Eve as certainly was a jelly-fish, at the first start. We did not always believe thus; but as a tiny spark is sufficient to create a disturbance in a powder-mill, and from little acorns grow the gigantic and enduring oaks, (like those of which our navy was built during the recent war,) even so has our early and immovable faith in the former theory of the origin of man been capsized and completely knocked out of time by the modest instrumentality of a horse-radish. Ten or twelve years ago a bottle of "pure grated horse-radish, warranted,"—price 15 cts., —lasted us two weeks and made us sneeze every time we thought of it; now we devour a whole bottle (costing 25 cts., an "evolution" in price,) at a sitting, without winking. Horse-radish was once "a plant of the genus Cochlearia, a species of scurvy-grass, having a root of a pungent taste." That is what horse-radish *was*, no longer ago than when Noah Webster made his dictionary. Now, horse-radish is but another name for turnip; and the "evolution" of horse-radish into turnip having taken place under our own eyes within the brief span of a lifetime, we have not the slightest difficulty in crediting that man "evoluted" from an oyster in fifty million ages.

Laconics.

Those new burners and shades put up in the Post Office at the expense of our worthy Postmaster are decided improvements. Postmaster Peirce studies the wants of the public closely.

Register Belknap gives notice elsewhere of the importance of recording deeds in the County Registry. We know of no business matters that can be neglected with less security than the registry of Deeds. Mr. Belknap is a courteous gentleman and promptly records all documents entrusted to him.

The hall of the Knights of Pythias was dedicated Tuesday evening, there being a large attendance of Knights and invited guests. The principal exercises of the evening were a dedicatory address by Mr. John F. Leverton and singing by a quartet. The order is said to be in a flourishing condition and is increasing in numbers.

The inventory of the estate of the late Leonard Cotton as returned to the Probate Court includes valuation of fifty pieces of property appraised at the sum of $32,580.

The heroes of the Kearsarge-Alabama fight in this vicinity will be pleased to learn that an appropriation of $190,000 passed the U. S. Senate on the 19th, to be distributed among the officers and crew who took part in that gallant contest.

The House committee on naval affairs have agreed to a bill offered by Mr. L. Myers of Pennsylvania, providing that hereafter seamen enlisting in the navy shall be supplied with an outfit of clothing and other necessary articles at the public expense, as are now allowed to marines and soldiers.

The Newburyport Herald says a car load of ale was returned from Peabody, Mass., to Portsmouth, for fear of seizure.

The Dolly Varden foulards are very fashionable for house wear, and come in rare and beautiful designs, and very gay colors.

We have a letter from a prominent Republican at Manchester which says of the recent election;—"Portsmouth did splendidly. I had set you at 300 majority. You deserve to have half a dozen Governors there, and I hope you will have the next one."

Maj. Alfred Little, the celebrated American Melodeonist is in town, the guest of L. V. Newell, Esq., and will give one of his popular concerts at the Methodist Church early next week.

Don't forget the auction sale of dry goods at Henderson's, No. 3 Daniel Street, at 10 o'clock this morning, goods were "almost given away" at the sale yesterday.

At 6.57 o'clock Wednesday morning the sun crossed the equator, and is now fully established on our side of it, or in northern declination for six months to come, the earth being so situated in space that the sun's rays illumine half of her surface from pole to pole. This position of the earth, occurring only twice during the year, makes the days and nights of equal length all over the globe, and brings about the pleasant terrestrial condition which we call the Vernal Equinox.

The Providence Journal says:—"If the axis of the earth were not inclined to the plane of the ecliptic, we should have a perpetual spring." Old Boreas has been on "a perpetual spring" all winter—and if this is "spring" weather we are now enjoying, we confess to being delighted that "the axis of the earth" is "inclined to the plane of the ecliptic."

Prof. Stone furnished a merry entertainment to his audience Wednesday evening. After a brief mention of the subject of electro-biology about a dozen gentlemen went to the stage, seven of whom became passive instruments under his control. They could not open their eyes, speak, move or exercise the power of memory if he forbade it and their attempts to do so made fun. After the close of these performances, about fifty sets were distributed among the holders of prize tickets. Checkerboards, pocket books, buckets, dress patterns, *etc.*, were given, and one prominent young druggist secured a large doll baby. After these gifts were disposed of, all the tickets which had drawn gifts were placed in a hat and a ticket drawn therefrom by a little girl. This ticket belonged to a young man named Andrew Frisbee, who was awarded $20, the principal gift. Prof. Stone will give a second *seance* this evening, distribute the usual number of gifts and have a gift of $25 drawn from the prize numbers.

Gosport again in our advertising columns.

A bet of twenty-five dinners at the Rockingham House in this city or elsewhere made between a Portsmouth and a Manchester Republican, that Manchester would give 500 majority for Straw, is forfeited by Manchester, Straw's majority being 447. A Republican of this city wins sixty dollars to thirty that Straw would have 1000 majority, but the Democrat who loses this wins three hundred dollars to one hundred from another enthusiastic Republican, that Straw would not get 1500 majority.

Schooner Howe of Rockland, loaded with iron, experienced rough weather in which a German sailor was lost overboard and drowned.

State News.

Mr. J. A. Dow is erecting a shoe factory at Hampton Falls.

The new city government of Concord was organized on the 19th.

Senators Cragin and Patterson have returned to Washington.

The store and dwelling of John F. Briggs in Gorham was damage by fire $1500 worth on Monday forenoon; insured.

The dwelling-house of Mr. Frank Foster of West Littleton was destroyed by fire on Tuesday. Loss $1000; insured for about $500.

On the 18th, in Manchester, the wife of John Burke was found in a room adjoining her kitchen, dead, and covered with blood and bruises. Burke is a drinking man and has beaten his wife savagely lately. Mrs. Burke was of intemperate habits. The children say the father beat the dead woman.

—The railroad blockade in the provinces continues, and the people of Halifax, N. S., are suffering severely from want of coal.

☞ THE NEW HAMPSHIRE GAZETTE for this week is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Daily. Morning Chronicle.

MARK HEBER'S LUCK.

AN INDIAN STORY.

Mark Heber returned home from his father's funeral with the problem of his own future pressing upon his thoughts, and demanding a prompt solution.

His home had been, from his earliest remembrance, upon a steep, worn-out farm of fifty acres, situated upon the Seneca Lake, in Western New York. His father had become so heavily involved in debt, that two weeks before his death the farm had been sold by foreclosure of mortgage.

And what was Mark to do?

He was a lad of nineteen, slight and boyishly frame, but with the strength of a man in his sinewy arms. He had had the usual advantages of education afforded to farmers' sons.

He returned home from his father's grave to the small, unpainted story and a half house, and after him came his father's only brother, a well-to-do farmer, who resided in the neighborhood.

This uncle, Mr. William Heber, was a man of sixty years, pompous and self-important. He out-was of the masculine pattern, and he had never been known to do a generous deed, while he had done many mean ones.

"Well, Mark," said his uncle, "I've sent my folks on home, so that I can have a good talk with you. Morgan tells me he wants the farm. He has been off two weeks while George was visiting, but he wants to move in next week. What are you going to do?"

"I don't know, sir. I am trying to think. What can I do?"

"I have thought the matter over," said Mr. Heber, "and have thought upon a plan. I am willing to take you, Mark, and treat you as my own son. You shall have a home at my house, and a seat at my table. What do you say?"

"You forget, uncle, that I have some one to provide for besides myself," said Mark. "Suppose I were to accept this offer yours, what will you do for Gay?"

"The girl is no relation of yours, Mark." The boy sighed.

"Poor little Gay," he said; "hers is a hard lot.

"Do you remember how the child came by her name? It is thirteen years this spring since a lady dropped at our door and asked leave to remain over night. She staid on day after day, growing weaker and weaker. It did not take long to discover that she was female. She called the child Gay, and sometimes Gaylord, which is Gay's true name. But she did not tell her surname, nor anything concerning herself. Late that summer she died. No one ever came to inquire after her or the child."

"Her mother was a crazy tramp, and nothing more. No wonder George was bewildered, when his wife adopted the child of a tramp and brought her up a lady," said his uncle.

Mark colored.

"I cannot hear a word against my mother, sir," he said. "I shall protect Gay while I live, and she shall not be separated from me."

"Then I wash my hands of you," exclaimed Mr Heber angrily. "You can go your own way, and get your own living."

"Very well, sir," said Mark quietly; "that is settled then."

In one week Mark had sold a pair of colts which he had raised himself, for five hundred dollars, the household furniture for nearly as much more, and was on his way, with little Gay, to the far West, to seek their fortune.

The young travelers arrived at Leavenworth after a long and fatiguing journey.

Here Mark, while looking for a wagon and a yoke of oxen with which to cross the prairies, fell in with an old farmer named Whitman, who had been living in Western Kansas, but did not like it, and was now on his way to Nebraska. Mark concluded to join him, and Mr. Whitman assisted him in purchasing a suitable outfit, and that same night Mark and Gay were snugly ensconced in their huge travelling wagon, outside of the city, on the edge of the prairie, where Mr. Whitman, with his wife and seven children, had encamped. Six other families were with them—the seven wagons being "parked" in form of a circle—that is, the pole of one wagon resting upon the rear of another—and the oxen, mules, horses, cows, dogs and pigs being gathered into the circle thus protected.

Outside the circle of wagons a great fire was burning, and as Mark's wagon drove up, the conductor of the train, Mr. Landford, came forward and welcomed the new-comers.

It seemed to Gay and to Mark that they had entered a new and wondrous world.

Both lay long awake that night in their wagon, close up under the canvass roof, and they talked in whispers of their great future, and wondered what it had in store for them.

The next morning at daybreak the camp was astir. By sunrise the wagon train was on its way toward the north-west.

At night they halted beside a small stream and parked the wagons, and had supper, and talked and sang songs and told stories, like one great joyous family.

At daybreak, again they were on the way.

In the course of ten days, having travelled rapidly for ox teams, they reached the Little Blue river, a branch of the Big Blue. The women built fires and began the preparation of supper. The men proceeded to park the wagons.

"The last train I took over this route was attacked by Indians just here," said Conductor Landford. "They were unusually bold, and we had a tough fight—Good Heavens! What is that?"

He beheld, by the last rays of the sunset, a mounted band of Indians, their weapons glittering in the yellow light, their plumes nodding in the wind, as they came on like a whirlwind.

"*Indians!*" yelled the conductor, in a voice that made every woman's face turn white. "Pawnees or Sioux, I can't tell which. They seem to be on the war path. I can see their weapons. They outnumber us, counting in our women. Call in the children. We shall have to defend ourselves."

He blew a shrill blast on his bugle that rang out far and wide. They were sweeping down upon the train, with whoops and yells, murder and rapine in their very aspect.

Conductor Landford was skilled in Indian warfare, and was a scout of considerable note.

"There are twenty savages," he announced. "Remember, boys, you are fighting for your mothers and sisters. Show us what stuff you are made of."

Then he shouted:

"Now, men, the gun! Have out the gun! They are in war paint, and mean mischief When I give the word, fire!"

The Indians came nearer and nearer, advancing in a straight line.

"Now, boys, give them a hint that we are not fooling," said the guide grimly.

Mark Heber and his young comrades fired a volley.

The next moment a shower of bullets came hurtling toward the defenders of the camp.

"The gun!" cried Lanford. "Give it to 'em, Whitman."

Whitman did "give it to them," mowing down three mounted savages, horses and riders rolling over and over in horrible death agony.

But the remaining savages again came to a halt, but only for an instant. With a terrific war whoop, they came on again to the onslaught, firing as they came, and looking like incarnate demons.

"All together!" cried the guide.

The other men and all the boys fired, each with especial aim. Six mounted savages fell before the deadly rain.

A panic immediately seized upon the survivors. In the midst of it, Whitman grimly took his off his field-piece anew.

This ended the conflict. The savages with horrible yells beat an instantaneous retreat, leaving their dead upon the field, and dragging away their wounded.

Armory had a bullet wound in his shoulder, and Arnold's eldest son had a flesh wound in his arm, but neither of these injuries was serious.

"Are you safe, Gay?" demanded Mark, coming toward her.

"Yes, but I'm almost smothered," answered Gay. "Have the savages surely gone, Mark?"

Gay cautiously crept forth while she was speaking. The remaining wagons disgorged their crouching occupants, women and children coming forth pale and trembling, but full of joyful gratitude at their escape from death, or a fate worse than death. The camp took on its usual appearance even before the retreating savages were entirely out of sight in the far distance. That night they encamped upon the prairie, and met with no adventure. A guard was maintained as on the previous night, but no Indians were to be seen.

Every day for the week that followed, the encampment on the Little Blue was full of incident, but all of the pleasant sort, nothing occurring to alarm the emigrants.

And at the end of the week, to their great joy and relief, they arrived at Fort Kearney.

The emigrants did not halt at the fort, but pressed on to Kearney City, where they encamped just at nightfall.

Here Conductor Landford found another train, the guide of which had been stabbed two weeks before by a notorious man, who had escaped arrest. The train was offered to Landford, to be united with his own.

The assault that had been made upon the conductor of the previously arrived train was made a matter of discussion, and regret that his assailant had escaped was universal.

"I know the fellow who dirked the conductor," said Landford. "He is a perfect demon. I know that he has killed several men. I saw him at Denver last year. He had just stabbed a miner from behind, and robbed him of all his money and gold. He is called Blue Jack."

"Blue Jack!" cried one or two boys. "What a name!"

"They call him so because one side of his face is blue, as if bruised," said Landford. "Looks as if the blood had settled under the skin."

The new train was bound for Denver, as Landford had said.

Two wagons belonged to men who had no women with them. There were five of these desperadoes, and only the smallness of their number as compared with the others induced Landford to allow them to travel under his guidance and the protection of his train.

A few introductions took place, and then the long train took up its line of march westward.

During the noon encampment, on the following day, Gay had finished her dinner, and a merry snatch of song was on her lips, when one of the desperadoes known as Burk came up to her, and paused beside her, regarding her with an insolent stare.

"Hallo, younker," he said gruffly. "I noticed you yesterday, and you are the prettiest young one I ever did see. Got no father nor mother, eh? Going west with your brother, sh? Give us a kiss, there's a doll!"

In an instant she leaped to her feet.

Child as she was, she resented the insult that had been offered her, with a woman's offended pride and anger.

"How dare you?" she cried. "Go away. If you touch me, I'll call my brother."

"Ah, now, young one, you're fooling," he said insolently. "You act older than I took you for. I'll warrant no boy except your brother has kissed them lips o' your'n, and I'm bound to have one—so now!"

As quick as a flash, she drew from her pocket a pistol Mark had bought for her at Leavenworth, and which he had since taught her to use skilfully. She cocked the pistol, and its four small dark tubes were promptly presented to the eyes of Burk for inspection. He started back in unaffected horror and amazement.

"The little vixen!" he muttered. "She acts like a highwayman instead of a shrinking girl. She beats all!"

"I was only fooling," he said aloud. "I didn't mean nothing. Don't say nothing, young one. I'm off."

And he hastened to beat a retreat to his own proper quarters.

Gay's light laugh rang after him mockingly.

"Curse her!" muttered Burk. "Blue Jack would tame that wild-cat spirit of her'n, and I wish he could do it, that's all. I'll make 'em acquainted, blest if I don't!"

The train was ready to resume its march.

"Come up into the wagon, Mark," said the girl coaxingly. "I have something to tell you."

Mark climed up beside Gay, his boyish face full of tenderness and affection as he looked down upon his adopted sister.

"Well, what is it, little Gay?" he said, as she hesitated.

"Have you noticed that man Burk, who joined us with the other train at Kearney City?" asked Gay.

"I've seen him and noticed him," said Mark. "Mr. Landford has a poor opinion of him. He's a confederate of Blue Jack, the outlaw. What have you to say about him, Gay?"

"He wanted to kiss me back at the halt," said Gay composedly, "and, as you were busy, I just pulled out my pistol and scared him. He thought I meant to shoot him, and went off to the rear of the train."

Mark's boyish brows grew stern, and his eyes flashed.

"The coward and villain!" he exclaimed "I'll horsewhip him for that. How dared he?"

"Don't get into trouble on my account, dear Mark!" exclaimed Gay, in alarm. "He's a bad man, and he might kill you. He didn't kiss me, and I have taught him to keep his distance, so that he won't trouble me again. Don't speak to him, Mark, please don't."

But Mark would not promise.

About sunset Landford beheld in the distance a solitary horseman, who upon looking back and observing the train, wheeled his horse about, and rode rapidly toward it. As he approached it, he said:

"Are you the conductor of this train, sir? I am bearer of dispatches from Fort Kearney to Fort Sedgwick. Will you grant me the protection of your train during the remainder of my journey?"

"What is your name?"

"Fallon, Lieutenant Fallon," was the reply, and he offered to show his credentials.

Landford bade Lieutenant Fallon welcome, and offered him the freedom of the camp.

Fallon ate supper with the Whitmans, and after conversing until a late hour, retired to the rear of the train to sleep. After all was still, he rolled over on the ground until he came to the side of Burk.

"Burk!" he hissed.

Burk started, with a smothered oath.

"Who-ooh!" he growled.

"Hush, you idiot!" hissed Fallon, between his teeth. "Have I fooled you and the boys as easily as I fooled the conductor of the train? Don't you know me? I haven't got my card-case with me, but I'm Blue Jack, at your service! Ha, ha! The serpent has got into Eden!"

"I and the boys have looked for you to join us all day," said Burk. "But of course we didn't look for you in this disguise."

Upon the morning after the counterfeit Lieut. Fallon had joined the wagon train, the camp was astir as usual at daybreak. The train halted at noon on the river bank, opposite a lovely island. At sunset they again halted, and for the night.

In the course of the evening Lieut. Fallon approached Gay, and said:

"Miss Heber, I must say to you that you are startlingly like a former friend of mine. It seems almost as if she stood before me as I first knew her. It is a strange, a startling coincidence. I could almost think—but no impossible! You are the sister of Mr. Heber, are you not?"

Gay's pure face flushed.

"Yes," she answered, with some hesitation.

The disguised Blue Jack turned yet whiter. He had marked that hesitation, and his wonder at it thrilled him with a sudden fear.

"You do not look like your brother, Miss Heber!" he remarked.

"I have been told so before," said Gay drily.

"And are you his own sister?" persisted Blue Jack, with agitation.

"I do not know your motive for making such inquiries, Lieutenant," said Gay, after a moment's thought. "I do not therefore know how to reply to you. I should like to know the name of your friend whom I resemble, before I answer for your inquiries. I must refer you to my brother."

Gay Heber seized the first opportunity to inform her adopted brother of the particulars of her singular interview with the false Lieut. Fallon.

"I told him to speak to you, Mark," she said, "but my heart has been on fire ever since. What if he should have known my mother?"

"He looked like death when he first saw your face, Gay," said Mark thoughtfully. "It was as if he had seen a ghost."

Gay started and exclaimed:

"From the moment I beheld the man I shrank from him. I had an instinctive fear and abhorrence of him. Oh, Mark, dear Mark don't let him know any more about me than he knows now!"

"I will not, Gay," said Mark soothingly.

"If he is your father, he shall not know that you are his daughter."

The promise comforted Gay, who smiled faintly through the gloom that had fallen upon her.

As some young people came toward the Hebers, Mark arose abruptly, and went to look after his oxen.

Gay was about to join Mark, when the false Lieutenant Fallon approached him offering him a cigar.

"Pide evening, Mr. Heber," said the disguised Blue Jack courteously. "What! You don't smoke? Smoking is a vice. I wish I could break myself of it. Your sister is a lovely child, or girl, I should say. She must be fifteen years old. Is she not?"

"She is but a child yet, lieutenant—only fourteen—yet she is more womanly than many girls of eighteen."

"Only fourteen," said the pretended lieutenant musingly. "I—I had a fancy that she was fifteen. I knew a child once—perhaps she's dead now—but if she were living she would be fifteen years of age, and the very picture of your sister. And, oddly enough, that child's name was the same as your sister's—Gabrielle!"

Mark repressed a start, and turned away his paling face from the keen scrutiny of the scheming villain.

"The child I alluded to," continued the false lieutenant, "had black hair and brown eyes, rather a singular combination; but her mother, poor creature, had the same features, and had been a great beauty in her day. She was a New York belle, la belle Gabrielle! But she went insane, and wandered away with her child and was never heard of more."

"If you had seen the New York dailies of thirteen years ago," resumed the false lieutenant, "you could not have failed to notice a striking advertisement offering a thousand dollars reward for information of the whereabouts of an insane woman and her child. The reward was afterward increased to five thousand dollars. Did you never hear of the advertisement, Mr. Heber?"

"Never," said Mark. How should I have seen it?"

"Ah, yes: true. You were but a boy at the time. Yet if you lived near New York, you might have heard of the disappearance."

"I did not live near New York."

"Why, the conductor told me you came from York State," said the false lieutenant.

"So I did," responded Mark.

"May I ask from what part?" inquired the villain.

"Certainly," said Mark. "I come from the western part of the State. May I ask the name of the lady whose disappearance called forth the advertisement of which you speak?"

"Her given name was Gabrielle," said the pretended officer evasively. "If I could get a trace of that insane woman and her child, I would give a thousand dollars out of my own pocket. Think what a start in life that sum would give a young man like you!"

Mark strung back as from the touch of an embodied pestilence.

"Permit me to ask if Miss Heber is your own sister, born of the same parents as yourself" demanded the pretend officer abruptly.

"I do not tolerate any intrusion into my private family affairs, Lieutenant Fallon," said Mark haughtily. "My sister has been annoyed by your questions in regard to her history, and I must request you to leave us alone."

"I beg your pardon, Mr. Heber," said the villain, sliding maliciously. "I see this is a sore subject with you. You have not said that Miss Heber is your own sister. I presume you cannot say so truthfully."

"We will not discuss the matter, sir. Gay Heber is my sister, and while I live she shall not lack for a protector."

"Ah, yes," said the pretended officer, using his favorite phrase of assent. "Brothers are not usually so devoted to sisters as you seem to be, Mr. Heber."

That evening Gay, whose curiosity had been stimulated by what had taken place, to find out something more about her parentage, was examining some jewels which had been left by her mother, and some trinkets which she had possessed when a child. She had taken them from a little bag in the bottom of her trunk, and thought herself perfectly secure under the cover of the wagon, when she suddenly detected the false Lieut. Fallon peering at her through a hole which he had cut in the canvas. All this she reported to Mark.

On the following day Mark had a violent altercation with the pretended Lieutenant

No one had eyes or ears for anything but this exciting scene, and it thus happened that a small body of horsemen in the uniform of the United States had come up, and had halted into the camp before their approach was noticed.

A loud bugle call from the head of the troops was the first token the emigrants received of the new arrival.

In a moment the combatants were loosed, and all eyes turned to the new-comers.

The disguised Lieut. Fallon looked and turned faint. He knew what this visit meant, if no one else did.

"Conductor," shouted the leader of the troop, "we are here in search of Blue Jack, the noted desperado, accused of the attempted murder of Lieutenant Fallon of the United States army, whom he brutally attacked and flung into the Deep Canyon as dead. The lieutenant is now at Fort Kearney, in a critical condition, and we demand his would-be murderer!"

The emigrants had listened with breathless amazement to the announcement of the officer in charge of the small detachment of troops. They were actually spellbound. Not so the person most interested in the announcement—Blue Jack himself.

The desperado had comprehended the errand of the troops in the first moment of their appearance. After his first sensation of faintness and terror, he had recovered his coolness and courage, and was himself again.

At the very commencement of the officer's announcement, Blue Jack exchanged glances with the terrified and cowering Burk. The latter pointed one trembling finger over his shoulder to a spot at a little distance, where Blue Jack's horse stood gazing, saddled for use.

In an instant the chief desperado darted under the wagons toward the waiting horse. He reached him and leaped upon his back.

And in the next moment that desperado rose gracefully in his stirrups at the distance of a few rods, and with the fierce defiant yell of a wild Indian, dashed his spurs into his horse's side, and was away like the wind.

The troops gave an answering yell of surprise and anger, and the officer in command led the swift pursuit.

Blue Jack had the advantage of a good start, and was splendidly mounted his horse being a seasoned animal, bred and used on the plains, and endowed with great life and spirit.

Blue Jack laughed aloud as the strong animal bore him onward as if he had been a feather's weight. He rose again in his stirrups, and shouted back defiantly:

"Come on. Take Blue Jack if you can!"

The pursuing officer shouted to the outlaw to surrender; but the only reply was a mocking laugh. The officer then fired a shot at the fugitive, but the bullet missed its mark, and Blue Jack, bending low to his horse's neck, and digging the spurs into the animal's sides, swept on and away with the rush of a tornado.

And after him swept the pursuers.

The emigrants watched the pursuit with breathless interest until the foremost figure upon the powerful Indian steed had passed beyond their line of vision.

During the confusion Burk escaped also.

At nightfall they halted upon the south bank of the Platte, and were at supper around their fires when the troops were seen to approach, weary and dispirited—without their prisoner.

"The fellow has escaped us," said the officer.

"You held on to the chase well, Lieutenant," said the conductor.

"I can't bear to go back to the fort without him," was the quick reply. "There's excitement all through the fort. Poor Fallon was nearly murdered, and was left for dead. He was flung over into Deep Canyon, and happened to lodge in a clump of bushes. There he came to himself, an hour or more afterward, and, more dead than alive, he climed up to the ground above, and fell down in a dead faint. A party was immediately organized and sent in pursuit of the outlaw."

The next day they encountered the party of soldiers that had been sent in pursuit of Blue Jack. They had found no trace of the desperado or his companion.

"You one looking for Blue Jrck," said the officer in charge of the party, addressing Landford. "There has been a party in Sioux about this quarter for a few days past, and no doubt Blue Jack has fallen in with them. The party is hardly large enough to attack your train, and I understand they have gone up toward Dakotah. Blue Jack has a million lives, where he goes."

Upon the second day after leaving Fort McPherson, the emigrants made their midday halt in a grove of cotton-woods, upon the bank of the south fork of the Platte, at its junction with, wide a tree-fringed river which descended from the northward, and here they concluded to settle.

The site of the village was selected exactly at the junction of two rivers, upon a low bluff overlooking the two streams.

Then a public square was carefully laid out with mathematical exactness.

Then each man's lot was assigned him.

Mark Heber's was next to Whiteman's, on the eastern side of the square, facing west, and his future garden ran back to the edge of the low bluff.

Mark Heber did a man's work, and from the first day of this hard toil Whitman, ceased to class the youth among the boys.

In the course of a week, eight strong log-houses, each a story in height, and pierced with loop-holes, and each provided with a single capacious chimney, were finished; and frosted the little naked square.

Mark Herber's house was simply arranged, built upon the plan generally adopted by the settlers. There were but two rooms, one being entered through the other. The inner room was to be Gay's. The outer room was to be parlor, dining-room, kitchen, library, and Mark's bed-room.

"The house is your, province, Gay," said the youth, upon the morning after the house was finished. "I shall leave you to furnish it and transform it into a home while I work upon the stockade. If you need my help when the stockade and block-house are finished, I will turn myself into house-carpenter."

"I shall not need you, sir," said Gay saucily.

"You attend to the farm, and leave the house to me."

The shelter provided, the eight houses were left entirely to the management of the women, the men working upon the stockade, which was constructed upon strict military principles, and was a model of worth and excellence.

It required two weeks and the labor of sixteen men to complete this work.

Whiteman and his family had been living in their houses for a week. All the families had moved into their homes save the Hebers, but Gay with a pretty tyranny had not allowed Mark to cross the threshold of his house since he had finished it.

Now, when Mark invoked his oxen, turning them loose in his own yard, and drew his wagon under a great cotton-wood in his back garden Gay called to him with a bright smile, saying that he might enter the house with her.

He came pleased and smiling, but paused upon the threshold in mute amazement.

Was this the room with four rough log walls which he had given into her hands? Was this sunny little home a log-house on the plains?

It seemed incredible.

For little eleven-winted Gay, with her deft-delicate, skillful fingers, had fashioned a lovely home out of her barren materials, such as one as would delight the eye to rest upon, and her sole helps had been two kindly boys of fifteen years, who had worked under directions.

"It's the prettiest room I ever saw," cried Mark, with enthusiasm. "There isn't a house in town like it. Won't the people open their eyes! It's just lovely!" cried Mark delightedly. "You are a regular home fairy, Gay. You were meant for the frontier, and you are the fairest flower on all the plains! My precious little sister!"

He drew her to him and kissed her tenderly. But Gay, most unaccountably, broke from him blushing like a rose.

"I'll call Whitman in to see the house," exclaimed Mark, not noticing Gay's confusion. "We shall set up for the aristocrats of the town."

He dashed out in boyish exuberance and called to the entire population of the village. They all came in, and there was a general request that Gay should christen the settlement.

Gay's eyes brightened, even while she shrank from the honor thus put upon her.

"I can't," she said. "Mr. Whitman is the oldest of us all, and is our Mayor. Let him name the village."

"Then I'll call it Heber, in honor of our little Gay," cried Mr. Whitman. "What do you all say, my friends?"

"Heber it be!" cried a dozen voices, in acclaim.

At that moment a boy who had been playing upon the platform inside the stockade came in, exclaiming the words:

"*Indians!*" The above we publish as a specimen chapter; but the continuation of this story will be found in the New York Ledger. Ask for the number dated March 30, which can be had at any news office or book-store. If you are not within reach of a news office, you can have the Ledger mailed to you for one year by sending three dollars to Robert Bonner, publisher, New York.

PORTSMOUTH

Trust and Guarantee Co.,

THE CITY OF THE SAINTS.—I had not been here an hour before I fell in with a Mormon, or rather a Mormon fell in with me. He is but a common man, holds no high office in church, or out of it, supports his two wives by honest labor, reads his Book of Mormon and his Bible, believes in Joseph Smith, Brigham Young and all the rest, chews tobacco and drinks no whiskey, but his faith in his religion is as strong and immovable as the rock of ages. It is a curious religion, this of the Mormons; a mixture of the good and bad, of the natural and supernatural, a compound of sense and nonsense, superstition and humbuggery, founded upon pretended revelation that is all bosh, but yet held together by a faith that is sublime.

The Mormon I speak of wanted to know if I was not a correspondent for a newspaper, saying he had so understood. I told him I was.

"I suppose you want to prosper in the world," he said.

I told him I had a reasonable desire to get along.

"Do you know how to be prosperous?" he asked.

"Well, yes, the best way," I replied, "is to obey the laws of God and man, select your plan of life and follow it as a hound does a rabbit, never give up, never look behind, and never go security."

"That is well," said the Mormon, "but one thing yet remains; you must not abuse the people of God."

"Who are the people of God you speak of?" I asked, knowing very well what his answer would be.

"The Mormon people he replied; "they are the chosen of God, their religion is the true religion. As true as you stand here," he continued, with deep emphasis, "we are the chosen people of God."

"Your creed is in many respects a strange one," I said, "and there is a good deal of it that I don't understand."

"You ought to read our Book of Mormon," he said, "and investigate our history."

"What is the foundation of your book of Mormon?"

"It is a special revelation from God."

"How was that revelation made known?"

"Something as the Ten Commandments were made known to Moses, on engraved plates handed out of Heaven."

"Was your Book of Mormon handed out of Heaven in that way?"

"Nearly so. The Spirit of the Lord appeared unto Joseph Smith, and told him to go dig in a certain hill and he would find gold plates, and upon these gold plates was a special revelation from on high."

"Did he go and look?"

"Yes; and found the plates."

"What was upon them?"

"The contents of our Bible — the Book of Mormon."

"In what language was it written?"

"A new and strange language, that Smith could not read; it looked some like the Egyptian language."

"What did he do about it?"

"He searched for learned men to translate it, but could find none who had ever seen the like before. He then prayed to God to give him light that he might read it. And God gave him light, and he translated it off on paper."

"In what shape were the gold plates?"

"They were about eight inches long and twelve inches wide, and held together by wire run through holes upon one side. All the leaves would shut together like a book."

"What became of these plates?"

"The angel of the Lord appeared and took them back to heaven."

"Did you ever see them?"

"No; but there are living witnesses who have. Their testimony is in the front part of the book."

Here my Mormon instructor got me a book containing the evidence of eight witnesses to the truth of the Story about the gold plates and Joseph Smith's translation.

This book of Mormon is a volume of about five hundred and fifty pages, and I should say contains near the same amount of matter as the Old Testament. How gold plates could have held it all, unless the gold plates were multiplied to several wagon loads, is more than I can tell.

It pretends to contain a history of a race of people who inhabited this continent anterior to the Indians, but who became wicked and perished. It is written in close imitation of Bible style, and two or three chapters are taken almost verbatim out of the Old Testament, but with this exception contains hardly an idea. You can read it for hours, and then have no conception of what you have read; not an idea remaining lodged in your head, for, with the exception spoken of, there are none in it to lodge. It is wretched twaddle and poorly-spun nonsense.

"Where do you get your doctrine of polygamy?" I asked.

"That was a special revelation to Joseph Smith," answered my informant, "and, as such is part of our religion. It is a direct command of God to multiply and replenish the earth, and raise up immortal souls to enjoy this kingdom. We do not think it is fulfilling his command to have one wife and one or two children, perhaps more. Our plan of obeying this command is to have as many wives and as many children as we can take care of and support. Our doctrine is that there should not be an unmarried woman in the world, but that every one should be provided with a man as soon as she becomes of suitable age. If a man can support but one, very well; but if he can support two, or three, or four, or any other number, let him marry them and raise children.

"What is woman's mission," he continued, "but to bear children? For this purpose she was created, and unless she bear children she has not fulfilled the purpose of her creation. Among us there was no prostitution until brought in by the march of your so-called Eastern civilization. Every woman was lawfully wedded to a man, and the vice of prostitution was unknown."

I then asked him a question which always drives a Mormon to the wall, namely, why it was, if polygamy is a heaven-ordained institution, that the sexes are born so nearly equal.

He could not answer this, but blundered into a rambling discourse about single women in the States when there were no single women in Utah, and that, with universal polygamy, there would be no single woman anywhere.—*Cor. Cincinnati Commercial.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of invention, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

URAMIA CURE in all cases or no charges made DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Boston, April 11, 1871. eodawly

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even lighter shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in us. New Shingles covered with this article warranted to last fully ten years, and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Houses, Brick-Houses,

The Daily Chronicle,

Portsmouth, N. H.

FRIDAY, MARCH 22, 1872.

WASHINGTON NEWS.—The committee on education and labor has agreed to a bill, designed to prevent the importation of coolies or other persons whose labor is contracted in advance and who do not intend to remain in the country.

The Senate naval committee appointed Messrs. Cragin, Nye, Stockton and Alcorn a sub committee on the subject of establishing iron ship-building yards and docks, to economize the expenditures in the navy and to aid in restoring commerce as presented in the recent report of the Secretary of the Navy. It was proposed to establish one such yard on the Atlantic coast and another at an eligible point on the Mississippi River.

The Chicago relief bill has passed the Senate, 20 to 17.

The bill for the re-organization of civil service is postponed till this day four weeks.

The Pacific mail subsidy bill has been defeated.

Mr. Maynard of Tennessee has introduced a bill for a pension for the widow of Admiral Farragut at the rate of one-fourth of his pay at the time of his death.

DESTRUCTIVE FIRE.—The Ohio Falls car works in Jeffersonville, Ind., were burned Wednesday afternoon. The works were the most extensive and complete of the kind in the country. The buildings alone covered five acres of ground, besides a number of sheds and lumber yards. A large amount of machinery of the first quality, with a large quantity of car material, were in the building. The works employed 700 men and did an immense business. The works had orders at the time of the fire for two thousand cars; sixteen passenger-coaches, nearly finished, and a number of freight and other cars, were burned. The works cleared a net profit last year of $200,000. The loss will reach $500,000, and the insurance is about $300,000, mostly in northern companies. There were 660 men in the shops at the time, nearly all of whom lost their tools. Several persons had a narrow escape from death during the fire. One man is missing, and it is feared he was burned to death. Louisville engines were sent to assist the two government engines and the engine from Jeffersonville, but the dry weather and high wind rendered all efforts useless. The company say they will rebuild immediately.

SECRETARY ROBESON'S testimony before the House arms investigating committee was a complete and satisfactory vindication of the action of his department in the sale of 10,000 Remington guns early in 1871. The substance of his statement, which was confirmed by Commodore Case, was that the arms, though not unserviceable, were defective and unacceptable to the department, and that from the proceeds of the 10,000 guns 12,000 perfect and improved arms were manufactured and paid for. General Dyer approved the operation and encouraged it for the additional reason that it would give employment to the workmen at the Springfield armory.

A TRUE PREDICTION.—Last Fourth of July Gov. Weston was at Strafford at a large gathering of all political parties. When Hon. Geo. C. Peavey, President of the day, introduced His Excellency he said he "had succeeded in capturing a real live Democratic Governor, a rare bird in New Hampshire—a sight our eyes had not had the pleasure of beholding in New Hampshire for many long years; and in all human probability, we should not have the pleasure again for many years to come!"

A HARD CASE.—Robert Bowles farm house, near the town of Theresa, Ill., was burned on Monday night, and Bowles died Tuesday from the effects of burns while rescuing his children. Several of the family were frostbitten, as they saved nothing but their night clothes.

TERRIBLE SNOW STORMS have been raging to the northward and great suffering has been caused. Reports from various sections report very severe weather. The oldest navigators say that they never knew of so much ice in Lake Erie, with so little snow. For nearly 80 miles out the ice measures from 3 feet to 6 inches thick. Teams are crossing at points never known before. It is feared that navigation will not be open until May. Navigation on the Hudson is again closed. Inland, trains are blocked in drifts from six to ten feet high and miles long. The winter has been the most tedious in the memory of the oldest inhabitants and March particularly has been a month of great suffering. On Wednesday morning, the thermometer at Mount Washington stood at twenty-seven degrees below zero, with a gale blowing at the rate of one hundred and twenty miles an hour.

Fifty vessels from Europe now due at Boston have been blown off the coast. A dispatch from London says "a driving snow storm, the first in fourteen months, has prevailed here all the morning. The city is enveloped in a dense fog, and at this hour (1.30 P. M.) the day is as dark as midnight."

The drifts on the line of the European and North American Railroad lie five and eight feet high all along the track, and sift down on the rails with every wind that blows. The train which left Bangor Wednesday evening for Mattawamkeag now lies woodless and waterless between two stations somewhere, and the road is, therefore, fairly blocked. Trains cannot run more than ten miles an hour, and each train must carry with it from thirty to sixty men, upon whose work with spades and pickaxes depends the communication line.

The whole line, from a point a few miles above Bangor to St. John, has been literally "shovelled out." The snow plows were put on early last week but only served to sweep off the heavy top crust which had accumulated after the storm of the 8th and 9th insts. A snow speedily followed by rain, was transformed by a sudden cold blast into an ice sheet running along the whole line and all its diverging branches. A train which left Bangor on the Saturday after the blockade commenced, only arrived at Vanceboro' on Sunday night. Both sides of the rails were held in a solid rim of ice, which, when broken off, presented long glittering strips seemingly as solid as the rail from which it was separated. The St. John officials at once began work on their end, and by tremendous effort one train was got through. Then the snow blew once more into the gaps and ravines in the desolate fields, and the blockade held good. It was exactly eleven years Friday since so great a snow fall has visited the east of Maine and the provincial frontier.

Between Mattawamkeag and McAdam there are drifts which not only cover the fences, but which overhang the track and look into the car windows.

The St. John people have suffered serious losses from the total interruption of business in their own back country and in Maine. Not a freight train has been run through for a fortnight. No sooner did an unfortunate freight attempt to struggle through the drifts in the wake of a passenger, than the passenger sent back for its engine, and left it drawn up on some switch track. The eastern extension of the road has been kept in a rather more satisfactory condition than the western during the blockade thus far. But imagine the difficulties met between Fredericton Junction and St. John—drifts on drifts, piled high in almost immovable masses. Ice-bound rails for eighty miles, and gaps and cuts where the snow had literally to be hoisted out as out of a well. The greatest difficulties were doubtless beyond McAdam. Drifts solidly bound with sleet were as high as the car tops, and raked the cars with their rugged edges, and trains passed over this new and comparatively untried road.

Two engines can hardly pull three cars. On the New Brunswick and Canada line there was a drift in a ledge so deep that every particle of snow taken out had to be passed up to the ledge's top from hand to hand by three men stationed one above the other, and this was not very effectual, the wind whisking back the snow almost as fast as it could be taken out. McAdam seems to have been the headquarters for the delayed passengers.

At such points as Vanceboro', Danforth, etc., where stage lines concentrate, the depots have been regular caravanseries; for the stages, having to fight drifts twenty-five feet high, are almost as late as the trains. Some of the drifts between Harvey and McAdam will average eight feet for a continuous distance of seven miles. The labor of one hundred men with pickaxes on the ice layers for several hours was only sufficient to open a very small section.

The Railroad Company behave generously, offering to pay all bills incurred; and the hotels were invaded, the depot was usurped, and the country round about was ransacked for its fairest daughters, who gracefully consented to attend an extempore ball at the Danforth railroad station. The passengers occupied the floors and corridors of the diminutive tavern at Danforth, and the town has experienced a dearth of provisions since their departure.

Provisions appear to have been distributed very liberally, car loads, in some cases, being sent. At one time, however, a barrel of crackers was the only sustenance of a train full of people during a whole day.

The experience of the past fortnight has shown the managers of the European and North American the points which they must protect against another winter's ravages, and it is evident that snow sheds must be built at various points.

—A California court has granted a divorce to a husband on the ground that he was insane when he married. The judge has the immediate prospect of an immense business, and the Pacific Railway Company is making provision for an extraordinary travel westward during the Spring.

BUSINESS NOTICES.

Johnson's Anodyne Liniment is without doubt, the safest, surest, and best remedy that has ever been invented for internal and external use. It is applicable to a great variety of complaints, and is equally beneficial for man or beast.

We have seen it stated in various papers throughout the country, that Agents for the sale of *Sheridan's Cavalry Condition Powders* were authorized to refund the money to any person who should use them and not be satisfied with the result. We doubted this at first, but the proprietors authorize us to say that it is true.

HOLLOWAY'S PILLS.—The estimation in which these medicines are held by the public, steadily increases their demand. They act directly on the system, removing all obstructions, renovating the spring of life, purifying the blood, and totally eradicating liver complaints, indigestion, pain in the side and general debility. Sold everywhere. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, anathemas against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

DELICATE CREATURES.—This is the phrase applied by His Blackness, the Moor of Venice, to the fair ladies of Italy. It was the lovely complexion of Desdemona, such a radiant contrast to his own, that won his heart; and sooth to say, every man of discernment considers a fair skin, like a sweet voice, "an excellent thing in woman." Now this is a charm which can be *acquired*. There is a healthful and odoriferous toilet article, known everywhere as HAGAN'S MAGNOLIA BALM, which literally transfigures a cloudy or sallow skin, suffusing the discolored face, neck, arms and bosom with a soft, pearly tinge, and imparting to the surface a smoothness and a gloss like that of polished marble. Instead of clogging the pores, like the sticky enamels, or contracting them, and thus obstructing perspiration, like the astringent cosmetics, it cleanses the skin from all impurities and wonderfully improves its texture. This peculiarity is particularly appreciated by our rural belles, who find that the coarseness and roughness, which country air is apt to engender, are speedily removed from their faces, hands and arms, by this delightful preparation.

SPECIAL NOTICES.

Atmospheric Poison.

The spring sun calls up something besides the flowers and grasses. It evolves from the damp earth turbid rivers, stagnant pools and black morasses, the gaseous provocatives of disease. From the offal and garbage of unclean cities, too, it exhales an effluvia destructive of health and vigor. Periodic fevers of various types are now raging with unusual virulence in various parts of the country, and there are complaints from all quarters of a singularly unhealthy spring. What is to be done in this emergency? The answer is simple and to the point. Strengthen the body. Weakness predisposes the system to disease. Commence at once a course of the most genial of tonics, Hostetter's Stomach Bitters. Be assured that the germs of epidemic and endemic fevers will never infect the physique that has been fortified and regulated with this glorious vegetable restorative. A moist atmosphere aggravates dyspepsia, and all diseases of a bilious type, and the sudden thermometrical changes common at this season, are a severe trial even to strong constitutions. There is but one way of combatting these deleterious agencies, and that is by invigorating the body, and imparting a healthy activity to all its functions. The only specific required for this purpose is Hostetter's Bitters. Of all vegetable tonics and alteratives it is the purest and the best. Its medicinal ingredients include all the juices and extracts of the most approved tonic, anti-bilious and antiseptic products of the Botanic Kingdom, and they are combined with a stimulant far superior in quality to the alcohol used in preparing the tinctures and extracts of the "regular" pharmacopœia.

BATCHELOR'S HAIR DYE.

Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET, N.Y.

ON MARRIAGE.

Happy Relief for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free, in sealed envelopes. Address, HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. d3m d23

Horace Batchelder drew Frank Judkins in a gig from Smyth's Block to the Manchester House, Manchester, accompained by a drum corps. This was done to pay an election bet which was made between the parties.

NEW ADVERTISEMENTS.

PEACE JUBILEE

REHEARSAL at 32 Market St., on Sunday evening next, at 7 o'clock, with Harlow's Orchestra. Parties not attending rehearsals, and who have taken the Jubilee Chorus Book, will confer a favor by leaving them at E. A. Joy's Music Store before Sunday next.

L. V. NEWELL, Secretary.

Parties desiring to join the Society will please come forward at once. Singers from the surrounding towns are also invited.

NORTH CHURCH,

PORTSMOUTH, N. H.,

MONDAY EVENING,

MARCH 25th, 1872.

Admission.....35 cts.
Children under 14 years.....15 cts.

Doors Open at 7. Commence at 7½.
Organ Concert from 7 to 7½.

BLACK'S MAMMOTH STEREOPTICON will exhibit a choice selection of views of the Holy Land and Egypt, the Mysteries of the Polar Regions, the Terrors of Arctic Navigation, and the Wonderful Adventures of Parry, Beecher, Franklin, Kane and Hayes, the Midnight Sun that traverses for four months; also, California Scenery, Yosemite Valley Mammoth Trees, and a few views of European Scenery and the Franco-Prussian War, Local Views, and Two Sabbath School Hymns, with the Music, *especially photographed for this occasion* by Davis Brothers, to be sung by the whole audience. These views will be exhibited on a screen 18 feet in diameter, the largest ever in Portsmouth.

This exhibition will give more instruction and amusement in an hour than could be gained by months of reading. The views will be delivered in a lively and intensely interesting manner. m22

CAIRO AND FULTON

RAILROAD COMPANY

FIRST MORTGAGE, SINKING FUND,

Land Grant Bonds,

DUE 1891 IN GOLD.

Interest 7 Per Cent. Gold, Free of Tax.

THE CAIRO AND FULTON ROAD is the main artery for travel across the State of Arkansas. It is the continuation of the St. Louis and Iron Mountain Railroad and under the same management. It will connect the St. Louis roads and the Illinois Central Railroad, with the International Railroad, the Southern Pacific Railroad and the Texas system of roads. Its length is 301 miles, and it deviates from a straight line but six miles. It has no grades over 15 feet to the mile. It passes through the most thriving counties and the Capital, Little Rock. The Land Grant of 1,925,400 acres, "is one of the most extensive and valuable ever made to any road by Congress." The whole road is under contract for building. About 60 miles are built and track-laying will go on at the rate of about half a mile a day, until the connection of Little Rock with St. Louis is completed. The First Mortgage Bonds, $8,000,000, $5,000,000 of which have already been sold, are the first lien upon the road, rolling-stock and lands. The officers are:

THOMAS ALLEN, St. Louis,.....President.
H. G. MARQUAND, New York...Vice President.
D. W. McWILLIAMS, New York,.....Treasurer.
W. R. DONALDSON, St. Louis,.....Secretary.

New York Directors:

H. M. ALEXANDER, H. G. MARQUAND,
WM. T. BLODGETT, JOHN H. SWIFT,
WM. H. SWIFT, ALANSON TRASK.

The Union Trust Company, Trustee of the Bonds. Price 90 and accrued interest in currency.

The Company reserves the right to advances the price at any time. Marketable securities received in exchange at full market rates, and express charges paid.

Maps and pamphlets may be obtained upon application to the selling agents.

HOLLOWAY'S

PILLS AND OINTMENT.

Every Man His Own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

N. Y. CHEMICAL CO., Sole Proprietors,

d&w f15 78 Maiden Lane, New York.

A CARD.

BEING obliged to relinquish my business on account of ill health, I have disposed of all the Stock in Store No. 19 Market Street, consisting of Cloths, Ready-Made Clothing and Gents' Furnishing Goods, to Messrs. From whom they can only can be obtained. No Peddlers employed. 1yl6dAw

DIALOGUE NUMBER NO. 2.

Stranger.—Where is the best and cheapest place to buy confectionery?

Many Citizens.—Why? at J. RIDER & SON'S, of course; that's the place, because they buy it from Arnowd and Slanson's, of New York, the largest Confectionery Houses for its manufacture in this country, and who supply most if not all the celebrated candy stores in New York and Boston; and you are sure you will not be compelled to eat candies made by dirty hands and where people have cold in their heads all the year.

Stran.—Do their workmen live at the manufactory?

Cits.—No. They live at a distance and are obliged to be up in the morning and have their hair combed so as not to be compelled to do it over their kettles when sugar is boiling, thus making it all taste as though a nutmeg grater had been shaken over it, or calling it Fruit Candy.

Stran.—Are their candies fresh, and not mixed up with Rhubarb, Paregoric and Squills?

Cits.—Yes! They are received fresh every week, and purchased in lots exceeding two or three five-pound boxes, so they are able to sell at 25 cents a pound—when some dealers have to pay 30 cts. at wholesale, bought of second-hand peddlers, or made from Molasses Sugar, mixed with "terra alba" to enable them to compete with the heavier traders.

Stran.—Do they sell to dealers?

Cits.—No; because they prefer that the general public shall have their candy at less than 500 per cent. profit on small quantities. The way of dealing makes some people pretty mad, because they see so many going there to buy where they can save money and get a far superior article.

Stran.—Much obliged; I shall certainly go there and see if what you say is O. K. or not.

Cits.—Well, do so; and you will be more than satisfied. m19

LOCAL AFFAIRS.

New Advertisements to-day.

Room Paper—H. M. Buzzell & Son.
Magazines—Jos. H. Foster.
Peace Jubilee Rehearsal.
Exhibition—North Church.

Laconics.

Oh! for a south-west breeze!

The Stereopticon exhibition next Monday evening at the North Church will afford a fund of amusement and instruction to old and young. There can be no objection to such entertainments, while recommendations are plentiful.

Pro. Stone's electro biology exhibitions interest large audiences nightly. Last evening he was very successful in his experiments. The prize of $25 was drawn by Nora McGraw. This evening the principal prize will be a lady's gold watch.

H. B. Buzzell & Son have a fine new lot of room papers for the Spring trade and can furnish a paper hanger on demand.

Very important meeting of the Board of Trade this evening.

The Portsmouth Music Society are now to hold two rehearsals per week, in preparation for the great June jubilee. Harlow's orchestra is expected to take part in the rehearsal on Sunday evening next. The regular Wednesday evening meetings of the Society will be continued.

A large flock of crows passed over this city in a north-east direction Thursday. They were hunting for the vernal equinox.

Boat fishing is the most prosperous branch of business in this vicinity. The average of each man engaged in it for the last three months is from $300 to $400. On Thursday, no fish could be had in this market, and previously they had been selling at 6 cts. per lb. at wholesale. During the present season boats manned by ten men have stocked as high as $425 in a single day. Such prices and profits to crews were never known before.

Gray hairs are said to be worth three cents each, and the ladies about town who find any on their heads have taken to extracting and saving them.

The friends of Governor Straw are preparing to raise a lofty flagstaff, at Straw's Point, Rye Beach, the Governor's beautiful summer residence, on the Fourth of July next, with a grand celebration and general hurrah.

Many children have their hair totally ruined by having it crimped and pinched with a hot iron when they are quite young, in order to pamper the vanity of a foolish mother. The unfortunates can be seen on our streets every day.

Greenland.

Now the excitement of the election has passed away, I presume you can afford to be just to your political opponents. A good deal has been said during the campaign, in your paper, about Greenland; and "A Voter," in your Tuesday's paper, tells a very good story about the admission of strangers to vote, there.

In justice to the selectmen of the town, I wish (not to tell a story or publish a joke,) but to give one or two facts in regard to the manner in which these gentlemen conducted the delicate business of deciding upon the qualification of voters.

The selectmen, you well know, are Democrats. I understand however, that they did not refuse to insert upon the list a single Republican name, where application was made by the voter or his friends. More than that, the Methodist clergyman there moved into town last April. He omitted to apply to the selectmen to place his name upon the check-list before the town meeting was opened. When he offered his vote for moderator, he was informed that his name was not upon the list. He then requested to have his name placed there. The statute was examined and it was found that the selectmen could not, without a stretch of the law, after the meeting had been opened, comply with his request, because he had not lived in the town the entire year. However, the selectmen, upon consultation, knowing that his neglect to apply seasonably was an inadvertence, did in behalf of a political opponent what they would not have dared to do for a political friend, and placed his name on the list.

Now I don't mean to say that no one found any fault with the manner in which the Selectmen regulated the check-lists, because that would be a thing without precedent *anywhere*, but I do not think that any one in town was disposed to find any serious fault with the Selectmen in this behalf.

I venture the prediction, too, and in this I must be sustained by every candid Republican in the town, that no Town Meeting in the whole State was more fairly governed than that in Greenland. Col. Pickering, a Democrat, was elected Moderator; and upon assuming the place to which he was elected, he at once invited his opponent, Dr. Stevens, to take a seat at the desk to overlook the assorting and counting the ballots. This invitation the Doctor accepted. This is no new custom under Democratic administrations in that town, but has been practiced there, I think, ever since the Democratic party came into power; at any rate for the last three or four years.

DEMOCRATIC VOTER.

The above we cheerfully publish and the Republican candidate for Moderator at that election endorses it as true. We have always been just to political opponents and our Democratic subscriber could have secured a hearing before election had he chose. Our warnings before election to our Republican friends in Greenland were given because of the desperation of Democratic leaders there for previous years, and it is not improbable that the vigilance of Republicans on election day aided in securing fair play. Even now a Greenland voter says he actually heard a man who was allowed to vote there ask what the name of the town was, and further states that he saw him vote twice. We have no means of knowing of the truth or falsity of the charge. If as Dr. Stevens informs us the election was conducted fairly, so much to the credit of the officers of election. If the Republicans feared foul play a few days before election, it was because of their remembrance of the past and certain indications which led them to be suspicious. In a small town like Greenland where the inhabitants must of necessity meet and know each other, the Democratic selectmen must have known that the Methodist clergyman referred to (who had resided in Greenland eleven months) was a legal voter there; and we venture to say that had his sympathies been Democratic, his name would have been on the check list without any request from him. They had no right to prevent him from voting and knew his legal right to vote was unquestioned. If they knew he had resided in Greenland nearly twelve months, they certainly knew he had resided there six months. We do not find in our correspondent's account any allusion to the names of Democratic voters put on the list, while the principal complaints made by Republicans previous to election, were that the Democratic selectmen were about to add to or keep on the list the names of men who had no residence and therefore no legal right to vote in Greenland. The Republican triumph in the State has been so overwhelming that *post mortem* examinations seem absurd and we consider the subject unworthy further consideration.

EASTER EGGS.—First, then, you select your dyes—vegetable or wood dyes they should be, blue, crimson, yellow, according to fancy—and procuring a small portion of each from a druggist, you place them in separate vessels. Then dropping the eggs into hot water for a few moments, you draw on the shell with a bit of tallow any design you please—names, dates, leaves, crosses. The tallow prevents any discoloration in the spot it covers, so when the egg has been submitted to the boiling dye, the pattern appears in white on a tinted ground with very pretty effect.

Another method, more laborious but infinitely more artistic, is to dye the whole egg, and afterward scrape out the pattern with a sharp penknife. This way admits of a greater range of taste and skill than the other. The egg may be divided into compartments, each holding some tiny vignette, a landscape perhaps, or an angel, or cupid, or a line of verse, with the date, all framed in solid, bright color. In old days, eggs treated after this fashion did duty as valentines, and were frequently preserved in the after-homes of the happy pairs, each egg carefully enshrined in a deep, long-stemmed wine-glass, through which the inscription could be read without removing it.

"Golden" eggs, which are covered with thin sheets of leaf gold, are beautiful things when mixed with others. A cheap way of making them is to use the dye of the furze-blossom, which is said to communicate a fine yellow color.

Any boy or girl, clever at drawing, can produce, with little trouble, a variety of designs which shall have the added merit of originality. What could be prettier than a knot of Easter-flowers, snow-drops, violets, or lilies of the valley, painted in water color on the white shell, or sketched gracefully and lightly in sepia or India-ink. Pencil drawings are singularly soft and pretty on the same pure back-ground, and, set with boiling water, are not easily defaced. A monogram in bright, illuminated tints and gold is also effective; in short, there are a dozen charming fancies which will at once suggest themselves to the mind of any young artist who begins to think upon the subject, and we advise such by all means to try. —"*Home and Society*," *Scribner's*.

—One of the latest developments in England is a new religious sect called "Comprehensionists." If it succeeds in comprehending all the other sects it will itself become incomprehensible.

—The republicans have carried Burlington, N. J., and elected the mayor and all other municipal officers.

Political.

A Southern editor admonishes the members of the Cincinnati convention that if they fail, there will be not so much as a fourth-class kangaroo to do reverence to the image, which only needs to be set fairly on its pegs to obtain the worship of gods.

The report which was spread abroad some months ago, to the effect that a bar had formed across the Mississippi river in consequence of Henry Clay Dean's shirt having been washed in it, turns out to be another Radical slander and entirely without foundation. It is announced on good authority that Mr. Dean's shirt has not been washed since he first had it.

—Mr. C. C. Coffin, otherwise known as "Carleton," received severe injuries in the head by jumping from a train at Fort Wayne, Ind., on Friday, and has been compelled to cancel all his Western engagements to lecture.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c; —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, AT SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled*.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at **ORDINARY LIFE RATES,** Age 37, annual premium, - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - - $173.30
Or, at the end of 20 years, of - - - 647.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,

Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

GENTLEMEN'S GARMENTS

Made up in the latest style or according to the fancy of the purchaser, to whom perfect satisfaction will be guaranteed.

☞ Gentlemen's Garments Repaired or Cleaned, at short notice, and on reasonable terms.

Morning Chronicle.

—A resident of a neighboring town, who had driven into the city, was accosted by his minister, who solicited a ride home, which request was granted. Before leaving the city he drew up to a grocery store in order to get his "rail" filed, leaving his friend in the carriage. In a short time the minister alighted, and was about to enter, when the customer in a very hurried manner says to the storekeeper, "give me that bottle quick! Here comes our *pastor!*"—*Newburyport Herald.*

—A smart young man in East Abington, having had some trouble with his father, went to Boston on Tuesday and telegraphed to his parents that their son had fallen off Indian wharf and been drowned. The sad intelligence nearly crazed his mother, and his father having made arrangements for the funeral, proceeded to Boston for the corpse, while the young man returned to attend his own funeral.

—The San Francisco Chronicle read this in a young woman's diary: "Monday—Awful headache. Wonder if Ellen calls to-day. Know she is dying to find out how my green silk dyes. She has called and kissed me twice. Tried to learn if Shanks visited often. When I sang, the malicious thing said, 'Do, dear Emily, wrap up when you go in the street this Winter; your voice is losing its clearness, darling.' Wish she was dead."

—There were eight alarms of fire, Wednesday, in Boston, within twelve hours, four of which were caused by a destructive fire in Boston Highlands, burning several tenement houses on Cherry Street, with a loss of about ten thousand dollars. In the evening, three alarms were caused by the burning of the machine shop of John Souther & Son, South Boston. Loss, $12,000.

—Kalilpacha, a Turkish nabob, is cutting a wide swath in Vienna society at present. He recently gave a fete at an expense of $40,000, at which, among other things, numbers of cold pheasants were served, the eyes of which were picked out by the assiduous servants, placed on the ladies' napkins, and found to be emerald.

—Two Americans, Captain Cunningham and Mr. Simpson, were severely wounded by Nicaraguan soldiers for neglecting to remove their hats in the presence of a religious procession at Managua. The American minister is moving in the matter.

—Within the last six years drunkenness has greatly decreased in Sweden, and one great cause of this admirable reformation is said to be the substitution of Friday for Saturday as pay day.

—An affluent Terre Hauter, not wholly unconnected with alcoholic pursuits, has distinguished himself by buying twenty-one plug hats and bestowing them upon his friends.

NATURE'S REMEDY.

VEGETINE

The Great Blood Purifier.

VEGETINE is made exclusively from the juices of carefully selected **barks, roots, and herbs**, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Fainness in the Stomach**, and all diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout** and **Spinal Complaints**, can only be effectually cured through the blood.

For **Ulcers** and **Eruptive diseases of the skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm**, VEGETINE has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa**, arising from internal ulceration, and uterine disease and **General Debility**, VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervous** and **General** prostration of the **Nervous System**, no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the Nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

Prepared by **H. R. STEVENS**, Boston, Mass. 5eb3 No. 1.

Price, **$1.25.** Sold by all Druggists.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch, or to some new or finite advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does type-fitting the sewing done in this country, and practically combines the advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

Ayer's Cathartic Pills,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their efficacy is abundantly shown by how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and thus impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

The Chronicle.

OUR COMING HAY CROP.—I think it evident to every observing farmer that our coming hay crop must be a light one. Previous to 1871 we had several wet seasons with abundance of hay. And for this reason the land has become exhausted and will have rest. There was but little snow in 1870 and 1871, and in many places the grass was badly winter killed. After having in 1870 it became very dry, and much of the grass perished with drought, especially clover. The whole season of 1871 was exceedingly dry—hence our light hay crop last year and the terrible grubbing we felt compelled to give our mowing fields last fall. For the two past years there has been a very poor catch of grass seed, so we can place little reliance upon new ground grass.

Spring is upon us, and it is an important inquiry—"how shall we replenish our crop of fodder so as to keep through the next winter the amount of stock necessary to successful farming?" Much has been said through the Farmer about raising corn fodder and the best kind to plant, or sow, and the best mode of doing it. There has been quite a difference of opinion—some affirming that green corn fodder was worthless; some affirm it best to sow in drills, others broadcast; some recommend sweet corn, others southern.

Having experimented some with growing corn for soiling in summer and for fodder of winter, your readers shall have the benefit of my experience. I raised last year a good crop on the same ground. I grew my early potatoes and peas, planting in drills between the rows at the last hoeing. I had plenty to give my cow (from less than half an acre), all the fall, so did not grab my field much. I also had enough to keep my cow and a heifer with calf, through December. It was cut the 13th of September, before any frost, so it was very green; and I can now safely affirm, green corn fodder is good for something.

I do not recommend to plant beween rows so as to get two crops, except when we want the early crop of potatoes or peas. I think the best plan to get a good crop of fodder corn is to make the land very rich, and plant in drills with southern corn not very thick. Plant as early as the state of the weather will permit. It will need but little hoeing, as it will soon cover the ground so that weeds will not grow. Use what you must, and be sure and cut before the fall frosts. Partially dry before binding, then bind and shock, and let it remain until dry enough to put in the barn. If not dry enough to keep, mix straw or hay with it freely. You will probably have large stalks and quite an amount of corn; about in the milk, and some turned, if the season is favorable. When you come to use in winter, have a chop block and pound and cut with an axe, and the stock will eat it nearly clean, and grow and thrive upon it.

Another source for winter food for stock with many farmers, is to go on to the swamp or brook that runs through the farm, soon after the snow leaves, and burn the weeds and grass among alders, and with little labor in clearing there are many places where a profitable crop of fodder can be secured. Having observed how the grass would start on the banks of streams burnt by camp fires, in driving lumber, I went on to a back lot in June, after I saw that we were to have a short crop of hay, put in fire and burned a small patch: cut the large bushes, and the grass and weeds came up. I mowed it—weeds, briars, bushes and all. My cows have eaten it all but the large bushes, and with this and my corn fodder and a little refuse old hay that I have had on hand for years as unfit for use, with a small allowance of shorts and meal, or small rutabagas, have kept my two cows in good condition this winter. This coarse fodder is not gone yet, and I hope to have a ton or two of good hay to sell. Last haying time I expected to be short. —*Cor. Me. Farmer.*

ANECDOTE OF DR. ROBINSON.—Rev. Dr. Robinson, one of the leading Presbyterians of the West, was recently ill of small-pox, so low that the physicians found it necessary to resort to the transfusion of blood in order to save his life. This extraordinary surgical operation was much talked of by friends, who supposed his life had by it been almost most miraculously saved. Every body wanted to learn the particulars—how it was done and by whom—and one gentleman pressed the matter so far as to ask a Presbyterian not in sympathy with Dr. Robinson, "What animal did they take the blood from?"

"From a mule, of course," was the reply.

The joke will not need explanation for those who know Dr. Robinson's reputation for downright stubbornness.

It is said that Dr. Robert J. Breckinridge, on his death-bed, only a short time before Dr. Robinson was taken ill said that "two things are necessary for the good of the Presbyterian Church in Kentucky and the South—first, that the Lord take me to Heaven; and second, that He take Dr. Robinson back to Ireland, and keep him there."—*Harper's Magazine.*

—A Wisconsin editor speaks of a wind which "just sat on its hind legs and howled."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—Alletters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

Boston, April 11, 1871. eodawly

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New Shingles covered with this article warranted to last fifty years, and for a Slate Coating over Shingles (Old or New) it has been found unequaled. It is also an excellent coating for School Black-Boards.

OH, WOULD I WERE A CHILD AGAIN!

sighs the weary and exhausted one, as the languor and lassitude of spring comes upon him. Come and receive vigor and strength from the wonderful South American Tonic

JURUBEBA,

Long and successfully used in its native country, as a Powerful Tonic, and Potent Purifier of the Blood, it is found even to exceed the anticipations founded on its great reputation. According to the medical and scientific periodicals of London and Paris, it possesses the MOST POWERFUL TONIC properties known to MATERIA MEDICA.

DR. WELLS' EXTRACT OF JURUBEBA

is a perfect remedy for all diseases of the BLOOD, ORGANIC WEAKNESS, GLANDULOUS TUMORS, DROPSY, SCROFULA, INTERNAL ABSCESSES, and will remove all obstructions of the LIVER, SPLEEN, INTESTINES, UTERINE and URINARY ORGANS.

It is strengthening and nourishing. Like nutritious food taken into the stomach, it assimilates and diffuses itself through the circulation, giving vigor and health.

It regulates the bowels, quiets the nerves, acts directly on the secretive organs, and by its powerful TONIC and restoring effects, produces healthy and vigorous action to the whole system.

The Daily Chronicle,

Portsmouth, N. H.

SATURDAY, MARCH 23, 1872.

Political.

The Democratic papers in this State are indulging in a great deal of cheap talk of what they will do next time.

An exchange says that "Senator Wilson's speeches in New Hampshire did more to carry that State than any other agency that was employed." Pshaw! Hon. E. H. Rollins did more to carry this State for the Republicans than any other one hundred men combined.

State News.

Mr. J. R. Hill has bought the block of stores next north of the Phenix Hotel in Concord for $20,000. They are to be used as a part of the hotel.

Ex-Gov. Harriman has purchased a residence in Concord for $10,000. Probably the selectmen will allow him to vote there unless John H. George can humbug them as he did the recent board at Warner, who struck the Ex-Governor's name from the check-list. The gun kicked however, and Harriman's friends made good the deficiency by a handsome Republican gain.

Hon. Onslow Stearns is a candidate for the United State Senate.

During the past year citizens of Wilton raised $2200 and purchased an excellent library of standing books. At the March meeting the library was offered to the town, on condition that an annual appropriation should be made for its maintenance. The town accepted the offer and voted to appropriate $500 annually for its support and improvement.

At Conway, snow is three feet deep on a level. Any one who has ever passed through the wild gorge in the north of our State known as Dixville Notch, has unquestionably noticed a little graveyard on the right as the journey is made from Errol to Colebrook. A week or so since, a party of hunters found several deer yarded in this little enclosure, and captured the most of them. The conversion by animals of the last resting place of the dead into a winter home is indeed a novel one.

William H. Gove, the labor reform representative from Weare in the legislature last June, whom the democrats elected Speaker, found himself at the late election buried under a republican majority of twenty-seven votes in his town. It is thought that the Quaker vote of old Weare appeared on that occasion.

A few days since, Mr. Sargent of Candia, bought a pair of oxen at Deerfield. Soon after they were taken sick in a strange manner and died. On opening the body it was found that the internal organs were badly diseased. The other ox is now sick in the same manner, and will also probably die. The nature of the disease is not known.

SENATOR CRAGIN has introduced a bill in the Senate authorizing corrections in errors in prize lists; also a bill for the reduction in the number and grades of officers in the navy, providing among other things that the grades of admiral, vice-admiral and commodore be discontinued when they become vacant; that after a lapse of the grade of commodore, promotions to the vacancies of rear admiral be filled by the selection of captains; that the course of instruction for cadet midshipmen shall be, after the graduation of the next first class, six years instead of four; that the pay of all officers on the retired list shall be one-half their highest duty pay at the time of retirement, and that promotions from the retired list at once be discontinued.

THE BOSTON GLOBE tells a story at the expense of a well known doctor in a certain village of New Hampshire. It seems that a few days before the recent election in this State, the Dr. sent a letter enclosing money to a shoemaker in Lynn, a voter in Lake Village, requesting him to come home and vote. The poor fellow, instead of purchasing a railway ticket, got intoxicated with the doctor's money, and wandering off became frozen into death. The coroner, in his examination of the body, found the letter and then sent the body to the doctor's address with the remark, "Here's your voter."

ACCIDENT.—The southern express train on the West Pennsylvania Railroad went over an embankment, 75 miles east of Pittsburg on the 22d. Two passengers were killed and fourteen others injured.

DR. J. E. DILLINGHAM, a Boston dentist, has been forging, cheating and stealing, and has left the country suddenly.

THE MASSACHUSETTS HOUSE of Representatives defeated woman suffrage, Thursday, by a vote of 135 to 77.

FRAUDULENT REPRESENTATION.—The election of supernumerary Representatives in Andover, Loudon, Ward 5 Nashua, Bethlehem, Haverhill and Littleton, furnishes the most conclusive evidence that the Democratic State Committee had supplemented their scheme of fraud in the check-lists, whereby they hoped to defeat an election of Governor and other State officers by the people, with another and bolder scheme of securing the majority in the House by foisting into it fraudulent representatives of people who had no actual existence in the towns where they were chosen. Look at the votes of those towns, and then say whether there can be any doubt of the gross fraud, deliberately planned and executed, which imposes upon the legislature an additional representative in each of them. In Andover, Mr. Straw had 102 votes, and Mr. Weston 239, a total of 341 votes, all told, in a mainly agricultural town, whose population diminished from 1,243 in 1860, to 1,206 in 1870, and yet two Democratic representatives, requiring 450 ratable polls, are elected. Loudon gave Mr. Straw, 134 votes, and Mr. Weston 203 votes, a total of 337 votes, in an agricultural town whose population diminished from 1,638 in 1860, to 1,282 in 1870, and yet she elects two Democratic representatives, requiring 450 polls. Ward 5 Nashua gave Mr. Straw 87 votes and Mr. Weston 199 votes, a total of 286 votes, with a population in 1870 of 1,884, largely female operatives in the mills, and yet she sends two Democratic representatives to the legislature. Bethlehem gave Mr. Straw 39 votes and Mr. Weston 222 votes, an aggregate of 261 votes in a population of 998 in 1870, but she also elects two Democrats to the legislature. Haverhill gave Mr. Straw 221, Mr. Weston 292, and Mr. Blackmer 7 votes, a total of 520 votes in an agricultural town, whose population diminished from 2,291 in 1860, to 2,270 in 1870, and yet she elects three Democratic Representatives, requiring 750 ratable polls. But Littleton, with a population in 1870 of only 2,447, giving Mr. Straw 267 votes, Mr. Weston 360 votes, and two scattering, a total of 629 votes, caps the climax by electing four Democratic representatives, requiring 1,050 ratable polls. The last representative elected was Charles A. Sinclair, son of John G. Sinclair, Chairman of the Democratic State Committee. So gross and palpable was the fraud in electing him, that we are told that only fifteen Democrats could be found base enough to go through the farce of voting for him! Considering the significant fact of the election of an additional representative in Bethlehem, the old home of John G. Sinclair, and of his son Charles as the fourth representative in Littleton, can there be any reasonable doubt who was the author of this wicked scheme of fraudulent representation, devised and designed to supplement and consummate the frauds in the check-lists, which it was hoped might throw the election of Governor and other officers into the House.—*Monitor.*

A DECIDED MISTAKE.—In the House of Representatives, at the opening of the session yesterday afternoon, Rev. W. H. Cudworth, the Chaplain, expressed a hope in his prayer that Divine Providence would move the hearts of the members of the Legislature to do justice to the rights of women, and cause them to act favorably on the proposed amendment to the Constitution granting them the right of suffrage. This extraordinary piece of political finesse, while it extorted admiration for its boldness and ingenuity, was not suffiled to pass unrebuked, but was met exsctly as it should be, by raising a point of order. Mr. Kimball, of Boston, immediately after the close of the prayer declared it not in order for any one not a member of the House to discuss questions before that body, and was sustained by the Speaker. Mr. Newell, of Boston, inquired whether this ruling applied to the Chaplain, claiming that that officer, in the performance of his duties, could not violate the rules; and Mr. Porter, of Revere, put the point: "Is it in order for any member to raise a question of order when there is no question before the House?" The speaker declined to rule on abstract questions of order and declared it to late too object to Mr. Kimball's point. Mr. Loring, of Fitchburg, believed it improper to criticise the Chaplain's manner of praying and moved to censure Mr. Kimball. Mr. Kimball neatly retorted that he had warned the Chaplain against referring to measures before the House and virtually directing the members how to vote, and, if necessary, he would make a point of order in the middle of a prayer. After considerable discussion, Speaker Sanford ruled that the motion censuring Mr. Kimball for doing what he had a perfect right to do was not in order, and the Chair was sustained with but one dissenting voice. We hope that in future the Chaplain will not attempt to make any stump speeches under the guise of prayer. — *Boston Globe.*

—Thomas Minshall, a young man residing in Chester, Penn., was terribly poisoned a week or two since by a species of hair-dye in common use among barbers every where. The Republican says: "While coloring his mustache the barber suffered a drop of the dye to fall upon his lower lip, which was slightly chapped. In a short time after the part began to swell, became inflamed to an enormous size, and his whole face presented a stocking appearance. Convulsion after convulsion followed, and for some days his life was in great jeopardy. Within the last day or two, however, the swelling has somewhat subsided, and he is in a fair way to recover."

—Connecticut laws are curious. If a man steals a dog there, which has a collar on, and the animal is not registered, he can be prosecuted for stealing the collar, but not for stealing the dog.

AN APT QUOTATION.—A lady, writing to her father, described the loss of a favorite cow as follows:

"Yesterday poor Dolly strayed from the pasture, and unfortunately selecting the railroad track for the route of her luckless liberty, was caught by the late afternoon train from the north, and left in nearly equal portions on either side of the track."

To which the father promptly and succinctly replied:

"Apropos of your cow, see Genesis, xv. 17."

Consulting Genesis according to this direction, she read: "And it came to pass, that *when the sun went down*, and it was dark, beholding a *smoking furnace* and a *burning lamp* that passed between *those pieces!*—EDITOR'S DRAWER, in *Harper's Magazine for April.*

—Don Piatt was indignant at Senator Wilson for his resolution interfering with the Board of Public Works at Washington, and calls him "a man endowed with great simplicity of heart, and, unfortunately, of equally great simplicity of head—in whom amiability of disposition and infirmity of judgment are so combined as to disarm indignation against his offences."

—Buenos Ayres monkeys suffer from the genuine yellow fever, and Darwinists are delighted.

BUSINESS NOTICES.

DR. SAGE'S CATARRH REMEDY.—$500 reward for an incurable case. Sold by Druggists at 50 cents.

Johnson's Anodyne Liniment is without doubt, the safest, surest, and best remedy that has ever been invented for internal and external use. It is applicable to a great variety of complaints, and is equally beneficial for man or beast.

We have seen it stated in various papers throughout the country, that Agents for the sale of *Sheridan's Cimaley Condition Powders* were authorized to refund the money to any person who should use them and not be satisfied with the result. We doubted this at first, but the proprietors authorize us to say that it is true.

VEGETINE.—It extends its influence into every part of the human organism, commencing with its foundation; correcting diseased action, and restoring vital powers, creating a healthy formation and purification of the blood, driving out disease, and leaving Nature to perform its allotted task.

HOLLOWAY'S PILLS.—The estimation in which these medicines are held by the public, steadily increases their demand. They act directly on the system, removing all obstructions, renovating the spring of life, purifying the blood, and totally eradicating liver complaints, indigestion, pain in the side and general debility. Sold everywhere. 25 cents per box or pot.

DEAD MEN TELL NO TALES; if they did, anathemas against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

SPECIAL NOTICES.

Atmospheric Poison.

The spring sun calls up something besides the flowers and grasses. It evolves from the damp earth turbid rivers, stagnant pools and black morasses, the gaseous provocatives of disease. From the offal and garbage of unclean cities, too, it exhales an effluvia destructive of health and vigor. Periodic fevers of various types are now raging with unusual virulence in various parts of the country, and there are complaints from all quarters of a singularly unhealthy spring. What is to be done in this emergency? The answer is simple and to the point. Strengthen the body. Weakness predisposes the system to disease. Commence at once a course of the most genial of tonics, Hostetter's Stomach Bitters. Be assured that the germs of epidemic and endemic fevers will never infect the physique that has been fortified and regulated with this glorious vegetable restorative. A moist atmosphere aggravates dyspepsia, and all diseases of a bilious type, and the sudden thermometrical changes common at this season, are a severe trial even to strong constitutions. There is but one way of combatting these deleterious agencies, and that is by invigorating the body, and imparting a healthy activity to all its functions. The only specific required for this purpose is Hostetter's Bitters. Of all vegetable tonics and alteratives it is the purest and the best. Its medicinal ingredients include all the juices and extracts of the most approved tonic, anti-bilious and antiseptic products of the Botanic Kingdom, and they are combined with a stimulant far superior in quality to the alcohol used in preparing the tinctures and extracts of the "regular" pharmacopœia.

BATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET, N.Y.

ON MARRIAGE.

NEW ADVERTISEMENTS.

A STATEMENT.

Editors Chronicle:—I know it is not desirable to longer continue the controversy in regard to the Gosport election case, but as Mr. Newton makes an attack upon my personal character in his article published March 21st, I trust you will allow me room to deny all the statements there made. Mr. Newton never discharged me from his employ. I left him and refused longer to work for a man guilty of such corrupt practices. I never appropriated a cent of his money to my own use. I never offered a man money or work on the Navy Yard to vote against Newton or any other person. I never borrowed any money of Newton, but have often asked him for what he owes me, but have not yet succeeded in getting it. Newton has within a week threatened to assault me for this; however, I care but very little, and will close by simply saying that every word in his article above referred to, concerning myself, is false in every particular. Newton has no money to steal, as his property is all in other folks' hands.

L. L. CASWELL.

The Eye, Ear, Catarrh and Throat.

MRS. MANCHESTER

The Independent

CLAIRVOYANT,

AND

ELECTRIC PHYSICIAN,

Formerly from New York, but late of Portland, will arrive in Portsmouth, MARCH 25th, and can be found at the FRANKLIN HOUSE for ten days, where she will remain until disease flesh is heir to.

Price for Examination, $1.00.

CERTIFICATES OF CURES.

A Case of Blindness Cured.

MRS. MANCHESTER: This is to certify that I called upon you last October with a son of mine who had been Blind over a year; totally blind with one Eye and very badly so with the other. I had had him treated by three Eminent Physicians, and also had taken him to the Eye Infirmary in Boston, but neither did him any good, and he still grew worse. MRS. MANCHESTER assured me she could cure him. I commenced with her treatment, and at this time one Eye is perfectly well, and the other is gaining! I had given up all hope of his ever seeing again, but, by the help of God and Mrs. Manchester's skill, he is now able to work, which I am sure he never would if it had not been for her. "Let all give her a trial, and by calling on me the boy can be seen by any one.

This is a true statement of the case.

JOHN MCCORMICK,
JOHN MCCORMICK, JR., Portsmouth.

This is to certify that Mrs. Manchester has doctored in my family for six years with marked success. She has cured my wife of dropsy in its worst form; my daughter of spinal disease of five years' standing; a sister of deafness and catarrh, my father of blindness. And I would recommend her to the public as a skillful physician, and every way worthy of patronage.

JOHN HOBSON, Portland, Me.

One of the Greatest Cures on Record.

BANGOR, Sept. 28, 1870.

This is to certify that I have been sick for twenty-five years with liver complaint, as the physicians have all told me. I have been treated in New York and Bangor by a large number of Physicians, and found no relief until I called on Mrs. Manchester a short time ago. She told me very readily what the trouble was—that I had abscesses and tumors. I have taken her medicines, and have had proof that what she told me was perfectly correct. If any one doubts this, let them call on me personally, and I will give them correct information in regard to my case. I want the sick and suffering to go and consult MRS. MANCHESTER, and not be discouraged by ignorant and faithless people, but have a mind of your own, and you will get relief.

m23 MRS. HENRIETTA PEABODY, Veazie.

HOUSE AND LAND AT AUCTION.

CAIRO AND FULTON

RAILROAD COMPANY

FIRST MORTGAGE, SINKING FUND,

Land Grant Bonds,

DUE 1891 IN GOLD.

Interest 7 Per Cent. Gold, Free of Tax.

THE CAIRO AND FULTON ROAD is the main artery for travel across the State of Arkansas. It is the continuation of the St. Louis and Iron Mountain Railroad and under the same management. It will connect the St. Louis roads and the Illinois Central Railroad, with the International Railroad, the Southern Pacific Railroad and the Texas system of roads. Its length is 301 miles, and its deviates from a straight line but six miles. It has no grades over 15 feet to the mile. It passes through the thriving towns of Malvern and the Capital, Little Rock. The Land Grant of 1,926,400 acres, "is one of the most extensive and valuable ever made to any road by Congress." The whole road is under contract for building. About 60 miles are built and track-laying will go on at the rate of about half a mile a day, until the connection of Little Rock with St. Louis is completed. The First Mortgage Bonds, $6,000,000, $5,000,000 of which have already been sold, are the first lien upon the road, rolling-stock and lands. The officers are:

THOMAS ALLEN, St. Louis,.....President.
H. G. MARQUAND, New York,..Vice President.
D. W. MCWILLIAMS, New York,.....Treasurer.
W. R. DONALDSON, St. Louis,.....Secretary.

New York Directors:

H. M. ALEXANDER, H. G. MARQUAND,
WM. T. BLODGETT, JOHN H. SWIFT,
WM. H. SWIFT, ALANSON TRASK.

The Union Trust Company, Trustee of the Bonds. Price 90 and accrued interest in currency.

The Company reserves the right to advance the price at any time. Marketable securities received in exchange at full market rates, and express charges paid.

Maps and pamphlets may be obtained upon application to the selling agents.

HOLLOWAY'S

PILLS AND OINTMENT.

Every Man His Own Physicinn.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT, has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have found a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

N. Y. CHEMICAL CO., Sole Proprietors,

d&w715 76 Maiden Lane, New York.

A CARD.

BEING obliged to relinquish my business on account of ill health, I have disposed of all the Stock in Store No. 19 Market Street, consisting of Cloths, Ready-Made Clothing and Gents' Furnishing Goods, to Messrs. RIDER & CUNNINGHAM, and I would bespeak for them from all my friends and customers, a liberal support, believing that all who give them a call will be dealt with in a fair and honorable manner.

MORRIS KICHLER.

COPARTNERSHIP.

THE UNDERSIGNED have this day formed a copartnership for carrying on the Clothing and Gents' Furnishing Goods Business, at No. 19 Market Street, under the firm name and style of RIDER & CUNNINGHAM.

R. E. RIDER,
SHIRLEY B. CUNNINGHAM.

Portsmouth, Feb. 21, 1872.

MESSRS. RIDER & CUNNINGHAM

Would respectfully invite all in want of

GOODS

FOR

Gentlemen's Wear

Of any kind or description, either Cut or Ready Made, to give them a call.

MR. CUNNINGHAM will, as formerly, give his whole attention to the Cutting Department, and all Garments made are WARRANTED to fit to the satisfaction of their customers. A full assortment of

READY MADE CLOTHING

in the most fashionable styles, constantly on hand, and all Goods, of every description, usually kept in a FIRST-CLASS STORE.

☞ Wishing to clear out the present stock, we are prepared to offer BARGAINS at Low Rates, so suit everybody.

Patronize our own Storekeepers in preference to Peddlers. feb3

DIALOGUE NUMBER NO. 2.

Stranger.—Where is the best and cheapest place to buy confectionery?

Many Citizens.—Why? at J. RIDER & SON'S, of course; that's the place, because they buy it from Arnowd and Slanson's, of New York, the largest Confectionery Houses for its manufacture in this country, and who supply most if not all the celebrated candy stores in New York and Boston; and you are sure you will not be compelled to eat candy made by dirty hands and where people have cold in their heads all the year.

Stran.—Do their workmen live at the manufactory?

Cits.—No. They live at a distance and are obliged to be up in the morning and have their hair combed so as not to be compelled to do it over their kettles when sugar is boiling, thus making it all taste as though a nutmeg grater had been shaken over it, or calling it Fruit Candy.

Stran.—Are their candies fresh, and not mixed up with Rhubarb, Paregoric and Squills?

Cits.—Yes! They are received fresh every week, and purchased in lots exceeding two or three five-pound boxes, so they are able to sell at 25 cents a pound—when some dealers have to pay 30 cts. at wholesale, bought of second-hand peddlers, or made from Molasses Sugar, mixed with "terra alba" to enable them to compete with the heavier traders.

Stran.—Do they sell to dealers?

Cits.—No; because they prefer that the general public shall have their candy at less than 500 per cent. profit on small quantities. This way of dealing makes some people pretty mad, because they see so many going there to buy where they can save money and get a far superior article.

Stran.—Much obliged; I shall certainly go there and see if what you say is O. K. or not.

Cits.—Well, do so; and you will be more than satisfied. m19

Laconics.

Portsmouth has 115 streets.

Governor Weston has appointed Thursday, April 4, as a day of Fasting and Prayer.

Rev. O. F. Van Cise, Auburn, Me., is to occupy the pulpit of the Universalist church Sunday morning and evening.

Small 'uns who squat on the damp ground and play marbles during the day time have a jolly time with the croup at night.

Villa & Miner's burlesque troupe are coming, April 1st, 2d and 3d. They are to play for the benefit of the Portsmouth Fire Department.

J. E. Ham & Co. have a very full assortment of clothing goods which they are prepared to make into suits promptly. Call and inspect their nice stock.

About these days expect balmy breezes from the South—even from the land where the mercury has not gone below fifty during the month of March.

The person on Cabot Street who wagered a barrel of flour against a bushel of potatoes that Straw would be elected Governor by the people, wants his potatoes.

On Tuesday evening next a Drawing Class will be commenced at the rooms of the Young People's Christian Union. All who are members of the Union are cordially invited to join.

The Porsmouth Music Society will rehearse the Jubilee music, with Harlow's orchestra, on Sunday evenings at 7 o'clock, and Wednesday evenings at quarter past 7, at Mr. Tilton's hall on Market Street.

Yorick says this is bad weather for early crocuses. One poor crow-cuss, of the feathery kind, that he saw standing on one leg on the outside of a hen house yester morn, didn't seem to enjoy it or feel very smart.

Our "conspicuously inexact" cotemporary, the Exeter News Letter, says;—"Rev. Sullivan H. McCollester, pastor of the Universalist church, Portsmouth, tendered his resignation to the society, Sunday." Rev. Mr. McCollester has not been pastor of the Universalist Church in this city.

Major Little invites the scholars of all the Sunday Schools in the city, together with their superintendents and teachers, to meet him at the Methodist Church on Sunday evening, at 5 1-2 o'clock, where he will teach them some beautiful illustrated songs, prepared by Chaplain Joseph Little. This is free to all.

Democrats are funny fellows. If we decline publishing their communications they say we do not give them fair play; if we insert their communications they say we are "compelled" to. We should like to see the man, Democratic or otherwise, who would undertake to "compel" us to do anything. We have genuine belief in fair play, however.

Go and see Prof. G. W. Stone in his electro biologic experiments this evening. The usual number of presents will be distributed, including a chamber set. A lady's gold watch was awarded last evening to policeman George E Barsantee. The result was received with three cheers. Master Thomas Davidson and Miss Ida Varrell received silver cake baskets.

Hon. Joseph F. Wiggin of Exeter, the judge of probate for Rockingham county, is a gentleman of progressive ideas. Recently he appointed as appraisers upon the estate of a deceased lady in Portsmouth, where feminine judgment was needed in estimating the value of the estate, three ladies. This is thought to be the first recognition of woman's rights in this regard by the judiciary of New Hampshire.

Sagamore S. F. Engine Co, No. 2, closed the series of social dances at their engine-house with a panic hop, Wednesday evening. As on every previous occasion of the kind the firemen and their guests had a lively and enjoyable time, and the party separated some time after midnight with expressions of regret that the imagined near approach of warm weather has brought these popular gatherings to a close for the present, and with pleasant anticipations of their resumption at a future day.

The unwisdom of officials and their want of regard for other people's feelings is quite frequently shown. On Wednesday evening a policeman bravely marched in at the door of the Temple and strode down to the front seats to arrest a small boy, who unresistingly followed him out. The boy was behaving himself well and we in common with others wondered why he was arrested. Afterwards we heard that the lad was a little troubled in mind and had but recently returned from the Insane Asylum at Concord. He was suspected of being concerned in a robbery. Couldn't the policeman have waited for the close of the entertainment and not have publicly disgraced the youth, before he had been found guilty?

Maj. Little's concert at the Methodist Church will come off Monday evening next. His Orchestra Meledeon, the only one of its kind, was invented by himself, and is capable of producing a great variety of musical effects. The major's imitations are truly wonderful, including a large range, from the fife and drum to the Alpine Echo and the humble bee. He will be assisted by a quartet of our best Portsmouth talent under the direction of Messrs. Ilsley and Newell. There will also be a few recitations by the younger members of the Sunday School. To commence at 7 1-2 o'clock. Amission 15 cents; Children 10 cents.

We take the following paragraphs from the Journal:—

—Mrs. Mary A. Livermore is to occupy the pulpit of the Universalist church, Sunday April 7th, morning and evening.

—The Young People's Christian Union is growing in influence and membership, a large number having become members since the annual meeting; and outside contributions have been very generous. The Union are to give a May Breakfast at Congress Hall, May 1st.

—By the death of Captain Heman Eldredge, which occurred at Chatam Mass. last week, Strawberry Bank Encampment and Piscataqua Lodge, I. O. O. F. of this city lose one of their oldest and most respected members. He had been connected with the order 27 years.

—The Universalist Society of Kittery are to observe Easter Sunday with special services, Prof. Shipman of Tufts College conducting the exercises. An elaborate display of flowers will be made. It is expected that Rev. Phœbe A. Hanaford of Hartford, Conn., will preach at that church the first Sunday in April.

—The Marine Band assisted by Mr. and Mrs. Frank L. Martyn, will give a concert next Tuesday evening. The Temple will doubtless be filled by the many admirers of those who are to appear. The Band have been in rehearsal for this entertainment many weeks, the selections to be produced embracing some of the most difficult as well as popular music. The announcement of the reappearance of Mrs. Martyn will insure success.

—Admirers of the beautiful are to be offered an exhibition of Black's Mammoth Stereopticon at the North church next Monday evening. In the arrangement of this stereopticon the observer sees no longer the pictorial resemblance as in a panorama, but to all appearances the objects themselves exquisitely modelled, occupying a certain extent of space, and standing forth with a substantiality very wonderful. This entertainment will be highly instructive and interesting, the scenes to be presented including beside the Holy Land, a brief journey around the world, and an interesting series of local views including some surprises prepared by Davis Brothers, who have also just finished two miniature hymns with the music, which will be thrown on the screen. An organ concert will be given previous to the exhibition, which will include a Grand March with trumpet solo.

—The Alleghanians (Vocalists and Bell-players) who are under the superintendence of Mr. Daniel G. Waldron, of this city, gave a grand morning concert, Feb. 1st, to an overflowing house at Tarquay, England, the winter resort of all the London nobility. Among the notables present were the Right Honourable Dowager Viscountess Masserene and Ferryrd, the Right Honourable Lady Maud Hooper, the Honourable Mrs. R. Dalzell, the Dowager Lady Erskine, Lady Macgregor, and a large number of other titled and distinguished personages. The Baroness Burdett Coutts' suite consisted of twenty-eight ladies and gentlemen. On the the morning following the concert, Mr. Boulard, manager of the troupe, received, through the Baroness's secretary, a letter expressive of the great pleasure her Ladyship and party derived from their visit to hear the Alleghanians. The letter contained the following postscript:—"The Baroness desires me to enclose £25, with her kind wishes."

HALF BREED BUFFALOES.—The San Francisco Post says: Some experiments have been tried crossing the buffaloes with domestic cattle, and the result is highly satisfactory, a breed of animals being produced which retains many of the valuable properties of both breeds. The animals are large and strong, the chief objection to them being that no ordinary fence stops them for a moment, and that they love the water so much that they will swim and sport in it even when it is full of floating ice. We have heard of a cow and a calf whose love for athletic exercise was such that they would jump from a bank ten feet high into deep water, when there was an easy path close at hand. These personal peculiarities are drawbacks to the introduction of buffalo blood into the veins of family pets; but, on the other hand, when properly cared for, these animals make most delicious beef, and their hides, when soft-tanned, are as much superior to the buffalo robe of commerce as wool is to shoddy. The writer saw the pelt of the cow mentioned above. It was much larger than any buffalo robe which he ever saw before, was covered with a mat of soft, short, curly, brown hair, there being none of the long, shaggy hair ordinarily seen.

—A paper of Corpus Christi, Texas, says that if it does not rain soon Western Texas will be the greatest hide and bone country on the face of the earth.

—A western editor, recently married, states editorially, "We are living at this moment under absolute despotism." Of course he should let Madame vote, and resume a republican form of government.

—An Illinois hen laid an egg with a brass button in it, and the sages are trying to solve the problem: What part of a chicken would it have formed?

—A foolish Connecticut rat tried to lick something from a hatchet during the late cold weather, and freezing to the steel, perished in the attempt.

NEW MUSIC.—We have received the following from Ditson & Co.;—Annabel Lee; The Smile that Chanced to Win Me; My Own True Love; Unspoken Love; Among the Barley, song; Come with Me, a duett; The Singer's Joy, a march; Prima-Donna of a Night.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c. —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

DEATHS.

In Eliot, March 21, Mr. DANIEL FRYE, aged 68 years, 5 months, 21 days.

In Charlestown, March 20, ALPHONZO H. GRAY, youngest son of John T. and Annie A. Gray, aged 4 years, 7 months, formerly of this city.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid-up Policy.

At the end of 10 years, - - - - - $7,000.
At the end of 15 years, - - - - - - 14,000.
At the end of 20 years, - - - - - 23,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - - $173.30
Or, at the end of 20 years, of - - - 6-7.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,

Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Equitable Life Assurance Society,

Morning Chronicle.

—A Wisconsin poet puts a small pox item in verse in this way:

There was a young girl in Waukegan,
Whose name was sophia Jane Egan;
She was annoyed
By the varioloid
As badly as any Piegan.

—Can a captain's gig be driven ashore?—*Judy.*

—The King of Siam is improving. He now wears shirts and drawers.

—The Tichborn claimant failed to obtain bail on the charge of perjury.

—Gilmore is not without hope that Queen Victoria may come to his Jubilee.

—The rats in Cleveland breweries have jolly carousals at night, and get as drunk as humans.

—The delayed overland mails on arriving at San Francisco made eighteen large wagon-loads.

—There were seventeen additional cases of small pox in New York on Tuesday. Six concealed.

—S. M. Hewlett, the distinguished temperance lecturer, is dead. His home was in New Jersey.

—A fire in Laurel, Ind., on the night of the 18th destroyed nearly the whole business portion of the town.

—The celebrated Academy of Art in Dusseldorf, Prussia, has been destroyed by fire. Many valuable paintings were lost.

—Sebastopol, by an imperial decree, is re-opened as a commercial and military harbor, with the fortifications restored.

—There was no attempt at demonstration in any part of France on the occasion of the first anniversary of the revolt of the commune.

—Horace Greeley lectures at Mataawan to-night on "Wit." We are glad of it. We never did like those Mataawaners.—*Newark Courier.*

—The President has sent to the Senate the nomination of Francis Thompson of Maryland to be envoy extraordinary and minister plenipotentiary to Peru.

—A Florida paper has an authorized account of the exploits of a cyclone. Among the rest, a new wagon was torn to pieces, and one tire was found completely wrapped around a tree an eighth of a mile distant.

—"Why, Ichabod, I thought you got married mor'n a year ago?" "Well, Aunt Jerusha, it was talked of, but I found out that the girl and all her folks were opposed to it, and so I give 'em all the mitten, and let the thing drop."

—In the Galaxy Club-room (current number) a good story is told of a college president, who, meeting on the cars a student whose character for sobriety was not good, and whose then appearance evidenced a recent debauch, approached him and solemnly and regretfully said: "Been on a drunk!" "So have I," was the immediate reply.

DIALOGUE.

Stranger. Where is the best place in this city to buy Confectionery or Fruit?

Citizen. At GILBERT'S, 21 Daniel Street, corner Pinkallow Street.

St. Does he keep a bar in back?

Cit. He sells neither rum, ale, cider, tobacco or cigars.

St. Does he buy old bankrupt stock of Confectionery and damaged fruit, and sell it 15 per cent. cheaper than the regular trade sell pure articles?

Cit. No sir. He makes his candies of pure refined sugar, and his purchases are made from the purest, freshest and best goods in the market, and he sells at a fair profit.

St. Will he sell at wholesale, or less than half a pound?

Cit. Any amount from one ounce to a ton. Call and see him. m13

HOUSE PAINTING,

Graining & Paper Hanging.

CITIZENS OF PORTSMOUTH and vicinity, you can have your HOUSE-PAINTING, GRAINING & PAPER HANGING done with neatness and dispatch by calling at No. 21 Bow Street. No spurious stock used, unless by particular request.

N. B. Contracts taken.

JAMES M. LOCKE,

Ian27 No. 21 Bow Street.

NATURE'S REMEDY.

VEGETINE

The Great Blood Purifier.

VEGETINE is made exclusively from the juices of carefully selected **barks, roots, and herbs,** and so strongly do we believe that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all Diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints,** can only be effectually cured through the blood.

For **Ulcers and Eruptive diseases of the skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead and Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration, and uterine disease and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervous and General** prostration of the **Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the Nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

Prepared by **H. R. STEVENS,** Boston, Mass. 1y52 No. 1.

Price, $1.25. Sold by all Druggists.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that o any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the world's purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST SEWING MACHINE

IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country, and possesses its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER PATENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

Ayer's Cathartic Pills,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood,

Are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed, and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

PACIFIC MAIL STEAMSHIP CO.'S

THROUGH LINE to CALIFORNIA, CHINA AND JAPAN,

Touching at Mexican Ports and carrying U. S. Mail

FARES GREATLY REDUCED.

One of the large and splendid Steamships of this line will leave Pier No. 42, North River, foot of Canal St., New York, at 12 o'clock M., on the 15th and 30th of every month, (except when those dates fall on Sunday; and then on the preceding Saturday,) for ASPINWALL, connecting via Panama Railway with one of the Company's Steamships from PANAMA to SAN FRANCISCO, touching at MANZANILLO.

All departures connect at PANAMA with Steamers for SOUTH PACIFIC and CENTRAL AMERICAN ports. Departure of 15th, touches at Kingston, Jamaica.

For Japan and China, Steamer leaves San Francisco first of every month, except when it falls on Sunday, then on the day preceding.

One Hundred Pounds of Baggage allowed each adult. Baggage masters accompany baggage through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads and passengers who prefer to send down early. An experienced surgeon on board. Medicine and attendance free.

For freight or Passage Tickets or further information apply at the Company's ticket office, on the Wharf, FOOT OF CANAL ST., NORTH RIVER, NEW YORK, to F. R. BABY, Agent; or to the Agents for New England, C. L. BARTLETT & CO., 16 Broad street, BOSTON,

49 1-2 Exchange St., Portland.

The Chronicle.

A SOUTH WIND LONGING.—Here is something timely and delicious from Warner's "Back-Log Studies," in the April number of Scribner's:—

Perhaps the influence of the four great winds on character is only a fancied one; but it is evident on temperament, which is not altogether a matter of temperature, although the good old deacon used to say, in his humble, simple way, that his third wife was a very good woman, but her "temperature was very different from that of the other two." The north wind is full of courage, and puts the stamina of endurance into a man, and it probably would into a woman too if there were a series of resolutions passed to that effect. The west wind is hopeful; it has promise and adventure in it, and is, except to Atlantic voyagers America-bound, the best wind that ever blew. The east wind is peevishness; it is mental rheumatism and grumbling, and curls one up in the chimney-corner like a cat. And if the chimney ever smokes, it smokes when the wind sits in that quarter. The south wind is full of longing and unrest, of effeminate suggestions, of luxurious ease, and perhaps we might say of modern poetry,—at any rate, modern poetry needs a change of air. I am not sure but the south is the most powerful of the winds, because of its sweet persuasiveness. Nothing so stirs the blood in spring, when it comes up out of the tropical latitude; it makes men "longen to gon on pilgrimages."

I did intend to insert here a little poem (as it is quite proper to do in an essay) on the south wind, composed by The Young Lady Staying with Us, beginning:—

Out of a drifting southern cloud
My soul heard the night-bird cry—

but it never got any further than this. The Young Lady said it was exceedingly difficult to write the next two lines, because not only rhyme but meaning had to be procured. And this is true; anybody can write first lines, and that is probably the reason we have so many poems which seem to have been begun in just this way, that is, with a south-wind-longing without any thought in it, and it is very fortunate when there is not wind enough to finish them. This emotional poem, if I may so call it, was begun after Herbert went away. I liked it, and thought it was what is called "suggestive;" although I did not understand it, especially what the night-bird was; and I am afraid I hurt the Young Lady's feelings by asking her if she meant Herbert by the "night-bird,"—a very absurd suggestion about two unsentimental people. She said, "Nonsense;" but she afterwards told The Mistress that there were emotions that one could never put into words without the danger of being ridiculous; a profound truth. And yet I should not like to say that there is not a tender lonesomeness in love that can get comfort out of a night-bird in a cloud, if there be such a thing. Analysis is the death of sentiment.

An Undoubted Security,

PAYING 60 PER CENT.

MORE INCOME

Than Government Bonds

AND

9 1-2 Per Cent. on the Investment.

FIRST MORTGAGE SINKING FUND GOLD BONDS OF THE

Logansport, Crawfordsville and South-Western Railway of Indiana.

THEY BEAR 8 PER CENT. GOLD INTEREST, PAYABLE QUARTERLY IN NEW YORK, FREE OF GOVERNMENT TAX, AND ARE COUPON AND REGISTERED.

The issue is limited to $16,000 per mile, in denominations of $1,000, $500, and $100.

This Road, 92 miles long, affords the shortest existing outlet to Chicago, Toledo, Detroit, Fort Wayne, Logansport, and intermediate points for the celebrated Block and Bituminous Coals of Parke County, as, also, for the large surplus products of the rich agricultural and mineral section of the State which it traverses.

For the present we are offering these Bonds at 95 and accrued interest in currency, or will exchange them for Government Bonds, or other marketable securities, at the rates of the day.

Further and full particulars, with pamphlets and maps, furnished by us on personal or written application.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M.
Boston, April 11, 1871. eodawly

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in us. New Shingles covered with this article warranted for last fifty years, and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School-Houses, Rock-Boards, &c.

OH, WOULD I WERE A CHILD AGAIN!

sighs the weary and exhausted one, as the languor and lassitude of spring comes upon him. Come and receive vigor and strength from the wonderful South American TONIC

JURUBEBA,

Long and successfully used in its native country, as a Powerful Tonic, and Potent Purifier of the Blood, it is found even to exceed the anticipations founded on its great reputation. According to the medical and scientific periodicals of London and Paris, it possesses the MOST POWERFUL TONIC properties known to MATERIA MEDICA.

DR. WELLS' EXTRACT OF JURUBEBA

is a perfect remedy for all diseases of the BLOOD, ORGANIC WEAKNESS, GLANDULOUS TUMORS, DROPSY, SCROFULA, INTERNAL ABSCESSES, and will remove all obstructions of the LIVER, SPLEEN, INTESTINES, UTERINE and URINARY ORGANS.

It is strengthening and nourishing. Like nutricious food taken into the stomach, it assimilates and diffuses itself through the circulation, giving vigor and health;

It regulates the bowels, quiets the nerves, acts directly on the secretive organs, and by its powerful TONIC and restoring effects, produces healthy and vigorous action to the whole system.

The Daily Chronicle,

Portsmouth, N. H.

MONDAY, MARCH 25, 1872.

Political.

We hear but one gentleman named for the office of Secretary of State,—George E. Jenks, Esq., of Concord. Mr. Jenks is well and favorably known to Republicans and business men all over the State as a genial, courteous gentleman. Under his charge, for many years the Republican Statesman gave no uncertain sound, but was vigorously conducted. Mr. Jenks has taken great interest in the Editorial Association of this State and we know personally that the members of that Association of all shades and hues of political opinions will wish him a success, and esteem the honor conferred upon one of their number as all personal favor, should the majority of the incoming legislature designate him for the office he would fill so acceptably.

The gains made by the Republican party of the Empire State are handsomely illustrated by a comparison of the supervisors for two years. Thus, in 1871 there were 473 Republican and 287 Democratic Supervisors; in 1872, 504 Republicans and 256 Democratic Supervisors.

There is a portentous rumor that Andrew Johnson will be present at the Cincinnati Convention with the constitution in a fine state of preservation.

A joker at Weare applied to a Democratic representative of that town last year, now superseded by a Republican, to hire a fine meadow which the ex-representative owned. "What do you want to do with it?" said the owner. "Pasture yearlings," was the joker's reply.

The Oregon republican State convention indorsed the administration of Grant and Colfax.

THE JUBILEE.—The chorus end of the Coliseum will contain 21,255 sittings for the singers and musicians. It is to have a gallery, and it is contemplated also to erect a series of boxes, some fifty in number, between the trussed arches on both sides of the auditorium and the chorus. By this means alone some three thousand persons might be accommodated within the building in addition to the original estimate. The site has been so far prepared as to enable the carpenters to begin operations in framing.

SECRETARY FISH has sent to General Adee, charge d'affaires at Madrid, a vigorous despatch upon the case of Dr. Howard, the American citizen just transported to a Spanish penal colony for twenty years for participation in the Cuban rebellion. Consul-General Corbet, at Havana, has made the strongest representations, unofficially, of the hardship and injustice of Dr. Howard's case, and it is expected that the action of this government will induce his prompt restoration to his friends.

BUST.—The New York and Boston Express Company, one of the creations of the Erie ring, has been discovered to be insolvent. It was started with the assistance of the Erie managers, the funds for its equipment being furnished from the treasury of the road. Its business was done by Fisk's steamers to Boston and by the Erie railway to a number of places in New Jersey, the Erie Company furnishing it facilities for crushing out several local express companies.

THE WASHINGTON TREATY.—Earl Granville has sent a second note to Minister Schenck, which reiterates the repudiation of claims for consequential damages, but proposes that counter-cases on both sides be lodged with the Geneva board of arbitration on the data prescribed, without prejudice to the position taken in regard to indirect damages.

UTAH.—Marshal Patrick has sent Hosea Stout, William Kimball, Brigham Young, Hampden Blithe and Bart, now under indictment for the murder of various Gentiles, to Camp Douglass. The prisoners were greatly excited and highly indignant, and the Mormon community generally is excited.

A PETITION THAT OUGHT TO BE HEEDED.—One thousand prisoners in the Illinois Penitentiary have petitioned the Legislature of that State to retain the prohibitory liquor law. Probably one-half of the signers were victims of rum, and their voices should be heard.

THE CASE OF STOKES for the murder of Fisk has been indefinitely postponed. John Graham and his associates have obtained what they have been plotting for—a long delay; and Stokes is more confident of final acquittal than ever.

—Tomato wine is a California drink.

LINCOLN'S DREAM.—The President remarked that the news would come soon and come favorably, he had no doubt, for he had last night his usual dream which had preceded every important event of the war. I inquired the particulars of this remarkable dream. He said it was in my department—it related to the water; that he seemed to be in a singular and indescribable vessel, but always the same, and that he was moving with great rapidity toward a dark and indefinite shore; that he had had this singular dream preceding the firing on Sumter, the battles of Bull Run, Antietam, Gettysburg, Stone River, Vicksburg, Wilmington, etc. Gen. Grant remarked, with some emphasis and asperity, that Stone River was no victory—that a few such victories would have ruined the country, and he knew of no important results from it. The President said that perhaps he should not altogether agree with him, but whatever might be the facts, his singular dream preceded that fight. Victory did not always follow his dream, but the event and results were important. He had no doubt that a battle had taken place or was about being fought, "and Johnson will be beaten, for I had this strange dream again last night. It must relate to Sherman; my thoughts are in that direction, and I know of no other very important event which is likely just now to occur."

Great events did indeed follow. Within a few hours the good and gentle as well as truly great man who narrated his dream was assassinated, and the murder which closed forever his earthly career affected for years, and perhaps for ever, the welfare of his country.—*Gideon Welles.*

THE GRASS FIELDS.—Farmers naturally have great anxiety in regard to the opening spring, and its effects on the grass fields of the State. Two seasons of hard drought have worked disaster to our new seeded fields, and two seasons of the spring killing—as it is termed—have made necessary a reliance upon old fields for all the hay that has been secured, a very light crop; and it would be quite unnatural for farmers not to express much solicitude at the prospects and expectations of the opening spring. So far it is very favorable. The ground is well and uniformly covered with snow—last year at this time, the ground throughout a large portion of the State had been completely bare for one or two weeks. We hope to see the snow now upon the ground remain until the middle of April, and then go off with warm rains; but of course we can't have everything just as one would like. We confidently expect, however, a more favorable opening for the farmer this spring than we have had for two years—and it is right to expect it. Be prepared to sow grass seed, and to top-dress with ashes—leached or unleached—plaster, phosphate or compost, early in the spring. By this course a good start will be given to the grass roots, and much can be done towards overcoming the disasters of the past two seasons.—*Me. Farmer.*

A WISE SPOUSE.—A lady of this city, of French parentage, bright, witty and good, became the wife of a gentleman whose business called him regularly every summer to Paris. In his youth his pace had been rapid, and the lady's relatives gave many shakes of the head when talking of the marriage. He told her very frankly that he had been of naughty habits, but promised to be proper. And he made a very good husband. On each return from Paris he brought her some nice little present—sometimes a bonnet, sometime a dozen Alexandre's, sometimes a dress. But on this, his eighth return, he surprised her by placing in his hands a magnificent lace shawl, the cost of which could not be less than seven or eight hundred dollars. Well might her bright eyes sparkle, as they did, over the exquisite gossamer-like gift. Putting an arm tenderly around his neck and giving him a soft, sweet kiss, she said: "Ah, what a good, kind husband you are, to bring me such a beautiful present! but, Charley dear" (with a roguish smile), "*how bad you must have been in Paris this last time!*" She knew him!—EDITOR'S DRAWER, in *Harpers' Magazine for April.*

NEW HAMPSHIRE.—The Republican candidate for Governor in New Hampshire, with one town to hear from, has 1276 majority. The majority against the Republicans last year was 1945. Republican gain in one year, 3221!! This will do. Doubtless it might have been larger—it certainly deserved to be—; but for a kind feeling on the part of the Republicans not to hurt the copperheads too much! Our State pride is under some mortification to think Maine had goslings like Pilsbury, Kimball, Hubbard and Bradbury, who should stump the State, thinking they could enlighten the yeomanry of that locality in reference to their duty. It shows how little they appreciate the eternal logic of things, and of how little value their calculations are of the moral forces of the nation. We suggest that the Connecticut Republicans should induce the copperheads of that State to send for the Maine Quartette.—*Biddeford Journal.*

AZRO B. BARTHOLOMEW, who killed Storer at Chelsea, has been found guilty of manslaughter.

THE BLOCKADE of the European and North American Railroad is at last broken.

CAMBRIDGE won the English University race by a length and a half, on the 23d.

THE U. S. SENATE has voted to place tea and coffee on the free list.

—Eleven editors impart dignity to Congress.

THE LABOR REFORM PARTY.—It cannot well be said that this is a growing party in New Hampshire, because we notice they are numerically less than one year ago. They are evidently tending to their natural affinities, and the two great parties must soon absorb them all, unless some new inspiration shall break in upon them and recruit their forces. As a separate and independent party we never had any faith in it, except perhaps as a somewhat uncertain auxiliary in an emergency. And then they are apt to require very good pay in the shape of offices for everything they do. We had a good illustration of this last summer. They did some very good service, and then demanded all the offices as the consideration for their patriotism, or they would smash the machine. They got all we had to give that were worth anything—very few we admit—and we poor, impatient Democrats contented ourselves with what there was left,—a thundering poor dividend upon the amount invested.

Very well. The partnership has expired by limitation of the contract, and now we had better go into business on our own hook.—*Foster's Democrat.*

More than forty years have elapsed since *Johnson's Anodyne Liniment* was first invented, during which time hundreds of thousands have been benefited by its use. Probably no article ever became so universally popular with all classes as Johnson's Anodyne Liniment.

THE HISTORY OF A NATIONAL REMEDY.—Here is the history of the most celebrated tonic of the age in a nutshell. In 1860 it was announced that a certain combination of vegetable ingredients, with a pure diffusive stimulant, was working wonders in the cure of chronic dyspepsia, nervous debility, liver complaint, periodical fevers, rheumatism and constitutional weakness. The unpretending name given to the specific was PLANTATION BITTERS. The statement attracted the attention of invalids everywhere. The new remedy received a fair trial, and the results more than confirmed all that had been said in its praise. Thence forward it was a grand success. The business columns of the press spread the glorious news far and wide, and the martyrs to indigestion, biliousness, physical prostration and premature decay, as if by common consent, sought relief from the new vegetable restorative. They found what they sought. From that time to the present the increase in the demand for Plantation Bitters has been one of the most striking events in this age.

SPECIAL NOTICES.

Atmospheric Poison.

The spring sun calls up something besides the flowers and grasses. It evolves from the damp earth turbid rivers, stagnant pools and black morasses, the gaseous provocatives of disease. From the offal and garbage of unclean cities, too, it exhales an effluvia destructive of health and vigor. Periodic fevers of various types are now raging with unusual virulence in various parts of the country, and there are complaints from all quarters of a singularly unhealthy spring. What is to be done in this emergency? The answer is simple and to the point. Strengthen the body. Weakness predisposes the system to disease. Commence at once a course of the most genial of tonics, Hostetter's Stomach Bitters. Be assured that the germs of epidemic and endemic fevers will never infect the physique that has been fortified and regulated with this glorious vegetable restorative. A moist atmosphere aggravates dyspepsia, and all diseases of a bilious type, and the sudden thermometrical changes common at this season, are a severe trial even to strong constitutions. There is but one way of combatting these deleterious agencies, and that is by invigorating the body, and imparting a healthy activity to all its functions. The only specific required for this purpose is Hostetter's Bitters. Of all vegetable tonics and alteratives it is the purest and the best. Its medicinal ingredients include all the juices and extracts of the most approved tonic, anti-bilious and antiseptic products of the Botanic Kingdom, and they are combined with a stimulant far superior in quality to the alcohol used in preparing the tinctures and extracts of the "regular" pharmacopœia.

SKIN DISEASES.

VIOLINS, GUITARS, FLUTES, BAND INSTRUMENTS, and a full assortment of other Instruments. MUSIC and MUSICAL MERCHANDISE, also for sale at the store of

JOHN O. HAYNES & CO., 33 Court St.,

d19 Opposite the Court House, Boston.

BUSINESS NOTICES.

MRS. MANCHESTER'S SUCCESS in her system of treatment of diseases attracts the attention of persons suffering from diseases all over the country. Her patients speak in the most flattering terms of the benefit they receive at her hands. Diseases of years' standing are made to yield under her skillful treatment, and the patient often recovers when all other remedies have failed. The afflicted should lose no time in consulting her at the FRANKLIN HOUSE, Portsmouth. She remains but ten days. See her advertisement in another column.

Pills which contain antimony, quinine, and calomel, should be avoided, as severe griping pains would be their only result. The safest, surest, and best pills are *Parsons' Purgative or Anti-Bilious Pills.*

DEAD MEN TELL NO TALES; if they did, anathemas against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass; for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

HOLLOWAY'S PILLS AND OINTMENTS.—Scrofula or morbid deposits in the lungs, joints and tissues. These medicines have rendered this disease a less formidable scourge than formerly. It has been incontestably proved that in Scrofulous affections they have effected thousands of cures. Sold everywhere. 25 cents per box or pot.

NEW ADVERTISEMENTS.

CAIRO AND FULTON

RAILROAD COMPANY

FIRST MORTGAGE, SINKING FUND,

Land Grant Bonds,

DUE 1891 IN GOLD.

Interest 7 Per Cent. Gold, Free of Tax.

THE CAIRO AND FULTON ROAD is the main artery for travel across the State of Arkansas. It is the continuation of the St. Louis and Iron Mountain Railroad and under the same management. It will connect the St. Louis roads and the Illinois Central Railroad, with the International Railroad, the Southern Pacific Railroad and the Texas system of roads. Its length is 301 miles, and it deviates from a straight line but six miles. It has no grades over 15 feet to the mile. It passes through the most thriving counties and the Capital, Little Rock. The Land Grant of 1,926,400 acres, "is one of the most extensive and valuable ever made to any road by Congress." The whole road is under contract for building. About 60 miles are built and track-laying will go on at the rate of about half a mile a day, until the connection of Little Rock with the St. Louis is completed. The First Mortgage Bonds, $8,000,000, $5,000,000 of which have already been sold, are the first lien upon the road, rolling-stock and lands. The officers are:

THOMAS ALLEN, St. Louis,.....President.
H. G. MARQUAND, New York,..Vice President.
D. W. McWILLIAMS, New York,.....Treasurer.
W. B. DONALDSON, St. Louis,.....Secretary.

New York Directors:

H. M. ALEXANDER, H. G. MARQUAND,
WM. T. BLODGETT, JOHN H. SWIFT,
WM. H. SWIFT, ALANSON TRASK.

The Union Trust Company, Trustee of the Bonds. Price 90 and accrued interest in currency.

The Company reserves the right to advance the price at any time. Marketable securities received in exchange at full market rates, and express charges paid.

Maps and pamphlets may be obtained upon application to the selling agents.

DIALOGUE NUMBER NO. 2.

Stranger.—Where is the best and cheapest place to buy confectionery?

Many Citizens.—Why? at J. RIDER & SON'S, of course; that's the place, because they buy it from Atwood and Blanchard, of New York, the largest Confectionery Houses for its manufacture in this country, and who supply most if not all the celebrated candy stores in New York and Boston; and you are sure you will not be compelled to eat candies made by dirty hands and where people have colds in their heads all the year.

Stran.—Do their workmen live at the manufactory?

Cits.—No. They live at a distance and are obliged to be up in the morning and have their hair combed so as not to be compelled to do it over their kettles when sugar is boiling, thus making it all taste as though a nutmeg grater had been shaken over it, or calling it Fruit Candy.

Stran.—Are their candies fresh, and not mixed up with Rhubarb, Paregoric and Squills?

Cits.—Yes! They are received fresh every week, and purchased in lots exceeding two or three five-pound boxes, so they are able to sell at 25 cents a pound—when some dealers have to pay 30 cts. at wholesale, bought of second-hand peddlers, or made from Molasses Sugar, mixed with "terra alba" to enable them to compete with the heavier traders.

Stran.—Do they sell to dealers?

Cits.—No; because they prefer that the general public shall have their candy at less than 500 per cent. profit on small quantities. This way of dealing makes some people pretty mad, because they see so many going there to buy where they can save money and get a far superior article.

Stran.—Much obliged; I shall certainly go there and see if what you say is O. K. or not.

Cits.—Well, do so; and you will be more than satisfied. m19

WANTED,

A **BOY** to work in grocery and provision store. Apply at Nos. 16 & 18 Cabot St.

LOCAL AFFAIRS.

Laconics.

Mr. Lewis Lear of this city fell from U. S. S. Illinois, Saturday, and received severe injuries in the lower extremities.

Rev. Wm. W. Jackson, Jr., of Boston, is to lecture this evening in the Christian church at Kittery, on the "Elements of Christian Manhood."

Hon. Frank Jones had a team of five yoke of oxen on Market Square, Saturday, weighing from 4000 to 5600 lbs. each yoke, averaging in weight 4300 lbs.

Warmer weather brought the farmers out on Saturday, and wagons filled the street from Market Square to Vaughan Street, making passage through difficult.

We regret to learn that Conductor Gale has left the Concord Railroad. Mr. Gale has always been a courteous official. He is succeeded by our young friend, Conductor Wyatt, a Portsmouth boy "with a serious countenance."

The alarm of fire about 12 o'clock Sunday evening was caused by the burning of a bed in the attic of the house occupied by Mrs. John Donovan on State Street. The Fire Department were on hand, but their services were not needed. Damage trifling.

At a popular resort in this city may be seen daily two firm friends, Messrs. Jeff C. Rowe and M. Curtis. The former lost an arm by the Revere disaster, and the latter lost a leg the following week on the Old Colony Railroad. They are chums of long standing—and too good men to be so cruelly used by Dame Fortune.

Miss Maynard's concert will take place at the Temple, April 16th, when she will be assisted by Mr. W. H. Fessenden, the favorite tenor, and the famous Temple Quartet, of Boston; with Mrs. Grace Holt of Boston, a very fine contralto, and Miss Mary E. B. Miller, pianist. Both the lady beneficiary and her entertainment merit a good house.

Harlow's Band announce a concert for Tuesday evening next, at the Temple, with the assistance of Mr. Frank L. Martyn; and a young son of T. S. Nowell, Esq., of this city, whose proficiency on the violin, under tuition of Mr. Harlow, is spoken of as something wonderful. Mr. Harlow and his band certainly deserve well of the public. Mrs. Mrs. Martyn is unable to appear.

The Stereopticon exhibition at the North Church, this evening, will afford amusement and instruction. Vivid portrayals will be given of the mysteries of the Polar Regions, the midnight sun which does not set for four months, and other Arctic views. The illustrations of the Holy Land and Egypt are fine. At the close of the evening, the Church will be illuminated by the most powerful artificial light known to science. Go—and take the children.

Major Little's orchestral melodeon concert at the Methodist church, this evening, will be a unique affair. The wonderful imitations should be heard to be admired. The younger members of the Sunday School will take part in recitations and a quartet of home talent will add to the pleasure of the evening. The Lawrence American says: "The Major is a decided genius, and only needs to be heard to be appreciated and remembered. He teaches lessons of temperance and industry, and instructs as well as interests his audiences." In addition to the other attractions, there will be singing of patriotic songs by a gentleman in Continental costume.

Prof. Stone's biologic *seances* increase in interest nightly. Under his control persons forget their parents, lose the power of utterance and the control of their muscles, forget the alphabet, have severe attacks of pain, taste water and pronounce it bitter, sour or sweet, become cold or overheated, imagine they hear music or see birds, and believe certain articles too hot for them to handle. With a wave of the hand, the Professor wafts them back to their normal condition. They remember distinctly all that passes while under his influence. If there are any persons in this city who have not seen these experiments, we advise them to attend. Saturday night, the chamber set was drawn by Mary A. Grace, and about one hundred other presents were given out.

Board of Trade.

A meeting of the members of the above organization was held at the Common Council rooms on Friday evening, its object being the discussion of several important questions concerning the interests of our city. As an encouraging symptom that the Board of Trade has obtained a new lease of life and will yet be productive of much good to Portsmouth, we are pleased to chronicle the absence of that cold water element which has displayed itself so conspicuously at the past two or three meetings, evidently with one aim, viz: to extinguish the institution and thereby add another nail to the coffin of enterprise in our midst. The Secretary of the Board, Mr. J. C. Butler, being absent on account of sickness, the President, T. S. Nowell, stated that at the last meeting the Board adjourned at the call of the Secretary, and while he did not know for what specific purpose they had been summoned, he presumed that the Secretary had important business to lay before them, yet he had failed to communicate it. Samuel Adams said the object of the call was to consider the matter of the contemplated scheme of the Concord Railroad to transfer their coal machinery to Newburyport on account of failing in their negotiations for the purchase of Nobles' Island. After much discussion in regard to the value of the island and many suggestions in relation to the manner of obtaining increased facilities for the business of the Concord Road, a committee of three was appointed to confer with the directors of the said road and offer them the assistance and co-operation of the Board in the matter to which we have referred, Samuel Adams, Isaiah Wilson and Wm. H. Sise constituting the committee.

The President stated in reference to obtaining water from Raymond pond, (which subject he introduced at the last meeting when it was voted down,) that during the past week many citizens had spoken of it as feasible and worthy of some attention. And in view of this, he would again suggest that the Board secure the services of a competent engineer, have the route surveyed, and estimates made in relation to the expense of obtaining water from Raymond. This suggestion of Mr. Nowell opened a general discussion in regard to the utterly inadequate supply of water which is being afforded the inhabitants of this city, and many interesting facts were developed relative to the gradual diminishing of the force of water for the past ten years or more. We regret that we have not room for a full report of the talk on this subject, as it is a matter in which nearly all our citizens are interested. We would here take occasion, however, to warn the Portsmouth Aqueduct Company that there is trouble ahead for them unless they make some renewed exertions in the matter of a better supply of water. The Board chose a committee to investigate the matter, consisting of Henry M. Clark, J. C. Carr and Wm. R. Preston.

It was voted that the Secretary of the Board be directed to communicate with Senator Cragin in reference to the location here of one of the proposed public ship-yards.

The meeting adjourned for one week, when it is expected that the committees above mentioned will be ready to report.

A TERRIBLE MATHEMATICIAN.—Portsmouth can boast of the "cutest" man of figures that has turned up in this part of the moral vineyard. He says, "In the Boston Post Office each employe gave a day's wages, and in this manner a fund that amounted to *over half a million of dollars* was raised to buy up New Hampshire."

He then goes on to say that Cragin brought $60,000, Patterson $20,000, government officials and clerks in Massachusetts and New York contributed nearly $100,000, the Secretary of the Navy sent $50,000; Ohio sent a liberal sum; Pennsylvania and other States sent on thousands; the iron, salt, coal and lumber monopolists sent about $75,000, *and enough was raised in this State to make up the immense corruption fund of over* $500,000.

Now observe, the Boston Post Office raised *over half a million* to start with; then this mathematician has got together all the other definite and indefinite sums named, and comes out at the end with only the same amount he had when he left the Boston Post Office, all of which demonstrates that it requires only about a couple sticks of type for this Strawberry Bank mathematician to publish himself an ass.—*Foster's Democrat.*

SHIPBUILDING ON THE MERRIMACK. The shipyards are not entirely deserted yet. At the yard of Mr. John Currier, Jr., a frame of a ship of 1300 tons, for owners in this city, is being got out. At George Currier's yard a double deck three-masted centre-board schooner of about 350 tons, is nearly completed. At the yard of Messrs. Colby & Lunt a remarkably fine modeled schooner of about 120 tons burthen is nearly finished. She is admirably adapted for a first-class fisherman, and is for sale. At the yard of Mr. Eben Manson, a barque of 400 tons is planked up, for owners in New York. Also a schooner of 270 tons partly planked for sale. At yard of Messrs. Atkinson & Fillmore, a frame is being got out for a three-masted schooner of 450 tons for owners in Boston.—*Newburyport Herald.*

DEATHS.

In Eliot, March 21, Mr. DANIEL FETS, aged 86 years, 5 months, 21 days.

MARINE CHRONICLE.

MRS. MANCHESTER

The Independent

CLAIRVOYANT,

AND

ELECTRIC PHYSICIAN,

Formerly from New York, but late of Portland, will arrive in Portsmouth, MARCH 25th, and can be found at the FRANKLIN HOUSE for ten days.

Where she will treat all diseases flesh is heir to.

Price for Examination, $1.00.

CERTIFICATES OF CURES.

A Case of Blindness Cured.

MRS. MANCHESTER: This is to certify that I called upon you last October with a son of mine who had been Blind over a year; totally blind with one Eye and very nearly so with the other. I had had him treated by three Eminent Physicians, and also had taken him to the Eye Infirmary in Boston, but neither did him any good, and he still grew worse. MRS. MANCHESTER assured me she could cure him. I commenced with her treatment, and at this time one Eye is perfectly well, and the other is gaining! I had given up all hope of his ever seeing again, but, by the help of God and Mrs. Manchester's skill, he is now able to work, which I am sure he never would if it had not been for her. Let all give her a trial, and by calling on me they can be seen by any one.

This is a true statement of the case.

JOHN MCCORMICK, JR., Portsmouth.

This is to certify that Mrs. Manchester has doctored in my family for six years with marked success. She has cured my wife of dropsy in its worst form; my daughter of spinal disease of five years' standing; a sister of deafness and catarrh; my father of blindness. And I would recommend her to the public as a skillful physician, and every way worthy of patronage.

JOHN HOBSON, Portland, Me.

One of the Greatest Cures on Record.

BANGOR, Sept. 28, 1870.

This is to certify that I have been sick for twenty-five years with liver complaint, as the physicians have all told me. I have been treated in New York and Bangor by a large number of Physicians, and found no relief until I called on Mrs. MANCHESTER a short time ago. She told me very readily what the trouble was—that I had abscesses and tumors. I have taken her medicines, and have had proof that what she told me was perfectly correct. If any one doubts this, let them call on me personally, and I will give them correct information in regard to my case. I want the sick and suffering to go and consult MRS. MANCHESTER, and not be discouraged by ignorant and false people, but have a mind of your own, and you will get relief.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - -	104 per cent. of premiums returned.
At the end of 15 years - -	151 per cent. of premiums returned.
At the end of 20 years - -	201 per cent. of premiums returned.

Second—Paid up Policy.

At the end of 10 years, - - - -	$7,000.
At the end of 15 years, - - - -	14,000.
At the end of 20 years, - - - -	22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - - $173.30

Or, at the end of 20 years, of - - - 6.7.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,

Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Equitable Life Assurance Society,

WM. H. BELKNAP, Register.

Exeter, March 19, 1872. m21

Morning Chronicle.

New Publications.

The April number of *Scribner's Monthly* contains an unusual number of articles, and in point of interest is equal to its predecessors. Samuel Wolcott, Margaret J. Prescott, Adeline D. T. Whitney, D. W. Brownell, G. P. Lathrop and S. W. Duffield contribute poems. Charles Dudley Warner supplies another of his genial "Back-log Studies;" Fitz-Edward Hale tells why we may properly say "is being built;" Eugene Schuyler writes of "A Russian Easter;" Nash Brooks of Japan; Amos G. Draper of "The Silent College at Washington;" Taylor Lewis of "The One Human Race;" Schele De Vere of "Hidden Treasures," that is to say things dug out of the earth; John S. Wallace of the Mare Island Navy Yard; James Richardson of "Curiosities of Plant Life;" and there are short stories by Julian Hawthorne, Susan Archer Weiss and S. C. Kendall, besides a portion of the serial by Mrs. Oliphant. For sale at the book stores.

Blackwood's Magazine for March has been republished very early by the Leonard Scott Pub. Co. of New York. It is an unusually attractive number, and contains an enthusiastic sketch of the life of Robert E. Lee, and a careful estimate of his personal character and of his military career viewed from a rebel stand-point. With the statement that the American people "will acknowledge before long that Lee took no step in life except in accordance with what he regarded as, and believed to be, his duty; and they will hold up his example, no less than that of Abraham Lincoln, as one of the brightest patterns which they can set before their children," we imagine it will be some time before we agree. There is also a paper by Cornelius O'Dowd, entitled "The American Revoke." On the whole this number possesses peculiar interest to readers here at the present moment. The following are the contents in fall: A True Reformer; Voltaire; Maid of Sker—Part VIII: Autumnal Manœuvres; The Manchester Nonconformists and Political Philosophy General Lee; Cornelius O'Dowd, — The American "Revoke;" and Ministers before Parliament. $4 per year.

Oliver Optic's Magazine for April, "fresh, bright and sparkling" as April rain drops, is in the hands of subscribers and on the counters of the news dealers and booksellers. It contains continuations of Oliver Optic's "The Tramps of a Traveller," Elijah Kellogg's "College Scrapes" and Mrs. Cheney's charming "Sally Williams." The several departments are filled with valuable material. The illustrations are numerous and excellent, and the whole of this excellent magazine, from front to back cover, justifies the assertion that it is one of the best magazines in the world or anywhere else. Published by Lee & Shepard, Boston, at $2.50 per annum.

Old and New for April is out. Henry W. Bellows writes of "The Break between Modern Thought and Ancient Faith and Worship." B. C. Mafflin describes the marvellous richness of Silver Islet Mine on the northern part of Lake Superior. The three serial stories are continued. In the department of "Fine Arts" there is an interesting resume, by S. R. Koehler, of the controversy respecting the comparative merits of the Dresden and the Darmstadt Madonnas. It is an excellent number.

Harpers' Monthly gains steadily in value, interest and prosperity. The number for April contains sixteen articles, ten of which are illustrated by more than seventy pictures. Porte Crayon begins a series of illustrated sketches of Southern life under the title of "The Mountains." A second paper completes Allen D Brown's review of "Naval Architecture." Rufus Home begins a history of "The Tammany Society." The serials by William J. Flagg and Anthony Trollope are continued, and there are short stories by Mrs. Caroline A. Merighi, Miss Katherine E. Ware, and Miss Kate Putnam Osgood. Among the attractive features promised for the following numbers are a series of illustrated papers on California, by Charles Nordhoff, to be commenced in the next number; a new serial story by Miss Thackeray, to begin in the same number, and a series of papers on the republican movement in Europe, from the pen of Don Emilio Castelar, the eminent Spanish statesman, to be commenced in the June number. For sale by E. G. Adams.

The Lady's Friend for April makes its appearance in a pretty tint of Spring green. "Lili" is a finely engraved steel plate. In literary matter this magazine maintains its well established superiority. There is an illustrated story by M. C. Fyle, and one by Millie W. Carpenter. "Queen Coquetta" is concluded; and Mrs. Wood's novel, "Within the Maze," deepens with every number in mystery and absorbing interest. Price $2 a year. Published by Deacon & Peterson, Philadelphia.

Hearth and Home has steadily improved in excellence and prosperity, and is about the best family periodical in the country. Good taste, good sense and good morals are its strong allies.

—During the performance at a London theater on the 12th of February, a little performer not down on the bill made his first appearance on any stage.

—It is understood that the prosecution of William F. Weld & Co., of Boston and New York, for alleged frauds upon the revenue, has been compromised by the payment of $600,000.

—A fire in an Indiana town was put out a few days ago, by a troop of boys who bombarded it furiously with snowballs. This snowball brigade constituted the only fire department which the town had, and it was not likely to be efficient in the month of August.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.
The Success of the Company is far beyond that o any other similar concern; the
Daily Manufacture
—OF—
400 OF THE SINGERS
Failing to Supply the Constant Demand.
All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price —and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the
SINGER
seems to unite the good qualities of all, and is never found wanting.
THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,
All others being copied from its first model. does two-thirds the sewing done in this country, and proves its 12 advantages over all others combined.
It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is higher speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.
N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.
J. J. FESSENDEN,
Agent for Portsmouth, and Vicinity.

ST. CLOUD HOTEL, NEW YORK. By RAND BROTHERS, Broadway, Cor. of 42nd Street.

AYER'S HAIR VIGOR.
FOR RESTORING GRAY HAIR
TO ITS NATURAL VITALITY AND COLOR.
Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes to fall off prematurely, and either effect in unsightliness and in peasant to behold. Dr. AYER's consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glow and freshness of youth. The comparatively few bald and gray heads that we now see, are those who have not yet discovered the virtues of AYER's HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.
As an elegant dressing for beautifying the Hair, it has no superior.

AYER'S
SARSAPARILLA,
FOR PURIFYING THE BLOOD.
A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which unfortunate health, and entailing into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, Scrofula, Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the bones, Side, and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

The Reform Vote.

"Henry Potter, Henry Potter, will you vote with me to-day?"

Henry Potter looked up mildly, as a voter who should say,

"About what's the compensation that you propose to pay?"

"Henry Potter, Henry Potter, there's corruption in the land,

Every voter in New Guinea this election firm should stand.

In the ranks of the opposers of the daring robber band.

Here's a dollar, Henry Potter, for your influence in the cause

Of sustaining constitutions and upholding righteous laws.

Must I say a dollar fifty?—that's the reason why you pause?"

"I've been offered fourteen shillings," Henry Potter then replied,

"All in cash, to vote the ticket on the opposition side

I'll be blowed if I cut under!" Henry Potter calmly cried.

"The corruption at elections, Henry Potter, makes me sigh;

I fear the elective franchise soon will go up high and dry.

Here's two dollars, Henry Potter; now, then, 'how is that for high?'"

Henry Potter took the lucre, and he scan'ed it closely over—

(He'd been sold with a bad counterfeit in 1864)

"I'll be down right after dinner—I never vote before."

Long and anxiously I waited; Henry Potter didn't come,

So at length I sought the poll list, found he'd voted and gone home—

And the fourteen-shilling fellow stood there, smiling as one stunned.

—A practical temperance reform is in progress along the line of the Kennebec River that presents many interesting features and deserves all the encouragement that good people can give it. The movements seems to have begun with a few habitual drunkards and occasional tipplers in the city of Gardiner, whom no laws were able to prevent getting and using liquor. It was also apparently spontaneous, the professed temperance men having had nothing to do with it until it was in full progress. It is only just to them to say that they have joined heartily in the movement now, and are rendering efficient service in promoting the reform. Soon after the formation of the Gardiner club, another precisely similar was started in Augusta, which has enlisted a very large number, several of the officers being young men who have been nearly ruined by intemperance. Very large meetings have been held, entirely filling one of the largest halls in the city, at which great delegations of the Gardiner club have been present, having gone to Augusta by special trains. Those who have signed the pledge in Augusta alone are numbered by hundreds. Now the reform has taken root in the city of Hallowell, lying between Augusta and Gardiner, but it is yet too early to speak of the results there.

—William Hennessey Cooke, who is alleged to have been concerned with the voucher robbers, returned to New York from Europe on Friday, and was bailed in $10,000 on two indictments for forgery of warrants against the city treasurer. It is thought he returned to testify in the case of the voucher thieves, Haggerty and Baulch.

—The statement that Wm. F Weld & Co. of Boston have offered to compromise the suits pending against them for any sum of money is absolutely denied.

An Undoubted Security,

PAYING 60 PER CENT.

MORE INCOME

Than Government Bonds

AND

9 1-2 Per Cent. on the Investment.

FIRST MORTGAGE SINKING FUND GOLD BONDS OF THE

Logansport, Crawfordsville and South-Western Railway of Indiana.

THEY BEAR SIX PER CENT. GOLD INTEREST, PAYABLE QUARTERLY IN NEW YORK, FREE OF GOVERNMENT TAX, AND ARE COUPON AND REGISTERED.

The issue is limited to $16,000 per mile, in denominations of $1 000, $500, and $100.

This road, 92 miles long, affords the shortest existing outlet to Chicago, Toledo, Detroit, Fort Wayne, Logansport, and intermediate points for the celebrated Block and Bituminous Coals of Parke County, as also, for the large surplus products of the rich agricultural and mineral section of the State which it traverses.

For the present we are offering these Bonds at 95 and accrued interest in currency, or will exchange them for Government Bonds, or other marketable securities, at the rates of the day.

Further and full particulars, with pamphlets and maps, furnished by us on personal or written application.

AMERICAN & FOREIGN PATENTS.

R. B. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,* No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"Mr. R. B. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such manifest proof of great talent and ability on his part tends me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, has paid considerable attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledged to be superior in the United States.

CERTAIN CURE in all cases or no charges made.

DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

Boston, April 11, 1871. eodawly

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a want which has long been felt. It is especially adapted to

Shingle and Tin Roofs. (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold: is durable and beautiful, will color permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in us. New Shingles covered with this article warranted to last fifty years and for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Black-Boards.

TUESDAY, MARCH 26, 1872.

Political.

Boards of selectmen throughout Connecticut held their final sessions to admit new voters, excepting those whose qualifications are not to mature, on Saturday. The republicans have made large gains in all sections, comparing applications from both parties with the number actually made. In Hartford they are fully one hundred and fifty ahead, the democrats conceding over one hundred. The Waterbury Republican had 116 to make and made 108, while the democrats in the same town having 216 to make got only only 116 in. Willimantic made two republicans to one democrat. All the returns are very encouraging. This week will be a busy one for both parties. The democrats appear to have lost force in speakers. Republican meetings will be held in about fifty towns, with speeches by Henry Wilson, Gens. Nye, Hawley, Swift, Harriman, Ferry, Henry O'Conner and several others.

FIRE IN BIDDEFORD.—A fire broke out Sunday afternoon in Hobson & Stimpson's saw-mill in Biddeford, Me., which with its contents was entirely destroyed. The fire soon extended to a large building known as Shannon's mill, operated by G. H. Adams as a general manufactory of lumber, and by J. A. Johnson, manufacturer of sash, blinds and doors. The building and contents was wholly consumed. The occupants of a two story dwelling house on the opposite side of the street, belonging to Luther Bryant, in attempting to move a stove, upset it and set fire to the house, which was pretty well gutted. Total loss, about $12,000. Insurance $3,000.

SECRETARY ROBESON has decided not to have counsel during his investigation, but to allow matters to take their own course, not doubting he will be able to refute all charges against his administration. Among the witnesses whom Dana has requested summoned are ex-Assistant Secretary Faxon, Controller Broadhead, Chief Engineer King, Chief Naval Constructor Lenthall, William H. Smith, chief clerk of the bureau of steam engineering, and other bureau officials of the department.

STONING RAILROAD TRAINS.—Trains on the Belleville and Southern Illinois Railroad were stoned lately and the lives of the passengers endangered by a gang of scoundrels near Pinkerville, Mo. Two men were arrested in the act. While being searched by the city marshal one of them drew a knife and stabbed him, inflicting a wound thirteen inches long, whereupon the marshal shot the desperado dead.

State News.

Nathaniel Colby of Dunbarton dropped dead very suddenly of heart disease, on Friday afternoon, while at work in the woods about half a mile distant from his residence. He was 73 years of age, and leaves a widow and five sons.

At a meeting of the executive committee of the New Hampshire Agricultural Society it was voted to hold the next annual fair of the society on the 1st, 2nd, 3rd and 4th of October next, and the secretary was directed to receive proposals from parties in those towns which desire to have the fair in their localities.

Captain John O. Wallingford, superintendent of the Cocheco Mills, died in Dover on Saturday morning, of consumption, after an illness of several months, aged thirty-one years. He served creditably during the late rebellion, holding the positions of sergeant-major, lieutenant and captain. He was for several terms commander of Charles W. Sawyer Post, G. A. R., and did much toward forwarding the benevolent objects of the order.

The new schoolhouse on Mount Pleasant at Nashua was dedicated on Friday afternoon. Mayor Dana Sargent presided. The new house is 90 feet 4 inches by 62 feet 4 inches, with a tower on the south end 106 feet in height. It has eight schoolrooms, a hall in the third story the full size of the building and a ward room, boiler room, etc., in the basement. The total cost of the building is about $35,000.

Mrs. Nancy R. Melville has been chosen school superintendent at Nelson, no man being found willing to serve.

CARELESSNESS.—A man named Clark, in Cold Spring, Mass., by the most foolish carelessness with a loaded gun, shot his sister, aged 22, and wounded her daughter, six years old, so that the amputation of the little girl's arm was necessary. The woman's head was shattered.

FOSTER'S DEMOCRAT, published at Dover, (a successor to or continuation of the Manchester "Public Forum,") is one of the most satisfactory of our copperhead exchanges to read, as the editor does not leave any doubt as to what ground he stands on or what "national issues" he supports, which is more than we can find out concerning most other Democratic editors. The paper claims "a larger circulation than any other political newspaper printed in the First Congressional District of New Hampshire;" and we add that if we were one of the genuine old hunker Democratic school we should prefer it to any paper in the State, as it is the most consistent, outspoken advocate of old-line Democratic principles within the boundaries of New Hampshire. Neither "passive," possum nor any other half and-half course of action—or inaction—is supported in its columns.

In its issue for March 23 we find an editorial on the result of the recent State election, the cause of the Democratic defeat and its probable consequences upon the Democratic party. The usual copperhead charges of "fraud and corruption" are of course made, but the editor does not consider the defeat of the party to be mainly due to those agencies,—but to the failure of the Democrats to expel Senator Smith last June, when it was found that the old hero could not be fashioned into a copperheaded tool for remodelling ward and district boundaries in such a manner that the State *could* not go Republican. "His treason [i. e., his stubborn refusal to vote as Bingham, Sinclair, Gove and other noble patriots dictated,] was discovered in season to save everything, and the universal and popular sentiment of the party was openly and boldly in favor of his summary ejectment," is the way the Democrat speaks of the matter, and we do not question its truth, nor that, as the same paper also says, no malice save the fear of the "infernal rub a dub it would have made to have served an impelling and propelling order on old Smith to quit right off," had the copperheads illegally expelled Judge Smith *for not voting the copperhead ticket)* was all that deterred true leaders from doing as they would have liked to do. Having decided that the noble conduct of "Alvah Smith of Lempster" saved New Hampshire from the disgrace of a second copperhead victory, the Democrat proceeds as follows:—

Now let us look at the probable consequences of this election upon the Democratic party of the country. We are living in peculiar times. Our party lines are very loosely drawn, and we see very little, almost nothing, of principle anywhere beyond the limits of our own little State. We hate to acknowledge it, but it is a fact that we have no great party leaders in this country to-day, no master minds, to seize upon and hold up the banner of sound Democratic principle.

On the contrary, the great question is, how shall we trade and what sort of a bargain can we make to get into power? One set of traders say we must nominate for President some easy-going, undecided, indefinite sort of man, of Democratic antecedents and proclivities, if need be, but unobjectionable to conservative Republicans, white blackbirds, &c. And he must stand on a very delicate platform, made of such gingerly material that the Radical battering rams will, out of pure good manners, refrain from assaulting it.

Another class say we must nominate Trumbull, or Sumner, or Gratz Brown, or Greeley, or some such "Democratic" hero of a life-time against Grant, on a 14th and 15th amendment platform, and we shall catch all the soreheads and chilblains of the other side, and win straight. Another set declare that we must all resolve ourselves into a passion party of nobodies, and either sit down and suck our thumbs for the year to come, or play bob to a new kite to be made and sent into the air by the disaffected Republicans at Cincinnati in May. The result of our State election will have an inspiring effect upon all these classes, and is of itself, as they view it, a complete argument, proving that each of them is right.

But we also have another class of men, true, firmly grounded and immovable on the solid foundation of principle. They vote and act upon their own firm convictions of right. This class comprises the great mass of the Democratic voters and people of this country. But large as it is, it does not control the party organization, nor dictate its policy anywhere. The other classes we have named, comparatively few in numbers, timid and cowardly in policy, have the reins in hand and will, if they can, put the party in the same relative position with their enemy that the old Whig party held with the Democratic party in 1852. They intend that we shall have two parties running on substantially the same Republican or Radical platform. No straight Democratic candidate nor Democratic principle shall be in the contest at all. This is the lesson they have been urging us to learn and practice ever since the war, and they are enforcing it with peculiar emphasis since our election. They intend to force the Democratic party into this position. They are backed up by the bondholding, banking and high tariff interests, whose great purpose is the destruction of the Democratic party, as the only barrier against the supremacy of the bondedcapital and corporate money power of the country.

We very much fear that they are likely to succeed. If they do, the next election will, in all probability, bring out only Democratic defeat, but destruction of the organization and disbanding of the party. An organization without principle cannot long survive.

LETTERS from correspondents with Professor Agassiz, dated at Rio Janeiro as late as February 23, have been received, giving some account of the scientific results of the expedition thus far, mingled with a good deal of description of the country and the industrial condition of the people. The party remained in Rio and its neighborhood about a month, making excursions to the interior, several of which proved profitable in the acquisition of valuable specimens. The Professor has found some specimens of marine animals more nearly resembling the extinct tribolites than any living species. He has secured a large and valuable collection of specimens of seaweeds, which is constantly increasing. In an excursion to the Southern Parahyba River the Professor obtained a number of undescribed species of fishes, entirely unknown to science, which he sealed up in a copper barrel filled with alcohol for future examination. While visiting at a gentleman's house on the way back the barrel was placed in the basement for safe keeping, but the cook of the establishment, in her super-serviceable zeal, fried the fishes for the Professor's breakfast. His host, when he discovered the loss, set the fishermen of the Parahyba at work to make good the Professor's collection if possible.

BUSINESS NOTICES.

Pills which contain antimony, quinine, and calomel, should be avoided, as severe griping pains would be their only result. The safest, surest, and best pills are *Parsons' Purgative or Anti-Bilious Pills.*

DEAD MEN TELL NO TALES; if they did, men would rise against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The mission of modern medical science is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter no hostile antitoxic. m5 4w

THE HISTORY OF A NATIONAL REMEDY. Here is the history of the most celebrated tonic of the age in a nutshell. In 1860 it was announced that a certain combination of vegetable ingredients, with a pure diffusive stimulant, was working wonders in the cure of chronic dyspepsia, nervous debility, liver complaint, periodical fevers, rheumatism and constitutional weakness. The unpretending name given to the specific was PLANTATION BITTERS. The statement attracted the attention of invalids everywhere. The new remedy received a fair trial, and the results more than confirmed all that had been said in its praise. Thenceforward it was a grand success. The business columns of the press spread the glorious news far and wide, and the martyrs to indigestion, biliousness, physical prostration and premature decay, as if by common consent, sought relief from the new vegetable restorative. They found what they sought. From that time to the present the increase in the demand for Plantation Bitters has been one of the most striking events in this age.

SPECIAL NOTICES.

What Spring Brings With It.

Regarded from a medical standpoint, spring is not the delectable season described by vernal poets. On the contrary, its yield of intermittent fevers, bilious attacks, rheumatic pains, disorders of the stomach, nervous complaints, and pulmonary diseases, is almost as large as its crop of violets, snowdrops and cherry blossoms. The invisible seeds of innumerable maladies rise with the morning mists, and are scattered broadcast by the vapors of night. Who can resist their mephitic influence? Certainly not the weak by nature, or those whose nervous energies have been overtasked by mental or physical labor, unless they tone and invigorate their systems and thus enable them to cope with the unhealthy influences by which they are surrounded.

The only medicinal agent by which this object can be rapidly and safely accomplished, is the great vegetable renovant and invigorant, HOSTETTER'S STOMACH BITTERS. The operation of this celebrated specific is four-fold. It strengthens the digestive organs, regulates the secretions, improves the condition of the blood, superinduces a regular habit of body, and thereby imparts such vigor and elasticity to the whole physical structure as to render it capable of resisting the inroads of the poisonous miasma, with which the spring atmosphere is always to some extent impregnated. Here, then, is a ready and certain means of escaping the disorders prevalent at this season, or (if they have already fastened upon the system) of conquering them speedily and thoroughly. The fame of a medicine is not of much consequence, provided it does its work properly, but of Hostetter's Bitters it may be fairly said, that they effect a cure without outraging the patient's sense of taste.

SKIN DISEASES.

PERRY'S IMPROVED COMEDONE AND PIMPLE REMEDY. The Skin Medicine of the Age. Is warranted to cure FLESH WORMS, PIMPLES eruptions and BLOTCHES disfigurations of the face. Sold by all *Druggists.* Depot 49 Bond St., New York.

Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET, N.Y.

EX-GOVERNOR CURTIN of Pennsylvania has resigned his Russian mission.

—Eliza Norton of South Boston was garroted ten cents worth on Saturday night.

DURING OUR INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass., for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs, the Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels incorporated him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

HOLLOWAY'S Ointment and Pills. Scrofula or morbid deposits in the lungs, joints and glands. These medicines have rendered this disease a less formidable scourge than formerly. It has been incontestably proved that in Scrofulous affections they have effected thousands of cures. Sold everywhere. 25 cents per box or pot.

More than forty years have elapsed since *Johnson's Anodyne Liniment* was first invented, during which time hundreds of thousands have been benefited by its use. Probably no article ever became so universally popular with all classes as Johnson's Anodyne Liniment.

CAIRO AND FULTON

RAILROAD COMPANY

FIRST MORTGAGE, SINKING FUND,

Land Grant Bonds,

DUE 1891 IN GOLD.

Interest 7 Per Cent. Gold, Free of Tax.

THE CAIRO AND FULTON ROAD is the main artery for travel across the State of Arkansas. It is the continuation of the St. Louis and Iron Mountain Railroad and under the same management. It will connect the St. Louis roads and the Illinois Central Railroad, with the International Railroad, the Southern Pacific Railroad and the Texas system of roads. Its length is 301 miles, and it deviates from a straight line but six miles. It has no grades over 15 feet to the mile. It passes through the most thriving counties and the Capital, Little Rock. The Land Grant of 1,256,400 acres, is one of the most extensive and valuable ever made to any road by Congress. The whole road is under contract for building. About 60 miles are built and track-laying will go on at the rate of about half a mile a day, until the connection of Little Rock with St. Louis is completed. The First Mortgage Bonds, $8,000,000, $5,000,000 of which have already been sold, are the first lien upon the road, rolling-stock and lands. The officers are:

THOMAS ALLEN, St. Louis,.....President.
H. G. MARQUAND, New York,..Vice President.
D. W. MCWILLIAMS, New York,.....Treasurer.
W. B. DONALDSON, St. Louis,.....Secretary.

New York Directors:

H. M. ALEXANDER, H. G. MARQUAND,
WM. T. BLODGETT, JOHN H. SWIFT,
WM. H. SWIFT, ALANSON TRASK.

The Union Trust Company, Trustee of the Bonds. Price 90 and accrued interest in currency.

The Company reserves the right to advance the price at any time. Marketable securities received in exchange at full market rates, and express charges paid.

Maps and pamphlets may be obtained upon application to the selling agents.

DIALOGUE NUMBER NO. 2.

Stranger.—Where is the best and cheapest place to buy confectionery?

Many Citizens.—Why? at J. RIDER & SON'S, of course; that's the place, because they buy it from Arnowd and Hanson's, of New York, the Largest Confectionery Houses for its manufacture in this country, and who supply most if not all the celebrated candy stores in New York and Boston; and you are sure you will not be compelled to eat candies made by dirty hands and where people have cold in their heads all the year.

Stran.—Do their workmen live at the manufactory?

Cits.—No. They live at a distance and are obliged to be up in the morning and have their hair combed so as not to be compelled to do it over their kettles when sugar is boiling, thus making it all taste as though a nutmeg grater had been shaken over it, or calling it Fruit Candy.

Stran.—Are their candies fresh, and not mixed up with Rhubarb, Paregoric and Squills?

Cits.—Yes! They are received fresh every week, and purchased in lots exceeding two or three five-pound boxes, so they are able to sell at 25 cents a pound—when some dealers have to pay 30 cts. at wholesale, bought of second-hand peddlers, or made from Molasses Sugar, mixed with "terra alba" to enable them to compete with the heavier traders.

Stran.—Do they sell to dealers?

Cits.—No; because they prefer that the general public shall have their candy at less than 500 per cent. profit on small quantities. This way of dealing makes some people pretty mad, because they see so many going there to buy where they can save money and get a far superior article.

Stran.—Much obliged; I shall certainly go there and see if what you say is O. K. or not.

Cits.—Well, do so; and you will be more than satisfied. m19

LOCAL AFFAIRS.

Laconics.

Fish are placed among the luxuries. Ten cents a pound is the retail price here.

Schooner Moonlight, Davidson, went ashore at Odiorne's Point, Saturday, and is a total loss.

Smelting is profitable to those lucky enough to catch them, little nibblers bringing one shilling a pound in Boston.

Mr. S. Ayers Avery, formerly a news dealer in Portsmouth, committed suicide on Monday at the Preble House, Portland, by poisoning himself.

Mr. John R. Foster of this city was the recipient of some fine specimens of trout taken from Lake Winnepisukee on Saturday. Some weighing 15 and 18 pounds have been caught this spring.

A Portsmouth fireman thought so much of being a member of a fire company that he went to court because his name was stricken from the roll for "absence at three meetings," as Wallie says He won the case and is a jolly fireman some more.

Mr. Thos. P. Moses is quite ill, probably from over application in his professional pursuits as music-teacher and artist, for some months past; and his pupils and others interested are requested to regulate their movements so far as he is concerned, by this notice.

We are glad to hear that the Biddeford Journal, one of the ablest conducted Republican weeklies in New England, is more prosperous than ever. Its editor, John E. Butler, is a live man and wields a keen pen. Long may he and his paper be a power in the land.

A grand dessert was offered at the Franklin House on Monday noon. One of the boarders was slapped on the right cheek and not being piously inclined rebuked the act by shoving his adversary's head through two panes of glass, throwing him on the floor and going in regardless of consequences.

Passion Week is being observed by St. John's Parish in this city, by daily services, as follows: Tuesday, at 5 o'clock P. M., in the Chapel; Wednesday, at 7 1-2 P. M., in Chapel; Maundy-Thursday (Holy Communion,) at 7 1-2 P. M., in the Church; Good Friday, at 10 1-4 A. M., in the Church; Easter Eve, (with Baptism,) at 5 P. M., in the Chapel.

Mr. C. C. Chapman, travelling agent for a Boston firm of stationers, was taken into custody by the City Marshal on Monday on a complaint that he was cruelly abusing his horse, but was discharged without being locked up on the voluntary representations of Messrs. Beacham, Frye and others, to the effect that the horse was balky, that his driver only used the customary means employed by horsemen for overcoming stubbornness in horses, and that nothing that deserved the name of cruelty had been employed.

Willie is a knowing body. He says one of the editors of the CHRONICLE sent a dispatch to a Boston paper about the pay of foremen at the Navy Yard, but that we "discreetly refrain" from publishing the item. Now, that's strange; decidedly strange. We knew nothing of the matter before we read it in the Boston papers. But Willie aspires to know more about us than we do ourselves. What puzzles us mostly, however, is what business it can be to Willie, whether we sent the dispatch or not. We linger in wonderment to ascertain, if possible.

A curious fact was brought to light by the alarm of fire at midnight on Sunday, viz., that Sunday lasts longer with the single men of our Fire Department than it does with the married ones, which is very much to the credit of the single men. As the different fire companies hastily mustered at their engine houses in willing obedience to the urgent call of the bells, it was noticed that all the married members were clothed in working dress and had their hair rumpled, showing that with them Sunday was a thing of the past; while all the unmarried members presented themselves in gorgeous array and most of them with nicely-arranged hair, showing that with them Sunday was still in full force. So eager were the latter to appear well on the occasion that some of them, who live quite near the engines to which they belong, did not arrive at the engine-houses until after the machines had returned from their needless run; and one young but enterprising "Sagamore boy" came in breathless from the direction of the West End some time after roll-call was over, having probably mistaken his route from home, as he was noticed to take a very different direction from that by which he came, when he departed.

Harlow's Band Concert.

Notwithstanding unforseen obstacles in the way of complete success, Mr Harlow has succeeded in obtaining an array of talent which assures a fine concert this evening. The Band will perform some of the liveliest and most popular new pieces, including "The Rage in London," which is bound to create a sensation. On Monday, Mr. Harlow succeeded in making an engagement with Miss Persis Bell, a violin pupil of Mr. Julius Eichberg, the popular director of the Boston Conservatory of Music. The Boston Globe says of her first appearance at the Meblig concerts there last week:—

Miss Bell has a brilliant future before her, if her progress in the future should at all compare with that she has already made. She is but fifteen years of age, and yet she already deserves the name of artist, if purity of taste and conscientiousness, added to unusual brilliancy of execution, can entitle her to the honorable distinction. Her intonation is exceptionally perfect. Not the shadow of a false note was observable in her playing. The tone is pure and full, her bowing firm and graceful, her expression delicate and full of feeling, and her style refined to a degree. There is nothing sticky or superficial in her execution, but all is solid, truthful and earnest. She performed the andante from Mendelssohn's violin concerto with great breadth and sentiment, and gave ticket of a most exquisite ear, and an almost perfect command over the finger board. Vieuxtemps's charming fantasie Caprice, was also given with a fine appreciation of its character, and its difficult bowing was executed in a manner almost faultless. *With exception of Camilla Urso, we know of no lady violinist who rivals Miss Bell* in the best qualities of her art.

Mr. Harlow and his young pupil, Master Willie Nowell, will appear in a violin duett; and Mr. L. V. Newell has consented to make his *debut* as a comic singer, in costume. Prof. Frank L. Martyn will preside at the piano. The entertainment will be one of the best of the season. Mr. Harlow, though laboring under great disadvantages, has shown a desire to please the public which we hope our citizens will show their appreciation of by filling the Temple to its utmost capacity. There will be no reserved seats and the price of admission is 35 cents. The concert will commence at 8 o'clock.

Kittery

The town election at Kittery, Monday, resulted in the election of the Republican candidates by a vote of 153 to 65. The following are the officers chosen for the ensuing year: Town Clerk, Calvin L Hayes; Selectmen, &c., William W. Locke, Joseph H. Seward, James W. Brooks; Treasurer, Luther P. Call; Supt. Sch. Com., Ivory F. Frisbee; Town Agent, Moses A. Safford; Health Committee, Mark F. Wentworth, Azariah L. Spinney, John D. Lawrence; Auditors, Moses A. Safford, John Wentworth; Constables, Richard D. Philbrick, Thomas J. Pettigrew, Hiram Tobey; Moderator, John Wentworth.

Voted, that any person or Corporation employing not less than twenty-five men and investing not less than $5000 for the purpose of manufacturing shall be exempted from all taxes for ten years.

The question of erecting a Town Hall was decided in the negative, as was also that concerning a Town Farm. The appropriations were as follows:—for support of poor, $1500; contingent, $1500; repairing roads, $2000; schools, $3400,—which with State tax will make up about $4680. It was voted that the town have no liquor agency.

FOUR PERSONS were burned to death in Lawrence, Kansas, on the night of the 21st,—Sandy Clayton and three sons, aged 14, 8 and 4 years.

PRESIDENT GRANT is said to be favorable to a United States protectorate over Mexico, but desires Congress to move in the matter.

—The British House of Lords has adjourned over for the Easter holidays, and will not reassemble until the 8th of April.

—Carlotta Patti will return to this country and give concerts in our principla cities next fall, under the management of Mr. Strakosch.

—The fast double-team horse, formerly known as "Ben Franklin," and also as "India Rubber Ben," is now in New York, and has recently been driven double by Dan Mace in company with Commodore Vanderbilt's Mountain Boy.

—An Iowa couple purchased a shroud in anticipation of the early death of a daughter, but the child recovered rapidly while the wife was taken sick and died within two days, and was buried in the shroud which she had purchased for her daughter.

MRS. MANCHESTER, the celebrated clairvoyant physic an, will positively be in Portsmouth on Thursday, March 28, and may be found for ten days at the Franklin House. See her card in another column. 3.d1w

DEATHS.

In this city, March 24, Mrs. MARIA BANKS, aged 48 years, widow of the late Oren Banks.

☞ Funeral this day, Tuesday, at 2 o'clock, P. M., from No. 24 Hanover St.

ANOTHER GREAT STORM has blocked the roads in the Provinces and the eastern part of Maine.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, CANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, IN SATISFACTORY PRICES, in a workmanlike manner, at our press, or at the CHRONICLE OFFICE will be *promptly filled.*

The Eye, Ear, Catarrh and Throat.

MRS. MANCHESTER

The Independent

CLAIRVOYANT,

—AND—

ELECTRIC PHYSICIAN,

Formerly from New York, but late of Portland, will arrive in Portsmouth, MARCH 28th, and can be found at the FRANKLIN HOUSE for ten days. Where she will treat all diseases flesh is heir to.

Price for Examination, $1.00.

CERTIFICATES OF CURES.

A Case of Blindness Cured.

MRS. MANCHESTER: This is to certify that I called upon you last October with a son of mine who had been Blind over a year; totally blind with one Eye and very nearly so with the other. I had had him treated by three Eminent Physicians, and also had taken him to the Eye Infirmary in Boston, but neither did him any good, and he still grew worse. MRS. MANCHESTER assured me she could cure him. I commenced with her treatment, and at this time the Eyes are perfectly well, and the other is gaining! I had given up all hope of his ever seeing again, but, by the help of God and Mrs. Manchester's skill, he is now able to work, which I am sure he never would if it had not been for her. Let all give her a trial, and by calling on me the boy can be seen by any one.

This is a true statement of the case.

JOHN MOORMICK,
JOHN MOORMICK, JR., Portsmouth.

This is to certify that Mrs. Manchester has doctored in my family for Spinal disease of five years' standing; also of deafness and catarrh my father of blindness. And I would recommend her to the public as a skillful physician, and every way worthy of patronage.

JOHN HOBSON, Portland, Me.

One of the Greatest Cures on Record.

BANGOR, Sept. 28, 1870.

This is to certify that I have been sick for twenty-five years with liver complaint, as the physicians have all told me, and I have tried the best in New York and Bangor by a large number of Physicians, and found no relief until I called on Mrs. MANCHESTER a short time ago. She told me very readily what the trouble was—that I had abscesses and tumors. I have taken her medicine, and have had proof that what she told me was perfectly correct. If any one doubts this, let them call on me personally, and I will give them correct information in regard to my case. I want the sick and suffering to go and consult MRS. MANCHESTER, and not be discouraged by ignorant and faithless people, but have a mind of your own, and you will get relief.

m23 MRS. HENRIETTA PEABODY, Veazie.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS on a policy of Ten Thousand Dollars, at ORDINARY LIFE RATES, Age 37, annual premium, - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.

At the end of 15 years - - 151 per cent. of premiums returned.

At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid up Policy.

At the end of 10 years, - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase

yearly income of - - - - - $173.30
Or, at the end of 20 years, of - - - 647.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,

Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rules of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Equitable Life Assurance Society,

Morning Chronicle.

MY FIRST EARTHQUAKE.—A month after I landed in Sacramento I enjoyed my first earthquake. It was one which was long called the great earthquake, and it is doubtless so distinguished till this day. It was after noon, on a bright October day. I was coming down Third street. The only objects in motion anywhere in sight in that thickly built and populous quarter were a man in a buggy behind me, and a street car wending slowly up the cross street. Otherwise, all was solitude and a Sabbath stillness. As I turned the corner, around a frame house, there was a great rattle jar, and it occurred to me that here was an item!—no doubt a fight in that house.

Before I could turn and seek the door there came a really terrific shock; the ground seemed to roll under me in waves, interrupted by a violent juggling up and down, and there was a heavy grinding noise as of brick houses rubbing together. I fell up against the frame house and hurt my elbow. I knew what it was now and from mere reportorial instinct, noticing else, took out my watch and noted the time of day; at that moment a third and still severer shock came, and as I reeled about on the pavement, trying to keep my footing, I saw a sight! The entire front of a tall four-story brick building in Third street sprang out like a door and fell across the street, raising a dust like a great volume of smoke. And here cause the buggy—overtaken and the man, and in less time than I can tell it the vehicle was distributed in small fragments along 300 yards of street. One could have fancied that somebody had fired a charge of chilrounds and rags down the thoroughfare.

The street car had stopped, the horses were rearing and plunging, and one man had crashed half way through a glass window on one side of the car, got wedged fast, and was squirming and screaming like an impaled madman. Every door of every house, as far as the eye could reach, was vomiting a stream of human beings; and almost before one could execute a wink and begin another, there was a massed multitude of people stretching in endless procession down every street my position commanded.

Never was solemn solitude turned into teeming life quicker. Of the wonders wrought by "the great earthquake," these were all that came under my eye; but the tricks it did elsewhere, and far and wide over the town, made toothsome gossip for nine days. The destruction of property was trifling—the injury to it was wide spread and somewhat serious. The "curiosities" of the earthquake were simply endless. Gentlemen and ladies who were sick, or were taking a siesta, or had dispated till a late hour and were making up lost sleep, thronged into the public streets in all sorts of queer apparel, and some without any at all. One woman who had been washing a naked child, ran down the street holding it by the heels as if it were a dressed turkey.

Prominent citizens, who were supposed to keep the Sabbath strictly, rushed out of saloons in their shirt-sleeves, with billiard-cues in their hands. Dozens of men, with necks swathed in napkins, rushed from barbers' shops, lathered to the eyes, or with one cheek clean shaved and the other still bearing a hairy stubble. Horses broke from stables, and a frightened dog rushed up a short attic ladder and out on a roof, and when his scare was over had not the nerve to go down again the same way he had gone up. A prominent editor flew down stairs, in the principal hotel, with nothing on but one brief undergarment—was a chambermaid, and exclaimed—"Oh, what shall I do! Where shall I go?" She responded with naive severity—"If you have a choice, you might try a clothing store!"—*The Innocents at Home.*

WHAT CONSTITUTES POLYGAMY.—The case of David P. Jones, arrested on a charge of polygamy, was examined at the Lawrence, Mass., police court on Saturday morning. C. E. Briggs, Esq., appeared for Jones. George R. Rowe, city clerk, testified to marrying Jones to one Emma Thomas of Lawrence on the 17th of August, 1871, and Rev. Mr. Berry of Pelham, N. H., testified to marrying Jones on the 17th of December, 1871, to one Elizabeth Sebbins. The certificates of both marriages were produced. Mrs. Elizabeth Sebbins confirmed the testimony of Mr. Berry. She also stated that she had previously been married to a man named Sebbins and that he was living when she married Jones; but as he had several wives she did not think he had any legal claim on her. The case got considerably mixed up at this point, and the judge wished to rule out all evidence not bearing upon the marriage with Jones; but Mr. Briggs protested, stating that the line of defence he would adopt would be to prove that Mrs. Sebbins was the legal wife of another man, and therefore could not be the wife of Jones. Mr. Briggs quoted from Greenleaf on Evidence, showing that if he could establish such a previous marriage on the part of the woman, the charge of polygamy against his client would not hold good. The judge said he didn't care if the woman had been seven times married, Jones was guilty of polygamy if he married and cohabited with her. Mr. Briggs remarked that if that was his opinion, he would waive the further examination of the case until it was brought before a higher tribunal. Jones was bound over in $1000 for trial at the next term of the superior court.

—A despatch from Vienna says that Strauss, the famous composer, has been engaged for Mr. Gilmore's Peace Jubilee.

The Singer
SEWING MACHINE
STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new hoop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are as we have said very good points, and the agents selling them use them to divert entirely the would-be buyer from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER
IS THE
OLDEST
SEWING MACHINE
IN THE MARKET,

All others being copied from its first model, does two-thirds the sewing done in this country, and has its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is lighter speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

AYER'S HAIR VIGOR.

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes; to fall off prematurely, and either effect is unsightly and unpleasant to be dread. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of men and women. HIS HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the glossy and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of this art. If you are disfigured, or made old, austere and ugly by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

NOTICE.
ROCKINGHAM TEN CENTS
SAVINGS BANK,
No. 29 Market Street,
PORTSMOUTH, N. H.
AARON H. HILL, President,
JOHN CHRISTIE, Treasurer.

This Bank pays five per cent. per annum, free of all tax. A greater rate is prohibited by law.

Two dividends are made in the year: in June and December; and an extra dividend of the surplus earnings every five years. The first extra will be in June, 1874.

Depositing on interest on the FIRST day of every MONTH, and deposits made during the FIRST THREE days of each MONTH will draw interest from the FIRST day of that MONTH.

Dividends not drawn will be added to the principal, and draw interest from the time when declared.

Money is received on deposit, payable on checks at sight.

Portsmouth, March 8, 1872.

AYER'S
SARSAPARILLA,
FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cures of the most obstinate and severe maladies, which are always yielding and succumbing to its mild and thorough influence. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearances on the surface of humors which should be expelled from the blood. Internal derangements are the detonations of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear. Such are *Blotches and Pimples on the face, Scrofula, Kidneys, Lungs, Eruptions and ruptive Diseases of the skin St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotch, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Liver Complaint, Dropsy, and Dropsical Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Scrofula, and General Debility.* With their departure health returns.

EASTER.

BY MRS. A. D. T. WHITNEY.

Do saints keep holy day in heavenly places?
Does the old joy shine new in angel faces?
Are hymns still sung the night when Christ was born,
And anthems on the Resurrection Morn?
Because our little year of earth is run,
Do they make record there beyond the sun?
And in their homes of light so far away
Mark with us the sweet coming of this day?
What is their Easter? For they have no graves.
No shadow there the holy sunrise craves,—
Deep in the heart of noontide marvelous
Whose breaking glory reaches down to us.
How did the Lord keep Easter? With His own!
Back to meet Mary where she grieved alone,
With face and mien all tenderly the same,
Unto the very sepulcher He came.
Ah, the dear message that He gave her then,—
Said for the sake of all bruised hearts of men!
—"Go, tell those friends who have believed on me,
I go before them into Galilee!"
"Into the life so poor and hard and plain,
That for a while they must take up again,
My presence passes! Where their feet toil slow
Mine, shining-swift with love, still foremost go!
Say, Mary, I will meet them. By the way,
To walk a little with them; where they stay,
To bring my peace. Watch! For ye do not know
The day, the hour, when I may find you so!"—
And I do think, as He came back to her,
The many mansions may be all astir
With tender steps that hasten in the way,
Seeking their own upon this Easter Day.
Parting the veil that hideth them about,
I think they do come, softly wis-ful, out
From homes of heaven that only seem so far,
And walk in gardens where the new tombs are! —*Scribner's for April.*

SAVE YOUR LIFE

By promptly using WINCHESTER'S HYPO-PHOSPHITES, a chemically pure preparation of PHOSPHORUS, one of the most important elements of the Human Body, and the only means by which this LIFE GIVING and LIFE-SUSTAINING element can be supplied to the system. We guarantee it to be a certain CURE for COUGHS, COLDS, CONSUMPTION, and all Pulmonary Affections, and the Specific Remedy for NEUROTICA, DYSPEPSIA, PARALYSIS, NERVOUS and PHYSICAL DEBILITY and all NERVOUS AFFECTIONS. It is unsurpassed as a TONIC and LIVER PACKER and generator of PURE and HEALTHY BLOOD. For further information, Testimonials, Reports of Physicians, &c., send for our PAMPHLET. Price, $1 per bottle. Sold by all Druggists. Address

J. WINCHESTER & CO., 36 John St., New York.

SAVE YOUR CHILDREN.

Multitudes of them suffer, linger and die because of Worms. The only known remedy for these troublesome and dangerous of all worms in children or adults is Dr. Gould's Pin-Worm Syrup. Purely vegetable; sure death to all worms; a valuable cathartic, and beneficial to health. Warranted. Price reduced to 50 cents per bottle.

GEO. C. GOODWIN & CO., Boston.

Profitable Employment

For one or two persons of either sex, in every town in the United States, by which they may realize from $300 to $1000 per year, with but little interference with ordinary occupation. If the whole time is devoted a much larger sum will be realized. Boys and girls can make nearly as much as grown people. Some making from $7 to $15 per week. For particulars address J. J. FARDWELL & CO., 767 Broadway, N. Y.

An Undoubted Security,

PAYING 60 PER CENT.

MORE INCOME

Than Government Bonds

AND

9 1-2 Per Cent. on the Investment.

FIRST MORTGAGE SINKING FUND GOLD BONDS OF THE

Logansport, Crawfordsville and South-Western Railway of Indiana.

THEY BEAR 8 PER CENT. GOLD INTEREST, PAYABLE QUARTERLY IN NEW YORK, FREE OF GOVERNMENT TAX, AND ARE COUPON AND REGISTERED.

The issue is limited to $16,000 per mile, in denominations of $1,000, $500, and $100.

This road, 92 miles long, affords the shortest existing outlet to Chicago, Toledo, Detroit, Fort Wayne, Logansport, and intermediate points for the celebrated Block and Bituminous Coals of Parke County, as also, for the large surplus products of the rich agricultural and mineral section of the State which it traverses.

For the present we are offering these Bonds at 95 and accrued interest in currency, or will exchange them for Government Bonds, or other marketable securities, at the rates of the day.

Further and full particulars, with pamphlets and maps, furnished by us on personal or written application.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with despatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such manifest proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

SLATE COATING,

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold: is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in use. New shingles covered with this article warranted to last fifty years and for a Slate Coating over Shingles (Old or New) it has been found unequaled. It is also an excellent coating for School Black-Boards.

OH, WOULD I WERE A CHILD AGAIN!

sighs the weary and exhausted one, as the languor and lassitude of spring comes upon him. Come and receive vigor and a length from the wonderful South American Tonic

JURUBEBA,

Long and successfully used in its native country, as a powerful Tonic and Potent Purifier of the Blood, it is found even to exceed the anticipations founded on its great reputation. According to the medical and scientific periodicals of London and Paris, it possesses the MOST POTENT LIVER TONIC properties known to MATERIA MEDICA.

DR. WELLS' EXTRACT OF JURUBEBA

is a perfect remedy for all diseases of the BLOOD, ORGANIC WEAKNESS, GLANDULAR TUMORS, DROPSY, SCROFULA, INTERNAL ABSCESSES, and will remove all obstructions of the LIVER, SPLEEN, KIDNEYS, BOWELS, URETHRINE and URINARY ORGANS.

It is strengthening and nourishing. Like nutrious food taken into the stomach, it assimilates and diffuses itself through the circulation, giving vigor and health.

It regulates the bowels, quiets the nerves, acts directly on the secretive organs, and by its powerful TONIC and restoring effects produces healthy and vigorous action to the whole system.

JOHN Q. KELLOGG, 18 Platt St., N. Y., 4wm10 Sole Agent for the United States.

Price One Dollar per bottle. Send for Circular.

The Daily Chronicle,

Portsmouth, N. H.

WEDNESDAY, MARCH 27, 1872.

WASHINGTON GOSSIP.—It is now stated that Minister Sickles will return to Spain, and at the special request of the President will remain there until his successor is determined upon.

The Secretary of the Treasury has received for redemption about one hundred and forty millions of five-twenty called bonds, the interest on the last twenty millions of which ceased March 20. There are still outstanding nine or ten millions of the "called" bonds on which the interest ceased last December.

An official statement shows an increase in the revenues on spirits, tobacco, fermented liquors, banks and bankers' income, gas and stamps, between September 1, 1871, and March 1, 1872, compared with the same period the previous year, of $4,687,892, against a decrease from exempt articles and occupations of $6,730,618.

Senator Sumner appeared before the French arms investigating committee on Tuesday, but declined to testify. Senator Patterson was examined.

CONGRESS.—The House has passed the Senate soldiers' homestead bill, and a bill for the erection of a colossal statue of Admiral Farragut, in Farragut square, Washington.

It is quite certain that the Senate will pass the House tea and coffee bill. This is regarded as likely to put an end to any further general tariff reduction during the present session.

The House committee on public lands agreed to the bill allowing honorably discharged soldiers and sailors the term of their service upon the five years required under the homestead acts to acquire title to public lands.

FAST DAY PROCLAMATION.

In obedience to a custom transmitted from the fathers, and in recognition of the dependence of this people upon Him who is the bountiful Giver, I do hereby appoint Thursday, the Fourth day of April next, as a day of Fasting and public Prayer. On that day, let the people of this State assemble in their customary places of worship, and humbly implore forgiveness for their manifold sins, and offer fervent supplications for the continuance of the innumerable blessings which a kind and all-wise Benefactor has vouchsafed to them. 'For thou, Lord, art good and ready to forgive; and plenteous in mercy unto all them that call upon thee.'

Given at the Council Chamber, Concord, this twenty-second day of March in the year of our Lord one thousand eight hundred and seventy-two and of the Independence of the United States, the ninety sixth. JAMES A. WESTON.

By His Excellency the Governor, with the advice of the Council.

JOHN H. GOODALE, Secretary of State.

THE SUPREME COURT has announced opinions on several important cases. In Kentucky ex. The Secretary of the Treasury, Justice Davis delivered the opening denying the application for a *mandamus*, on the ground that the statute authorizing the payment of claims for State troops had been repealed, and there was no appropriation any longer for the claim. In the case of the Scotia the court decided that the lights now required to be carried at sea having been adopted by over thirty of the maritime powers must be regarded as required by law of the sea so far as such nations were concerned, and that the court would take judicial notice of this and enforce the rule like any other rule recognized by the law of nations.

ERIE jumped from 51 1-4 to 60 on Monday and 120,000 shares were sold. The general opinion is that it came of a movement of the English stockholders in the direction of buying up the controlling interest, so that they may elect their own board of directors at the July election. It is asserted that Jay Gould has cleared $3,000,000. Erie went to 67 on Tuesday.

IN THE SUIT of the United States against Amand, the shipbuilder of Bordeaux, in 1868, to recover damages for depredations committed by the ram Stonewall, which escaped from Bordeaux, the case having been decided in favor of the defendants by a tribunal of the Seine. Mr. Washburn has now carried the court of cassation.

THE REPORT of the commission to investigate affairs in the United States Treasurer's office has been made. The condition is represented to be satisfactory in most essential particulars, and the losses insignificant when compared with the transactions of the office.

TWEED AND SWEENEY have lost all their political ambition, and, like Jeff. Davis in the "last ditch," earnestly desire "to be let alone."

State News.

On the 20th, in Dublin, the women of Mr. Luke F. Richardson's family were engaged in drawing in a rug, which a three-year-old son of Mr. R. pulled over, throwing down a pair of shears, upon which the little one fell. The brain was pierced to a depth of three inches or more, so that no hope of recovery can be entertained.

The election in Deerfield was a hard fought battle. Some of the Republicans think they would have won the victory, if they could have had fair play. They may yet contest the right of the Representatives chosen to their seats.

Rev. Jacob Chapman has asked a dismission from the church in Deerfield, on account of the wide extent of the parish and want of support.

Political.

The committee from the Pennsylvania legislature on the contested election case in the State senate agreed to report in favor of McClure. The senate will stand sixteen Republicans and sixteen Democrats, with McClure independent.

THE REVOLUTIONISTS IN MEXICO have been driven out of several cities and on the 2d instant were badly defeated in an engagement with forces of General Rocha. This, it is said, is a death-blow to their prospects, but anarchy will continue for some to come.

AN ILL MANNERED DONKEY.—At one of the theatres, a few nights ago, a donkey—not a human, but a quadruped one—took it into his head not to go on the stage at the time he was wanted. As they attempted to lead him forward he began to kick, and he kept it up until he had smashed things up pretty badly. Not content with knocking over two men, he devoted his attention and his heels to the scenery, and before they could stop him he had kicked over a castle and a range of mountains, put his foot through a lake on which two men was beating, overthrew a large city in the midst of a plain and ruined the plain, and demolished an entire palace belonging to a prince of fabulous wealth. The play was seriously marred, and the scene painter has a good deal to do next day to get things to proper shape. A donkey can do a great deal when he gives his whole strength of mind and body to it.

BUSINESS NOTICES.

Pills which contain antimony, quinine, and calomel, should be avoided, as severe griping pains would be their only result. The safest, surest, and best pills are *Parsons' Purgative or Anti-Bilious Pills.*

THE HISTORY OF A NATIONAL REMEDY. Here is the history of the most celebrated tonic of the age in a nutshell. In 1860 it was announced that a certain combination of vegetable ingredients, with a pure diffusive stimulant, was working wonders in the cure of cases of dyspepsia, nervous debility, liver complaint, periodical fevers, rheumatism and constitutional weakness. The unprecedented success to the specific was PLANTATION BITTERS. The statement attracted the attention of invalids everywhere. The new remedy received a fair trial, and the results more than confirmed all that had been said in its praise. Thenceforward it was a grand success. The business columns of the press spread the glorious news far and wide, and the martyrs to indigestion, biliousness, physical prostration and premature decay, as if by common consent, sought relief from the new vegetable restorative. They found what they sought. From that time to the present the increase in the demand for Plantation Bitters has been one of the most striking events in this age.

DEAD MEN TELL NO TALES; if they did, another's against the deploring lancet, the domestic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical practice is "Preserve and Regulate, not destroy," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VINEGAR BITTERS. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote. m5 4w

DURING our INTERVIEW, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer, of Lowell, Mass, for the use of the Court. He explained to his majesty their origin from the great chemist and their uses. The King expressed great gratitude for Sarsaparilla for eruptive diseases, and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace with one of the disorders these medicines cure, gave him special interest in these products of medical skill; indeed, the medical marvels interested him more in our country than all other attractions we had shown him.—*Letters from a Lady in Siam.*

SCROFULOUS HUMORS.—The VEGETINE has cured many cases of Scrofula of five, ten, and twenty years' standing, where the patient has had many physicians, tried many of the known remedies; and, after trying the VEGETINE, the common remark is, "It acts differently, works differently, from any medicine I have ever taken." VEGETINE will cleanse scrofula from the system. Try it.

HOLLOWAY'S PILLS AND OINTMENTS.—Scrofulous or morbid deposits in the lungs, joints and tissues. These medicines have rendered this disease a less formidable scourge than formerly. It has been incontestably proved that in Scrofulous affections they have effected thousands of cures. Sold everywhere. 25 cents per box or pot.

More than forty years have elapsed since *Johnson's Anodyne Liniment* was first invented, during which time hundreds of thousands have been benefited by its use. Probably no article ever became so universally popular with all classes as Johnson's Anodyne Liniment.

SPECIAL NOTICES.

What Spring Brings With It.

Regarded from a medical standpoint, Spring is not the delectable season described by vernal poets. On the contrary, its yield of intermittent fevers, bilious attacks, rheumatic pains, disorders of the stomach, nervous complaints, and pulmonary diseases, is almost as large as its crop of violets, primroses and cherry blossoms. The invalid's seeds of innumerable maladies rise with the morning mists, and are scattered broadcast by the vapors of night. Who can resist their morbific influence? Certainly not the weak by nature, or those whose nervous energies have been overtasked by mental or physical labor, unless they tone and invigorate their systems and thus enable them to cope with the unhealthy influences by which they are surrounded.

The only medicinal agent by which this object can be rapidly and safely accomplished, is the great vegetable renovant and invigorant, HOSTETTER'S STOMACH BITTERS. The operation of this celebrated specific is four fold. It strengthens the digestive organs, regulates the secretions, improves the condition of the blood, and induces a regular habit of body, and thereby imparts such vigor and elasticity to the whole physical structure as to render it capable of resisting the action of the poisonous miasms, with which the spring atmosphere is always to some extent impregnated. Here, then, is a ready and certain means of escaping the disorders prevalent at this season, or (if they have already fastened upon the system) of conquering them speedily and thoroughly. The flavor of a medicine is not of much consequence, provided it does its work properly, but of Hostetter's Bitters it may be fairly said, that they effect a cure without outraging the patient's sense of taste.

SKIN DISEASES.

PERRY'S IMPROVED COMEDONE AND PIMPLE REMEDY. The Skin Medicine of the age. It warranted to cure PERSON WORMS, FIMPLES and BLOTCHES on the human face. Prepared only by Dr. B. PERRY, Dermatologist, 49 Bond St. New York. Sold by *Druggists everywhere.* SWM&SOGm23

HATCHELOR'S HAIR DYE.

This superb Hair Dye is the *best in the world*—perfectly harmless, reliable and instantaneous; no disappointment, no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces IMMEDIATELY a splendid Black or Natural Brown, leaves the hair clean, soft, and beautiful; does not contain a particle of lead or any injurious compound. Sold by all Druggists. Factory, 8 BOND STREET N.Y.

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair prematurely white or induce to fall off premature, and either offer as unsightly an appearance to the head. DR. AYER'S compound has proved an antidote for these deformities, which had won gratitude for him from multitudes of men and women. His HAIR VIGOR restores lost hair, and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads that we see on older heads is often the product of his art. If you are disfigured, or made old, ansiery and ugly by gray hair, restore its youthful color, and with the year features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

AYER'S

SARSAPARILLA,

FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troubles, or disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear with them. *Scrofula, Humors in the Stomach, Kidneys, Lungs, Eruptions and Pustular Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches or Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the back, Side, and Head, Female Weakness, Sterility, Leucorrhœa, resulting from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

RIDER & CUNNINGHAM.

CAIRO AND FULTON

RAILROAD COMPANY

FIRST MORTGAGE, SINKING FUND,

Land Grant Bonds,

DUE 1891 IN GOLD.

Interest 7 Per Cent. Gold, Free of Tax.

THE CAIRO AND FULTON ROAD is the main artery for travel across the State of Arkansas. It is the continuation of the St. Louis and Iron Mountain Railroad under the same management. It will connect the St. Louis roads and the Illinois Central Railroad, with the International Railroad, the Southern Pacific Railroad and the Texas system of roads. Its length is 301 miles, and it deviates from a straight line but six miles. It has no grades over 15 feet to the mile. It passes through the most thriving counties and the Capital, Little Rock. The Land Grant of 1,928,490 acres, "is one of the most extensive and valuable ever made to any road by Congress." The whole road is under contract for building. About 60 miles are built and track-laying will go on at the rate of about half a mile a day, until the connection of Little Rock with St. Louis is completed. The First Mortgage Bonds, $8,000,000, $5,000,000 of which have already been sold, are the first lien upon the road, rolling-stock and lands. The officers are:

THOMAS ALLEN, St. Louis.....President,
H. G. MARQUAND, New York...Vice President,
D. W. MCWILLIAMS, New York.....Treasurer,
W. B. DONALDSON, St. Louis.....Secretary.

New York Directors:

H. M. ALEXANDER, H. G. MARQUAND,
WM. T. BLODGETT, JOHN H. SWIFT,
WM. H. SWIFT, ALANSON TRASK.

The Union Trust Company, Trustee of the Bonds. Price 90 and accrued interest in currency.

The Company reserves the right to advance the price at any time. Marketable securities received in exchange at full market rates, and express charges paid.

Maps and pamphlets may be obtained upon application to the selling agents.

J. RIDER & SON, Agents for New Hamp.

LOCAL AFFAIRS.

Laconics.

The individual who borrowed our Worcester's Dictionary is requested to return it.

Schooner Amelia went ashore near Pumpkin Island, Tuesday.

Mr. G. Melvin Huntress was badly injured at the Eastern R. R. engine house, on Tuesday, by the fall of a brick on his head, which severed an artery. Dr. Whittier with difficulty stopped the flow of blood.

Mr. Edward P. Sherburne of this city has been appointed teacher of the Grammar School at Beverly, Mass., and will accept the situation,—which guarantees the Beverly Grammar School an efficient and painstaking teacher.

Some weeks since an elderly man named John Hooper was assaulted and robbed in his house in Swampscot, Mass., and recently three persons were held for trial for the crime, in Salem, their names being Mace, McIntire and Finn. On Tuesday one John S. R. Roberts was arrested in this city for being drunk, and stated that he was one of the principals in the robbery, he and Mace having been hired to commit the crime by James Lillas and one Winslow. He further stated that he made this confession in order to clear McIntire and Finn, who are innocent. Mr Hooper has been robbed six or seven times within the past five years.

U. S. S. Sabine will sail for this port from Boston in a few days.

Mr. N. Dana Whipple of this city has been elected a member of the American Pharmaceutical Association. Among the members of this society from New Hampshire are the following: James Morgan, Concord; Charles A. Tuffs, Dover; Charles A. Merrill, Exeter; Oliver G. Dow, William F. Muchmore, Keene; Chauncey B. Little-field, Manchester; George L. Dearborn, Newmarket; J. Haven Thacher, N. Dana Whipple, Portsmouth; Charles M. Jones, George Moore, Somersworth.

Our exchanges having particulars of the suicide of Mr. S. Ayers Avery at Portland, say that he booked his name at the Preble House, Portland, and retired. On Monday morning, he did not appear, and the chambermaid, after rapping repeatedly at his door, went in, but supposing he was asleep, came out and rapped loudly again. Receiving no answer, she proceeded to the bedside and at once perceived that he was dead. A bottle containing laudanum was found on the table, and two letters, one directed to his wife in which he stated that the cause of his suicide was domestic troubles; that "if she had conducted herself as a true wife should they might have been worth $50,000, instead of which they were next to the door of beggary." This is an unkind allusion which must have emanated from a diseased brain. Mrs. Avery, while resident here, was seemingly a patient, modest little lady, not at all extravagant. Her husband's unfortunate habits were probably alone responsible for his ruin.

The Universalist Society of this city have ex ended a unanimous call to Rev. Orson Fowler Van Cise, of Auburn, Me., to become their pastor, at a salary of $1800 a year, an increase of $300 over that usually paid by this society, and to grant him four weeks' summer vacation. It was also voted to return to the afternoon service. Mr. Van Cise is yet 23 years of age and one of the most promising ministers of that denomination.

Persons desirous of replenishing their stock of Stereoscopic views should remember that the sale of the consignment at Shores' closes on Saturday next.

Communicated.

THE CONCERT by Major Little at the Methodist church, Monday evening, was well attended and was one of the best entertainments of the season. Such fine playing and singing are not often heard. Some of the Major's imitations were listened to in perfect silence, and others caused roar upon roar of laughter. The quartet were in fine voice and their singing was admirable. Mr. Newell made a fine appearance in his "Continentals," and the children also did well their parts. Some declared it the best concert they ever attended, and many stopped at its close to congratulate the Major and ask him to either repeat the concert immediately or to come again soon. When he does come again, we promise him a warm welcome and a crowded house.

OLD TIME CHRONICLES, No. 49.

BY UNCLE JOSEPH.

Centennial Celebration in Portsmouth in 1823.—In the two preceding numbers an account of the first settlement of New Hampshire at Portsmouth and Dover in 1623 has been given. The time of the year was probably Spring or Summer; Winslow says it was Spring. We have no account of a celebration of the settlements till at the completion of two centuries, in 1823. A bi-centennial celebration is sometimes had, and the time of the completion of another half century will be next year; and if Portsmouth shall celebrate then, it is time to give attention to the matter. And Dover never having had, so far as we know, a centennial nor bi-centennial celebration, may well be considering the propriety of celebrating in 1873, when 250 years from the origin of the town will have expired. As a reminiscence of the past and a helpful guide to the future, a sketch of the celebration at Portsmouth in 1823 is appended.

The day was May 21, the weather was most favorable; the people assembled at the old South Church, and before 11 o'clock a procession was formed. Col. Peirce was Chief Marshal. First was the military escort, consisting of two companies of Light Infantry under the command of Major Blunt; next were the teachers of the public schools and their scholars; then the Mechanics' Association, the Free Masons in regalia, committee of arrangements, orator, officiating clergyman and poet, clergy, civil and military officers, and lastly citizens.

The procession made an imposing appearance, and marched through several streets to the North Church. This building was very large, having about ninety pews on the lower floor, and two galleries, one above the other. The church was filled. Prayer was offered by Rev. Bennett Tyler, D. D., President of Dartmouth College. The Address was by Nathaniel A. Haven. If our information is correct, he was a native of Portsmouth, graduated at Harvard College in 1807, studied law with Hon. Jeremiah Mason, practiced in town and died in 1826. A poem followed, by Oliver Wm. B. Peabody of Exeter. Odes were sung, one of which was prepared by Rev. T. C. Upham of Rochester, afterwards professor in Bowdoin College.

After the exercises at the church were concluded, dinner was served in Jefferson Hall, which was beautifully decorated for the occasion. After dinner, sentiments were given and short addresses were made by Daniel Webster, Judge Story, Rev. E. Barrows, Rev. Mr. Palfrey, J. F. Parrott and Edward Cutts, Jr. The day closed with a ball in the evening, in Franklin Hall at which about 400 persons were present.

As a whole the record of the celebration is so interesting that almost any one who reads may be ready to exclaim with Cowper in the account of John Gilpin's ride, varying it a little—

"When they next do celebrate,
May I be there to see."

ELIOT.—At the Eliot (Me.) town meeting, held Monday, March 25, the following officers (all Democrats) were elected by 55 to 40 majority: Town Clerk, Howard Staples; Selectmen, Assessors and Overseers of the Poor, Ichabod Cole, John L. Jenks, George H. Briggs; Town Agent, John R. Hanscom; Collector and Treasurer, William O. Jones; Sup. Sch. Com., Calvin H. Guptil; Constable, John F. Rai t; Overseer of Almshouse, Solomon Staples; Auditors, William J. Paul, Moses Goodwin.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

MRS. MANCHESTER, the celebrated clairvoyant physician, will positively be in Portsmouth on Thursday, March 28, and may be found for ten days at the Franklin House. See her card in another column. 3:d1w

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a magnificent Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, DODGE DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BRIEFS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. ELECTRIC PHYSICIAN,

Formerly from New York, but late of Portland, will arrive in Portsmouth MARCH 28th, and can be found at the FRANKLIN HOUSE for ten days.

Where she will treat all disease—both in body and mind.

Price for Examination, $1.00.

CERTIFICATES OF CURES.

A Case of Blindness Cured.

MRS. MANCHESTER: This is to certify that I called upon you last October with a sense of nothing but been Blind over a year; totally blind with one Eye and very much so with the other. I had been treated by three Eminent Physicians, and also had taken him to the Eye Infirmary in Boston, but neither did him any good, and he still grew worse. MRS. MANCHESTER assured me she could cure him. I commenced with her treatment, and at the time one Eye is partially well, and the other is gaining! I feel given up all hope of his ever seeing again, but, by the help of God and Mrs. Manchester's skill, he is now able to work, which I am sure he never would if I had not been for her. Let all give her a trial, and by calling on me the boy can be seen by any one.

This is a true statement of the case.

JOHN MCCORMICK,
JOHN MCCORMICK, JR., Portsmouth.

This is to certify that Mrs. Manchester has doctored in my family for six years with marked success. She has cured my wife of dropsy in its worst form; my daughter of spinal disease of five years' standing; a sister of deafness and catarrh; my father of blindness. And I would recommend her to the public as a skillful physician, and every way worthy of patronage.

JOHN HOBSON, Portland, Me.

One of the Greatest Cures on Record.

This is to certify that I have been sick for twenty-five years with liver complaint, as the physicians have all told me. I have been treated in New York and Bangor by a large number of Physicians, and found no relief until I called on Mrs. MANCHESTER a short time ago. She told me very results what the trouble was—that I had abscesses and tumors. I have taken her medicines, and have had proof that what she told me was perfectly correct. If any one doubts this, let them call on me personally, and I will give them correct information in regard to my case. I want the sick and suffering to go and consult Mrs. MANCHESTER, and not be discouraged by ignorant and rash-sen people, but have a mind of your own, and be cured.

MRS. HENRIETTA PEABODY, Venzie.

ALONZO F. CRAIG, Agent,

Office No. 5 Congress St.,

ja30d1aw PORTSMOUTH N.

☞ By a NEW METHOD OF LIFE ASSURANCE, which applies the Tontine principle to the distribution of dividends, and which, by allowing the assured to sell his policy to the Company only after stated periods, results more favorable than any hitherto experienced, may be enjoyed by persons possessed of constitutional longevity, who keep their policies in force until the middle or latter part of their lives.

THE NEW

Tontine Saving Fund Policy

is based on the above conditions, and presents the following distinguishing features, which are illustrated by a CALCULATION OF PROBABLE RESULTS in a policy of Ten Thousand Dollars, at **ORDINARY LIFE RATES,** Age 37, annual premium, - - - - - - - $281.70.

First—Sale of Policy to the Company.

At the end of 10 years - - 104 per cent. of premiums returned.
At the end of 15 years - - 151 per cent. of premiums returned.
At the end of 20 years - - 201 per cent. of premiums returned.

Second—Paid up Policy.

At the end of 10 years, - - - - - $7,000.
At the end of 15 years, - - - - - 14,000.
At the end of 20 years, - - - - 22,000.

Third—An Annuity.

At the end of 14 years the profits will EXTINGUISH THE ANNUAL PREMIUM, and, with the subsequent Annual Dividends, will purchase yearly income of - - - - - $173.30
Or, at the end of 20 years, of - - - 6.7.40.

These estimates are derived from a careful digest of Past Experience, AND ARE ENDORSED BY

SHEPPARD HOMANS,

Consulting Actuary.

☞ Persons intending to assure their lives will find it to their advantage to examine this new plan with care. Documents, giving full particulars of the rates of the Company with regard to the issue of the above Savings Fund policy, extended tables of rates, and other interesting matter, may be obtained by application to the

Equitable Life Assurance Society,

A. F. CRAIG,

Gen'l Agent,

No. 5 Congress St., Portsmouth, N. H.

The Singer

SEWING MACHINE

STILL LEADS THE MARKET.

The Success of the Company is far beyond that of any other similar concern; the

Daily Manufacture

—OF—

400 OF THE SINGERS

Failing to Supply the Constant Demand.

All other machines call the public attention to some new loop or stitch or tension or finish, some advantage in running or needles or feed or price—and many of these are so we have said very good points, and the agents selling them use them to divert entirely the would-be purchaser from fairly considering the facts in the case; but the

SINGER

seems to unite the good qualities of all, and is never found wanting.

THE SINGER

IS THE

OLDEST

SEWING MACHINE

IN THE MARKET,

All others being copied from its first model. Use two-thirds the sewing done in this country, and preserves its advantages over all others combined.

It is readily kept clean, and has THE BEST TENSION EVER INVENTED; it is lighter speeded and requires but little power to run; it works equally well upon the finest and heaviest goods; it does all the varieties of work known to the art.

N. B. Those purchasing for cash, before the 1 of January next, will have a consideration allowed them.

WOOL PROSPECTS.—Walter Brown & Sons' Wool Circular of March 1, reports higher prices both at home and abroad, and says the high prices have drawn out all the available supplies of wool. It is also said that the advance is regarded as quite legitimate, and will, it is concluded, be maintained for some time to come. Also that "in regard to our own approaching clip, it seems very probable that higher prices will rule than many are now willing to admit. Contracts for wool on sheep's back have been made in several of the Western States, on the basis of 65 to 70c for Ohio washed wools, and we learn that growers are not eager to dispose of their clips at these rates."

The Boston Commercial Bulletin, speaking of the present supplies of wool, says the condition of things is such "that no large supply can be immediately drawn from any source, either external or internal. So far as this country is concerned, the last year's crop is absolutely exhausted. The new Australian clip, which was particularly counted on to meet this deficiency, has been mostly taken for European consumption, and having found its way to the markets of that continent, is held there at prices which must preclude its reshipment to this side of the Atlantic to any extent." In the last issue of the United States Economist, the statement is made "that a great portion of the Michigan and Ohio wool, which is now growing on the sheep's back, is already contracted for at from 65 to 70c for the former, and 70 to 75c for the latter, and that farmers of Ohio will not sell any more wool at the above figures. They want 80c, and look for 90c, if not one dollar per pound."

The same paper quotes the purchase by one mill, at New York, of 150,000 pounds native fleece, at from 85c for Michigan, to 90c for choice Ohio. The general stoppage of woolen mills, for a time, as advocated by some, is said to have been found impracticable at present, and manufacturers are urged, as their best policy, to continue running until July or August; to refuse sales now, except at remunerative prices upon the cost of manufacture; to accept no future contracts except on the basis of $1 a lb. for choice domestic wool, and if sales and contracts are not to be made on these terms, to hold their goods, and stop manufacturing at midsummer, for sixty days, or until the prices of goods rise to meet the necessities of the case.—*Country Gentleman.*

LIONS AND LION-TAMING.—The process of lion-taming is elaborately described by a writer in the London Daily News, part of whose story we copy:

Whatever is the reason, the forest lions are more intelligent and teachable then those bred in confinement. The lion tamer begins by taking the feeding of them into his own hands, and so gets them to know him. He commences feeding them from the outside of the den, and then ventures inside of one at a time, always carefully keeping his face to the animal and avoiding any violence, which is a mistake whenever it can be avoided, as it arouses the dormant devil in the beast. Getting to handle the lion, the tamer begins by stroking him down the back, gradually working up to the head, which, like the cat, likes friction, begins to rub his head against his hand. When this familiarity is well established, a board is handed in to the trainer, which he places across the den and teaches the lion to jump over it, using a whip with a thong, but not for the purpose of punishment.

Gradually this board is heightened, the lion jumping over it at every stage, and then comes to the hoops, etc., hold on top of the board to quicken the beast's understanding. To teach the animal to jump over the trainer, the latter stoops alongside the board so that when the lion clears one he clears the other, and half a dozen lessons are ordinarily about sufficient to teach this. To get a lion to lie down and allow the tamer to stand on him is more difficult. It is done by flicking the beast over the back with a "tickling" whip, and at the same time pressing him down with one hand. By raising his head and taking hold of the nostrils with the right hand, and the under lip and lower jaw with the left, the lion, by this great pressure on the nostril and lip, loses greatly the power of his jaws, so that a man can pull them open and put his head in the beast's mouth, the feat with which Van Amburg was so much associated. The only danger is lest the animal should raise one of his fore-paws and stick his talons in, and if he does the tamer must stand fast for his life until he has shifted his paw.

—A priest, the other day, who was examining a confirmation class in the south of Ireland, asked the question, 'What is the sacrament of matrimony?' A little girl at the head of the glass answered, 'Tis a state of torment into which sowls enter to prepare them fer another and a better world.' 'Bein,' said the priest, 'the answer for purgatory.' 'Put her down,' says the curate, put her down to the fut of the class.' 'Lave her alone,' said the priest; 'for anything you or I know to the contrary she may be parfectly right.'

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs*, No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Boston, Jan. 1, 1872.—1 yr.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases.

To Females in Delicate Health.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE in all cases or no charges made DR. DOW is consulted daily upon all difficult and chronic diseases, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

N. B.—All letters must contain one dollar or they will not be answered.

Office hours from 8 A. M. to 9 P. M. Boston, April 11, 1871. eodawly

SLATE COATING.

Patented August, 1871.

In offering this article to the public, we supply a need which has long been felt. It is especially adapted to

Shingle and Tin Roofs, (Old or New.)

IT IS FIRE & WATER-PROOF AND PREVENTS DECAY.

Not affected by Heat or Cold; is durable and beautiful, with colors permanently set, varying from a dark blue slate color to purple, and even higher shades, as fancy dictates. It will not wash or scale, and is

Extremely Cheap.

Will stop and prevent Leaks; superior to any cement now in us. New Shingles covered with this article warranted to last 15 years. Agents for a Slate Coating over Shingles (Old or New) it has been found unequalled. It is also an excellent coating for School Houses, Boards, &c.

OH, WOULD I WERE A CHILD AGAIN!

sighs the weary and exhausted one, as the languor and lassitude of spring comes upon him. Come and receive vigor and strength from the wonderful South American TONIC

JURUBEBA,

Long and successfully used in its native country, as a Powerful Tonic, and Potent Purifier of the Blood, it is found even to exceed the anticipations founded on its great reputation. According to the medical and scientific periodicals of London and Paris, it possesses the MOST POWERFUL TONIC properties known to MATERIA MEDICA.

DR. WELLS' EXTRACT OF JURUBEBA

is a perfect remedy for all diseases of the BLOOD, ORGANIC WEAKNESS, GLANDULOUS TUMORS, DROPSY, SCROFULA, INTERNAL ABSCESSES, and will remove all obstructions of the LIVER, SPLEEN, INTESTINES, UTERINE and URINARY ORGANS.

It is strengthening and nourishing. Like nutricious food taken into the stomach, it assimilates and diffuses itself through the circulation, giving vigor and health.

It regulates the bowels, quiets the nerves, acts directly on the secretive organs, and by its powerful Tonic and restoring effects, produces healthy and vigorous action to the whole system.

still outsells any book in the market. It is thoroughly established as the *only reputable* work on the delicate subjects of which it treats.

Nearly ready! A new book from the pen of DIO LEWIS, America's *most popular lecturer* and *writer on health.*

The world-wide reputation of the author, and the large sale of all his previous works, cannot fail to secure an immense demand for this, his latest and best.

GEO. MACLEAN, PUBLISHER, m5 4w 3 School Street, Boston.

DR. E. B. GOODALL,

D—E—N—T—I—S—T—, No. 60 Congress St., (Waldron Block,) Teeth inserted in the best and most approved style of the art. Would ask especial attention to

GOODALL'S SPRING PLATE, For Partial Sets of Teeth, Being inserted without clasps and not covering the roof of the mouth.

Having administered Squibs, Chloric Ether during the past 10 years, with uniform success, I speak confidently of its agreeable effects.

Teeth Extracted Positively Without Pain.

Filling, Regulating, Polishing, Repairing Rubber Plates, thoroughly and durably performed.

OFFICE HOURS, 8 A. M., to 1 P. M.; and 2 P. M. to 5 P. M., and from 7 to 8 each evening except Friday. jan22f
